Re: 30 West Broadway – Fiterman Hall
Scaffold Erection Operation Final Submittal

Dear Mr. Evangelista,

On behalf of the Dormitory Authority of the State of New York (DASNY) and the City University of New York (CUNY), Airtek Environmental Corp. has attached the Final Regulatory Submittal, dated March 16, 2007 prepared by the Pei Cobb Freed and Partners Architects, LLP project team and PAL Environmental Safety Corp. for the Scaffold Erection Operation (SEO) in support of the remediation and deconstruction of Fiterman Hall at 30 West Broadway, New York, NY. The submittal is made in response to the stated desire of the regulatory community for a documented approach to the project.

This submittal includes final clarifications and edits discussed in a telephone conversation involving Mr. Emmet Keveney of the EPA and Ms. Erin Mackenzie of Airtek Environmental that took place on Friday, March 16, 2007 and on written comments from the NYSDOL received Thursday, March 15, 2007.

As detailed in the attached Master Table of Contents, This submittal includes informational documents, scaffold-specific project documents, and project documents intended to serve for the duration of the remediation and deconstruction project. As no comments were provided by the EPA or the NYSDOL regarding the HASP, Waste Plan, Waste QAPP, or the Environmental Characterization Report, no red-line versions will accompany these reports in this submittal.

The submittal package consists of the following:

Informational Documents:

- *Preliminary Environmental Characterization Report* – Final (February 28, 2007)
- *Preliminary Façade Characterization Report* – Red Line and Final (March 16, 2007)

Regulatory Submittal Documents:

- *Regulatory Submittal Part I(S) – Scaffold Work Plan* – Red Line and Final (March 16, 2007)
- *Regulatory Submittal Part II – ECAMP with QAPP* – Red Line and Final (March 16, 2007)
- *Regulatory Submittal Part III(S) – Scaffold HASP* – Final (February 28, 2007)
- *Regulatory Submittal Part IV(S) – Scaffold Waste Plan with QAPP* – Final (February 28, 2007)
