Institutional Overview

Borough of Manhattan Community College (BMCC) is the largest of 24 institutions comprising The City University of New York (CUNY), which includes seven community colleges and three comprehensive colleges that offer associate degrees. Founded in 1963 and originally operating in rented office space, the College has expanded to two buildings and a leased facility in lower Manhattan and several instructional sites throughout New York City. BMCC employs over 2,600 faculty, staff, and administrators.

In the spring of 2015, BMCC embarked on a strategic planning process that resulted in a revised mission statement and institutional goals. This new mission statement is the product of many rounds of feedback from the campus community and establishes a common purpose to promote student success.

Borough of Manhattan Community College is a vibrant, pluralistic learning community committed to the intellectual and personal growth of students. Working closely with organizations across New York City and beyond, we prepare students from around the globe for degree completion, successful transfer, career achievement, lifelong learning, and civic participation. This mission statement portrays the purpose, role, and promise of BMCC in the eyes of the college community. Additionally, it operates as an anchor for institutional planning and effectiveness. The following institutional goals provide a mechanism for determining how successful the College is in achieving its mission:

1. Strengthen college readiness and improve the effectiveness of developmental offerings.
2. Improve the student experience.
3. Facilitate timely degree completion, graduation, and transfer.
4. Prepare students for 21st century careers and contribute to workforce development in New York City.
5. Cultivate institutional transformation, innovation, and sustainability.

Currently serving more than 27,000 students, BMCC has grown by 40% over the last 10 years and has the largest undergraduate population among all New York City and State colleges and universities. The College serves an incredibly diverse student population. Of those attending:

- Approximately 41% are Hispanic;
- Over 31% are African American;
- Nearly 15% are Asian;
- More than 30% were born outside the U.S.;
- They represent more than 160 countries of origin and 115 languages; and
- The majority are the first in their families to attend college.

These students bring to BMCC rich cultural capital and the belief that education can improve their quality of life, a belief in the transformative power of education that is shared by faculty and staff. BMCC’s ubiquitous tag line speaks to this common sense of purpose and possibility: Start Here, Go Anywhere.
BMCC offers A.A., A.S., and A.A.S. degrees, through 41 degree programs taught by over 550 full-time and 1,100 part-time faculty. The largest majors at the College are liberal arts, criminal justice, business administration, undeclared health (leading to nursing, allied health and health education), childcare/early childhood education, accounting, business management, science, human services, and computer science. In the 2014-2015 academic year, BMCC introduced seven new majors in Animation and Motion Graphics, Art History, Gerontology, History, Modern Languages, Sociology, and Studio Art.

Nearly 80% of first-time freshmen at BMCC require remediation in mathematics, reading and/or writing, including over 70% requiring remediation in mathematics. Many students who enter BMCC requiring remediation also face obstacles at other key transition points in their progress toward earning a degree, for example, in key gateway courses in their major. Improving student success and the overall quality of the student experience—including increasing retention and graduation rates—is a high priority for the College and the entire University.

In 2014-2015, BMCC conferred over 3,400 degrees. According to data compiled by Community College Weekly, BMCC is among the most highly ranked colleges nationally in conferring associate degrees to underserved populations (#3 for African Americans, #5 for Hispanics, #13 for Asians) and in high-demand majors (#2 in Criminal Justice and Corrections; #2 in Protective Services/Homeland Security; #3 in Business, Management, Marketing, and Related Service; #3 in Computer & Information Sciences Support Systems; #4 Communication Technologies and Support Systems; #4 in Education).
Intended Outcomes of Middle States Self-Study

The Middle States self-study process provides an opportunity for BMCC not only to assemble evidence of how the College meets the Middle States Standards, but also to critically examine what the College is doing well and what can be done better. In the spirit of continuous improvement, the self-study objectives are to:

1. Demonstrate how BMCC meets or exceeds Standards for Accreditation with a focus on continuous improvement in the attainment of institutional mission and goals;

2. Document current assessment practices at the course, program, general education, and institutional levels, and make recommendations for improvement in using assessment results to improve student outcomes and institutional effectiveness;

3. Integrate strategic planning and Middle States Self-Study to identify specific opportunities and challenges, including an assessment of planning processes in relation to resource allocation;

4. Engage in an inclusive and transparent self-appraisal process that seeks involvement from all members of the BMCC community; and

5. Develop forward-looking and ambitious recommendations to attain institutional goals and establish BMCC as a leading community college.
Organizational Structure of the Steering Committee and Standards Working Groups

In November 2015, as BMCC was in the final stages of drafting its 2015-2020 strategic plan, the two and one-half year process culminating in the team visit from Middle States was just beginning. The College made the decision to integrate strategic planning implementation with the Middle States self-study process. Thus, the majority of members of the BMCC Strategic Planning Committee transitioned to serving on the Middle States Steering Committee, which now serves the dual function of overseeing strategic planning implementation and the self-study process. In addition to the original Strategic Planning Steering Committee members, three additional faculty and the new Dean of Institutional Effectiveness and Strategic Planning were added. The Senior Vice President and Provost, who served as the chair of the Strategic Planning Steering Committee, was named co-chair of the Middle States Steering Committee, along with a longtime faculty member in one of the College’s largest departments who has previous Middle States experience, as well as interest and expertise in assessment. Having the Provost and a faculty member serve as co-chairs reflects the College’s commitment to shared governance and the College’s goal to successfully use assessment results to improve student outcomes and institutional effectiveness. The other members of the Steering Committee, faculty and members of the President’s Cabinet, serve as co-chairs of one of the Standards Working Groups, with the exception of the Dean of Institutional Effectiveness and Strategic Planning who provides overall coordination as the MSCHE Accreditation Liaison Officer.

To identify members for the Standards Working Groups, the Provost issued an open call for volunteers in December 2015, and members were appointed by the President with input from the Steering Committee in January 2016. By design, the working groups include representation from all academic departments and all administrative and support units. Each group includes both seasoned and newly hired employees. In all, more than 120 faculty, staff, and administrators are participating in the Middle States Steering Committee and/or Standards Working Groups, reflecting an inclusive and transparent self-appraisal process. Over 100 people attended the launch meeting on February 5, 2106 that familiarized Working Groups with the Requirements for Affiliation and Standards for Accreditation and initiated the documentation roadmap. We are currently in the process of selecting two students for each Standards Working Group, and two of those will serve on the Middle States Steering Committee. Students will participate in the process through regular meetings between representatives from the Steering Committee and the Student Government Association, and through open forums to which all students will be invited.

The Steering Committee will provide campus-wide leadership and guide the overall self-study process, maintaining adherence to the established timeline, addressing any issues that arise, reviewing drafts to ensure clarity and accuracy, arranging college-wide forums and other mechanisms to meaningfully engage the community in the process, and overseeing completion of the self-study.

Charges to the Standards Working Groups and Guidelines for Reporting

While the working groups have unique guiding questions specific to their standard, each is charged with determining:

- to what extent does BMCC meet or exceed the standard;
- what evidence exists regarding periodic assessment of the standard;
- how effectively is information regarding the standard communicated; and
- recommendations for the College to improve student success and institutional effectiveness.

**Working Group I: Mission and Goals**

What evidence does the College have that:

1. BMCC’s mission defines its purpose within the context of higher education?
2. The College’s mission and goals support student learning?
3. The institutional goals link to the mission?
4. The process of developing, approving, implementing, and assessing the mission and goals is accomplished through a collaborative process?
5. The mission and goals guide the decision-making process?

**Working Group II: Ethics and Integrity**

What evidence does the College have that:

1. Appropriate policies and procedures, which are fair and impartial, are in place and followed to address complaints or grievances raised by students, faculty, or staff?
2. The College promotes accessibility in terms of financial affordability and provision of support services to students?
3. BMCC demonstrates commitment to academic freedom, intellectual freedom, freedom of expression, respect for intellectual property rights, and avoidance of conflicts of interest?
4. Publications and College communications are honest and truthful, and the College has practices in place to effectively and openly communicate with both internal and external constituents?
5. The College maintains a climate that fosters respect for the diversity of persons as well as ideas and perspectives?
6. The College employs fair and impartial practices related to hiring, evaluation, promotion, discipline, and separation of employees?

**Working Group III: Design and Delivery of the Student Learning Experience**

What evidence does the College have that:

1. Academic and co-curricular programs are appropriate for 21st century careers and prepare students for contribution to the global workforce?
2. The College maintains sufficient resources and learning opportunities to facilitate student success and academic progression?
3. The College maintains the number of qualified faculty needed for effective delivery of curriculum?
4. Faculty are provided with sufficient resources for improved teaching, professional growth, and scholarly inquiry?
5. BMCC’s general education program results in students expanding cultural and global awareness and acquiring essential skills, including oral and written communication, scientific and quantitative reasoning, critical analysis and reasoning, technological competence, and information literacy?

6. Academic programs and related learning experiences, including general education, are effectively evaluated to ensure rigor, coherence, and effective delivery, irrespective of modality?

7. Certificate and undergraduate programs leading to a degree or other higher education credential are of an appropriate length based upon the degree or credential objectives, are designed to foster a coherent student learning experience, and promote synthesis of learning?

8. Faculty are evaluated through clear and equitable processes with the goal of creating and maintaining an academic environment that promotes improved student learning and experiences, and facilitates academic rigor and ongoing assessment?

9. BMCC communicates effectively with students so they understand degree and program requirements, available learning opportunities, and expected time to degree?

10. Opportunities exist for BMCC to improve the student learning experience and its effectiveness?

**Working Group IV: Support of the Student Experience**

What evidence does the College have that:

1. Institutional policies and practices support student success, retention, degree completion, and successful transfer?

2. Academic and student support services (e.g., advising, tutoring, orientation, and counseling) support student success and enhance the quality of learning?

3. Developmental education policies and practices are effective in supporting student success and academic progress?

4. Irrespective of modality, academic and student support services are coordinated, coherent, and effectively communicate availability to students?

5. Student life, athletics, and other co-curricular activities enhance the quality of the learning environment and foster student success?

6. Students are provided with accurate and comprehensive information about costs, financial aid, scholarships, and payment options?

7. Student records systems are accurate and secure?

**Working Group V: Educational Effectiveness Assessment**

What evidence does the College have that:

1. Clearly stated student learning outcomes exist at the institutional, program, course, and department levels, and are linked to the mission and institutional goals?

2. The College possesses, maintains, and implements an organized and systematic, faculty-led student learning assessment process that results in the collection of information used to determine the extent to which students are achieving stated learning outcomes?

3. Assessment results at each level are utilized for the purpose of improving student learning?

4. Organized and systematic student learning assessment processes undergo periodic evaluation and that findings are used to implement appropriate changes?

5. Assessment results are clearly and regularly communicated to internal and external constituents?
**Working Group VI: Planning, Resources, and Institutional Improvement**

What evidence does the College have that:

1. The College possesses, maintains, and implements an organized and systematic institutional effectiveness model that incorporates assessment, planning, and resource allocation?

2. The College possesses, maintains, and implements an organized and systematic planning processes—including long-term, strategic, and operational—that incorporates the use of assessment results to address current and emerging needs, is linked to the mission and institutional goals, and aligns with budgeting cycles?

3. The College possesses, maintains, and implements an organized and systematic assessment process, inclusive of all administrative, educational and student support services units, that is driven by those with responsibility and accountability over the areas?

4. Planning and improvement processes are clearly articulated and ensure meaningful involvement from faculty, staff, and students?

5. Resource allocation processes are based on assessment results and are aligned with the institutional mission and goals of the College's strategic plan, and related departmental plans?

6. The College maintains appropriate policies and procedures designed to develop, support, and ensure the adequacy, effectiveness, and continuity of human resources?

7. Processes are in place to determine institutional needs and assess the adequacy and efficient utilization of institutional resources?

**Working Group VII: Governance, Leadership, and Administration**

What evidence does the College have that:

1. There is a clearly articulated and implemented governance structure that allows for meaningful involvement by the governing body, administration, faculty, staff, and students in institutional decision making?

2. Significant and appropriate clarity and transparency exist regarding the relationship between CUNY and BMCC, as well as appropriate institutional autonomy related to day-to-day operations at BMCC?

3. Governing bodies maintain and exercise appropriate responsibility and authority?

4. The president is qualified to hold the position, maintains the appropriate authority to effectively lead, works with a sufficiently qualified administration, and is evaluated periodically?

5. The college maintains an effective organizational structure with qualified individuals possessing the appropriate authority over and responsibility for their areas, and that the administration interacts and engages with the College community?

6. Systematic procedures are in place for evaluating administrative units and using assessment data to improve operations and achieve institutional mission and goals?
Organization of the Final Self-Study Report

To enhance the reading experience of the Evaluation Team, BMCC's final self-study report will be organized as follows:

Chapter 1: Executive Summary, Compliance Certification, and Requirements of Affiliation
Chapter 2: Borough of Manhattan Community College (BMCC) Introduction and History
Chapter 3: Documentation of the Self-Study Process
Chapter 4: Standard I – Mission and Goals
  • Introduction
  • Evidence and Analysis
  • Conclusion
  • Recommendations
Chapter 5: Standard II – Ethics and Integrity
  • Introduction
  • Evidence and Analysis
  • Conclusion
  • Recommendations
Chapter 6: Standard III – Design and Delivery of the Student Learning Experience
  • Introduction
  • Evidence and Analysis

Chapter 10: Standard VII – Governance, Leadership, and Administration
  • Introduction
  • Evidence and Analysis
  • Conclusion
  • Recommendations
Chapter 11: Conclusion
Glossary of Terms
Appendices
Editorial Style and Format

In order to construct the final MSCHE Self-Study document, each of the seven subcommittees will draft a response to the guiding and research questions for their particular standard. The Standards Working Group co-chairs are ultimately responsible for the final draft of their standard and their response will answer the question of compliance with the standard through the presentation of significant evidence and documentation. To ensure that the document is cohesive regarding tone, the Self-Study co-chairs and MSCHE Accreditation Liaison will serve the role of document editors. While not all recommendations and suggestions forwarded by the various committees will be integrated into the final document, all significant changes will be discussed with members of the Self-Study Steering Committee.

In order to promote consistency across submitted narratives and to standardize the reporting process, all members of BMCC’s Standards Working Groups will utilize the following general stylistic guidelines:

- Times New Roman font
- Font size 12
- Font size 12 for interior table font
- Tables should be labeled and numbered with standard number, Table number, and Title Example:
  - Table 4.1 Overview of the Student Experience at BMCC
- Standard 1-inch margins (top, bottom, left, and right)
- Paragraph style: Left justified, spacing of 1.25
- Sentence spacing: One space between sentences
- Header and footer margins: 0.5
- Tab stops: 0.5
- Headings:
  - Major headings: Left Justified, upper and lower case, underlined, bold, 12 point
  - Subheadings: Left Justified, upper and lower case, italics, bold, 12 point
- Use one space to separate the headers from paragraphs (paragraph spacing set to 0)
- Use one space to separate paragraphs (paragraph spacing set to 0)
- Page Numbers: Centered in footer
- No indentation

In addition to these basic document formatting guidelines, writers are required to adhere to the following stylistic guidelines:

- Use the Microsoft Word default format for bulleted and numbered lists
- Comma usage: use a comma before the word “and” at the end of a series.
  - Example: The College offers programs in Science, Engineering, and Math.
- Refer to BMCC as the College
- Spell out an acronym during its first use with the affiliated acronym in parentheses; subsequent mentions can use the acronym
- Use active voice
- Write in third person
- Use titles or positions in place of individual names
- Use the tab and not the space bar for alignments
- Do not use contractions
- Use APA format for all citations (including italicizing books or reports)
- Avoid using discipline or business jargon as well as terminology specific to BMCC
- When listing names, order them alphabetically
- For consistency, adhere to the following capitalization guidelines:

Click on the icon in the home tab instead of hitting enter when creating bullets

When creating a bulleted lists, don’t use any punctuation when providing a simple list, but utilize semicolons when including phrases

**BMCC MSCHE Self-Study SharePoint Site**

To ensure that the College maintains all information in a single location, BMCC maintains a dedicated SharePoint site. This site contains open access to institutional documents, news, and presentations as well as a password protected section for team members. The Standards Working Groups use the secure sections to upload documents, review materials, and submit narrative drafts.

To ensure that all committee members can distinguish which documents are current, all files uploaded to SharePoint are saved with the month, date, and year before the file format. In addition, the name of the standard and number of draft version will be spelled out (i.e. Standard4_Draft1_04182016).

In addition, all documentation follows the same naming conventions as narrative drafts and is included in a documentation folder under the standard. Although numerous documents will be used by multiple Standards Working Groups, all referenced documents within a standard must be included in the standard specific folder (i.e. Standard1_College Mission and Goals_04182016). This will act as a document warehouse and, accordingly, will be important for the MSCHE Self-Study Committee, document editors, and Evaluation Team.

Profile of the Evaluation Team

The Borough of Manhattan Community College, given its unique structure, targeted mission, and status as a college within a university system, requests the following evaluation team profile:

- Team Lead – President of a large, urban community college responsible for serving a diverse population of students;
- At least one Chief Academic Officer who serves in the role of Provost or Chief Operating Officer;
- At least one Chief Financial Officer with diverse responsibilities including College operations (Public Safety, Plant Operations, etc.);
- A senior/executive student affairs administrator from a large, urban community college;
- At least two cabinet level officials from colleges within a multi-campus college/university system;
- At least one senior/executive level administrator from a college within the state of New York;
- At least one senior/executive level planning officer;
- At least one senior/executive team member from a federally recognized Minority Serving Institution (MSI);
- A faculty member from a discipline with a specialized accrediting body; and
- All members of the team work, or have a history of working, within an institution with collective bargaining.
### Criteria

1. clearly defined mission and goals that:
   a. are developed through appropriate collaborative participation by all who facilitate or are otherwise responsible for institutional development and improvement;
   b. address external as well as internal contexts and constituencies;
   c. are approved and supported by the governing body;
   d. guide faculty, administration, staff, and governing structures in making decisions related to planning, resource allocation, program and curricular development, and the definition of institutional and educational outcomes;
   e. include support of scholarly inquiry and creative activity, at levels and of the type appropriate to the institution;
   f. are publicized and widely known by the institution’s internal stakeholders;
   g. are periodically evaluated;

2. institutional goals that are realistic, appropriate to higher education, and consistent with mission;

3. goals that focus on student learning and related outcomes and on institutional improvement; are supported by administrative, educational, and student support programs and services; and are consistent with institutional mission; and

4. periodic assessment of mission and goals to ensure they are relevant and achievable.

### Standard II: Ethics and Integrity (continued)

#### Criteria

7. as appropriate to its mission, services or programs in place:
   a. to promote affordability and accessibility;
   b. to enable students to understand funding sources and options, value received for cost, and methods to make informed decisions about incurring debt;

8. compliance with all applicable federal, state, and Commission reporting policies, regulations, and requirements to include reporting regarding:
   a. the full disclosure of information on institution-wide assessments, graduation, retention, certification and licensure or licensing board pass rates;
   b. the institution’s compliance with the Commission’s Requirements of Affiliation;
   c. substantive changes affecting institutional mission, goals, programs, operations, sites, and other material issues which must be disclosed in a timely and accurate fashion;
   d. the institution’s compliance with the Commission’s policies; and

9. periodic assessment of ethics and integrity as evidenced in institutional policies, processes, practices, and the manner in which these are implemented.

Standard IV: Support of the Student Experience

Criteria

1. clearly stated, ethical policies and processes to admit, retain, and facilitate the success of students whose interests, abilities, experiences, and goals provide a reasonable expectation for success and are compatible with institutional mission, including:
   a. accurate and comprehensive information regarding expenses, financial aid, scholarships, grants, loans, repayment, and refunds;
   b. a process by which students who are not adequately prepared for study at the level for which they have been admitted are identified, placed, and supported in attaining appropriate educational goals;
   c. orientation, advisement, and counseling programs to enhance retention and guide students throughout their educational experience;
   d. processes designed to enhance the successful achievement of students’ educational goals including certificate and degree completion, transfer to other institutions, and post-completion placement;

2. policies and procedures regarding evaluation and acceptance of transfer credits, and credits awarded through experiential learning, prior non-academic learning, competency-based assessment, and other alternative learning approaches;

### Criteria

1. A clearly articulated and transparent governance structure that outlines roles, responsibilities, and accountability for decision making by each constituency, including governing body, administration, faculty, staff and students;

2. A legally constituted governing body that:
   - Serves the public interest, ensures that the institution clearly states and fulfills its mission and goals, has fiduciary responsibility for the institution, and is ultimately accountable for the academic quality, planning, and fiscal well-being of the institution;
   - Has sufficient independence and expertise to ensure the integrity of the institution. Members must have primary responsibility to the accredited institution and not allow political, financial, or other influences to interfere with their governing responsibilities;

Standard VII: Governance, Leadership, and Administration (continued)

Criteria | Documents
--- | ---
c. ensures that neither the governing body nor its individual members interferes in the day-to-day operations of the institution; | see previous page
d. oversees at the policy level the quality of teaching and learning, the approval of degree programs and the awarding of degrees, the establishment of personnel policies and procedures, the approval of policies and by-laws, and the assurance of strong fiscal management;
e. plays a basic policy-making role in financial affairs to ensure integrity and strong financial management. This may include a timely review of audited financial statements and/or other documents related to the fiscal viability of the institution;
f. appoints and regularly evaluates the performance of the Chief Executive Officer;
g. is informed in all its operations by principles of good practice in board governance;
h. establishes and complies with a written conflict of interest policy designed to ensure the impartiality of the governing body by addressing matters such as payment for services, contractual relationships, employment, and family, financial or other interests that could pose or be perceived as conflicts of interest;
i. supports the Chief Executive Officer in maintaining the autonomy of the institution;

3. a Chief Executive Officer who:
   a. is appointed by, evaluated by, and reports to the governing body and shall not chair the governing body;
   b. has appropriate credentials and professional experience consistent with the mission of the organization;
   c. has the authority and autonomy required to fulfill the responsibilities of the position, including developing and implementing institutional plans, staffing the organization,
