Registration Error Messages Explained

Error Message: No Valid Appointment

Students with this error message should go to their Student Center on CUNYfirst to view their enrollment appointment under the “Enrollment Dates” section. If they have an enrollment appointment then they must wait for that date and time before they can register for classes. If the Enrollment appointment is missing then it is an indication that they are new or readmit students and have not been given an enrollment appointment yet. These students must wait for their enrollment appointment. It takes usually a week for readmit students to get their enrollment appointment after they are readmitted.

Error Message: Hold on Record

Students with this error message should go to their Student Center on CUNYfirst to view the details of the hold under the “Holds” section. All holds that have a “no enrollment” impact must be resolved before students are allowed to register for classes.

Error Message: Reserved Seats

Students with this error message may not register for that specific section. The error message usually means that the seats in that section are reserved for a group of students such as ASAP, FLA, College Now, HIT majors only, HUM majors only, etc. Students who receive this error message should choose an alternate section.
**Error Message: Departmental Consent Required**

Students with this error message may not register for that class without the departmental permission. They must visit the appropriate department to get their permission to enroll in that class.

![Image](image1.png)

**Error Message: Closed Class**

Students with this error message may not register for that class as it is already full. They may choose an alternate section. Students may also place themselves on Wait List if that option is available for that particular class. Students may visit “How to Instructions for Students” on the Registrar’s webpage for more detailed instruction on how to enroll on Wait List when a class is closed.

![Image](image2.png)

**Error Message: Time Conflict**

This message means that the student tried to register for a class and the time of that class overlaps with the time of another class in which student is already enrolled. Students may choose another section where there is no overlap in time with student’s existing schedule.

Error Message: Total Credits for the Term is Over the Limit

This message means that the student tried to register for a class and the total number of credits/units with this class would exceed the credit limit for the term. Students in good standing are allowed to register for up to 18 credits in a spring or fall term, up to 7 credits in each summer session and 4 credits in the winter. Students on probation may take up to 14 credits in a spring or fall term. Any student wishing to take more credits than their allowed limit may seek permission from the Dean of Academic Affairs.

Error Message: Requisite not Satisfied

This message means that the student tried to register for a class without meeting the pre/co-requisite for the class. Students should read the message carefully and if they meet the specified pre-requisite, they may contact the Registrar’s Office to get the problem resolved. However, if they do not meet the specified pre-requisite, they should try a different class where they meet the pre-requisites or speak with their academic advisor.

Error Message: No Access to Enrollment

- Admission/Readmission needed - Student must contact Admissions Office to get themselves admitted/readmitted.
- Student applied for graduation in the current term. Therefore, they are ineligible to register in the next term - Students who need to take more courses must to the Registrar’s Office to withdraw their graduation application.

Add Classes

You do not have access to enrollment at this time.
