Re: Winter Intersession STEM Course Waiver Initiative

Date: November 13, 2014

During the current academic year, the City and CUNY have provided BMCC with funding to offer tuition waivers for some students who will enroll in specific Science, Technology, Engineering and Mathematics (STEM) courses. These tuition waivers are only available during the intersessions (summer II 2014, winter 2015, and summer I 2015). For the winter 2015 session, the eligibility requirements to receive a tuition waiver are:

Students must:
1. be a New York City resident at the time the waiver is applied;
2. be a matriculated student enrolled in BMCC;
3. be eligible to enroll in one of the offered courses;
4. not have already received an intersession STEM waiver.

For the winter 2015 session, we will offer a limited number of tuition waivers for students who register for one of the following courses and meet the eligibility requirements.

Courses Offered*:
- MAT 104 sec. 0900
- MAT 110 sec. 0900
- MAT 150 sec. 0500
- MAT 206 sec. 0800
- MAT 206 sec. 1700
- MAT 320 sec. 0900
- PSY 100 sec. 0500
- PSY 100 sec. 1200

For students who are interested in registering for one of these winter 2015 courses, we recommend that they consult with an advisor prior to registration. This waiver is for tuition only and students will be responsible to cover the cost of the fees and all materials (i.e. books). As funding is limited, waivers will be given on a first-come, first-served basis.

Please note: Students will also be liable for the tuition if they receive the waiver, but do not complete the course (i.e., the course is dropped after the start of the course or the course is withdrawn).
