

Teaching with Technology (coming Summer 2020):

We plan to launch a pilot program focused on the following:

- Use Blackboard to host content to enhance in-person classroom
- Identify technology tools to enhance course
- Connect with other instructors around technology in the traditional classroom
- Use media to enhance students' learning experience
- Help faculty develop digital literacy and impart that knowledge to students through the use of cloud-based tools
- Starfish engagement and retention platform

More information coming soon...

If you have any questions about this cohort, reach out to E-Learning via email or phone.
