Sociology A.A.

Sociology is the scientific study of society. It is a social science that studies social interactions and social structures, as well as stability and change in social life. It considers how social relationships influence individual behavior, and how societies (the sum total of those relationships) develop and change over time. Sociology covers everything from the analysis of brief, wordless contacts between strangers on a train to the rise of social movements and of global, socio-technological processes.

Specialized Skills

Intercultural Fluency
Problem Solving
Oral/Written Communication
Professionalism/Work Ethic
Teamwork/Collaboration
Leadership
Research

Specialized Skills may be obtained or enhanced during the course of the student's learning experience. Specialized Skills are defined and provided by NACADA: The Global Community for Academic Advising
www.nacada.ksu.edu
