Accreditation
Borough of Manhattan Community College is an accredited member of the Middle States Association of Colleges and Schools, 3624 Market Street, Philadelphia, PA 19104, Telephone: (267) 284-5000. It is also accredited by the Board of Regents of the University of the State of New York and is a member of the American Association of Community Colleges. Its health programs are accredited by the appropriate agencies, including the Accreditation Commission for Education in Nursing, the American Health Information Management Association, and the Commission on Accreditation for Health Informatics and Information Management Education.

Statement of Nondiscrimination
Borough of Manhattan Community College is an Equal Opportunity and Affirmative Action institution. The College does not discriminate on the basis of race, color, religion, national or ethnic origin, age, gender, sexual orientation, transgender, disability, genetic predisposition or carrier status, alienage or citizenship, status as victim of domestic violence, or marital, military, or veteran status, in its student admissions, employment, access to programs, and administration of educational policies.

Odelia Levy is the College's Affirmative Action and Compliance Officer, Coordinator for Title IX, which prohibits sex discrimination in federally assisted education programs, Coordinator for the Age Discrimination Act, which prohibits age discrimination in federally assisted education programs, and Coordinator for the Americans with Disabilities Act and Section 504/ADA, which prohibit discrimination on the basis of disability. Ms. Levy's office is located in Room S-701K and her telephone number is (212) 220-1236. Complaints, comments and/or questions regarding applicable policies, procedures or the College's affirmative action program, or discrimination generally, should be directed to Ms. Levy.

The programs, requirements, tuition, and fees set forth in this catalog are subject to change without notice at any time at the discretion of the administration and the Board of Trustees of The City University of New York.
Dear Student,

Welcome to Borough of Manhattan Community College (BMCC) of The City University of New York (CUNY). At BMCC, you have the opportunity to receive a quality education from talented faculty and dedicated staff in a supportive and inclusive environment.

You can pursue a wide variety of educational goals in any one of BMCC’s 50 academic programs. The College proximity to business and corporate industries of the greater New York City area also empowers you to explore internships and apprenticeships in conjunction with your educational path.

In addition to providing an outstanding classroom experience, BMCC offers free online tutoring and academic coaches to help you reach your potential. Other resources are found on our Resilience, Health and Wellness website. Our Advocacy and Resource Center and Panther Pantry are ready to help, if you are experiencing food insecurity, and our dedicated staff can provide housing assistance.

At BMCC, we are here to help you succeed inside and outside of the classroom. Your future begins with us, and we will be with you every step of the way.

Sincerely,

[Signature]

Anthony E. Munroe, President
Borough of Manhattan Community College

OUR MISSION
The City University of New York defines its mission in terms of two basic themes: maintaining and expanding its commitment to academic excellence, and providing access to higher education for all who seek it as “an avenue to economic advancement and personal fulfillment to the citizens of New York City, and in particular to the economically and socially disadvantaged among them.”

Borough of Manhattan Community College (BMCC) was founded in 1963 and opened in 1964 as a small, primarily business-oriented, community college offering programs aimed at the midtown business community. During the next two decades, the mission of the College changed in response to the advent of the City University’s open admissions policy in 1970 and in response to the emergence of new technologies and changes in business and industry. Open admissions significantly extended higher educational opportunities to thousands of students, many of them non-traditional. After BMCC relocated in 1983 to its new building at 199 Chambers Street, the programs of the College became more diversified and reflected many of the emerging new technologies. BMCC now offers a wide range of degree programs, including Accounting, Accounting for Forensic Accounting, Art Foundations, Animation and Motion Graphics, Biotechnology Science, Business Administration, Business Management, Childhood and Bilingual Childhood Education, Children and Youth Studies, Communication Studies, Community Health Education, Computer Information Systems, Computer Network Technology, Computer Science, Criminal Justice, Digital Marketing, Early Childhood Education, Economics, Engineering Science, Ethnic Studies, Financial Management, Gender and Women’s Studies, Geographic Information Science, Gerontology, Health Information Technology, History, Human Services, Liberal Arts, Linguistics and Literacy, Mathematics, Mathematics and Science for Secondary Education, Modern Languages, Multimedia Programming and Design, Music, Nursing, Paramedic, Psychology, Public and Nonprofit Administration, Public Health, Respiratory Therapy, School Health Education, Science, Science for Forensics, Science for Health, Secondary Education in Social Studies, Small Business Entrepreneurship, Sociology, Theatre, Video Arts and Technology, and Writing and Literature. The College also offers certificate programs in Accounting Certificate Program, Health Informatics, and Spanish Translation for the Health, Legal, and Business Professions, as well as many non-degree programs offered through Adult and Continuing Education.

Borough of Manhattan Community College is a vibrant, pluralistic learning community committed to the intellectual and personal growth of students. Working closely with organizations across New York City and beyond, we prepare students from around the globe for degree completion, successful transfer, career achievement, lifelong learning, and civic participation.

OUR HISTORY
BMCC opened in 1964 as a small, primarily business-oriented community college whose educational focus was to prepare students for business careers and to provide a general liberal arts education for those who wished to transfer to 4-year colleges. At that time, the College occupied rental space in midtown Manhattan.

By 1974, enrollment had expanded from 467 students in 1964 to over 6,000 day and evening students. It became clear that renting classroom and office space was too expensive for a long-term solution, so the City of New York began plans to build a new campus for BMCC downtown on Chambers Street.

The fiscal crisis of 1976 intervened and brought building to a halt with only a steel frame erected. After a five-year hiatus, construction on the new campus resumed, and the College was able to occupy its new home at 199 Chambers Street in 1983. The new campus is home to the BMCC Tribeca Performing Arts Center, which houses three theaters, including the largest theater in lower Manhattan. Athletic facilities include an intercollegiate-size swimming pool and a gymnasium, which can be divided into three regulation-size basketball courts.

Ten years later, in 1993, BMCC received the largest gift made to a community college, a 15-story office building at 30 West Broadway donated by Miles and Shirley Fiterman. That building, irreparably damaged on 9/11 when World Trade 7 fell against it, was razed and the new Fiterman Hall, built in its place, opened in Fall 2012.

Funds for the deconstruction and rebuilding of Fiterman Hall were made possible by a public/private partnership involving Community Board 1 in Lower Manhattan, the Dormitory Authority of the State of New York, the Office of NYC Mayor Michael Bloomberg, The City University of New York and others. The new Miles and Shirley Fiterman Hall, a 14-story building designed by the architectural firm of Pei Cobb Freed and Partners and built by Hunter Roberts Construction, increased BMCC’s classroom capacity by about a third.

It also houses the Shirley Fiterman Art Center, which in partnership with the BMCC Foundation Board, showcases local and national artists in large, light-filled galleries that are free and open to the public. Situated next door to the World Trade Center site and 9/11 Memorial Museum, it has emerged as a cultural destination for visitors to New York City from all five boroughs and beyond.

OUR FACILITY
The campus, situated on 4.28 acres, became occupied in January 1983. The modern structure, spanning four blocks from Chambers Street to North Moore Street, is equivalent to the Empire State Building lying on its side (minus the tower). The College has 71 classrooms, eight seminar rooms, numerous laboratories, and three lecture halls. The campus library, named after the African-American labor leader and social activist A. Philip Randolph (1889–1979), contains about 120,000 volumes of books and reference titles, 350 print magazine/journal subscriptions, over 28,000 electronic journals, magazines and newspapers; 10,000 electronic books and 18,000 reels of microfilm.

BMCC also boasts an intercollegiate-size swimming pool and a gymnasium that can be divided into three regulation basketball courts.

OTHER FEATURES OF BMCC
• A day-care center
• A state-of-the-art conference center
• An art gallery
• A Media Center containing HDTV television and audio studios, multi-media labs and networked post-production facilities
• A comprehensive college bookstore
• A performing arts center featuring three theatres
• Three dining facilities
• Production facilities for television programs
• Human Patient Simulation Lab

THE MEDIA CENTER
Since its inception, the BMCC Media Center has been among the finest and most technically current in the country. Its mission is to serve the students, faculty, and staff of BMCC—and the community at large—by providing high-quality media production and distribution services.

This multi-million dollar resource supports the academic and professional training programs of the College. The Center provides a full inventory of audio-visual support equipment for your use in conference rooms and lecture halls as well as teleconferencing, media production, and duplication services.

The campus is wired for closed circuit television distribution, operates specialized lab facilities for multimedia development, graphic design, and broadcast quality video editing. The Media Center have 2 HD TV studios, 2 AVID, Graphics, Protol Digital Media Labs and Audio Studio for students majoring in Video Arts and Technology (VAT).

The BMCC Media Center produces original video and television programming for the College, the University and outside clients. The Center’s staff is comprised of accomplished media and educational professionals who are dedicated to bringing to the students, faculty, and community a high level of media services in support of the mission of the College and the University.

OFF-SITE PROGRAMS
The purpose of BMCC’s Off-Site Programs is to bring the College to the community. BMCC wants to expand possibilities and serve the needs of students who want access to higher education. The Off-Site Programs provide students with more options and greater convenience by offering classes at a variety of locations throughout the city during day, evening and weekend hours. Off-site classes are offered at six locations: Inwood/Washington Heights, Harlem (7th Avenue and 125th Street) State Office Building, Brooklyn College, Lehman College, John Jay College, St. John’s University—Manhattan Campus and Long Island University - Brooklyn Campus. Students can take one course or a full schedule of classes at our off-site locations. This is an ideal opportunity for busy people juggling work and family responsibilities. BMCC also maintains an administrative presence at all sites.
Admissions

Anyone who has a high school diploma, an accredited state high school equivalency diploma, or international secondary education credentials equivalent to a U.S. high school diploma is eligible to apply to Borough of Manhattan Community College.

TO APPLY
Fill out an online application only. There is a $65 non-refundable application fee for Freshman applications or $70 application fee for Transfer applications. Applications are available online at www.cuny.edu/admissions/apply.html. You may also visit our web site at www.bmcc.cuny.edu.

Note: You should apply as early as possible (Note: CUNY application priority dates; for Fall, February 1; and Spring, September 15). Check www.cuny.edu for updated application deadlines, however, your application will be considered whenever you apply. Freshman applications allow students to apply to six programs. Transfer applications allow students to apply to four programs.

There are five types of applications:

1. Undergraduate Freshman Application for Admission

At CUNY, a freshman is defined as an applicant who has never attended a college, university, and/or proprietary school since graduating high school. This includes post-secondary institutions in any country, including those outside the United States.

This application is for students who are applying for regular City University programs, for students who wish to apply for the College Discovery Program, and for students who have been educated abroad. Please note the Freshman application deadline. Students should complete a City University Undergraduate Freshman application online at www.cuny.edu/apply. Use this application if:

• you are currently in high school;
• you are a high school graduate and have never attended college;
• you have a General Equivalency Diploma (GED) and never attended college;
• you are a permanent resident, an immigrant, or a refugee;
• you have international secondary education credentials equivalent to a U.S. high school diploma;
• you have a temporary visa for study in the United States; or
• you have applied for a temporary visa for stay in the United States.

2. Undergraduate Transfer Application for Admission

At CUNY, a transfer is defined as an applicant who has attended a college, university and/or proprietary school since graduating high school/secondary school. This applies to whether or not you are seeking transfer credit and/or program of study.

This application is for students who have previously attended college and have a 2.0 (“C”) or above cumulative grade-point average (GPA). Please note the Advanced Standing application deadline. Students should complete a CUNY Undergraduate Transfer Application for Admission online at www.cuny.edu/apply. Use this application if:

• you have previously attended college and plan to pursue a degree;
• you have international post-secondary educational credentials;
• you are a permanent resident, an immigrant, or a refugee;
• you have a temporary visa for study in the United States; or
• you have applied for temporary visa for stay in the United States.

3. Application for Non-Degree Status

This application is for students who will take college courses but do not wish to obtain a degree. Those interested in non-degree status should apply directly to the Admissions Office at Borough of Manhattan Community College, 159 Chambers Street, Room S-310, New York, NY 10007.

4. Second Degree Application

Students who have earned an associate degree at BMCC and who wish to apply for a second degree must contact the Admissions Office, Room S-310, and request a Second Degree Application. In order to receive the second associate degree from BMCC, students must complete a minimum of 30 credits at BMCC.

5. Readmission Application

Students whose attendance has been interrupted at BMCC and who have left the College in good academic standing may be readmitted by filing an online readmission application at https://www.bmcc.cuny.edu/admissions/readmission/. A $20 non-refundable readmit fee will be included on your bill by the Bursar’s Office (Room S-330). Readmission is automatically granted to students in good academic standing.

Note: Readmission may be offered to students who are academically dismissed. Said students will be required to obtain an appeal form from the website at www.bmcc.cuny.edu/registrar. Students so approved will be on special probation and subject to special probation rules. Regardless of how many semesters the student sat out, he/she must submit an application to the Committee on Academic Standing. For further explanation or clarification, students should see a counselor in the Counseling Center (Room S-343).

TRANSFER CREDIT EVALUATION AND ADVANCED STANDING POLICY

All transfer courses receive a “C” grade. Transfer credits do not affect your cumulative average at BMCC.

Note: The Nursing Department’s grade point average calculations do not affect a student’s cumulative grade point average.

BMCC accepts a maximum of thirty (30) transfer credits to be applied towards degree completion.

• If you have recently completed courses or have any outstanding transfer credits at another college, it is necessary for you to arrange to have the official transcript(s) forwarded to BMCC’s Admissions Office as soon as possible. All transcripts must be sent prior to registration. This also applies to students who are seeking to be readmitted to BMCC.

• Departmental approval must be obtained for science courses taken more than ten (10) years ago.

• All technical courses need departmental approval.

• Clinical nursing courses are not transferable.

• Students who receive transfer credit in one or more of the prerequisite nursing courses (ENG 101, PSY 100, BIO 425, "CHE 121) have the option to request one time only during the first semester of enrollment the removal of transfer credit in one or more of the prerequisite nursing courses. Students must see the Nursing Academic Advisor in the Nursing Department, Room S-742.

• BMCC strives to help all Veterans transition to BMCC. Veterans who are matriculating students may earn up to 18 credits in United States Armed Forces Institute courses, in which they have passed final exams, and for other military education and training. The decision regarding the granting of credit is at the discretion of individual academic departments.

Only college level courses, from an accredited college(s), are evaluated for transfer credits. Non-CUNY remedial, developmental, and English as a Second Language (ESL) courses are not transferable. In addition, Freshman Studies and/or College Prep courses are not transferable.

Students transferring credits from City University of New York (CUNY) colleges can receive transfer credit for some “D” grades depending on their BMCC major. Students transferring credits from colleges outside of CUNY must have earned a grade of “C” or above in order for courses to be accepted. Students should not repeat transfer courses unless advised by an academic advisor.

Courses must be comparable in content to the BMCC curriculum. If the courses from your former college(s) are not a requirement for your major at BMCC, it may be accepted as an elective.
The College-Level Examination Program (CLEP) and Advanced Placement (AP) is a way of earning college credit by examination. BMCC does award credit for some subject examinations. Check with the Admissions Office for detailed information.

BMCC awards credit, waives prerequisites and allows advanced placement with departmental approval for life experience knowledge in limited academic areas. The following departments will grant credit for life experience knowledge (C-FLEK) for specific courses:

- Accounting
- Business Management
- Modern Languages
- Music and Art
- Science
- Social Sciences, Human Services and Criminal Justice
- Speech, Communications and Theatre Arts
- Teacher Education

Transfer credits will only be evaluated from accredited institutions* listed on the student’s admission application. The submission of documents in support of applications for admission such as transcripts, diplomas, test scores, references, or the applications themselves, that are forged, fraudulent, altered from the original, obtained under false pretenses, or otherwise deceptive (collectively referred to as fraudulent documents) is prohibited by The City University of New York and may be punishable by: a bar to applying for admission, suspension and expulsion. The term applications for admission include transfer applications.

*BMCC considers the transfer credits from institutions that are accredited by one of the following associations:

- **MS** Middle States Association of Colleges and Schools
- **NC** North Central Association of Colleges and Schools
- **NE** New England Association of Schools and Colleges
- **NW** Northwest Association of Schools and Colleges
- **NY** New York Association of the New York Board of Regents

Credits from schools for candidacy status are not considered.

Transfer credits will only be evaluated from institutions listed on the student’s admission application. Submission of false records or omission of previous college attendance may result in denial of admission. No exceptions.

**Non-Degree**

Students who do not wish to pursue a degree-granting program have non-degree status.

Students who wish to change from a non-degree to a matriculated status may do so in the Admissions Office (S-310) after at least one semester of college work has been completed. In addition, students must be in good academic standing. To become matriculated, students must submit a completed Advanced Standing Transfer application to the Admissions Office by the...
first day of classes for the semester that the students are changing their status from non-degree to matriculated.

Matriculation
To become matriculated, students must select a program and agree to take all courses required for the Associate Degree.

Note: Matriculated students cannot become non-degree students.

International Student Services
If you are an international student, the International Student Services Office (ISSO) will provide you with valuable information and assistance about immigration matters and F-1 (student) status. It also collects SEVIS (Student Exchange Visitor Information System) information as mandated by Department of Homeland Security. Students on the F-1 status are encouraged to attend the various workshops during the academic semester to become familiar with the federal regulations. Consequences for an F-1 student who fails to maintain legal status can be serious. The ISSO also offers information about health insurance and employment options for F-1 students. The ISSO staff will see students on a walk-in basis and by appointment.

All international BMCC students are urged to contact ISSO located in the Admissions Office (Room S-115N) for assistance. Ms. Lily Yi-Ekin is the Assistant Director of International and Transfer Services.

CUNY Proficiency Requirements
CUNY requires that all incoming students demonstrate readiness in English and Mathematics. College readiness is determined by achieving required scores on SAT, ACT, NY State Regents or college transfer credits. Students who do not meet these requirements will be assigned a proficiency index score by Admissions for course placement. The proficiency index score is calculated from a combination of overall high school GPA and subject-specific SAT and NY State Regent scores. Details about CUNY’s proficiency requirements can be found here: https://www.cuny.edu/academic/testing/testing-faqs/. To ensure correct course placement, students should submit all their transcripts to Admissions.

English as a Second Language (ESL) Placement
English as a Second Language (ESL) students will be evaluated for English proficiency using the proficiency index only if they have NY State Regents scores. ESL students who do not have NY State Regent scores will be required to take the CUNY Assessment Test in Writing (CATW) to determine course placement. The CATW is only administered to ESL applicants who have not demonstrated English proficiency through the CUNY college readiness requirements or the English proficiency index. Further details about ESL placement can be found on the BMCC Testing website: https://www.bmcc.cuny.edu/students/testing/esl-placement/. The BMCC Testing Office will contact ESL students who are required to take the CATW.

CUNY Assessment Tests in Math, Reading, and Writing
The CUNY Assessment Test in Math measures competency in numerical skills/pre-algebra, algebra, college algebra, and trigonometry. Please note, the CUNY Assessment Tests are no longer being administered.

New students admitted to the University may be deemed college-ready based on Regents, SAT or ACT scores; a Bachelor’s Degree from an accredited domestic institution; or:
1. transfer of a 3-credit freshman composition course (or a higher-level English course for Freshman Composition is a prerequisite) from an accredited college with a grade of “C” or higher for Reading/Writing exemption;*
2. transfer of a 3-credit college-level Math course from an accredited college with a passing grade for Math Exemption.*

Documentation for waivers must be submitted to the Admissions Office (Room S-310) prior to registration.

At BMCC, all academic departments have designated minimum reading, writing, and/or mathematics levels necessary for enrollment in academic courses. These levels or prerequisites can be found on the BMCC Testing Office website: http://www.bmcc.cuny.edu/testing/. Students should consult the website or speak to an academic advisor in planning their academic schedules.

* for students transferring to BMCC on or after October 1, 2008.

Immunization Requirements
New York State Department of Health requires that all students must comply with specific immunization laws. Please read the following to select the criteria that you are mandated to comply with prior to registration. You are blocked from registration until these requirements are met.

For students born after 1956, both NYS Health Law 2165 and 2167 must be met and completed prior to registration.

For students born before 1957, only NYS Health Law 2167 must be met and completed prior to registration.

NYS Health Law 2165, in effect since July, 1989, requires that students born after 1956 submit to Health Services Room N-303, documented proof of measles, mumps, and rubella immunization or immunity. Please refer to the information you received in your admissions packet or visit http://www.bmcc.cuny.edu/health-services/immunization.html for detailed options that will allow you to select which one completes your requirements.

Free MMR (combination measles, mumps, and rubella) vaccines are offered by Health Services throughout the semester as well as during registration.

Medical or religious exceptions may apply with proper documentation. Pregnant women must select the blood titre option only.

NYS Health Law 2167, in effect since August 2003, requires that all students, those born after 1956 and those born prior to 1957, receive and read the information on Meningitis, specifically Meningococcal Disease. You must fill out and sign the response form by either selecting to waive your right to the Meningitis vaccine or taking the form to your doctor, receive the vaccine and sign. These response forms must be submitted to Health Services, Room N-303. Please refer to the information you received in your admissions packet or visit http://www.bmcc.cuny.edu/health-services/immunization.html for details.

There are no exceptions with this law since waiving your rights to vaccine is an option.

No Meningitis vaccines are offered by the Health Services Office.

You are welcome to print the forms from the web site and are also welcome to fax your completed forms to Health Services at (212) 220-2367. If you choose to fax, please follow up with a phone call to ensure receipt and that all is complete. Our number is (212) 220-8255.

New Student Orientation
All new students are required to attend a special pre-registration orientation session. Orientation sessions are specifically designed to help students successfully adjust to college life and to utilize the various college resources.
Tuition and Fees

ESTABLISH NEW YORK RESIDENCY TUITION RATE

To qualify for the New York City tuition rate, you must have completed one year of residency in New York City prior to the first day of classes. Please contact the Registrar’s Office, Room S-315 for further information.

STUDENT ACTIVITIES FEES
1. Full-time Students
   $44.45*
2. Part-time Students
   $22.45*
   * Includes $1.45 University Senate fee

CHANGE OF PROGRAM FEE

When you wish to change your program, you are charged $18.00 for each Change of Program Form processed, even if you are a financial aid recipient. For example, if you drop two courses and add a course at the same time, you pay $18.00, even though three transactions were made. However, if you decide at a later date to make additional program changes, you must complete another Change of Program Form and pay an additional $18.00 fee. The following actions initiated by a student require a program change fee.

1. Addition of a course or courses
2. Changing from one course to another
3. Changing from one section of a course to another section of the same course
4. Dropping a course and adding another course

PAYMENT OF TUITION AND FEES

Tuition and fees may be paid by cash, check, or money order. When you pay your tuition and fees by cash or check, please be sure that you receive a computerized receipt. It is your only proof that you have made payment.

Checks and money orders should be made payable to “BMCC.” Students whose checks are returned by their bank will be subject to a $20 reprocessing fee and will be required to make all subsequent payments by cash or certified check. Students settling a prior semester balance to obtain clearance for registration, transcripts or readmission must make payment via cash or certified check.

Online payments may be made with e-check. Credit cards are not accepted.

If you do not make full payment on your tuition and fees and other college bills and your account is sent to a collection agency, you will be responsible for all collection costs, including agency fees, attorney fees and court costs, in addition to whatever amounts you owe the College. In addition, non-payment or a default judgment against your account may be reported to a credit bureau and reflected in your credit report.

TUITION PAY PLAN

The City University of New York makes college more affordable by allowing you to better manage your payments over time. The earlier you enroll, the lower your monthly payments. The total amount financed will be divided over more scheduled payments. Establish your payment plan based upon your anticipated tuition and fee costs and your anticipated financial aid. Note that any change in your obligation due to CUNY will change the total payment plan balance and remaining monthly installments. The payment plan vendor accepts credit card payments. An enrollment fee is charged by the vendor. To enroll, log into CUNYFirst Self-Service and go to your Student Center. Go to Finances and select Enroll/Manage Payment Plan.

Footnotes
1 To be eligible to pay New York City tuition rates, students must have completed one year of residency in New York State with six months in New York City prior to the first day of classes, and must be a U.S. Citizen, permanent resident, or in qualifying immigration status.
2 B-81 Form: Any student who lives in New York State but does not live in New York City may be eligible to pay the same tuition as a New York City resident. To pay New York City tuition, you must submit a B-81 Form to the Bursar’s Office. A B-81 form can be obtained from the County Clerk’s office in the county in which you reside. Return the B-81 Form to the Bursar’s Office no later than two weeks prior to registration. Failure to do so will result in your being billed at the non-resident rate. You may be required to secure a new form each semester.
3 The college issues 1-20 forms only to full-time matriculated foreign students who owe no money to the school.

Senior Citizens: New York City residents who are 60 years or older and audit courses are granted a tuition waiver but must pay a $65.00 administrative fee per semester. Senior citizens also pay the consolidated services fee and any penalty fee they incur; senior citizens do not pay Student Activities fees or application fees.

Note: All tuition and fees are subject to change without notice, regardless of the tuition and fees in effect at the time of application as mandated by the Board of Trustees, CUNY. All tuition must be paid at the time of registration.

<tr>
<td>Technology Fee (Part time per semester)</td>
<td>$62.50</td>
</tr>
</tbody>
</table>

*Students paying by cash or money order will have their transcripts sent within one week. Those paying by personal check will have their transcript requests held for ten business days in order for the check to clear.

PAYMENT PLAN

You can pay your tuition and fees in full or in installments. If you pay in full, you will have your entire balance due by the end of the semester. If you pay in installments, your balance will be divided into equal payments. You can choose to pay in monthly installments or in more frequent payments. Your payment plan will be set up by the university’s Financial Aid Office. If you choose to pay in installments, you will be charged a late fee for any payments not received on time. You can choose to pay in monthly installments or in more frequent payments. Your payment plan will be set up by the university’s Financial Aid Office. If you choose to pay in installments, you will be charged a late fee for any payments not received on time.

STUDENT STATUS

Full-Time Status
To be considered a full-time student, you must be enrolled for at least twelve credits or equated credits/hours each semester. Contact hours for the courses below may be used to satisfy the full-time enrollment requirement. For these courses, tuition is charged on the basis of contact/equated hours.

<table>

Tuition Assistance for Full-Time Students
To qualify for tuition assistance from the two financial aid programs listed below, you must meet certain enrollment and academic requirements for each payment you receive.

New York State Tuition Assistance Program (TAP)
- You must be a full-time student according to the TAP definition for full-time enrollment. This means that you must be enrolled for at least twelve credits or equated credits. In the first semester you receive TAP, you must be enrolled for at least three degree credits as part of your full-time course load. After your first semester of receiving TAP, you must be enrolled for at least six degree credits as part of your full-time course load.
- All credits must be directly applicable to your current degree program in order to count as part of your minimum full-time course load for TAP purposes.
- You must remain in good academic standing for New York State award programs by meeting academic progress requirements every semester you receive TAP (see the section “Academic Progress Standards” which follows on p. 8). You are eligible for up to six semesters of TAP as an associate degree student. This limit holds even if you transfer from one 2-year school to another or change majors.
- Note: If you repeat a course that you previously passed, you may not count the repeated course toward full-time enrollment for TAP purposes.
- If you are a College Discovery student, you may be eligible for up to ten semesters of TAP as an undergraduate.

Part-time Status
To be considered a part-time student, you must enroll in fewer than twelve credits or equated credits/hours. Part-time tuition is calculated on a per credit basis except when remedial or developmental courses are taken. For remedial or developmental courses, contact hours rather than credits are used to calculate tuition.

Aid for Part-time Study (APTS)
To receive APTS, you must:
1. File an application by the established deadline and meet the basic eligibility requirements for the program.
2. Be enrolled in at least six but fewer than twelve credits or equated hours. At least three of these must be degree credits.

3. Remain in good academic standing for New York State award programs.
4. Not have used up eligibility for TAP.

CHANGE OF PROGRAM FEE WAIVER
The change of program fee may be waived when:
1. The College cancels or withdraws a course, whether or not the student substitutes another course.
2. The College changes the hours of the course after the Schedule of Classes and the Addendum are posted or makes other substantive changes that provide the student justification for a change.
3. The College requests the student to transfer from one section to another section of the same course.
4. The College cancels the registration of the student for academic or disciplinary reasons.

VETERANS
Tuition Deferrals—Students wishing to secure a veteran’s deferral must bring proof of eligibility and file an application for Veterans Administration benefits in the Registrar’s Office, Room S-315. The deferral does not apply to fees.

Benefits—Applications for Veterans Administration benefits must be made in the Registrar’s Office, Room S-315. Students eligible to receive V.A. educational assistance must file a certificate of eligibility with the Registrar’s Office at their initial registration and must inform that office of the V.A. standing each subsequent semester for which they wish to use their educational benefits.

Questions pertaining to eligibility to receive veterans educational entitlement should be referred to the New York Regional Office of the V.A., 245 W. Houston Street, New York, NY 10014.

TUITION REFUND POLICY
Students who find it necessary to drop classes must do so by the deadline dates.

Failure to attend class, giving notice to an instructor or stopping payment on a check is not considered an official withdrawal.

For the Fall and Spring semesters, tuition refunds will be made in accordance with the following schedule:

<table>
<thead>
<tr>
<th>Tuition Obligation</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Drop prior to the first day of class</td>
<td>100%</td>
</tr>
<tr>
<td>Drop during the first calendar week of classes</td>
<td>75%</td>
</tr>
<tr>
<td>Drop during the second calendar week of classes</td>
<td>50%</td>
</tr>
<tr>
<td>Drop during the third calendar week of classes</td>
<td>25%</td>
</tr>
<tr>
<td>Drop after the third calendar week of classes</td>
<td>0%</td>
</tr>
</tbody>
</table>

For winter and summer sessions, refer to the Academic Calendar for the refund schedule. Students who pay their tuition bill in full and subsequently withdraw will have their refund calculated according to the above schedule. Refund checks are mailed directly to the home address on file in CUNYfirst. Students who are enrolled in direct deposit will have their refunds deposited electronically.

Students who made a partial payment on their bill will have their tuition liability calculated according to the above schedule. A reduction in tuition charges may not necessarily result in a refund and, in some instances, a tuition balance may still be due. Student activities fees, consolidated services fees and technology fees are not refundable.

Payments made by credit card to the payment plan vendor will be refunded to the credit card.

Note that the liability period starts the first day of the semester and applies to all students whether or not they had classes on that day.

Tuition will be refunded 100 percent for those courses which, at anytime, are cancelled by the College.

COURSE CANCELLATION POLICY
Courses may be subject to cancellation for a number of reasons, such as under-enrollment. If you are in a class which has been cancelled, you will be notified by the Registrar’s Office by email. If you wish to replace the course, please log on to the online registration system to choose another course.

Students who must change their program due to canceled courses will not be charged a change of program fee.
Financial Aid

There are many costs associated with attending BMCC. Tuition, fees, books, supplies, and travel to and from school are just some of these school-related expenses. Financial aid is money that comes from the federal, state and city governments to help you meet these costs.

The most common sources of financial aid for BMCC students are:

- Grants—money that does not have to be repaid
- Loans—money that you borrow and agree to pay back with interest
- Work-Study—money that you earn from a job obtained through the Financial Aid Office

To be eligible for most federal and state student aid, you must be a U.S. citizen, permanent resident or other eligible classification of non-citizen, and enrolled in a program leading to a degree. You cannot be in default on a student loan or owe a repayment of a federal grant received at any other school. Most federal and state financial aid programs also require that you make satisfactory progress toward the completion of your degree to qualify for continued funding. (Refer to the section “Academic Progress Standards,” on p. 8)

We suggest that you apply for financial aid as soon as you have made your decision to attend BMCC. Don’t wait until after you have been admitted to the College to apply. It can take from 4 to 6 weeks to process your applications. The College can credit financial aid toward your tuition bill only if you have allowed sufficient time for your applications to be processed.

Sources of Financial Aid

Tuition Assistance Program (TAP) is a New York State grant program that helps pay the tuition of eligible full-time and part-time students. TAP is money that comes directly to the College for payment of your tuition. You must have lived in New York State at least one year prior to your first term of enrollment and meet certain income and enrollment criteria to qualify for TAP.

Aid for Part-Time Study (APTS) is a New York State grant program for students pursuing a degree on a part-time basis. It is money paid to the school for tuition only. To receive APTS, you must be a New York State resident, meet certain income limits and not have exhausted your eligibility for TAP. Award amounts vary based on availability of program funds.

Federal Pell Grant can be used to pay your tuition, or, if your tuition is covered by other means, help you buy your books and supplies, or pay your transportation costs. PELL is available to full-time or part-time students who have not earned a first bachelor’s degree or professional certificate.

Federal Supplemental Educational Opportunity Grant (FSEOG) is an award given to undergraduate students who show exceptional financial need. FSEOG awards are made to supplement other forms of financial aid. This award is available only to students who have not earned a first bachelor’s degree or professional certificate.

Federal Work-Study (FWS) provides part-time jobs to students who need additional financial aid. FWS students work both on and off campus and are paid at least NYS minimum wage. You must be enrolled in at least six credits or the equivalent to participate in FWS.

Federal Perkins Loan is a low interest (5%) loan awarded by CUNY to help you meet your educational expenses. A Federal Perkins Loan is money that is borrowed and must be repaid. You must remain enrolled in at least six credits or the equivalent to receive this loan and must begin to repay it nine months after graduation or termination of attendance. Freshmen (entering or first-year) are not eligible to receive this loan.

Subsidized Federal Direct Stafford Loan allows you to borrow money at low interest to help you pay for college. The federal government subsidizes or supports these loans by paying interest charges while you are attending school. You must remain enrolled in at least six credits or the equivalent to receive this loan and must begin to repay it six months after graduation or termination of attendance. You must demonstrate financial need to qualify for this loan.

Unsubsidized Federal Direct Stafford Loan allows you to borrow money for your education in addition to the amounts allowed under the subsidized loan program. These loans are not subsidized by the federal government which means that you, the borrower, are responsible for all interest charges while you are attending school. You must remain enrolled in at least six credits or the equivalent to receive this loan.

Federal Direct PLUS Loan allows your parents to borrow money to help you supplement the amounts you may be receiving under other grant or loan programs. All Direct PLUS loans require a credit check and will be approved based on your parents’ credit history. Repayment of PLUS loans begins within 60 days of disbursement.

College Discovery (CD) is a special program for financially and educationally disadvantaged students. Students in the CD program may receive money for books, fees and a small stipend. To be considered for CD, you must complete the special programs section of the CUNY admissions application. The Admissions Office chooses the students for this program by a lottery system. You must maintain full-time enrollment to remain eligible for CD.

To learn how to apply for these financial aid programs, visit the College’s online financial aid office at http://www.bmcc.cuny.edu/finaid/. Here you will find eligibility requirements, application filing procedures, office contact information and a schedule of available application labs and workshops.

Scholarships

BMCC makes available for its student population a list of various scholarships, for which they may be eligible to apply. Some of these scholarships are administered by the College, and are for either continuing or graduating students.

- Sussie Gyanfi, Coordinator Scholarships and Special Services, (212) 220-8133, Room S-229

Scholarships for Continuing Students

Borough of Manhattan Community College Fund Inc. Scholarship (Full-Time) The BMCC Fund, Inc. Scholarship is a need-based scholarship made available annually by the Board of Trustees of the BMCC Fund, for continuing BMCC students who demonstrate high academic performance and financial need. The scholarship amount varies and may cover up to $2,800.00 per year. Eligible applicants must have earned a minimum 3.0 GPA; maintain a full course load; have completed at least one semester with at least 12 credit hours. The scholarship may vary and may cover up to $2,800 per year.

Borough of Manhattan Community College Fund Inc.: Scholarship (Part-Time)

This competitive scholarship is awarded to part-time BMCC students who have completed at least 24 BMCC credits and have attended part-time in the previous or current semester. Eligible applicants must have 3.3 minimum G.P.A. and maintained a minimum of at least 6 credits each semester. The scholarship amount varies and may cover up to $1,440 per year.

Borough of Manhattan Community College Fund Inc.: Presidential Pathway to Success

This competitive scholarship is made available to incoming freshmen who demonstrate high academic performance and financial need. Eligible applicants must have an 80 or better high school average and show evidence of community or volunteer service. The scholarship amount varies and may cover up to $2,800 per year.

Borough of Manhattan Community College Fund Inc.: MoneyWorks Scholarship

The MoneyWorks competitive scholarship is made available by the Borough of Manhattan Community College (BMCC) and The Financial Planning Association of New York (FPANY), and is sponsored by Merrill Lynch to provide continuing BMCC full-time and part-time students with an exciting financial learning experience and scholarship opportunity. Students selected for the program will receive an award up to $2,800.00 towards the cost of their education at BMCC for one academic year. In addition, students will have the opportunity to participate in financial awareness seminars and be paired with mentors from the business community.

Dennis Bonner Scholarship

This memorial scholarship is awarded to continuing full-time African-American students, who demonstrate high academic performance and financial need. This scholarship is awarded to honor our late Admissions Director, Dennis Bonner. To be eligible, students must have 12 or more credits completed at BMCC with a minimum GPA of 3.0.

Simon Peskoff Memorial Scholarship

This scholarship is awarded in memory of Simon Peskoff, the father of Professor Fred Peskoff of the Mathematics Department. The eligible candidate must be a full-time BMCC mathematics or nursing major, who has completed at least one semester at BMCC with a minimum GPA of 3.0.

BMCC Out-in-Two Scholarship

This scholarship is available by a Presidential Initiative to help students complete their associate degree within two years or less. First-time college freshmen are eligible...
to apply if they accumulated at least 12 real degree credits prior to the beginning of their second regular semester (fall or spring) with a minimum 3.0 GPA. Students enrolled in Nursing, Undeclared Health, Respiratory Therapy, Health Information Technology, and Paramedic are not eligible to apply for this scholarship. Scholarship recipients will receive a minimum of $1600 for three consecutive semesters.

**BMCC/Pearson Scholarship** This scholarship is awarded to students who are enrolled in the Nursing, Respiratory Therapy, Health Information Technology or Paramedic program. Eligibility requirements for this scholarship are a minimum of twelve degree credits earned with at least a 2.5 GPA. Applicant must be a U.S. citizen or permanent resident, who has taken courses in his or her declared major in the fall. Students must graduate within five semesters from the time of first award.  

**Houghton Mifflin/BMCC Scholarship** Awarded to Business Management majors. Interested applicants must contact the Business Management Department, Room F-730 for additional information.

**National Science Foundation (CSEM) Scholarship** This scholarship is awarded to full-time students who intend to pursue a baccalaureate degree in computer science, engineering or mathematics. Applicants must be a U.S. citizen or permanent resident, must file for financial aid, have a minimum GPA of 2.8; and be willing to work on a research project as determined by the scholarship committee.

**Salzburg Seminar Award**  
This is a seven-day intensive seminar for BMCC students to explore issues of global concerns. The seminar takes place during spring break in Salzburg, Austria. Travel and housing costs are covered by the College. Eligible applicants must be matriculated, have completed 24 BMCC credits and have an overall BMCC GPA of 3.3 or better.

**ACADEMIC PROGRESS STANDARDS**  
The federal and state financial aid programs require that you register for and maintain enrollment in your classes in order to receive financial aid awards. You are expected to make satisfactory academic progress toward your degree in order to keep receiving your awards. Please note that the academic performance standards for the federal and state financial aid programs exist separately from the College's own retention requirements.

**Remedial Course Work and Federal Aid Eligibility**  
You may receive federal financial aid payments for no more than 30 credits of non-credit remedial course work. If you have attempted and received payment for a total of thirty or more remedial or developmental hours, you cannot receive federal financial aid for any additional remedial or developmental course work you attempt. This restriction does not apply to English as a Second Language (ESL) courses. You will still be eligible to receive federal financial aid payments for credit bearing course work, subject to your ability to meet the federal satisfactory academic progress standard outlined below.

**Satisfactory Academic Progress Standard for Federal Financial Aid Programs**  
In order to remain eligible for federal financial aid at BMCC, you must be making satisfactory academic progress towards the completion of your associate degree in order to remain eligible for federal financial aid at BMCC. There are 3 components to the college’s federal satisfactory academic progress standard:  
1. Minimum GPA: You must achieve the GPA required to meet the college’s minimum retention standard (that is, you cannot be on academic probation, special probation or academic dismissal).  
2. Maximum Timeframe: You may attempt not more than 150% of the credits normally required for completion of the degree (that is, you may attempt no more than 90 credits to earn 60).  
3. Pace of Progression: You must successfully complete a certain percentage of the total number of credits that you attempt. For more information, visit: http://www.bmcc.cuny.edu/finaid/upload/SAP_Requirements.pdf.

**Financial Aid Suspension**  
If you exceed the maximum timeframe, or fall beneath the pace of progression standard, you will be placed on financial aid suspension and lose your eligibility to participate in federal student aid programs. Students on financial aid suspension will remain ineligible for federal student aid until they take actions that once again bring them into compliance with the appropriate progress standard.

**Your Right to Appeal**  
If you have been placed on financial aid suspension, you may appeal to the Committee on Academic Standing to regain eligibility to receive federal student aid.

Your appeal must be based on mitigating circumstances resulting from events such as personal illness or injury, illness or death of a family member, loss of employment, or changes in your academic program. Your appeal must include an explanation of why you failed to make satisfactory progress and what has changed in your situation to allow you to meet the appropriate progress standard in a future evaluation. Your appeal must also include a reasonable and attainable academic plan that, if followed, will ensure that you will achieve completion of your program or make substantive progress towards program completion for the terms you wish to receive financial assistance.

**Financial Aid Probation**  
If your appeal is granted, you will be placed on financial aid probation and have your federal student aid eligibility reinstated for one semester. At the end of the probationary semester, your record will be reviewed to determine if you have fulfilled the requirements specified in your academic plan.  
If you meet all the conditions of your academic plan in your probationary semester, you will continue to receive federal student aid on a monitored, semester-by-semester basis until the next scheduled progress evaluation. There is no limit on the number of times you may follow the financial aid appeals procedure. Additional appeals to extend financial aid probation are allowed, but, as in the original appeal, you would have to indicate mitigating circumstances, the reasons why you did not meet satisfactory progress requirements, the reasons why the objectives of your academic plan were not achieved, and what has changed to ensure you will be able to meet the progress standard at the next evaluation.

**Re-establishing Eligibility**  
Other than having eligibility restored through filing a successful appeal, you may have your financial aid suspension removed only by taking actions that bring you into compliance with the appropriate progress standard. The mere passage of time, by itself, is insufficient to restore your aid eligibility. One such action would be to continue attendance without using federal financial aid funds.

If you remain enrolled without receiving federal financial aid, you may request a review of your academic record after any term you were on financial aid suspension to determine whether you are meeting the standard of satisfactory progress. If the standard is met, you will regain eligibility for federal aid in the subsequent terms of the academic year.

**DETERMINATION OF CREDITS ATTEMPTED AND CREDITS EARNED**  
Credits attempted reflect the courses maintained in your permanent enrollment record at the College. Credits earned are those credits you have actually earned toward your degree.

In measuring satisfactory academic progress, certain courses and situations will be treated in the following ways:

**Basic Skills Courses**  
Remedial or basic skills courses do not carry degree credit and are not included in the cumulative record of credits earned or attempted for determining your pace of progression. The credit-bearing portion of courses classified in prior years as developmental or compensatory are included as part of the cumulative record of earned or attempted credits.

**Withdrawals**  
Withdrawals recorded on your permanent record will be counted in your cumulative record of credits attempted and will adversely affect your ability to meet the pace of progression standard.

**Incomplete Grades**  
Your cumulative record of credits attempted must include any course in which you receive an incomplete grade. This course cannot be counted in your earned credits until you have received a completion grade. If you fail to meet the pace of progression standard due to an incomplete grade for a course, the recording of a successful completion grade within a term which brings your accumulated credits up to the appropriate standard will restore eligibility for this and subsequent terms within the academic year.

Check [www.bmcc.cuny.edu](http://www.bmcc.cuny.edu) for updated information. Updated 09/01/21
Repeated Courses
Successfully completed courses can generally be accepted toward degree requirements only once. However, each time you attempt a course, it is included as part of your cumulative record of credits attempted. Therefore, repeating a course, regardless of prior grade, reduces your ability to meet the pace of progression standard.

TREATMENT OF NON-STANDARD SITUATIONS
Readmitted Students
Upon readmission after any period of non-re-enrollment, your satisfactory progress standing will be re-evaluated as it stood at the end of your last semester of attendance. If you have taken any action during your period of non-re-enrollment that would bring you into compliance with the progress standard (such as successfully completing transferable courses at another institution) this will also be factored into the assessment. If you have taken no such action, or if the action you took is not sufficient to bring you into compliance with the progress standard, you would remain on financial aid suspension and would have to file a successful appeal to re-establish eligibility.

Transfer Students
As a transfer student, you will have your status initialized for measuring pace of progression by counting the transfer credits accepted toward the degree as both credits attempted and credits earned.

Second Degree Students
If you are enrolled for a second degree, you shall have your status initialized for measuring pace of progression by counting the credits accepted toward the second degree as both credits attempted and credits earned.

Change of Major/Change of Degree
If you change majors within the same degree or certificate program, or if you change your educational objective and begin pursuing a different degree without having earned the first degree, you must complete your academic program within the maximum timeframe allowed or file a successful appeal to extend the maximum timeframe.

GOOD ACADEMIC STANDING REQUIREMENTS FOR NEW YORK STATE FINANCIAL AID PROGRAMS
To receive New York State Tuition Assistance Program (TAP) payments, you must maintain good academic standing as defined by the state for these programs. The good academic standing requirement consists of both an “academic progress” and a “program pursuit” component. Please refer to the Academic Progress Chart at www.bmcc.cuny.edu/finaid/.

If you do not meet the NYS academic standing requirements in any semester you receive a state award, you lose your eligibility for TAP, APTS, and other NYS award programs. Further payments of these awards to you will be stopped.

You may regain good academic standing by any one of the following procedures:
1. Combine two or more semesters’ work, provided that only one of those semesters is paid for through New York State support.
2. Be readmitted to BMCC after a leave of absence of at least one calendar year.
3. Transfer to another college. There, you will be eligible to receive New York State awards your first semester.
4. Apply to the Committee on Academic Standing for a one-time TAP/APTS waiver. If the waiver is approved, you may continue your studies without interruption of New York State program assistance.

How to Get a TAP/APTS Waiver
If you feel you may be eligible for a TAP/APTS waiver, you must follow these instructions:
1. Obtain a TAP/APTS Waiver Request Form from the Bursar’s Office.
2. Provide an explanation of your circumstances on the request form. You should attempt to document all pertinent facts related to your case. The final decision will be based on the documentation received.
3. See a Student Life Counselor to help you fill out the form and advise you on what documentation you may need. Make sure your counselor signs and dates the form.
4. Obtain faculty statements, if necessary, and attach them to the request. Faculty statements should be submitted by persons whom you feel will help the Committee on Academic Standing better understand your case.
5. Sign, date, and return your request, with all supporting documentation, to the Registrar’s Office.
6. After your request has been acted upon by the committee, you will be notified of the action taken on your case by means of a letter to your home address.

Possible Reasons for a Waiver
A. Personal Criteria
1. Personal illness involving either hospitalization or extended home confinement under a physician's supervision.
2. Illness in the immediate family (of origin or of generation) forcing you to be absent from class for an extended period.
3. Emotionally disabling conditions which force you to miss class for an extended period.
4. Changing work conditions beyond your control and upon which you or your family must depend forcing you to leave classes.
5. Inability to attend classes because of military duty orders, temporary incarceration, or other involvement with agencies of government (local, state or federal).

B. Academic Criteria
1. A change in major causes you to fall behind in the pursuit of program requirement although prior to this your academic performance was sound.
2. You have consistently met the minimum academic performance standards but, for one semester, do not meet them. An assessment of your academic record indicates that granting a waiver will be to your benefit.
If you are granted a TAP/APTS waiver, you can continue to be eligible for New York State tuition assistance for that semester only. In order to continue to be eligible in any following semester, you must again begin to meet the Academic Progress and Program Pursuit requirements as stated in the TAP Progress Chart (www.bmcc.cuny.edu/finaid/) for the payment indicated. Remember: you may be granted a waiver from the New York State academic standing requirements only once.
Admissions
The Admissions Office is usually the first contact a student has with BMCC, and the entrance point for all new students into the CUNYfirst enrollment system. The office staff admits, matriculates and term activates students into the CUNYfirst system. The office also evaluates transfer credits for all entering transfer students. If you wish to continue your studies at the College after you graduate, you must file a second degree or non-degree application with the Admissions Office. You are welcomed to visit the Admissions Office at any time for assistance with questions you may have.

Ms. Lisa Kasper, Director of Admissions
(212) 220-1265, Room S-310
admissions@bmcc.cuny.edu
www.bmcc.cuny.edu/admissions

Enrollment Services
Enrollment Services partners with offices within enrollment management to create a positive student experience for all new students as they transition from admission to the college to the first day of classes. Part of the mission of Enrollment Services is to offer guidance and maintain a high level of customer service for the diverse students and families of BMCC. The Contact Center, Panther Station, and Lab Services comprise the three functional area of Enrollment Services, which provide support to students in person, on the phone, and virtually through online services.

(212) 776-6385, Room S-225
station@bmcc.cuny.edu

Financial Aid
Part of the mission of the Office of Financial Aid is to assure that every eligible BMCC student has access to the financial aid resources they need to attain a college education. Some of the services we provide are to:

- Assist you and your family in planning for and meeting the expenses associated with attending BMCC.
- Furnish information about a range of federal, state, city and college sources of financial assistance.
- Provide the counseling and other services that you and your family need to establish and maintain eligibility for federal, state, city and institutional award programs.

Albina Khasidova, Director
(212) 220-1430, Room N-365
finaid@bmcc.cuny.edu,
www.bmcc.cuny.edu/finaid

International Student Services
If you are an international student, the International Student Services Office (ISSO) will provide you with valuable information and assistance about immigration matters and F-1 student status. It also collects SEVIS (Student Exchange Visitor Information System) information as mandated by Department of Homeland Security. Students on the F-1 status are encouraged to attend the various workshops during the academic semester to become familiar with the federal regulations. Consequences for an F-1 student who fails to maintain legal status can be serious. The ISSO also offers information about health insurance and employment options for F-1 students. The ISSO staff will see students on a walk-in basis and by appointment.

All international BMCC students are urged to contact ISSO located in the Admissions Office (Room S-115N) for assistance. Ms. Lily Y-Elkin is the Assistant Director of International and Transfer Services.

Registrar
The Registrar’s Office maintains your academic records, schedule of classes, registers you for courses, and certifies you for certain benefits, such as veterans benefits. The Registrar’s Office also issues transcripts to colleges and prospective employers. Transcripts may be requested on the web, in-person, or by mail. The Registrar’s Office encourages you to register and change your program by using CUNYfirst. The office website has many forms, such as request for graduation, the name/address change form, and curriculum change, etc. Click on the Records and Registration link from Offices and Services option found on BMCC main page to see the forms. You can also pick up the forms in person from the Registrar’s Office.

Mr. Mohammad K. Alam, Enrollment Registrar
(212) 220-1290, Room S-315
Registrar@bmcc.cuny.edu
www.bmcc.cuny.edu/registrar
STUDENT SUPPORT SERVICES

Counseling Center
The staff of the Counseling Center will become an integral part of helping you achieve your personal, academic, and career goals. The Center is staffed by professional psychologists and social workers who work in strictest confidence to address academic and personal concerns, while the Center’s academic advisor monitors academic progress, and provides support. Counselors are available for individual and group sessions, both by appointment and on a walk-in basis.

The staff of the Counseling Center are integral members of each student’s “success team” and are committed to assisting each student achieve his or her personal, academic, and career goals.

Counselors are available for individual or group sessions, both by appointment (212) 220-8140 or on a walk-in basis at Room S-343. Visit our website at www.bmcc.cuny.edu/counseling for updated notices and events.

Ms. Neda Hajizadeh, Director, (212) 220-8140, Room S-343

Center for Career Development
The Center for Career Development provides comprehensive career planning and employment counseling services that motivate students to develop a career plan and prepare for their timely graduation.

Students learn how to select an academic major and develop a career plan that matches their personal interests, abilities, and occupational goals. In addition, students are taught job interviewing, how to develop and write an effective resume, and job search skills essential to seeking meaningful experiential and employment opportunities. Students establish relationships with employers through on-campus networking events. Networking opportunities include on-campus interviews and Career Fairs.

Mr. Christopher Thunberg, Director, (212) 220-8170, Room S-342

College Discovery Program
The College Discovery Program is a developmental program, which provides support services such as counseling, academic and career advisement, tutorial services and financial assistance to students who are admitted into the program. Students are identified for acceptance into the program, on the basis of their high school average and family/household income. The support services include a variety of outreach and enrichment activities provided on an individual and group basis to enhance the students’ growth and development, both academically and personally. The College Discovery staff consists of professionally trained counselors, tutorial support, and administrative personnel who are dedicated and committed to assisting the students in their pursuit of a college education and a fulfilling career.

Mr. Pedro Perez, Director, (212) 220-8152, Room S-335

Office of Accessibility
Any BMCC student with a documented disability is encouraged to meet with the staff in the Office of Accessibility (OA) to discuss potential reasonable accommodations and academic adjustments. Accommodations are determined
on an individual basis according to documented need and must follow “CUNY Documentation Guidelines” endorsed by COSDI (Council on Students Disability Issues). Students are required to submit disability documentation and complete an Application for Accommodations to the OA. Examples of the more typical accommodations granted include: extended time testing, readers, sign-language interpreters, note-taking services, and textbooks on tape. In addition, a state-of-the-art Assistive Technology (AT) computer lab is available for student use. This lab is equipped with AT solutions for students who are blind or low-vision, students with learning disabilities, and students with physical disabilities. The office also offers assistance with registration and serves as a liaison to academic departments, administrative offices, and various community resources. The Office of Accessibility fosters independence and self-advocacy.

Ms. Daphne Giles, Manager of Office of Accessibility
(212) 220-8152, Room N-360

Student Activities
The Office of Student Activities provides consultation and administrative support to student government, student organizations and student media groups. We also conduct an annual weekend student leadership retreat; trips to Broadway plays and sporting events; and workshops on dining etiquette, networking, and customer service, and manage the BMCC Co-Curricular Transcript.

Mr. Harry Mars, Director of Student Activities
(212) 220-8160, Room S-230

Student Clubs and Organizations
Students with similar interests may join or start a student club. All clubs require four executive officers, fifteen members, a club advisor and a constitution. There are more than fifty clubs on campus in the following areas: academic, cultural, media, professional, religious, social, social service and special interests. Students who participate in club activities develop skills in networking, organizing, responsibility, service and team work. Clubs meet during club hours on Wednesdays 2:00 pm–4:00 pm.

Student Government Association (SGA)
Members of the SGA are the elected representatives of the BMCC student body. The SGA seeks to secure meaningful participation in the decision making organs of the College. Registered student clubs and organizations are chartered and funded by the SGA. Members of the SGA serve on the BMCC Association, the BMCC Media Board, and committees of the Academic Senate and College Council.

(212) 220-8208, Room S-242

Health Services Office
The Health Services Office provides first aid, assessment or treatment of medical emergencies, counseling and information on health-related issues. We offer free measles, mumps and rubella vaccines throughout the year as well as during registration to ensure meeting the requirements set forth by NYS Public Health Law 2165. Throughout the academic year look for workshops covering different health issues as well as our yearly Health Fair held in May. We also provide workshops for those classes or clubs that wish to address specific health issues.

Ms. Penelope S. Jordan, R.N., Director,
(212) 220-8255, Room N-380

BMCC Early Childhood Center and Family Child Care Network
BMCC offers two quality childcare programs, the BMCC Early Childhood Center and Family Child Care Network. Each program provides quality day care and early childhood education for the children of BMCC students. The Early Childhood Center offers several service options for children between the ages of 2 and 6 during the day and evening, and on Saturdays and Sundays. The Center most recently embarked upon a new initiative and is now offering a weekend school age program. This program operates between the hours of 9:00 am to 5:00 pm on Saturdays and Sundays for children ages 6 to 12. The Family Child Care Network, supervised by the BMCC Childhood Center, consists of a group of licensed day care homes serving children between two months and 12 years of age. In keeping with appropriate early childhood practice and the Center’s commitment to learning and safety, each child must be enrolled according to a planned schedule. Mindful of parent’s course schedules and other college activities, the Center’s staff works with parents to develop a schedule that closely meets the needs of both parent and child. The Early Childhood Center is accredited by the National Academy of Early Childhood Education Programs and licensed by the New York City Department of Health. The NYC Department of Education has selected our center as a Universal Pre-kindergarten site. The Center’s teachers are certified by the New York State Department of Education. Providers in the Family Childcare Network are registered by the NYC Department of Health and have completed an extensive training course, and the Center’s staff visits their homes regularly.

Ms. Cecilia Scott-Croff, Director,
(212) 220-8250, Room N-375

The Women’s Resource Center
The Women’s Resource Center (WRC) provides support services for the growth and development of women students at BMCC as they pursue both their academic and their lifelong goals. The WRC sponsors activities designed to educate and provide information related to women, the family and community concerns. Special programs, seminars and workshops, as well as individualized sessions are designed to address such concerns as wellness, domestic violence, substance abuse, stress management, parenting, relationships, and academics. In addition, the WRC has weekly support groups facilitated by the WRC staff and a peer mentoring program. The WRC also provides referral services to external social service agencies and acts as a network for resources within the College.

Tammie Velasquez, Manager of the Women’s Resource Center,
(212) 220-8165, Room S-340

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
Athletics, Recreation and Intramurals

Intercollegiate Athletics
BMCC’s intercollegiate athletic program consists of baseball, men and women’s basketball, men and women’s soccer, men and women’s swimming, and women’s volleyball. The College is a member of both Region XV of the National Junior College Athletic Association and The City University of New York Athletic Conference. Since 1998, BMCC has won the CUNY Athletic Conference Commissioner’s Cup for the outstanding intercollegiate athletic program among the community colleges nine of the last thirteen years.

Matthew Ruiz, Director of Athletics & Recreational Services
(212) 220-8261, Room N-255

Recreation and Intramurals
BMCC students, faculty, and staff may participate in intramural volleyball, soccer, cricket, table tennis, and badminton. Yoga and Zumba are offered as wellness activities. A modern fitness center in the BMCC gym has weight training equipment and aerobic machines. Students may also use the modern, Olympic-style swimming pool.

(212) 220-8261, Room N-255

Advocacy and Resource Center
The Advocacy and Resource Center (ARC) offers free services to students to ensure that they have the support they need in order to focus on their studies and succeed in college.

All of the services that are offered at the Center are FREE! These services include:
• Food Assistance: Our Panther Pantry provides a three-day supply of nutritionally balanced, non-perishable food for students facing a food emergency. We also help connect students with SNAP.
• Emergency Grant/Loan Assistance: Students facing financial hardship can apply for emergency loans to assist with rent, utilities and textbook costs.
• Health Insurance: We will advise and assist you in enrolling in a health insurance plan.
• Legal Services: We partner with lawyers who can provide free advice on matters ranging from landlord/tenant problems to immigration issues.
• Financial Counseling: Advice about budgeting, debt reduction and opening bank accounts
• Tax Preparation: Assistance with tax preparation is available.

Ms. Deborah Harte, Director of Advocacy and Resource Center
(212) 220-8195, Room S-230

Peer Mentoring Programs
The BMCC Inspires and Motivates People to Achieve in College Together (IMPACT) Peer Mentoring program is students helping students in a purposeful way. The IMPACT Peer Mentoring program provides support to help students make connections and feel empowered to chart their own course to success in college and beyond. The IMPACT Peer Mentoring Program helps new students adjust to the college environment, make connections on campus and feel empowered to chart their own course to success. The program matches successful continuing students with new students, connecting them as partners for a semester-long experience.

Ms. Denise DellaPorta, Student Life Specialist for Peer Mentoring
(212) 776-6472, Room S-136

Student Affairs Success Programs
Student Success fosters the growth and development of continuing students at the College to prepare them for graduation, transfer and career success. To support these outcomes, Student Success offers co-curricular engagement opportunities and provides personal and academic support to probation students, high achieving students, DREAMers, financial literacy cohorts and more. By partnering with offices across the College, the Student Affairs Success Programs help students solve problems, celebrate successes and take ownership of their BMCC experience.

Ms. Tiffany James, Director of Student Success Outreach and Programming
(212) 776-6316, Room S-136

Student Conduct and Academic Integrity
The Office of Student Conduct and Academic Integrity focuses on creating and implementing an individual plan that focuses on modifying
behavioral choices. As an institution of higher education it is BMCC’s responsibility to educate students, not just in the classroom setting, but outside as well. The Office’s philosophy is predicated on the idea that all people make mistakes, it is simply a matter of what is done after the mistake. This can be done using sanctions that promote environmental awareness and foster personal reflection that will spark personal and professional growth through self-education.

Mr. Ian Wentworth, Director of Student Conduct and Academic Integrity
(212) 220-8000 ext. 5298, Room S-340

Veterans Resource Center
The Veterans Resource Center serves the needs of prospective and enrolled service members, veterans, and dependents to receive education benefits under various Department of Veterans Affairs educational programs. The Center is proud to help U.S. veterans continue their education at BMCC, and are available to help them adjust to college and civilian life with services that include:

- Assistance for student veterans, Reservist, National Guard and military-connected family members applying for VA/GI Bill educational entitlements;
- Assistance with processing all VA enrollment certifications
- Peer-to-peer student veteran mentoring
- Connecting military-connected students to campus and community services (as necessary)
- Graduate social work interns who can assist students with transition and readjustments challenges and provide support as needed

Mr. Wilfred Cotto, Manager of Veterans’ Resource Center
(212) 220-5363, Room S-115M
Academic Affairs

Director of Urban Male Leadership Academy
Igwe Williams
Director of The Writing Center

Academic Advisement
Each semester, students are required to meet with an advisor to make certain that they are following the correct course of study. The advisors help students create an academic plan and provide information regarding curriculum choice. Students are not allowed to register until academic advisement has been completed. For information concerning academic advisement, contact the Academic Advisement and Transfer Center, (212) 220-8315, Room S-108.

Academic Advisement and Transfer Center
The Academic Advisement and Transfer Center's initiatives are designed to assist students in making a successful transition from a 2-year college to a 4-year college in pursuit of their bachelor's degree.

The Center offers a variety of resources and support services for students that can help them in the transfer and selection process, such as: individualized and group academic and transfer advising; CUNY course equivalency information; college information fairs and visits; articulation information between BMCC and 4-year institutions; academic audits for students approaching graduation; transfer information regarding admissions and scholarships; transfer workshops; and transfer instructions specifically for CUNY colleges.

Ms. Carei Thomas, Director, (212) 220-8315, Room S-108

Accelerated Study in Associate Programs (ASAP)
Accelerated Study in Associate Programs (ASAP) was designed to assist motivated students to earn an associate degree within 3 years. The program promotes student success by providing academic, financial and personal support, including: personalized advisement, career counseling, tutoring, tuition gap waivers for eligible students, MTA Metrocards and textbook vouchers. ASAP also offers a variety of resources and services to enhance student learning and promote academic success.

Ms. Deanne Southwell, Executive Director, (212) 346-8509, Room M-1412

BMCC Learning Academy Program
The BMCC Learning Academy (BLA) is a success program that helps students transition to college and stay on track until graduation and transfer. The Learning Academy is a perfect fit for students interested in a personalized academic advisor and supportive knowledgeable community of peers, faculty and academic resources.

Ms. Sara Crosby, Director, (212) 346-8640, Room M-1413

Immersion Program
This program is designed for newly admitted and returning freshmen. The program provides an opportunity for students to acquire basic skills, complete their basic skills obligations, and get a head-start on their college experience. The program will: (1) offer basic skills courses to improve students’ proficiency in areas such as English (writing), English as a Second Language, Reading, and Mathematics; (2) provide students with an opportunity to enroll in one or more courses to reduce or eliminate the number of basic skills courses they will be required to take in the fall or spring semester; (3) provide counseling, tutoring and other support services; and (4) offer students an opportunity to work with concerned and committed faculty in small class settings.

Dean Janice Zummo, (212) 220-8320, Room S-715

Freshman Year Experience (FYE)
All incoming, first-time freshmen are expected and encouraged to participate in the FYE workshops offered before and/or during the initial weeks of each semester. In these workshops, students receive important information to orient them to life at the College: academic protocol, college services, academic success, and note-taking and test-taking skills. Additionally, several workshops are scheduled throughout the semester to build students' basic and advanced computer skills.

E-Learning Center
The E-Learning Center focuses on quality design and delivery of online courses. The center supports faculty in the creation of dynamic student-centered learning environments through informed research-based course design. E-Learning courses offer an exciting way to learn for self-motivated students who enjoy reading and writing online. E-Learning courses are limited to 25 students, so faculty are able to provide personalized instruction. Fully online, hybrid, and online/hybrid courses give students flexibility in scheduling academic work with personal commitments. Fully online courses are delivered via the Internet and 100% online, with no face-to-face meetings. Online courses are between 80%–99% online, allowing students to attend 2–3 face-to-face meetings for orientations, presentations, and/or exams. Hybrid courses are between 33%–80% online, requiring one weekly face-to-face meeting.

Mr. Thomas Harbison, Acting Director, (212) 220-8144, Room S-510A

Evening/Weekend Programs
BMCC currently offers six Evening/Weekend Associate Degree Programs: Liberal Arts (A.A.), Business Administration (A.A.), Accounting (A.A.S.), Computer Network Technology (A.A.S.), Childhood/Early Childhood Education-Preschool Elementary (A.S.) and Nursing (A.A.S.). In all six programs, students may complete their degree requirements by attending classes exclusively on Friday evenings, Saturdays, and Sundays. This is an ideal opportunity for busy people juggling work and family responsibilities.

Students attending classes on the weekend receive the same support services as those attending classes during the week and in the daytime. These include: library, academic advisement, counseling, career services, childcare, tutoring/supplemental instruction, and open access computer labs. In addition, support areas such as the Registrar’s Office, Bursar, and Admissions are also open on some Saturdays each semester. The Evening/Weekend Program Office provides administrative coverage at night and on the weekend.

Ms. Antonette McKain, Director, (212) 220-8325, Room S-715

CUNY EDGE
(EDUCATE, DEVELOP, GRADUATE and EMPOWER) Program formerly known as COFE, is an initiative implemented by The City University of New York and the Human Resources
Student Services

Administration (commonly referred to as HRA.)
The goal is to support the specific needs of students who are receiving government assistance and are pursuing an undergraduate degree.
Mr. Argenis Rodríguez, Director, (212) 346-8486, Room M-1216B

Internships and Experiential Learning
The Office of Internships and Experiential Learning supports students in developing and enhancing hands-on skills, and in obtaining global experiences through domestic and international opportunities which include internships, study abroad courses, and service learning. The competencies and skills gained can be applied in positions across a range of industries and sectors. Students will have an advantage in their academic and professional pursuits, and be more marketable to prospective employers. Students are strongly encouraged to pursue and complete at least one type of approved experiential learning opportunity prior to the completion of study.
Mr. Argenis Rodriguez, Director, (212) 346-8486, Room M-1216B

Learning Resource Center (LRC)
The Learning Resource Center (LRC) provides students with services designed to strengthen academic skills and meet learning needs. The LRC coordinates a tutorial program, instructional computer labs, tutor-conducted study skills workshops and non-print instructional materials to supplement tutoring and study skills improvement. All LRC services are available free of charge to registered BMCC students, faculty and staff.
Mr. Gregory Farrell, Director, (212) 220-1383, Room S-510

Testing Office
BMCC Office of Instructional Testing supports student enrollment, retention, and success by maintaining exemplary testing standards and practices, protecting the confidentiality of student data, and creating an optimal testing environment that meet the needs of students, faculty, administration, and all other stakeholders.
Ms. Maketa Barber, Interim Director, (212) 220-8085, Room S-103

Tutoring
BMCC has several academic support services programs that are designed to help students succeed in their course work and to become independent learners. For additional information, please contact the appropriate program coordinator. All academic support services are free of charge. Refer to the chart on the previous page for the programs and their locations and contact information.

The A. Philip Randolph Memorial Library
The A. Philip Randolph Memorial Library (S-410) and the Quiet Study Area (S-430) offer seating, individual carrels, electrified worktables and group study rooms for over 600 students. The Library has a collection of over 115,000 volumes of books and reference titles, 350 periodicals, over 60,000 electronic journals, magazines, and newspapers, 183,000 electronic books, and 21,473 reels of microfilm. The Library is open 80 hours each week during the fall and spring semesters and shorter hours during the summer and inter-sessions.
There are three main service points in the Library, namely Circulation and Reserve, Reference, and Periodicals. Library faculty members are always available to assist students in locating and using appropriate materials. A 24/7 chat reference service is available through the library website (http://lib1.bmcc.cuny.edu/).
The entire Library is WiFi-enabled and laptops and digital dictionaries are loaned to students for onsite use. In addition, the Library has an active instructional program to teach information literacy.

Library Hours
Monday–Thursday 8:00 AM–10:00 PM
Friday 8:00 AM–7:00 PM
Saturday 10:00 AM–6:00 PM
Sunday 12:00 Noo–5:00 PM
Chief Librarian: Kathleen Dreyer

The Writing Center
The BMCC Writing Center (Room S-500) is intended to support students and faculty in courses from all disciplines on campus. The Center helps students develop the critical thinking skills and revision habits necessary for success in college level writing. It offers assistance to faculty with assignment design and student feedback.
The Center works with students in small group conferences. Writing assistants assess the individual needs of student writers in order to coach them through the relevant aspects of the writing process. The Writing Center offers help with writing assignments from all disciplines, along with assistance on resumes, job application letters, and fellowship or college transfer essays. Tutoring is offered on a drop-in and appointment basis, or through E-Tutoring.

Program Hours
Monday–Thursday 10:00 AM–8:00 PM
Friday 10:00 AM–5:00 PM
Saturday 10:00 AM–3:00 PM
Mr. Igwe Williams, Director, (212) 220-1384, Room S-510

The A. Philip Randolph Memorial Library

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
ACADEMIC PROGRAMS

BMCC offers a choice of many programs of study. The College awards the Associate in Arts (A.A.) degree; the Associate in Science (A.S.) degree; and the Associate of Applied Science (A.A.S.) degree. A student must have completed at least thirty credit hours in residence to be certified for a degree. For information concerning credits earned prior to attendance at BMCC, see p. 2.

DEGREE PROGRAMS*

A degree is granted upon satisfactory completion of required credits in the following approved programs:

**Associate in Arts degree (A.A.)**
- Art Foundations: Art History
- Childhood Education and Bilingual Childhood Education (First through Sixth Grades)
- Children and Youth Studies
- Communication Studies
- Criminal Justice
- Economics
- Ethnic Studies
- Gender and Women’s Studies
- History
- Liberal Arts
- Linguistics and Literacy
- Modern Languages
- Psychology
- Secondary Education in Social Studies
- Sociology
- Writing and Literature

**Associate in Science degree (A.S.)**
- Accounting for Forensic Accounting
- Animation and Motion Graphics
- Art Foundations: Studio Art
- Biotechnology Science
- Business Administration
- Child Care/Early Childhood Education
- Community Health Education
- Computer Science
- Digital Marketing
- Engineering Science
- Financial Management
- Geographic Information Science
- Gerontology
- Human Services
- Mathematics
- Mathematics and Science for Secondary Education
- Multimedia Programming and Design
- Music
- Public and Nonprofit Administration
- Public Health
- School Health Education
- Science
- Science for Forensics
- Science for Health
- Theatre
- Video Arts and Technology

**Associate of Applied Science degree (A.A.S.)**
- Accounting
- Business Management
- Computer Information Systems
- Computer Network Technology
- Health Information Technology
- Nursing
- Paramedic
- Respiratory Therapy
- Small Business/Entrepreneurship

Certificate Programs

- Accounting Certificate Program
- Health Informatics
- Spanish Translation for the Health, Legal, and Business Professions

In addition, the College awards certificates in the following programs: Accounting, Health Informatics and Spanish Translation for the Health, Legal, and Business Professions

* Effective Spring 2008, all entering students will be required to pass a writing intensive course beyond ENG 201 in order to graduate.

General Education Outcome Goals

A General Education is designed to help you achieve your academic, career, and life-long goals through participation in courses that foster the acquisition of knowledge, critical thinking, and use of methodologies in various disciplines, including the humanities and the social and natural sciences. The knowledge and skills you gain will help you succeed in all areas of your academic, professional, and social life. Regardless of which associate degree program you decide to pursue, you will receive a foundation in General Education.

1. Communication Skills

   Students will learn to write, read, listen and speak critically and effectively.

   Communication skills are vital for success in attaining both your academic and career goals. As a student, having effective communication skills will be crucial in written reports and in being able to successfully articulate points in oral presentations. In the workforce, employers expect you to be able to fluently get your message across in oral and written forms. You will acquire and reinforce these skills by taking courses in English and Speech, through enrolling in writing intensive courses, and through a variety of workshops offered by the College.

2. Quantitative Reasoning

   Students will acquire quantitative skills and the concepts and methods of mathematics to solve problems.

   Quantitative reasoning will teach you how to think logically and solve difficult problems. These skills are crucial for almost every academic and career task you will be asked to complete throughout your college life and in whatever career you choose to enter. You will acquire these skills by enrolling in courses such as mathematics and science and be reinforced through other major courses and college activities.

3. Scientific Reasoning

   Students will develop an understanding of, and be able to apply the concepts and methods of, the natural sciences.

   We live in a world where new developments in science are everyday occurrences that directly impact our personal, professional, and academic lives. To understand these
developments and live in such a world you will need to understand concepts and methods used in the natural sciences. You will learn these concepts and methods by taking a set of science courses. These courses will ask you to study real-world situations and actively engage in scientific data collection, create explanations, design experiments and evaluate theories, which will help you to comprehend the methods of scientific reasoning. In addition, you may also be asked to use your scientific knowledge for work in other courses for your major.

4. Social and Behavioral Sciences
Students will develop an understanding of, and be able to apply the concepts and methods of, the social sciences.

The social and behavioral sciences enable you to analyze the world in which you live, understand human behavior, develop sensitivity to various cultures, and appreciate how societies change—skills that are particularly crucial as you are preparing for a career in education, business, or law. The concepts, methods, and theories learned in this area of study can be applied to your every day work and personal life. The Social Sciences Department and the Department of Ethnic and Race Studies offer a wide range of courses and opportunities, including study abroad programs, that will help you acquire important knowledge and strengthen your perception of the world around you.

5. Arts and Humanities
Students will acquire a knowledge and understanding of languages, arts and cultures.

In any society, culture and the arts enable people to understand who they are while giving meaning to the world around them. In a city like New York, with such a diverse population, contributing to a rich cultural life, the ability to interpret the world through arts and languages is very important. At BMCC, you will have many opportunities to expand your knowledge of the arts and humanities by exploring classes in art and music, language, theatre or literature. These skills may also be enforced through participation in school exhibits, plays, and attendance of events that showcase the arts and humanities.

6. Information and Technology Literacy
Students will collect, evaluate and interpret information and effectively use information technologies.

Information technology, the ability to find, understand, and use information, is a foundational skill you will use throughout your entire academic career and it is in increasing demand in the workforce. You will be able to acquire the skills you will need through courses and learning experiences offered by every academic department at BMCC. In addition, workshops, tutors, as well as the latest technology found in the Library and the Learning Resource Center (LRC) will help you achieve this goal.

7. Values
Students will make informed choices based on an understanding of personal values, human diversity, multicultural awareness and social responsibility.

Your personal values and the choices you make define who you are as a person and how you will live your life. As a BMCC student, you will learn to appreciate diversity, work collaboratively, and reflect on ethical issues. These skills will be sharpened in almost every course offered by all the academic departments at BMCC and in every social and athletic activity to experience at the College.

Pathways
In fall 2013, CUNY implemented the Pathways initiative across its undergraduate colleges. Pathways has established a new system of general education requirements and new transfer guidelines across the University that reinforces CUNY’s educational excellence while easing student transfer between CUNY colleges. The centerpiece of this initiative is a 30-credit general education Common Core. Importantly, once fulfilled at one CUNY college, these general education credits will carry over seamlessly if a student transfers to another CUNY college. Pathways has also aligned gateway courses for a number of popular majors.

Credit
All courses and degree programs at the college comply with Section 50.1 (o) of the New York State Commissioner of Education Regulations: A Credit Hour is granted for the satisfactory completion of a course which requires at least 15 hours of instruction and at least 30 hours of supplementary assignments, except as otherwise provided pursuant to section 52.2(c)(4). This basic measure is adjusted proportionately to translate the value of other academic calendars and formats of study in relation to the credit granted for study during the two semesters that comprise an academic year.

Note: The course requirements that follow are NOT necessarily listed in the order in which they should be taken. Many courses have either prerequisites or corequisites. In planning programs, students must consult the appropriate departmental advisor.

Note: At BMCC, all academic departments have designated minimum reading, writing and/or mathematics levels necessary for enrollment in academic courses. These levels, or Basic Skills prerequisites, can be found in the Basic Skills Guide, the Academic Advisement and Transfer Center website at bmcc.cuny.edu/advisement. Students should consult the Guide in planning their academic schedules.
Accounting (ACC)
The Accounting Program is designed to provide students with a strong preparation in accounting, business and liberal arts. The Accounting Program prepares students for entry-level positions in the accounting field. In addition, a large percentage of students choose to continue their education at 4-year colleges in order to become certified public accountants (CPA). CPAs can start private practices specializing in tax, audit and consulting services. CPAs can often find employment in the public, private, government and not-for-profit sectors with opportunities in the financial, banking, insurance and health-related industries. BMCC has established transfer agreements with a number of 4-year colleges and universities. Upon completion of the requirements listed below, the Associate of Applied Science (A.A.S.) degree is awarded.

Evening/Weekend Accounting Program
In addition, BMCC offers an Associate of Applied Science (A.A.S.) degree in Accounting in an evening/weekend format. Students may complete their degree requirements by attending classes exclusively on Friday evenings and on the weekends.

Accounting Certificate Program (ACP)
The Accounting Department at BMCC offers a 30-credit non-degree certificate in accounting (ACP) that will allow students to earn accounting credits on an accelerated basis. This certificate program is designed for students who have earned baccalaureate degrees in disciplines other than accounting and would like to transition to a career in accounting without having to bear the cost of enrolling in a graduate program. Depending upon the student’s undergraduate degree/discipline, the ACP can be completed in three semesters. The credits earned in this program can be applied toward the required accounting courses needed for the Uniform CPA Exam. 1 In addition, depending upon the student’s undergraduate discipline/discipline, the ACP will provide students with a strong preparation to enter the upper division baccalaureate program in Economics with specialization in Forensic Financial Analysis at John Jay College of Criminal Justice. The curriculum emphasizes basic accounting principles and provides a foundation in business organization and management. The collegiate nature of the program will facilitate the transition to the professional portion of the curriculum.

Accounting for Forensic Accounting (FAC)
The Associate in Science degree in Accounting for Forensic Accounting consists of courses that allow students to pursue further education and careers in forensic accounting, accounting, auditing, and the financial operations and management fields. Upon successful completion of the lower division at BMCC, the program allows students to make a seamless transition into the upper division baccalaureate program in Economics with specialization in Forensic Financial Analysis at John Jay College of Criminal Justice. The curriculum emphasizes basic accounting principles and provides a foundation in business organization and management. The collegiate nature of the program will facilitate the transition to the professional portion of the curriculum.

Animation and Motion Graphics (ANI)
The Animation and Motion Graphics program provides students with the fundamentals of two- and three-dimensional (2D and 3D) animation, motion graphics, and special effects. Once necessarily hand-made, expensive and rare, animation has undergone a technical transformation and is now a ubiquitous part of special effect, advertising campaigns, video games, movies, and television.

Upon completion of the program requirements, the Associate in Science degree in Animation and Motion Graphics is awarded. Graduates of this program can enter a growing profession or transfer to bachelor-level programs in Animation at Lehman College or other media related programs at senior colleges.

Art Foundations: Studio Art (AFS)

The department of Music and Art offers the Associate in Science (A.S.) degree program in Art Foundations: Studio Art. The Art Foundations program seeks to educate students in the fundamentals of studio practice and art historical scholarship. Progressing through a broad and rigorous curriculum that encompasses the basics of fine and applied arts and art history, students will be better prepared to enter a variety of majors in a 4-year college and pursue occupations in the arts.

1 Students are recommended to take MAT 206.
2 Students are required to take CHE 230.
3 No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
4 Students are required to take CHE 240 and BTE 201.
5 Some of these credits can be satisfied by taking STEM variants in the Common Core.

Business Management (BEC)
The Business Management Department awards an Associate of Applied Science degree (A.A.S.). After completion of the first semester of work, which includes basic courses in business and the liberal arts, students may prepare for employment or continued study in a specific area of business management.

Distance Learning Business Management Degree
BMCC also offers an Associate in Applied Science (A.A.S.) degree in Business Management in a distance learning format. Under State Education guidelines, students may earn credits through distance learning if at least 50% of the curriculum is earned through successful completion of online courses in the degree.

2 Consult with an advisor on which courses to take to satisfy these areas.
3 No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
4 These areas can be satisfied by taking a STEM variant.
5 Choose one course from FNB 100, BUS 201, BUS 150, SBE 100, BUS 225, or ACC 222.
6 This credit may be satisfied if a student takes a STEM variant in the Common Core.
Degree Programs

Child Care/Early Childhood Education (ECE)
The Child Care/Early Childhood Education Program provides a core of Liberal Arts courses as well as specialized courses in child care and early childhood education. The program offers two career areas of study: Infant Toddler and Pre-School/Early Elementary.

Students will find many career choices in the Child Care curriculum. These include working directly with children in early childhood education settings such as child care centers, Head Start programs, pre-kindergarten, kindergarten, and first and second grade classrooms. Upon satisfactory completion of program requirements, the Associate in Science (A.S.) degree is awarded. Students are advised to visit the department to discuss their plans for transferring to a 4-year college before choosing their courses.

Evening/Weekend Child Care/Early Childhood Education
In addition, BMCC offers an Associate in Science (A.S.) degree in Child Care/Early Childhood Education with a focus on Preschool and Early Elementary School in an evening/weekend format. Students may complete their degree requirements by attending classes exclusively on Friday evenings and on the weekends.

Required Common Core
- English Composition
- Mathematical and Quantitative Reasoning
- Life and Physical Sciences

Total Required Common Core: 30

Flexible Core
- Creative Expression
- World Cultures and Global Issues
- U.S. Experience in Its Diversity
- Individual and Society
- Scientific World

Total Flexible Core: 18

Curriculum Requirements
- ECE 110 Psychology Foundations of Early Development and Education
- ECE 210 Social Foundations of Early Care and Education
- XXX xxx Modern Language Course
- XXX xxx General Elective

Specialization Requirements
- Infant/Toddler Specialization Requirements
- ECE 209 Infant Care and Curriculum

Total Curriculum Credits: 60

FOOTNOTES
1. Students are advised to take MAT 214.
2. No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
3. Students are advised to take SPE 102.
4. Students interested in the Risk Management & Insurance concentration are strongly advised to take MAT 206.
5. No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
6. These credits can be satisfied by taking STEM variants in the Common Core.

Childhood Education (EDU) and Bilingual Childhood Education (EDB) (FIRST THROUGH SIXTH GRADE)
The Childhood Education Program offers a liberal arts degree that prepares students to continue in a teacher education program at a senior college in order to become certified in Childhood Education or Bilingual Childhood Education (first through sixth grades). The program is designed for a seamless transfer to the teacher education program at City College. After meeting BMCC/CCNY requirements (minimum of 2.5 GPA, completion of all courses in the curriculum with grades of "C" or above, an interview with City College School of Education faculty, and a passing score on the LAST or City College SEAT), students in this jointly registered program are accepted at the School of Education at City College where they can complete the Bachelors of Science in Education and apply for initial teaching certification for first through sixth grades. In addition to meeting general education requirements for education majors at the four year college level, the EDU and EDB programs offer transferable courses in education. Students will participate in classrooms for elementary school age children as part of their coursework. Upon satisfactory completion of 60 credits, the Associate in Arts (A.A.) degree is awarded.

Required Common Core
- English Composition
- Mathematical and Quantitative Reasoning
- Life and Physical Sciences

Total Required Common Core: 30

Flexible Core
- Creative Expression
- World Cultures and Global Issues
- U.S. Experience in Its Diversity

Total Flexible Core: 12

FOOTNOTES
1. Students are advised to take MAT 214.
2. No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
3. Students are advised to take SPE 102.
4. Students are advised to take PSY 100.
5. Students are advised to take two semesters of the same Modern Foreign Language to graduate. One semester can be satisfied by taking a Modern Foreign Language in the World Cultures and Global Issues category in the Common Core. Please note: ITL 101 and ITL 102 do not satisfy the Modern Foreign Language requirement.
6. These credits can be satisfied by taking STEM variants in the Common Core.

Children and Youth Studies (CYS)
Offered by the Department of English, the Associate in Arts degree in Children and Youth Studies offers a holistic and comprehensive perspective on children and young people. The program also provides a diversity of career opportunities that are available for working with or for children. This program provides students with the education and background to pursue further graduate and professional training and careers related to children and young people. Examples of some of the many career paths that students can take with a degree in Children and Youth Studies include child life specialist, children publishing industries, education, juvenile justice, etc. Students completing this program can transfer seamlessly into the B.A. degree in Children and Youth Studies at Brooklyn College/CUNY without the loss of credits.

Notes:
1. Students are strongly advised to take a Modern Language course.
2. Students are strongly encouraged to take SOC 100.
3. Students are strongly encouraged to take PSY 100.
4. Students are required to take two semesters of the same modern
   language. One semester of the language can be taken in the
   World Cultures and Global Issues area in the Common Core.
5. These credits can be satisfied by taking STEM variants in the
   Common Core.

Communication Studies (COM)
The Communication Studies program builds
students’ understanding and skills in communicating
with others across many contexts: one-on-one,
small groups, mass audiences, electronic, and
across cultures. It prepares them for careers in
such areas as advertising, corporate communications,
counseling, event planning, human resources,
marketing, media planning, political campaign
management, public relations, teaching, as well as
being a self-employed entrepreneur. The program
is articulated with the Communication Studies
program at Brooklyn College and the CUNY online
BA Program in Culture and Communication. It is
transferable to other CUNY schools as well as
colleges and universities both public and private.

2. Two of these areas can be satisfied by taking a STEM variant.
3. No more than two courses in any discipline or interdisciplinary field can
   be used to satisfy Flexible Core requirements.
4. Choose two courses (for 6 total credits) from any COM courses.

Community Health Education (COH)

Community Health Education is an exciting
and growing profession that can lead to jobs
all over the world in public health agencies,
voluntary nonprofit organizations, schools,
colleges, universities, medical care settings,
business/industry and more! Community Health
Education majors develop practical skills and
a sound knowledge of public health and health
promotion theories. They learn to positively
influence the health behavior of individuals,
groups, and communities while addressing the
lifestyle factors (i.e., nutrition, physical activity,
sexual behavior and decision-making) and living
and working conditions that influence health.

Distance Learning Community Health
Education Degree
BMCC also offers an Associate in Science (A.S.)
degree in Community Health Education in a
distance learning format. Under State Education
guidelines, students may earn a degree through
distance learning if at least 50% of the curriculum
is earned through successful completion of online
courses in the degree. Students may complete
50 to 80% of the Community Health Education
degree by successfully passing appropriate BMCC
online courses.

Degree Programs

DIGITAL MARKETING • ECONOMICS • ENGINEERING SCIENCE

Criminal Justice (CRJ)

Criminal Justice includes the study of criminal behavior, exploring its causes, effects, prevention, and intervention, as well as social, legal, and institutional responses to crime. The Criminal Justice Program provides multidisciplinary study of the structure, administration, and dynamics of the criminal justice system, a network of agencies at the local, state and federal levels. Courses examine theories of offending and victimization, as well as components of the criminal justice process, such as policing, the courts, and corrections. The program strongly promotes critical thinking on the competing ideologies of crime, social responses to crime, and the disparities evident in the criminal justice system.

The Criminal Justice degree program consists of 60 credits, and upon completion of requirements, students are awarded an Associate in Arts (A.A.) degree. The Criminal Justice Program provides students with a solid foundation necessary to continue their education through pursuit of a Bachelor's Degree, and higher, providing readiness for a range of career options. Upon degree completion at BMCC, students may apply to transfer anywhere. This includes transfer opportunities supported by articulation agreements with other colleges, including the option to seamlessly transition to John Jay College through the CUNY Justice Academy, or to transfer to Alfred University, or Metropolitan College of New York.

1 Consult with an advisor on which courses to take to satisfy these areas.
2 These areas can be satisfied by taking a STEM variant.
3 No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
4 Students are required to take two semesters of the same Modern Foreign Language to graduate. One semester can be satisfied by taking a Modern Foreign Language in the World Cultures and Global Issues category in the Common Core. Please note: ITL 170 does not satisfy the Modern Foreign Language requirement.

Digital Marketing (DMA)

The Department of Business Management offers the Associate in Science (A.S.) in Digital Marketing. The program aims to lessen the skills gap in the digital marketing industry and to develop a pipeline of skilled talent. Students in this program will gain a strong foundation needed for a career in digital marketing. Students completing the A.S. degree in Digital Marketing can transfer seamlessly into the B.A. degree in Advertising and Public Relations at City College of New York/CUNY without the loss of credits.

FOOTNOTES

1 No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
2 Students who take ECO 201 and/or ECO 202 to satisfy a Flexible Core requirement will be able to substitute a general elective to satisfy this requirement.
3 If students take MAT 301 to satisfy their Mathematical and Quantitative Reasoning requirement, they are advised to take MAT 302.
4 Choose any anthropology, geography, history, philosophy, political science, psychology, sociology, or any Ethnic Studies social science course.
5 These credits can be satisfied by taking STEM variants in the Common Core.

Engineering Science (ESC)

The Department of Science offers an A.S. degree program in Engineering Science. The program provides students with the basic education necessary to enter the third year of an engineering major. Its objectives are to offer a curriculum that meets the needs and interests of engineering oriented students enrolled at the College; to include in this curriculum the basic science and mathematics of the first years of an engineering education; and to prepare students to successfully pursue their education in the upper division of engineering programs which lead to careers for chemical, mechanical, civil, electrical, computer and other engineering specializations. The curriculum includes courses in the physical sciences, computer methods and mathematics, as well as the liberal arts courses required in engineering programs.

Ethnic Studies (ETH)
The Associate in Arts (A.A.) degree in Ethnic Studies aims to develop students’ core competencies in the social sciences, arts and humanities while examining the experiences, histories and formation of diverse racial and ethnic groups in the United States and globally. The program will prepare students for a broad range of academic and professional careers in the public and private sectors. Students will analyze the interrelationships among historical background, cultural patterns, artistic expressions, and politics in order to achieve a well-rounded, interdisciplinary degree.

Gender and Women’s Studies (GWS)
The Department of Social Sciences, Human Services and Criminal Justice and Speech, Communications, and Theatre Arts offer an interdisciplinary major in Gender and Women’s Studies leading to an Associate in Arts degree. This major focuses on gender as the object of analysis and addresses the many issues, inequalities, social constructions, and realities that gender presents in our contemporary society and throughout history. It draws on theories and methods from the humanities and social sciences to place women and other marginalized groups at the center of learning and to critically analyze the ways in which gender intersects with race, ethnicity, nationality, class, sexuality, sexual identity, disability, and other social categories. This program has articulation agreements with Brooklyn College and John Jay College of Criminal Justice.

Financial Management (FIN)
The Department of Business Management offers the Associate in Science (A.S.) in Financial Management that provides students with a solid foundation to pursue bachelor degrees in finance, business or financial economics. The curriculum addresses all areas that BMCC identifies as needed to obtain the Bachelor of Business Administration degree and to achieve a well-rounded, well-prepared student for the workforce. Students completing this program can transfer seamlessly into the B.A. degree in Business Administration at Lehman College/CUNY without the loss of credits.

Geographic Information Science (GIS)
The Associate in Science (A.S.) degree in Geographic Information Science (GIS) program teaches students the theory and applications of Geographic Information Systems (GIS). GIS is used to capture, manage, analyze, and display spatial information. For example, GIS is used to identify the location of businesses and services, such as Google Maps, Google Earth and global positioning systems (GPS).

The program, jointly offered by the Computer Information Systems and Social Sciences, Human Services and Criminal Justice departments, will prepare BMCC graduates to obtain entry-level positions in the field. Many businesses, local governments, and scientific organizations currently utilize GIS to enhance their productivity and increase their ability to compete in the marketplace. The curriculum also facilitates transfer to a senior college, such as Hunter College, with 60 credits towards the Bachelors of Arts (B.A.) degree in Geography with a concentration in GIS. The program offers internship opportunities in a variety of sectors utilizing GIS and prepares them for the careers.

Gerontology (GER)
The departments of Health Education and Social Sciences, Human Services and Criminal Justice offer the Associate in Science (A.S.) degree program in Gerontology. The curriculum includes lower division courses in health education, social sciences, humanities, biology and mathematics. This interdisciplinary program introduces students to career fields in aging; prepares students to enter the workforce to care for, treat and serve an increasing number of aging population; and to ready students for transfer to senior colleges in academically rigorous disciplines such as gerontology, community health, public health, geriatric care management and health services administration. Students completing the A.S. degree in Gerontology can transfer seamlessly into the bachelor degree program at York College/CUNY without the loss of credits.

Health Information Technology (HIT)

The Health Information Technology Program, administered by the Allied Health Sciences Department, equips students with the competencies to use manual or computerized health information systems that collect data for analysis, interpretation and dissemination to physicians, patients, public/private agencies, and other health care facilities. Health information maintained within the manual or electronic files can be used for quality assurance, subsequent patient care, medical research, financial reimbursement and legal purposes. Upon successful completion of the requirements listed, students receive the Associate of Applied Science (A.A.S.) degree and are eligible for the certification examination offered by the American Health Information Management Association.

Program Policies: In order to maintain eligibilty in the program, students must attain an average of "C" or better in all HIT courses, including CIS 106 and CIS 206. Students who fail any Health Information Technology course, including CIS 106 and CIS 206, may repeat such course only once. Students who have been academically dismissed must attain a Grade Point Average (GPA) of 2.0 or above in order to re-enter the Health Information Technology program. BMCC students wishing to transfer into Health Information Technology must also have attained a GPA of 2.0 or above.

Note: Admission to the HIT sequence occurs in Fall only. HIT courses are offered only during the day, Mondays through Fridays. All students are required to show proof of physical examination, per New York State Department of Health requirements for hospital personnel.

History (HIS)

The History program provides students with the knowledge and tools vital for thriving in an increasingly competitive global world. History is an ongoing engagement with individuals across a range of cultures, traditions, and ways of seeing. In addition, the study of history reveals to students that the questions and concerns of the past are often strikingly similar to those with which we wrestle today. Upon successful completion of the requirements listed below, students earn an Associate in Arts (A.A.) degree. The program also facilitates transfer to a senior college, such as John Jay College of Criminal Justice, with 60 credits towards the Bachelor of Arts (B.A.) degree in Global History.

Human Services (HUM)

The Human Services program is designed for students who wish to prepare themselves for careers that focus on helping people solve problems and live more satisfying lives. These careers may encompass jobs in the following general areas: social work, counseling, rehabilitation, recreation, child welfare, public welfare, social security, developmental and physical disabilities, substance abuse, and services for older adults and others.

Students receive an Associate in Science (A.S.) degree upon successful completion of the program.

Distance Learning Human Services Degree

BMCC also offers an Associate in Science (A.S.) degree in Human Services in a distance learning format. Under State Education guidelines, students may earn a degree through distance learning if at least 50% of the curriculum is earned through successful completion of online courses in the degree. Students may complete 50 to 80% of the Human Services degree by successfully passing appropriate BMCC online courses.

### FOOTNOTES

1. Consult with an advisor on which courses to take to satisfy these areas.
2. These areas can be satisfied by taking a STEM variant.
3. No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
4. Students are required to take two semesters of the same Modern Foreign Language to graduate. One semester can be satisfied by taking a Modern Foreign Language in the World Cultures and Global Issues category in the Common Core. Please note: ITL 170 does not satisfy the Modern Foreign Language requirement.
5. Choose from any English (ENG) 300-level course, or any ASN, AFN or LAT 300-level literature course.
6. Choose two from anthropology, economics, geography, history, philosophy, political science, psychology or sociology. Two different disciplines must be taken and cannot be from the same disciplines as satisfied in the Common Core.
7. No more than 6 credits from career department courses can be taken.

### Creative Expression (CRE)

---

**Liberal Arts (LIB)**

The Liberal Arts Program at Borough of Manhattan Community College provides each student with a broad background in the sciences, humanities, mathematics, and languages. The Liberal Arts Program awards the Associate in Arts (A.A.) degree.

This program provides a variety of courses in many different areas. Students who choose the Liberal Arts program are usually interested in preparing for careers in teaching, law, medicine, the humanities, the social sciences, counseling, journalism, or other broad areas.

**Evening/Weekend Liberal Arts Program**

In addition, BMCC offers an Associate Arts (A.A.) degree in Liberal Arts in an evening/weekend format. Students may complete their degree requirements by attending classes exclusively on Friday evenings and on the weekends.

**Distance Learning Liberal Arts Degree**

BMCC also offers an Associate in Arts (A.A.) degree in Liberal Arts in a distance learning format. Under State Education guidelines, students must earn a degree through distance learning if at least 50% of the curriculum is earned through successful completion of online courses in the degree. Students may complete 50 to 80% of the Liberal Arts degree by successfully passing appropriate BMCC online courses.

**Mathematics (MAT)**

The Department of Mathematics offers an A.S. degree in Mathematics. The program is designed to provide students with the first two years of study required to majors in mathematics at the senior college level and is also suitable for students who wish to minor in mathematics at the senior college level. In addition the program provides the foundation for specialization along any of the following: graduate studies in mathematics leading to the masters or doctoral degrees; professional in the field of mathematics education; professions requiring substantial mathematics preparation (e.g., statistician, actuary, engineering, medical or physical sciences, economics, etc.)

In addition to certain prescribed courses in liberal arts and required coursework in elementary calculus and linear algebra, the curriculum offers additional selections from among the following: ordinary differential equations, advanced calculus, abstract algebra, history of mathematics, statistics, and computer programming.

---

**Mathematics and Sciences for Secondary Education (SED)**

The Secondary Education Program offers students a solid foundation in the liberal arts and sciences, as well as educational foundations and subject concentration courses. The Secondary Education Program offers students the choice of a major focusing in four teaching subject areas: Secondary Mathematics Education (SEM Major), Secondary Biology Education (SEB Major), Secondary Chemistry Education (SEC Major), and Secondary Physics Education (SEP). The courses in all four secondary education majors provide beginning preparation for later studies at a senior college, with the ultimate goal of obtaining initial New York State certification for secondary school teachers (in the specific subject concentration of Mathematics, Biology, Chemistry or Physics). Students in the Secondary Education Program will need to continue their academic work at a senior college after completing their degree at BMCC and to obtain a BA degree, along with other state requirements, to become a certified teacher. Our Secondary Education Program has an articulation agreement with Lehman College within CUNY. Upon completion of the program requirements in either SEM, SEB, SEC or the SEP major, an Associate in Science (A.S.) in Secondary Education degree is awarded.

Modern Languages (MLD)
The Department of Modern Languages offers the Associate of Arts (A.A.) degree program in Modern Languages with specializations in French, Italian, Spanish, and Spanish Translation & Interpretation. This interdisciplinary major will provide students with the necessary foundation in language skills and cultural literacy to engage in a professional career. In addition, this program fully articulates with Hunter College’s modern language bachelor degree programs.

1 Consult with an advisor on which courses to take to satisfy these areas.
2 No more than two courses in any discipline or interdisciplinary field can be used to satisfy Flexible Core requirements.
3 These areas can be satisfied by a STEM variant.

Multimedia Programming and Design (MMD)
The Multimedia Programming and Design program prepares students for careers in a variety of industries, companies and institutions that develop, produce or market multimedia products, programs or services. The program instructs students in the design and programming of computer-based interactive products that incorporate text, graphics, sound, animation and video. It also develops different types of talent, both creative and technical, with the imperative that each understands the work of the other so that they can collaborate effectively. Upon successful completion of the curriculum, students are awarded an Associate in Science degree (A.S.).

Music (MUS)
The department of Music and Art offers the Associate in Science (A.S.) degree program in Music with specializations in Music Studies, Music Education or Music Performance. The Music program seeks to educate students in the fundamentals of music, as well as more specialized topics in music education and music performance. Progressing through a

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
brief and rigorous curriculum that encompasses the basics of music theory, keyboard skills, ear-training and sight-singing, students will be prepared to enter a variety of majors at senior colleges and pursue a range of occupations in music. Students interested in pursuing the Music Education and Music Performance specializations will be required to do an audition to gain admissions.

This program articulates with Lehman College’s Music program. Please note, Music majors who elect to take the concentration in Music Education should be aware that completion of the AS in music education does not guarantee admission into a music education program at CUNY’s senior colleges, nor does it ensure New York State certification. However, all the core courses in education do articulate agreements with the CUNY system and transfer for equivalent credit. Courses within the music education concentration were developed following the guidelines of New York’s State Office of College and Education with the intention of fulfilling some of the requirements for eventual certification.

FOOTNOTES

1. Students must take Music Theory I & II (MUS 117/118) (for Music Studies, Education or Performance specializations or Music Theory I (MUS 117) and Jazz and Popular Music Theory I (MUS 137) for the Jazz and Popular Music specialization). The prerequisite for Music Theory I (MUS 117) is MUS 105 Basic Music, or by department placement exam. If the department placement exam results in a student not being required to take either level, the student shall make up the credits with program electives.

Admission Policy

As of fall 2010, incoming students seeking a nursing degree at BMCC will be admitted into the nursing program as an Undeclared Health (UDH) major. All student records are compiled by the Nursing Academic Advisor and reviewed by the Department’s Students/Admissions Committee in order to determine eligibility into the Nursing Program.

Students must meet the following criteria:

• Pass the CUNY Assessment Tests in reading, writing and mathematics.

• Complete the five required prerequisite courses (ENG 101, PSY 100, MAT 104, “CHE 121, and BIO 425) with a minimum Grade Point Average (GPA) of 2.5; the lowest acceptable grade in any one of the required prerequisite courses is “C.” The department has a limit on the number of majors allowed into the nursing program. While a GPA of 2.5 in the required prerequisite courses and an overall GPA of 2.5 are the minimum requirements for consideration of an application, these do not guarantee admission into the nursing program.

• The Department accepts CUNY’s policy in reference to the “F” and “C” grade (policy adopted 9/1990) for non-nursing courses. Effective Spring 1995, the “F” and “C” policy does not apply to Nursing courses and the five required prerequisite courses (ENG 101, PSY 100, MAT 104, “CHE 121, and BIO 425). Source: CUNY “F” grade policy (revised 9/1/94).

• Attend an overall college cumulative average of 2.5 minimum. This average includes grades for ALL courses applicable to the Nursing Curriculum taken at or transferred into BMCC before admission into the Nursing Program.

• Attend a successful score on the Kaplan Nursing Admission Test (KNAT) taken at the College. KNAT scores from other nursing schools will not be accepted. This examination

Nursing NUR

The Nursing Department (Accredited by The Accreditation Commission for Education in Nursing (ACEN), Inc. and registered by the New York State Education Department [HEGIS CODE 5208.10]) offers a program that prepares students to become competent members of the health care team, qualified to render effective nursing care in health service agencies, hospitals, and community and long-term care facilities. The nursing program is a combination of classroom theory and practice of clinical skills in selected health care facilities and in the College nursing skills and simulator laboratories. Graduates are well prepared to be collaborative health care providers responsible for facilitating maintenance of health, improvement of health status, prevention of illness and alleviation of suffering.

Upon successful completion of 65 credits, the Associate of Applied Science (A.A.S.) Degree with a major in Nursing is granted and students are eligible to take the National Council Licensure Examination for Registered Nurse (NCLEX-RN).

Additionally, to qualify for a license as a registered professional nurse, applicants must be of good moral character and at least eighteen years of age. All applicants who have been found guilty of a crime and/or have pending criminal charges (felony or misdemeanor) must submit a letter to the Office of the Professions of New York State giving complete explanation. The applicant’s eligibility for licensure will then be determined.

Note: The Accreditation Commission for Education in Nursing (ACEN), Inc. located at: 3343 Peachtree Road NE, Suite 850 Atlanta, Georgia 30326. Phone: (404) 975-5000, Fax: (404) 975-5020, Web: www.acenursing.org.
**Degree Programs**

**NURSING**

may be taken for a maximum of two times but NOT in the same semester. To reserve a seat for the KNAT, eligible BMCC students MUST:

1. Complete the Nursing Program Admission Checklist to determine eligibility to take the KNAT with the Nursing Academic Advisor during Early Academic Advisement in the Spring and the Fall semester.

2. It is highly recommended that students complete BIO 426 prior to taking the KNAT.

3. Once eligibility is determined then the Nursing Academic Advisor will provide the student to complete the Nursing Program Admission Application.

   *Note: CHE 121 will be included into this policy upon NYSED approval of CHE 121 as part of Nursing Program effective Fall 2020.*

   **To be eligible to take the KNAT, applicants to the Nursing Program, students must provide documentation for one of the following categories:**

1. U.S. citizenship
2. Permanent residency
3. International student with F1 status
4. Granted asylum, refugee status, temporary protected status, withholding of removal, deferred enforcement, or deferred action status by the U.S. government

Please note that the CUNY Citizenship and Immigration Project will provide free counseling and assistance to all CUNY students who need help with their immigration status. For more information visit: http://www.cuny.edu/about/resources/citizenship.html

The College does not maintain a waiting list for admission into the nursing program. Some students have found it necessary to apply two or three times before being admitted to the nursing program, however, other eligible students with a lower GPA than the aforementioned students in the five required prerequisite courses, have not been admitted in successive years.

*Note: Undeclared Health major (UDH) students who have not been admitted into the nursing program by the completion of the third attempt for each prerequisite course previously successfully completed; and (3) take and pass the skills practicum for admission into the Day and Evening/Weekend Clinical Nursing programs, respectively.*

The following is the current policy of the Nursing Department regarding a change of major (E.g., Undeclared Health (UDH) and non-UDH) applying to enter into Nursing (NUR):

a. All remedial requirements must be completed before a change of curriculum into nursing will be considered by the Nursing Department.

b. A change of major into nursing is based on the competitive average in the five required prerequisite courses (ENG 101, PSY 100, *CHE 121, and BIO 425) and in the overall GPA of the required prerequisite courses as part of the criteria for determining the eligibility for the Nursing Program.

c. A grade of “D” is not transferable into the Nursing Program, although it is transferable into the College. Therefore, if a grade of “D” in a required prerequisite course is transferred into the College for credit, the student is automatically ineligible for entry into the Nursing Program.

*Note: CHE 121 will be included into this policy upon NYSED approval of CHE 121 as part of Nursing Program effective Fall 2020.*

**Change of Major Policy**

Change of Major Policy

Students who want to transfer from the Day Program to the Evening Program or vice versa must also fill-out and submit the Nursing department the “Request for Re-entry” form. The college does not guarantee re-entry into the Nursing Program.

**Student Disciplinary Policy**

The Nursing Department’s guidelines for student behavior are consistent with that of the College. Students are expected to adhere to the American Nurses Association (ANA) Code of Ethics for Nurses and demonstrate professional behavior. Students who do not adhere to departmental policies may be subject to formal disciplinary procedures as outlined in Articles 15.3 to 15.5 of the Board of Trustees’ CUNY Bylaws.

**Part-Time Evening/Weekend Nursing Program**

Borough of Manhattan Community College has established an evening/weekend Associate Degree in Nursing Program for part-time students. The BMCC program is designed to be completed by the part-time student in three years. This program is intended to fulfill goals and aspirations of a large segment of New York City residents who have been denied access into nursing degree programs in the City University due to financial constraints.
and/or family obligations that require them to engage in full-time employment during the day hours. All students in the Evening/Weekend Nursing Program must complete the five required prerequisite courses plus BIO 426 and BIO 420 before beginning nursing program.

Note: Applicants for admission to the Nursing Program will be required to meet the physical and mental health standards set forth by the College and affiliating agencies. All students are required to show proof of physical examination for clinical placement, per New York State Department of Health requirements for hospital personnel. All students must show proof of current CPR certification for health care personnel.

**FOOTNOTES**

1. No Pharmacology course (dosage and calculation preparation and administration of medications) is equivalent to MAT 104.
2. For students whose first language is not English, SPE 102 will satisfy this requirement.

**Paramedic (EMC)**

The Paramedic Program, administered by the Allied Health Sciences Department, offers students an essential foundation in both business management and public and nonprofit sector administration. Graduates of this program will be highly competitive and can maximize their access to career paths beyond private-profit sector business. Upon successful completion of this program, students will earn an associate in science (A.S.). This program fulfills articulation agreements with community colleges and four-year institutions.

**Program Policy:** In order to maintain eligibility in the program, students must attain an average of “C” or better in all EMC-courses. Students who fail any course must repeat the entire program. Students who have been academically dismissed must attain a Grade Point Average (GPA) of 2.0 or better in order to re-enter the Paramedic Program. Upon successful completion of the 2-year curriculum, students will be awarded the Associate of Applied Science degree. Upon completion of the Paramedic portion of the program, students will be eligible to take the New York City Medical Advisory Committee (MAC) Certification Examination, the National Registry of EMT/Paramedics Certification Examination, Basic Cardiac Life Support Certification, and Advanced Cardiac Life Support Certification.

Advanced standing status will be considered. New York State Licensed Paramedics are granted advanced academic standing and have the opportunity to complete the liberal arts and sciences sequence and earn the A.A.S. degree.

Note: Admission to the Paramedic sequence occurs in Fall only. All students must complete any remedial requirements prior to admission to the Paramedic sequence. All students are required to show proof of physical examination, per New York State Department of Health requirements for hospital personnel. All students must be currently licensed New York State EMT's and have a GPA of 2.0 or better.

Public Health (PHE)
The Department of Health Education offers a major in Public Health leading to an Associate in Science degree. This program aims to professionally prepare students for careers in public health and transfer to senior college programs. This program has articulation agreements with York College.

Distance Learning Public Health Degree
BMCC also offers an Associate in Science (A.S.) degree in Public Health in a distance learning format. Under State Education guidelines, students may earn a degree through distance learning if at least 50% of the curriculum is earned through successful completion of online courses in the degree. Students may complete 50 to 80% of the Public Health degree by successfully passing appropriate BMCC online courses.

Respiratory Therapy (RTT)
The Respiratory Therapy Program, administered by the Allied Health Sciences Department, provides students with the necessary skills and experience to become competent respiratory therapists. Students receive specialized training in the clinical care of patients with cardio-respiratory problems. Upon completing the requirements listed below, students receive the Associate of Applied Science (A.A.S.) degree and are eligible to take the Certification and Registry Examinations given by the National Board for Respiratory Care, Inc.

Program Policies: Respiratory Therapy students have one opportunity to FAIL or WITHDRAW in each one of the following: RTT 100, 101, 201, 202, 210, 301, 302, 310, 320, 401, 403, and 410. Students repeating a Respiratory Therapy Course are required to earn a grade of “C-” (77–79) or higher in order to pass that repeated course. Students repeating a Respiratory Therapy Course that receive a “C-” (73–76) or less will receive the grade earned, but the student will NOT be allowed to continue in the Respiratory Therapy Program.

Note: Admission to the RTT sequence occurs in Fall only. All students must complete any remedial requirements prior to admission to the RTT sequence. All students are required to show proof of physical examination, per New York State Department of Health requirements for hospital personnel.

Science for Forensics (FSC)

The Department of Science offers an A.S. degree in Science for Forensics/B.S. Forensic Science joint degree program with John Jay College of Criminal Justice. At BMCC, students complete the A.S. Science for Forensics degree. The lower division curriculum includes the biology, chemistry, mathematics, and physics courses that are prerequisites for the upper division forensic science courses. Liberal Arts courses completed in the A.S. degree meet core requirements for the B.S. at the John Jay College of Criminal Justice. Students complete the upper division courses to earn the B.S. in Forensic Science at John Jay College of Criminal Justice. The major in Forensic Science is designed to provide academic and professional training for students seeking to work in forensic science laboratories as either researchers or administrators.

Degree Programs

SMALL BUSINESS/ENTREPRENEURSHIP • SOCIOLOGY • SPANISH TRANSLATION FOR THE HEALTH, LEGAL, AND BUSINESS PROFESSIONS

Small Business/Entrepreneurship (SBE)

The Small Business/Entrepreneurship program is a 2-year program leading to the Associate of Applied Science (A.A.S.) degree. The program is designed to prepare students with the necessary skills to start their own business or to be a successful employee of a small business. The program features four courses specifically designed to help students begin their own business.

Distance Learning Small Business Entrepreneurship Degree

BMCC also offers an Associate in Applied Science (A.A.S.) degree in Small Business Entrepreneurship in a distance learning format. Under State Education guidelines, students may earn a degree through distance learning if at least 50% of the curriculum is earned through successful completion of online courses in the degree. Students may complete 50 to 80% of the Small Business Entrepreneurship degree by successfully passing appropriate BMCC online courses.

Sociology (SOC)

The Social Sciences, Human Services and Criminal Justice department offers a program in Sociology leading to an associate in arts degree. This program offers a comprehensive general education preparation, as well as a solid foundation for continuing on to a four-year institution to pursue a bachelor’s degree in sociology.

Sociology is the scientific study of society. It is a social science that studies social interactions and structures, as well as stability and change in social life. It considers how social relationships influence individual behavior, and how societies (the sum total of those relationships) develop and change over time. Sociology covers everything from the analysis of brief, wordless contacts between strangers on a train to the rise of social movements and of global, socio-technological processes.

Applied sociology uses the “sociological imagination” to analyze and address problems in human behavior and society; such efforts include urban planning and community organizing.

Spanish Translation for the Health, Legal, and Business Professions (STR)

The Department of Modern Languages offers a 15-credit non-degree certificate in Spanish Translation for the Health, Legal and Business Professions. The certificate program will provide students with the necessary skills to become translators in positions requiring linguistic background in health, legal, and business concepts and terminology. Responding to the need for more translators in the Business, Health, and Legal fields, this program prepares students for an in-demand and fast-growing profession. This certificate program is also offered in an online format.

Theatre (THE)

The Theatre Program at BMCC offers a competitive edge to students who are considering a career in the entertainment field as well as for students who want to continue their education toward a baccalaureate degree at a 4-year college. BMCC offers the only performance-based theatre major at a community college in New York. Students study acting, technical theatre, and theatre history. Students produce a play, taking it from page through final production. In addition, they have an opportunity to intern with the Tribeca Performing Arts Center and other New York theaters. BMCC Theatre students graduate with an Associate in Science degree (A.S.) and a solid foundation in the liberal arts and sciences, with real life experience in the theatre.

Video Arts and Technology (VAT)

This program, administered by the Media Arts and Technology Department, provides a dynamic education in video, audio and television production. The program prepares students for positions in entertainment, journalism, audiovisual production, broadcast and cable networks, and corporate communications departments. It combines extensive hands-on experience with theoretical coursework in a comprehensive academic program. VAT students work in a digital environment in BMCC’s state of the art television studios, audio studio, and postproduction laboratories. Students learn the entire process for creating professional video and audio programs from writing a script and creating a budget, to shooting a scene and editing a final cut.

Upon successful completion of the requirements listed below, students earn an Associate in Science (A.S.) degree. Most VAT courses are restricted to students enrolled in the program.

4 THE 127 and THE 128 can be taken more than once for credit.
Writing and Literature (ENG)

The English Department offers an A.A. degree in Writing and Literature. The program is designed for students who wish to major or minor in English at 4-year colleges and are considering careers demanding special proficiency in writing and reading, such as journalism, creative writing, professional writing, or teaching English. The Writing and Literature Program may also benefit students who wish to pursue majors other than English but intend to enter professions, such as law or business, in which advanced literacy and writing ability are valuable. Students in the program will receive the first two years of a broad liberal arts education with special attention to their development as writers and to their knowledge of literature.

ACADEMIC and CRITICAL READING

Academic and Critical Reading I  
ACR 94  0 cr. 6 hrs.
This introductory college level reading course emphasizes improved reading comprehension through the practice of literal, inferential and critical reading skills, vocabulary development, writing, flexible reading rates, and study skills. A variety of materials is used to enrich students’ basic understanding of reading.

Academic and Critical Reading II  
ACR 95  0 cr. 6 hrs.
This advanced reading course is designed to help students master a full range of college-level reading and related skills, including critical comprehension, vocabulary, writing, flexible rates of reading, and study strategies. A variety of college-level materials is used.

Accelerated Academic and Critical Reading  
ACR 96  0 cr. 3 hrs.
This advanced level reading course is designed to help students master and apply a full range of college level reading, and related skills, including critical comprehension, vocabulary, writing, flexible rates of reading, and study strategies. A variety of college-level materials is used.

Literacy in American Society: Context & Practices  
ACR 150  3 hrs. 3 crs.
Literacy in American Society asks students to investigate the varieties of literacy behaviors in American society as sociocultural phenomena. Students will be exposed to the research of major scholars in the interdisciplinary field of literacy research (e.g., New Literacy Studies) as a means of considering the role literacy and literacy behavior plays, both historically and in a contemporary context, in a diverse American society. Students will analyze the various definitions of literacy and track the development of multiple literacies in American society, specifically studying the transmission of literacy as a cultural value, particularly in oppressed communities. This course will provide the students with the opportunity to analyze and reflect on their personal relationship with literacy and opportunities for upward mobility in a stratified United States.

Issues in Literacy and Language Development  
ACR 250  3 hrs. 3 crs.
Through this course, students will learn about diverse perspectives about language and literacy development, specifically atypical development, of children (birth through adolescence). Students will confront questions facing scholars regarding typical and atypical development as well as the nature of typical and atypical second and multiple language development. Specific attention will be paid to language disorders, language delays, dyslexia and developmental disorders related to language and literacy.

Prerequisite: (ENG 100.5 or ENG 101) or departmental approval
CRITICAL THINKING

Critical Thinking (same as PHI 115) CRT 100
3 crs. 3 hrs.

Critical Thinking (same as PHI 115) is designed to develop the mind and help students learn to think clearly and effectively. Through substantive readings, structured writing assignments and ongoing discussions, students will examine concrete examples from their own experience and readings and contemporary issues in the media to learn how to analyze issues, solve problems, and make informed decisions in their academic, professional, and personal lives.

Critical Thinking for Reading and Writing CRT 100.5
3 crs. 6 hrs.

This course combines Critical Thinking (CRT 100) with Academic and Critical Reading and Writing. Critical Thinking is designed to develop the mind and help sharpen students' ability to think clearly, logically, thoroughly, critically, and effectively. Through substantive readings, structured writing assignments and ongoing discussions, students will learn to use analytical skills in reading, writing, oral presentations, researching, and listening. Students will examine concrete examples from their own experience and readings and contemporary issues in the media to learn how to analyze issues, solve problems, and make informed decisions in their academic, professional, and personal lives.

Critical Thinking for ESL 95 (same as CRT 100) CRT 100.6
3 crs. 6 hrs.

This course combines CRT 100 and ESL 95. As a CRT 100 course, this class is designed to develop the mind and help sharpen students' ability to think clearly, logically, thoroughly, critically, and effectively. Through substantive readings, structured writing assignments and ongoing discussions, students will learn to use analytical skills in reading, writing, oral presentations, researching, and listening. Students will examine concrete examples from their own experience and readings and contemporary issues in the media to learn how to analyze issues, solve problems, and make informed decisions in their academic, professional, and personal lives. As an ESL 95 course, this is an intensive writing class for ESL students, which focuses on basic components of effective writing, including essay organization, paragraph development, sentence structure, word choice, and content. Students read and respond to a variety of texts and use argumentation, narrative, and description as modes of developing ideas in writing. To pass this course and continue on to English 101, students must receive a passing score on the CUNY Assessment Test in Writing (CATWW). CRT 100.6 may not be taken by students who have passed CRT 100 or ESL 95 or are exempt from Writing.

Critical Thinking and Social Justice CRT 120
3 crs. 3 hrs.

In this course, students will build and apply critical thinking skills, including making and evaluating arguments, to questions of social inequalities, especially those related to race, class, gender, and sexual orientation. Using a variety of historical, literary, and theoretical texts, students will look at ways that existing power structures benefit some groups and limit or oppress others. Students will be asked to reflect on their own experiences and attitudes and consider what they can do to build a more just and equal society.

Critical Thinking and Scientific Inquiry CRT 150
3 crs. 3 hrs.

This course develops students' abilities to reason well about scientific claims, scientific research, and the nature, value, and limits of scientific inquiry. To reason well about scientific claims, students understand and apply central scientific concepts, such as experiment, explanation, cause, effect, correlation, random sampling, testability, prediction, verification, and falsification. In addition, students evaluate instances of reasoning with such concepts by evaluating arguments for and against scientific claims and assessing the significance of possible outcomes of experiments. To reason well about the nature, value, and limits of scientific inquiry, students are introduced to central issues in the philosophy of science, such as the demarcation between science and pseudo-science, the reliability of scientific research, and the (un)reasonableness of beliefs about claims, such as moral and other normative claims, that fall outside the scope of sciences.

Critical Thinking: Inquiry through Queer Theories CRT 196
3 crs. 3 hrs.

This course engages students in critical inquiry through the lenses of queer theories (e.g., theories related to the LGBTQQI + spectra). Emphasizing how queer theories help thinkers across disciplines engage in observing, viewing/positioning, examining, analyzing, and constructing queer subjects, this course asks students to examine how, within and between disciplines, a) thinkers’ perceptions and investigations are influenced by ideologies related to queerness and b) thinkers employ queer theories to create diverse ways of seeing/thinking, constructing/creating about the body, gender, sex/sexuality/sexual identities. Particular attention will be paid to how queer subjects have been pathologized and marginalized and how ideologies about queer populations affect reception of creative, scholarly, and professional works.

Critical Thinking and Media Literacy CRT 245
3 crs. 3 hrs.

Critical Thinking and Media Literacy is designed to help students become truth-seekers in the world of new media. Students develop a critical understanding of the nature of diverse media discourses—including aims to inform, entertain, and persuade—and evaluate their contents for veracity. This course exposes the students to two sets of basic concepts: First, epistemic concepts such as truth, falsity, knowledge, and belief; and second, media concepts, including both traditional (e.g., news, commentary, reporting) and contemporary ones (e.g., social networks, new media, fake news, click-bait). In addition, it provides them with analytical methods to interpret different kinds of media contents, as well as to write critical media analysis.

ENGLISH AS A SECOND LANGUAGE

English as a Second Language ESL 49
0 cr. 3 hrs.

This course is designed to support the improvement of writing skills of ESL 54 students. It is obligatory for one semester for all incoming ESL students whose placement shows a need for instruction at this level.

English as a Second Language ESL 54
0 cr. 9 hrs.

This course is designed to improve the reading, writing, listening, and speaking skills of beginning and low-intermediate level students. It is obligatory for one semester for all incoming ESL students whose placement shows a need for instruction at this level.

English as a Second Language ESL 62
0 cr. 6 hrs.

This is a high-intermediate level course that combines listening, speaking, reading, and writing skills. Narrative and descriptive writing are emphasized and expository writing is introduced.

English as a Second Language ESL 94
0 cr. 6 hrs.

This advanced level course emphasizes writing and reading skills; however, oral skills are not neglected. In writing, students focus on introducing, developing, supporting, and organizing their ideas in expository essays as well as in narrative and descriptive writing.

Intensive Writing ESL 95
0 cr. 6 hrs.

This intensive writing course for ESL students focuses on basic components of effective writing, including paragraph development and structure, sentence structure, word choice, and content. Students read and respond to a variety of texts and use argumentation, narrative, and description as modes of developing ideas in writing.

Intensive Writing ESL 96
0 cr. 6 hrs.

ESL 96 is an intensive reading and writing course for ESL students. It focuses on basic components
of effective writing, including essay organization, paragraph development, sentence structure, word choice, and content. Students read and respond to a variety of texts and use argumentation, narrative, and description as modes of developing ideas in writing. This course is designed to help students master and apply a full range of college-level reading, and related skills, including critical comprehension, vocabulary, writing, flexible rates of reading, and study strategies. A variety of college-level materials is used.

**LINGUISTICS**

**Language and Culture (same as ANT 115)**  
**LIN 100**  
3 crs. 6 hrs.

This course will introduce students to linguistics, the study of language, and language in multicultural urban settings, including topics such as children’s language acquisition, bilingual families and bilingual education, language and gender, different varieties of English and contemporary language use. The readings will draw on works in linguistics, literature, sociology, anthropology, and related topics. Students will improve critical reading and thinking skills and produce reflective and expository writing based on the readings in connection with their own experiences and backgrounds.

**Language and Culture: ACR**  
**LIN 100.5**  
3 crs. 6 hrs.

This course combines LIN 100 and ACR 95. As a LIN 100 class, this course will introduce students to the study of language in multicultural urban settings. The course will introduce related topics, such as bilingual/bidialectal families and bilingual education, language and gender, literacy in a changing, technological society, child language acquisition, and different dialects and registers of English. The readings will draw on works in linguistics, literature and related fields. Students will work on critical reading and produce writing based on the readings in connection with their own experiences and backgrounds. Students will receive an earned grade in LIN 100.6 that is equivalent to a grade earned in LIN 100. This is an accelerated course that combines Introduction to Linguistics (LIN 101) and Intensive Writing (ESL 95). This course is designed to provide students with an understanding of the grammatical structures of standard American English, allowing them to read, write, and interpret written texts critically and efficiently. Through analysis and discovery, students will learn to evaluate the grammaticality of the written work they produce in their academic coursework. In addition, students will explore a variety of writing genres and styles, and learn to manipulate language more effectively, enriching both their production and understanding of written texts.
World/Global Englishes
LIN 140
3 crs. 3 hrs.
The survey course will introduce students to varieties of English around the world. (e.g., African and Caribbean varieties of English, English-based Pidgins and Creoles). Students will be introduced to theories of language variation, examine forces that contribute to variation (e.g., colonization, language contact, and globalization), and describe the impact of English on other languages. Attitudes toward different varieties of English will be explored, with students analyzing how we perceive varieties of English and how these perceptions affect linguistic identities and ideologies.

World/Global Englishes Reading Corequisite
LIN 140.4
3 crs. 6 hrs.
This course combines World/Global Englishes (LIN 140) with Academic and Critical Reading. The survey course will introduce students to varieties of English around the world (e.g., African and Caribbean varieties of English, English-based Pidgins and Creoles). Students will be introduced to theories of language variation, examine forces that contribute to variation (e.g., colonization, language contact, and globalization), and describe the impact of English on other languages. Attitudes toward different varieties of English will be explored, with students analyzing how we perceive varieties of English and how these perceptions affect linguistic identities and ideologies. Students will receive an earned grade in LIN 140.4 that is equivalent to a grade earned in LIN 140.

Language, Race, and Ethnicity in the US and Its Territories
LIN 150
3 crs. 3 hrs.
This course explores historical, cultural, and theoretical perspectives on the relationship between language, race, and ethnicity in the United States and its territories. It examines how language is understood to reflect, reproduce, and/or challenge and defy racial and ethnic boundaries, and how ideas about race and ethnicity influence the ways in which people use and construe language. It covers topics such as racialization and racism, ethnicization, notions of authenticity, repertoire, codeswitching and style shifting, linguistic mocking and linguistic racism, language ideology, and identity formation. This course will examine language varieties such as Black American English and its cross-racial uses by other groups, Chicano English and Spanglish, Asian American English, Hawaiian English, and American Indian English.

Language, Gender, and Sexuality
LIN 200
3 crs. 3 hrs.
The first part of this course introduces students to theories of first language acquisition (e.g., developmental sequence, innateness hypothesis). In the second part of the course, students will become familiar with the theories of second language acquisition and factors such as motivation, age, learning styles that affect language learning. Students will develop an awareness of processes involved in language acquisition, both first and second.

Foundations of Bilingualism
LIN 210
3 crs. 3 hrs.
This introductory course provides an overview of the psychological, social, and political aspects of bilingualism. Topics covered include definitions of bilingualism, language development in bilingual children, the linguistic behaviors of bilingual speakers, language loss and maintenance, and socio-political issues pertaining to bilingual language policy and planning.

Language Teaching Practices
LIN 220
3 crs. 3 hrs.
This course will provide students with an understanding of the theoretical foundations and principles of language instruction and language learning. Special emphasis will be on studying pedagogical approaches to TESOL that address the learning needs of diverse language learners in multiple settings (e.g., one-on-one or small group tutoring vs. classroom). Topics will include relationships between and identities of practitioners and learners (e.g., racial, ethnic, linguistic, typical and atypical), research-based methodologies, teaching for productive and receptive language skills, and the relationship between curriculum planning, assessment, and feedback.

Language and Power
LIN 240
3 crs. 3 hrs.
Through this course, students will analyze how power manifests itself through language and how people use language to create, reproduce, and resist. By studying the relationship between language and power, students will examine the relationship between language, ethnicity, discrimination and resistance. Language and activism, students will analyze, through applying Critical Discourse Analysis to language events related to politics, policy, media, and institutional interaction, the power and perceived value of certain dialects and languages (e.g., discrimination towards and ideologies about languages/dialects). Students will engage with relevant critical social and linguistic theories relating to power.

Forensic Linguistics
LIN 250
3 crs. 3 hrs.
This three credit, 200-level course will explore the complex relationship between language and the law. The course will closely consider the role of language and its power in the legal process. Three branches of forensic linguistics (handwriting, phonology, and discourse analysis) will be discussed. We will examine the work of dialectologists, operantists, and graphologists who have used linguistic evidence to interpret evidence (e.g., handwriting, voice and spectrogram analysis will be discussed. The course will also examine how linguists are involved in the legal process when they serve as expert witnesses.

Language, Gender and Sexuality
LIN 300
3 crs. 3 hrs.
This course introduces students to the study of language events related to gender and sexuality. Practicing framing, speech act analysis, and discourse analysis, students will examine the relationship between cultural values, language, gender, and sexuality. Students will analyze, with examples from global languages, how gender and sexuality affect language use and communities of practice, as well as how language affects understandings of gender and sexuality.

Prerequisites: (ENG 100.5 or ENG 101) or LIN 100 and departmental approval.
Accounting

THE ACCOUNTING CURRICULUM IS DESIGNED TO PROVIDE STUDENTS WITH A STRONG FOUNDATION IN ACCOUNTING. ACCOUNTING IS CALLED "THE LANGUAGE OF BUSINESS" AS ALL BUSINESSES USE ACCOUNTING TO RUN THEIR ENTERPRISES AND REPORT THEIR FINANCIAL PERFORMANCE. THE ACCOUNTING CURRICULUM OFFERS A FULL ARRAY OF ACCOUNTING COURSES THAT PROVIDE STUDENTS WITH THE SKILLS AND KNOWLEDGE NECESSARY TO BEGIN AN ENTRY LEVEL CAREER IN ACCOUNTING OR TO CONTINUE THEIR EDUCATION BY PURSUING A 4-YEAR ACCOUNTING DEGREE.

Chairperson: Josh Wolfson
Deputy Chairperson: Yvonne Phang
Professors: Lloyd Carroll, Manuel Hernandez, Frank Navas, Yvonne Phang, Josh Wolfson
Associate Professors: Sidney Askek, Barry Cooper, Corinne Crawford, Wilbert Donnay, Harry Kleinman, David Knight
Assistant Professors: Joel Barker, Sharon Brickman, Angela Jervis, Acte Maldonado, Harvey Man, Connet Powell, Acheaf Seyam
Lecturer: La-Dana Jenkins
Instructor: Clive Nair
Adjunct Faculty: There are approximately twenty adjuncts in the department.

Accounting Principles I

ACC 122
3 crs. 4 hrs.

The course covers the fundamental principles of accounting and the practical use of accounting tools and techniques. Topics covered include the definition and scope of accounting, accounting records and processes, books of original and subsequent entry, work sheets, adjusting and closing entries, accounting for cash, accounting for negotiable instruments, and accounting for plant assets. An investigation is made of accounting for service businesses and trading concerns.

Personal Accounting and Financial Literacy

ACC 150
3 crs. 4 hrs.

This introductory course provides a practical and interactive approach to understanding and analyzing the major components of financial literacy such as taxation, credit and debt management, budgeting, spending and investment strategies for individuals and the family. Using research obtained from the JumpStart Coalition for Personal Financial Literacy and standards developed by the American Institute of Certified Public Accountants (AICPA), the student will be exposed to strategies for personal financial planning and personal risk and asset management. Students will create their own personal financial plan and will present the plan as a final project. Students completing the course will have life-time access to educational materials and coaching to make informed financial decisions and to develop effective behavioral patterns. Students will also compete in either an investment or financial literacy competition. This course has 1 hour lab component in which students will learn to use financial planning and tax software along with Excel to build personal financial plans and other course material. Financial literacy as defined by the Government Accountability Office (GAO) is “the ability to make informed judgments and to take effective actions regarding the current and future use and management of money. It includes the ability to understand financial choices, plan for the future, spend wisely, and manage the challenges associated with life events such as a job loss, saving for retirement, or paying for a child’s education.”

Accounting Principles II

ACC 222
3 crs. 4 hrs.

This continuation of Accounting I progresses from elementary to more advanced accounting concepts and conventions, including the use of accounting data in managerial decision making. Among topics covered are the use of accounting data in managerial decision making. Among topics covered are the use of accounting data in managerial decision making.

Accounting Applications on Microcomputers

ACC 231
3 crs. 4 hrs.

This course provides accounting students with the opportunity to solve accounting problems through the use of microcomputers. Areas in which students will prepare computerized accounting records and reports include journals, ledgers, trial balance, accounts receivable, accounts payable, and payroll. The course will introduce students to basic accounting documentation, and processing flowcharts of different accounting functions.

Taxation: Federal

ACC 241
3 crs. 4 hrs.

Students are provided with fundamental knowledge of the Federal taxation laws and preparation of related tax returns. Federal income taxes for individuals, partnerships, and corporations are studied, and actual returns are prepared. Various items of payroll withholding and reporting procedures are discussed, and basic tax planning is explored.

Taxation of Business Entities

ACC 242
3 crs. 4 hrs.

This course outlines the basic tax structure of the corporation and the partnership entity. Coverage includes the organization of the corporation and the partnership entity, the capital structure, the determination and distribution of income, reorganizations, and liquidations. Coverage also includes the taxation of the small business corporations. This course is designed to provide theoretical and practical experience with tax forms. The case study method will be used where applicable. A class project or research paper will be required. Prerequisite: ACC 222 and ACC 241

Intermediate Accounting I

ACC 330
3 crs. 4 hrs.

The course begins with a review of the accounting process. Topics covered include balance sheet presentation, the time value of money, accounting for cash, receivables, inventory cost and valuation procedures, plant and equipment accounting, including acquisition use, retirement and special valuation problems, accounting for intangible assets, current liabilities, and contingencies. Attention is given to the theory pronouncements issued by the Financial Accounting Standards Board and other standard-setting bodies. Prerequisite: ACC 222

Accounting Information Systems

ACC 331
3 crs. 4 hrs.

The course provides accounting students with the opportunity to become familiar with accounting information systems, systems and documentation flowcharts, information concepts, and applications to the different areas in the transaction processing system. The course also covers accounting control procedures that are commonly used to detect, correct, and prevent deficiencies in internal control, administrative control, and in the transaction processing system for both the manual and computerized accounting processing systems. The course will include basic analysis and design of accounting information systems.
Cost Accounting I  
ACC 350  
3 crs. 4 hrs.  
Emphasis is placed on the conceptual, analytical and practical aspects of cost accounting as a tool for planning and controlling the operations of a business. Topics include the cost accounting cycle, the job order cost system, process costing, allocation of costs, joint and by-product costs, payroll accounting and budgeting.  
Prerequisite: ACC 122  

Government and Not-for-Profit Accounting  
ACC 360  
3 crs. 4 hrs.  
This course introduces the theory and concepts underlying financial accounting, control and reporting in governmental and not-for-profit organizations. It covers fund accounting, budget and control issues, revenue and expense recognition, financial reporting, accounting procedures and issues of reporting for both governmental and not-for-profit entities.  
Prerequisite: ACC 222  

Forensic Accounting and Fraud Analysis  
ACC 370  
3 crs. 4 hrs.  
The course is an introduction to Forensic Accounting and Fraud Analysis. Topics include the nature of fraud, fraud prevention, fraud detection, financial statement fraud, revenue and inventory fraud, liability and asset fraud, inadequate disclosure fraud and fraud in E-commerce.  
Prerequisite: ACC 222  

Intermediate Accounting II  
ACC 430  
3 crs. 4 hrs.  
The course is a continuation of Intermediate Accounting I. A detailed study is made of the accounting for long term debt, investments in stocks and bonds, leases, pensions, accounting for income taxes, and inflation accounting. Other topical coverage includes EPS, revenue recognition, preparation of the income statement, and the statement of cash flows. The stockholders’ equity section of the balance sheet is examined, with particular reference to the accounting for capital stock, additional paid-in capital, and retained earnings.  
Attention is given to pronouncements issued by the Financial Accounting Standards Board and other standard-setting bodies.  
Prerequisite: ACC 330  

Cost Accounting II  
ACC 451  
3 crs. 4 hrs.  
The uses of cost accounting concepts and methods that are used to guide management in controlling operations and in making decisions are studied. Topics covered include cost-profit-volume analysis, standard cost, flexible and capital budgeting, inventory planning and control, direct costing, and the contribution margin approach to product costing.  
Prerequisite: ACC 350
Allied Health Sciences

The Department of Allied Health Sciences offers three professional programs: Paramedic Program, Health Information Technology, and Respiratory Therapy. Students successfully completing these programs are awarded the Associate of Applied Science (A.A.S.) degree and are qualified to work as technicians or therapists in a variety of health care agencies.

Chairperson: Everett Flannery
Deputy Chairperson: Lynda Carlson
Professors: Lynda Carlson, Everett Flannery, Michael Nazzaro, Neil Rodia
Assistant Professors: Cheryl Christopher, Meghan Williams
Senior College Laboratory Technician: Juana Rodriguez
Adjunct Faculty: There are approximately twenty adjuncts in the department.

### Paramedic Program

**Emergency Medical Care**

4 crs. 2 lecture 8 lab hrs.

This course is a training program to provide the students with the necessary basic skills and knowledge to deal with a broad spectrum of illness and injuries in the pre-hospital care phase of emergency medicine. Upon successful completion of the course, students will take the New York State Emergency Medical Technical Certification Examination. Once certified, and upon completion of certain fundamental core courses, the student will be eligible to take the advanced paramedic level courses of the program. The course will be offered in the fall and spring semesters only.

Prerequisite: New York State Certification as an Emergency Medical Technician
Corequisites: EMC 102, EMC 301

**Emergency Medical Care/Paramedic I**

6 crs. 6 hrs. 3 lab hrs.

This course provides students with the knowledge of human anatomy and physiology as required for the understanding of assessing and treating victims of sudden illness or injury. Pathophysiology and management of problems, patient assessment, and techniques of management of the cardiovascular system and respiratory system, as well as all other systems, are introduced.

Prerequisite: New York State Certification as an Emergency Medical Technician
Corequisites: EMC 102, EMC 301

**Emergency Medical Care/Paramedic II**

6 crs. 6 hrs. 3 lab hrs.

This course provides students with the knowledge of assessing victims of sudden illness or injury with the understanding of the underlying anatomy and physiology of the affected tissue, organ, or system. Students will also be given an understanding of appropriate treatment modalities for certain disease entities and injuries. Students will also be provided with the knowledge and skills required for treating victims of sudden illness or injury as pre-hospital care givers.

Prerequisites: EMC 101, EMC 102
Corequisites: EMC 102, EMC 301

**Emergency Medical Care/Paramedic III**

6 crs. 6 hrs. 3 lab hrs.

This course provides students with the knowledge of appropriate assessment of the cardiac patient, the knowledge and skill to read normal electrocardiograms, recognize cardiac arrhythmias on same, operate and interpret electrocardiograms. It also provides students with the skills to use a defibrillator, and to perform defibrillation and synchronized cardioversion. Students are also provided with knowledge of local, general, and systemic effects of specific drugs, as well as the absorption rates via intravenous, subcutaneous, oral, transtracheal, and intramuscular routes of administration. Students are provided with the knowledge of the effects of alpha and beta receptors in the heart, lungs, and arteries, as well as beta blockers. Students are also provided with the knowledge of dose, dilution, action, indications and use, precautions, incompatibility, contraindications, side effects, antidotes of specific drugs, and skills of administering drugs.

Prerequisites: EMC 101, EMC 102
Corequisites: EMC 202, EMC 302

**Emergency Medical Care/Paramedic IV**

6 crs. 6 hrs. 3 lab hrs.

This course provides students with the knowledge and skills required to perform physical examination on patients with suspected injury to the head, spinal cord, cervical spine, neurologic problems, and general seizures. It also provides students with the knowledge and skills to recognize symptoms of diabetes mellitus, insulin shock, hypoglycemia, hyperglycemia, and treatment of same. In addition, students are provided with the knowledge of appropriate treatment of a patient who has ingested poison. Students are provided with the knowledge and skill required to catheterize both male and female urinary bladders. Students are also provided with the knowledge and skills required to arrive at a decision to transport patients in labor or to prepare for delivery, as well as functioning in all childbirth possibilities. Students are provided with the knowledge and skills of management in mass casualty situations, situations involving a battered or sexually abused child, and situations involving emotionally disturbed patients who are combative.

Prerequisites: EMC 101, EMC 102
Corequisites: EMC 201, EMC 302

### Emergency Medical Care/Paramedic Internship I

1 cr. 5 lab hrs.

Students are provided with clinical training experience at the Cardiac Catheterization Laboratory, City Morgue, and with the Hospital Phlebotomy team. Students will also perform clinical service in the Emergency Department, Operating Room, and with the Paramedic Ambulance. Students will acquire further experience in the Labor and Delivery Suite, Intensive Care Unit, Pediatric Department, and Psychiatric Emergency Department.

Corequisites: EMC 101, EMC 102

**Emergency Medical Care/Paramedic Internship II**

2 crs. 10 lab hrs.

In this second EMC/Paramedical clinical rotation course students continue their work in the hospital emergency room. In addition, clinical rotations are provided for experiences on the paramedical (advance life support) ambulance, in the operating room, and in the New York City Medical Examiner’s Office.

Prerequisites: EMC 101, EMC 102
Corequisites: EMC 201, EMC 202

**Emergency Medical Care/Paramedic Internship III**

3 crs. 15 lab hrs.

In this final EMC/Paramedic clinical rotation course students complete their required hours in the hospital emergency room and on the Paramedic (A.L.S.) ambulance. Additional development of knowledge and skills is provided in the labor and delivery rooms, psychiatric facilities, ICU/CCU, Cardiac Catheterization laboratory, pediatric neonatal clinic and well baby clinic.

Prerequisites: EMC 201, EMC 202, EMC 302

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
HEALTH INFORMATION TECHNOLOGY

Medical Terminology I  HIT 103  3 crs.  3 hrs.

This is the first part of a two-semester course that includes a development of medical terminology in a logical sequence. Medical terms are used in a limited number of body systems. Special attention is given to presenting medical terms in their proper context as related to: anatomy and physiology, pathology, clinical procedures, laboratory tests, and abbreviations. Students are introduced to the current official ICD-CM Coding Guidelines and given a brief history of reimbursement for health care services. Corequisites: HIT 106, HIT 107, HIT 108, CHE 118/121, BIO 425

Pathology of Diseases I  HIT 106  3 crs.  4 hrs.

This is the first of two courses that focuses on the diagnosis and treatment of body systems. Students will learn the cause, risk factors, treatment, and prevention of diseases of the body. Students are required to review medical charts and identify diseases and procedures relevant for billing purposes according to the current official ICD-CM coding guidelines. Corequisites: HIT 103, HIT 107, HIT 108

Health Record Systems  HIT 107  2 crs.  3 hrs.

This course prepares the student to identify an incomplete medical record. The various hospital departments (e.g. finance, risk management, quality assurance) and regulating agencies (e.g. JCAHO), as they relate to the medical record will be covered. Students will also be exposed to alternate sites for medical charts (e.g. prison). Prerequisites: HIT 103, HIT 104, HIT 105, BIO 425, CHE 118/125 Corequisites: HIT 203, HIT 204, HIT 206, BIO 426

Health Data Information, Storage and Retrieval  HIT 108  3 crs.  4 hrs.

This course begins with an overview of the Health Information Management (HIM) profession. Topics include contents of different types of medical records, required standards for chart documentation, divisions within the HIM department, and chart flow throughout the department. It also covers the development and use of primary and secondary indexes and registries, numbering and filing systems, and methodologies utilized for the retention, retrieval, and destruction of medical documents. Utilizing the internet, students will learn to access health-related databases and evaluate the different vendors offering filing systems and storage, including microfilm and computer hardware/software. Utilizing materials in the classroom, students will create patient charts. Corequisites: HIT 103, HIT 106, HIT 107

Medical Terminology  HIT 110  3 crs.  6 hrs.

This course introduces students to medical terms and abbreviations associated with each body system and applicable diseases as well as associated diagnostic and therapeutic tests. Students are also introduced to the anatomy and physiology for each body system and pharmacology options for treatment of diseases including name and category of medication and method of delivery. The correlation between medical terms, diagnosis and treatment of diseases, and medical coding is also covered. Corequisites: HIT 111, HIT 112, BIO 425, and MAT 150

Medical Terminology II  HIT 111  3 crs.  4 hrs.

This course introduces students to the variety of functions and credentials associated with the health information management (HIM) profession. Students are also introduced to the legal requirements regarding documentation based on type of facility, health information technologies specific to the profession, and organizations that provide that data that influences health care services. Corequisites: HIT 110, HIT 112, BIO 425, and MAT 150

Principles of Health Care Reimbursement  HIT 112  3 crs.  3 hrs.

This course will expose students to the different types of health insurance, payment systems based on type of services provided (e.g., long term, ambulatory, acute, outpatient, rehab, home health, and skilled nursing), components of the billing process, and the monitoring and controlling functions of the revenue cycle. Students will also be introduced to the strategies to improve the delivery and payment of healthcare services (e.g., value-based, pay-for-performance). Corequisites: HIT 110, HIT 112, BIO 425, and MAT 150

Medical Terminology I  HIT 203  3 crs.  3 hrs.

This course is a continuation of HIT 103 and advanced study of medical terms. Basic fundamentals of word analysis are applied in a continued study of medical terms by body systems. Medical terminology is applied in case reports, X-ray reports, operative and diagnostic lists, and drug descriptions. Prerequisites: HIT 103, HIT 106, HIT 107, HIT 108, BIO 425, CHE 118/125 Corequisites: HIT 203, HIT 204, HIT 206, BIO 426

Health Statistics  HIT 204  2 crs.  3 hrs.

This course provides an in-depth coverage of statistical computations relevant to hospital inpatient and outpatient services (e.g. budget). Common statistical collection and display methodologies used for administrative decisions are covered. Utilizing data from a variety of sources (e.g. death registry), students will perform computations (e.g. average daily census) using Excel. Prerequisites: HIT 103, HIT 106, HIT 107, BIO 425, CHE 118/125 Corequisites: HIT 203, HIT 204, HIT 206, BIO 426

Pathology and Pharmacology  HIT 206  3 crs.  4 hrs.

Students will learn the cause, risk factors, treatment, and prevention of diseases of the body. Students are required to complete an assignment that requires them to review medical charts and identify diseases and procedures relevant for billing purposes according to the current official ICD-CM coding guidelines. Prerequisites: HIT 110, HIT 111, HIT 112 Corequisites: HIT 209, HIT 210, CJS 100, and BIO 426

Coding and Classifications Systems I  HIT 207  2 crs.  3 hrs.

This course covers the historical development and current medical coding systems for diagnoses, procedures, and reimbursement systems. Students will gain entry-level competency in the use of the current ICD-CM coding system by coding inpatient charts and assigning a diagnostic related group (DRG), utilizing an internet based coding program. Students will also complete coding exercises within and outside of the classroom covering specific diseases (e.g., AIDS, Neoplasms) to learn applicable coding guidelines. Corequisites: HIT 103, HIT 106, HIT 107, HIT 108

Pathology of Diseases II  HIT 208  3 crs.  4 hrs.

This is a continuation of HIT 106, Pathology of Diseases I, that focuses on the diagnosis and treatment of body systems. Students will learn the cause, risk factors, treatment, and prevention of diseases of the body. Students are required to review medical charts and identify diseases and procedures relevant for billing purposes according to the current official ICD-CM coding guidelines. Prerequisites: HIT 103, HIT 106, HIT 107, HIT 108 Corequisites: HIT 203, HIT 204, HIT 207

ICD-CM PCS Coding  HIT 209  4 crs.  6 hrs.

Students will learn to apply the diagnostic and procedural coding guidelines for the current ICD-CM/PCS coding systems. Students will review inpatient charts and assign the appropriate codes for diagnoses and procedures, enter the codes into an Encoder, and assign a diagnostic related group (DRG). Students will also complete coding exercises covering specific diseases (e.g., AIDS, Neoplasms) and procedures to learn applicable coding guidelines. Prerequisites: HIT 110, HIT 111, and HIT 112 Corequisites: HIT 206, HIT 215, CJS 100, and BIO 426

Professional Practice Experience I  HIT 210  3 crs.  32 hrs.

This is a supervised learning experience in affiliated clinical sites that enables the student to acquire competence in health information management procedures directly related to the course content of all previous HIT courses. Students are required to complete three projects assigned from the clinical site. Each student completes a coding software program that contains six learning modules. Students are also introduced to the “Encoder” software program, pharmacology, and reimbursement systems (e.g., prospective payment). Prerequisites: HIT 206, HIT 209, HIT 215, CJS 100, and BIO 426

HIM Medical/Legal Applications  HIT 215  3 crs.  3 hrs.

This course covers all federal and state laws (e.g., HIPAA) that are applicable to the HIM profession. It will also cover the legal principles applicable to malpractice, New York State statutes, different types and completeness of consent forms requirements, legally acceptable release of confidential medical information including special situations (e.g., mental, drug dependence or AIDS diagnoses), and legal terms utilized within the profession. Prerequisites: HIT 110, HIT 111, and HIT 112 Corequisites: HIT 206, HIT 209, CJS 100, and BIO 426
Performance Improvement and Data Analysis  HIT 332
3 crs. 4 hrs.
This course covers the use of review methodologies required by third party reimbursement agencies to ensure that patients receive appropriate medical care. The principles of form design and quality control procedures will be examined. Students will design and create a quality evaluation form, then complete an evaluation of the quality and completeness of inpatient charts and submit a written report with graphs to illustrate and support their findings. An assessment exam of previous HIT courses is given the first week of classes as per accreditation requirements.
Prerequisites: HIT 203, HIT 204, HIT 207, HIT 208
Corequisites: HIT 334 and CIS 207

Coding and Classifications Systems II HIT 333
2 crs. 3 hrs.
This course is a continuation of HIT 207, Coding and Classifications Systems I, and covers the historical development and current medical coding systems for diagnoses, procedures, and reimbursement systems. Students will gain entry-level competency in the use of the current ICD-CM coding system by coding inpatient charts and assigning a diagnostic related group (DRG), utilizing an internet based coding program. Students will also complete coding exercises within and outside of the classroom covering the coding of procedures, diagnostic, and therapeutic options applicable to all body systems.
Prerequisites: HIT 203, HIT 204, HIT 205, HIT 207, HIT 208, HIT 210, BIO 426
Corequisites: HIT 331, HIT 332, CIS 106

CPT/HCPCS Coding HIT 334
4 crs. 6 hrs.
This course is a continuation of HIT 209 in further learning the current ICD-CM and Current Procedural Terminology (CPT) coding system. Students are required to code ambulatory and inpatient charts utilizing a software to assign a Diagnostic Related Group. Students will be introduced to other coding systems and clinical terminologies (HCPCS, SNOMED) and perform in class activities of each coding system.
Prerequisites: HIT 210
Corequisites: HIT 332 and CIS 207

Coding and Classifications Systems III HIT 421
2 crs. 3 hrs.
This course is a continuation of HIT 330 in further learning the current ICD-CM coding system and Current Procedural Terminology (CPT) coding system. Students are required to code ambulatory and inpatient charts utilizing the Encoder software to assign a Diagnostic Related Group. Students will be introduced to other coding systems (HCPCS, ICD-CM) and perform in class activities of each coding system. An assessment exam of previous HIT courses is given the first week of classes as per accreditation requirements.
Prerequisites: HIT 331, HIT 332, HIT 333, CIS 106
Corequisites: HIT 422, HIT 423, HIT 430, CIS 206

Health Care Delivery Systems HIT 422
1 cr. 1 hr.
This course covers facility and Health Information Management (HIM) department requirements to function legally and properly.

Topics include the organization and function of a cancer registry, responsibilities of medical staff committees, the requirements of health care accrediting agencies as related to the HIM department, and additional agencies that impact the department (e.g., Office of Inspector General), and health insurance.
Prerequisites: HIT 330, HIT 331, HIT 332, CIS 106
Corequisites: HIT 421, HIT 423, HIT 430, CIS 206

Management in the HIM Department HIT 423
3 crs. 4 hrs.
This course covers the theories and techniques of management in the HIM profession. Students demonstrate their knowledge and understanding through laboratory exercises and a group project that focuses on a fictional hospital and HIM department that will be presented to the class. An assessment exam of previous HIT courses is given the first week of classes as per accreditation requirements.
Prerequisites: HIT 332, HIT 334, and CIS 207
Corequisites: HIT 430

Professional Practice Experience II HIT 430
4 crs. 12 lab hrs.
This is a supervised learning experience in affiliated clinical sites that enables the student to perform health information management (HIM) functions related to all previous HIT courses. The focus of this practice experience is on management and coding functions. Students are required to complete three projects assigned from the practice site.
Prerequisites: HIT 331, HIT 332, HIT 333, CIS 106
Corequisites: HIT 421, HIT 422, HIT 423, CIS 206

RESPIRATORY THERAPY

Fundamentals of Respiratory Therapy RTT 100
4 crs. 2 hrs. 6 lab hrs.
Students are given the knowledge, skills, and attitudes basic to all patient care, with special emphasis on the basic science principles applicable to medical gases, pressure breathing devices, gas exchange, artificial ventilation, and respiration. This course also involves the study and operation of basic respiratory therapy equipment such as cannulae, masks and tents, nebulizers, flowmeters and regulators, oxygen analyzers, and oxygen supply systems.
Prerequisite: Matriculation in the RTT Program
Corequisites: RTT 101, MAT 109

Introduction to Respiratory Therapy Equipment RTT 101
1 cr. 2 lab hrs.
This laboratory course gives the student the opportunity for hands-on learning of equipment found in Respiratory Therapy departments of affiliated hospitals. The student observes, operates, disassembles and reassembles equipment until fully competent at setting up, operating, and trouble shooting. Students become familiar with equipment used in respiratory care prior to use in direct patient contact.
Corequisites: RTT 100, MAT 109

Respiratory Therapy I RTT 201
4 crs. 4 hrs.
This continuation of applied science principles is fundamental to Respiratory Therapy. Special emphasis is placed on the theory of airway management, respiratory diseases, introductory pharmacology, ventilators used in IPPB therapy, acid-base chemistry, and a knowledge of emergency care.
Prerequisites: RTT 100, RTT 101, CHE 118
Corequisites: RTT 202, BIO 426

Respiratory Therapy Clinical Practicum I RTT 202
3 crs. 9 lab hrs.
This is a supervised clinical experience in Respiratory Therapy hospital affiliations. Students work with patients utilizing equipment such as oxygen catheters and cannulae, masks and tents, nebulizers, flowmeters and regulators, oxygen analyzers, and oxygen supply systems.
Prerequisites: RTT 100, RTT 101, CHE 118
Corequisites: RTT 203, BIO 426

Respiratory Therapy Summer Clinical Practicum RTT 210
6 crs. 40 lab hrs.
This course is a 10-week, 40-hour-per-week practicum required of students registered in the Respiratory Therapy curriculum. The Respiratory Therapy Summer Clinical Practicum is a continuation of the clinical training and experience introduced during the second semester of the program (RTT 201 and RTT 202). The schedule is structured to rotate groups in the class through various participating clinical facilities where students will have patient bedside instruction and practice in oxygen therapy, aerosol treatment and ventilation, and bedside intensive care for adults and pediatric patients.
Prerequisites: RTT 201, RTT 202

Respiratory Therapy II RTT 301
3 crs. 4 hrs.
Skills in patient care are further developed and emphasis is placed on continuous ventilation and acid-base chemistry. The physiology of the cardio pulmonary system, the ethical and legal implications, and responsibilities relating to Respiratory Therapy services are discussed.
Prerequisites: RTT 210, BIO 426
Corequisites: RTT 302, RTT 310, RTT 320

Respiratory Therapy Clinical Practicum II RTT 302
4 crs. 16 lab hrs.
This is a continuation of the supervised hospital Respiratory Therapy clinical experiences dealing with complex patient equipment such as ventilators, resuscitators, respirators, use of blood-gas analyzers, and aerosol apparatus.
Prerequisites: RTT 210, BIO 426
Corequisites: RTT 301, RTT 310, RTT 320

Cardio-Respiratory Physiology RTT 310
2 crs. 2 hrs.
This course exceeds the scope of Anatomy and Physiology I and II, and stresses physiological properties of the heart, blood vessels and lungs, particularly as they are interrelated and as they contribute to preserving the integrity of the human cardiovascular system. The material is taught in a clinically-oriented manner to reinforce those aspects of cardio pulmonary physiology most relevant to the care of patients.
Prerequisites: RTT 202, BIO 426 or departmental approval
Corequisites: RTT 301, RTT 302, RTT 320

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
Pulmonary Function Testing
RTT 320
2 crs. 1 hr. 2 lab hrs.
This course introduces students to the most common tests of pulmonary function in adults and children. Students will be required to perform these tests and interpret their significance.
Prerequisites: RTT 202, BIO 426, MAT 109 departmental approval
Corequisites: RTT 301, RTT 302, RTT 310

Respiratory Therapy III
RTT 401
3 crs. 3 hrs.
This course provides students with a knowledge of the various methods of sterilization, diseases and problems resulting in respiratory failure, cardio pulmonary function testing and diagnosis, pediatric respiratory care, percussive therapy and postural drainage, and administrative responsibilities of the therapist. Preparation is included for the Credentialing Examinations.
Prerequisites: RTT 301, RTT 302, RTT 310, RTT 320
Corequisites: RTT 401, RTT 410

Respiratory Therapy Clinical Practicum III
RTT 403
4 crs. 16 lab hrs.
This last course of supervised hospital Respiratory Therapy clinical experience continues emphasis on administration of respiratory therapy care to patients with additional work in hospital departmental operation, including patient record-keeping, reporting, and charting. Interdisciplinary team relationships are also stressed.
Prerequisites: RTT 301, RTT 302, RTT 310, RTT 320
Corequisites: RTT 401, RTT 410

Fundamentals of Clinical Medicine
RTT 410
2 crs. 2 hrs.
This course is an assimilation of the basic and clinical sciences from several areas of medicine, to help students develop a deeper understanding of the patho-physiological consequences of such diseases as asthma, atelectasis, pneumonia, pulmonary embolism, infant respiratory distress syndrome, and others. Independent study and student participation in teaching are encouraged.
Prerequisites: RTT 301, RTT 302, RTT 310, RTT 320
Corequisites: RTT 401, RTT 403 or departmental approval
BUSINESS MANAGEMENT
Course Descriptions

Business Management
Room F-730, Telephone: (212) 220-8205
bec@bmcc.cuny.edu

The Business Management Department administers the Business Administration program, the Business Management program, and the Small Business/Entrepreneurship Program.

Chairperson: Mahatapa Palit
Deputy Chairpersons: Francisca Campos, Ronald Clare
Professors: Katherine Conway, Percy Lambert
Associate Professors: Nikolaos Adamou, Seungmo (Jeff) Hong, Orlando Justo, Shamira Malekar, Mary Padula, Mahatapa Palit, Ioannis Tournas, Michelle Wang
Assistant Professors: Franciska Campos, Hung (David) Chu, Ronald Clare, Shawn Grant, Peter Hoontis, Sahana Sen, Roderick Snipes
Instructors: Christian De Rojas Prats, Peter Mayer, Robert Ricci
Lecturers: Kenneth Anderson, Guadalupe Campos, Joel Evans, Andrea Garraway
Senior College Laboratory Technicians: William Guttenplan, Iona Samuels
College Laboratory Technician: Jocelyn Samuel

Adjunct Faculty: There are approximately forty adjuncts in the department.

BUSINESS
Introduction to Business BUS 104
3 crs. 4 hrs.
This course surveys business and industry in the United States with global growth strategy. Emphasis is placed on building Communication and Quantitative skills, including Excel spreadsheets, and an Ethical Foundation. The course introduces students to concepts in Management, Organizational Structure, Human Resources, Marketing, International Business, Finance, Computer Information Systems, Accounting, and Economics, and encourages students to explore career paths. Required of all Business majors.

Business Law BUS 110
3 crs. 3 hrs.
This course surveys briefly the American legal system and the basic law of contracts. Reference is made to typical business transactions and, by a study of pertinent cases, how the various principles of contract law apply to them.

Business Law for Digital Media BUS 110.5
3 crs. 3 hrs.
This course surveys the American legal system and the basic law of contracts as it relates to business in the 21st century. Reference is made to typical business transactions both traditional and electronic, and by a study of pertinent cases, how the various principles of contract law apply to them. Additionally, this course examines at how courts, legislatures, and regulators confront the major legal issues that the Internet poses. Major topics include: how legally-enforceable contracts are made online; how courts determine jurisdiction over online transactions; intellectual property rules as they relate to digital assets such as music, video, and online texts; control over Internet domain names; liability of intermediaries such as Internet Service Providers and search engines; and online privacy protections.

Personal Finance BUS 121
3 crs. 3 hrs.
Discusses the problems involved in efficient handling of personal finance and consumption expenditure, including consumer protection, taxation, insurance, home financing, and methods of borrowing and investing money. Topics covered will include: goal setting; budgeting; banking and basic financial transactions; building, maintaining and repairing credit; credit report and scores; home/auto ownership; current regulations and practices governing consumer financial transactions, potential risks faced by individuals and families, banking services and products, insurance and investment, and planning for retirement.

Business Communication BUS 150
3 crs. 3 hrs.
This course is designed to present principles common to all communicating situations but which apply predominately to business. The applicability and construction of letters, memos, reports, telephone messages, and E-mails are considered. Relationships of creative, logical, and critical thinking of the problem solving nature of business communication are explored. The course is directed to helping students develop their ability to think, to express themselves in business situations and to use the most effective methods in the most effective way. Prerequisites: ENG 101, ENG 201, SPE 100

Business Organization and Management BUS 200
3 crs. 3 hrs.
This course covers the total structure and character of modern business from initial organization through grouping of essential functions into operating departments. Management and the decision-making process, financing, operations, and marketing considerations are studied, with actual cases used to illustrate problems in small and big businesses.

International Business (same as SBE 201) BUS 201
3 crs. 3 hrs.
The world environment of business enterprise is surveyed broadly in this course. Emphasis is placed on foreign trade and investment problems, patterns and opportunities. The performance of business functions in an international context and basic terminology of international business are examined. Prerequisite: BUS 104 and ECO 201

Business Methods BUS 210
3 crs. 3 hrs.
A survey of the fundamental quantitative concepts and tools used in the field of business is presented in this course. Topics in the course include annuities, present value, compound interest, markup and markdown, graphing, equations, inventory, depreciation, breakeven cost, revenue, elasticity, inequalities, and certain aspects of linear-programming. Prerequisite: MAT 150, MAT 200 or MAT 206 (for Business students only)

Managerial Decision Making BUS 220
3 crs. 3 hrs.
This course is designed to develop the student’s ability to make decisions as a manager. Cases are used to present the student with a variety of management problems. Students participate in oral and written case analysis which requires identification of the problem, proposal of alternative solutions to it, and the choice of one solution based on criteria of profitability and productivity. Students also participate in a management simulation game. Prerequisite: BUS 210

Operations Management BUS 225
3 crs. 3 hrs.
This course has been designed to prepare the students for further work in decision-making either on the job or in other institutions. The course will make use of computer programs in the construction and solutions of problems such as: production and inventory models; cost volume profit analysis; queuing theory and markov process; and resource allocation, scheduling, and simulation.

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
Human Resources Management  BUS 311
3 crs. 3 hrs.
This course is a survey treatment of human resources management attempting to acquaint students with the various aspects of Human Resources Management. It introduces the student to the realm of the Human Resources Manager.

Social Entrepreneurship in Emerging Economies  BUS 476
3 crs. 3 hrs.
This is a study abroad course in which students will understand the unique nature, challenges, resources, and opportunities that affect social ventures in developing economies. Students will earn first-hand the very different environmental conditions under which people live and work in a different part of the world, as well as experience the spirit of social entrepreneurs who find innovative ways to solve social problems within a market economy. Through class meetings, discussions with social entrepreneurs, and on-site visits to different social ventures in India, students will experience both the structural as well as the motivational factors that need to be considered to address these social problems. This class will encourage students to reflect on the social problems that exist in the United States and consider how the innovative organizational models that they have been exposed to in this study abroad program can be applied to the problems.

FINANCE AND BANKING

Introduction to Finance  FNB 100
3 crs. 3 hrs.
This course focuses on the three general areas of 1) money and financial institutions, 2) business financial management, and 3) investments. These areas are surveyed by covering such topics as value and creation of money, the Federal Reserve System, commercial banks, short and medium term financing, and the behavior of securities markets in relation to financing the business enterprise.
Prerequisites: MAT 051 or exemption from Elementary Algebra.

Commercial Credit and Collections Management  FNB 220
3 crs. 3 hrs.
Students are introduced to the principles and practices involved in the extension of credit in the business world. The course covers operation of the credit department, including the duties of the credit manager and credit investigators, credit analysis of financial statements, bases for credit judgment, collection procedures, legal problems, accounts receivable, financing, and factoring.
Prerequisites: ACC 122 or departmental approval

Financial Management  FNB 230
3 crs. 3 hrs.
This course surveys principles and practices followed in the financial organization and operation of a corporation. Also considered are the financing of new and growing businesses, sources of capital, banking, and credit accommodations as well as the handling of other financial matters.
Prerequisites: FNB 100, ACC 122

Consumer Credit Management  FNB 240
3 crs. 3 hrs.
This course emphasizes the principles, policies and practices followed in the granting of consumer and retail credit, bases for credit judgment, collection policies and procedures, government regulations, retail revolving and installment credit, charge accounts, bank credit card and non-bank credit, and the management of a consumer or retail credit department.
Prerequisites: BUS 104 or departmental approval

Money and Banking  FNB 250
3 crs. 3 hrs.
This course is an analysis of the organization and operation of our financial system, including money and capital markets, commercial banking, and other financial institutions such as commercial finance companies. The relationship between financial and economic activity including monetary and fiscal policy is demonstrated.
Prerequisites: FNB 100, ECO 100 or ECO 201 or ECO 202

Investments  FNB 300
3 crs. 3 hrs.
The principles and practices of investments are analyzed during this course. Students learn to recognize the quantitative and qualitative tests used in judging security values. Attention is given to the legal and financial characteristics of various types of investment securities. Personal portfolio problems and policies are considered in terms of objectives and investment decisions.
Prerequisites: FNB 100, ACC 122

MARKETING

Introduction to Marketing  MAR 100
3 crs. 3 hrs.
The marketing system is described, analyzed and evaluated, including methods, policies, and institutions involved in the distribution of goods from producer to consumer. Emphasis is placed on the means of improving efficiency and lowering distribution costs.

Consumer Motivation  MAR 210
3 crs. 3 hrs.
This course develops the student’s understanding of the relevance of consumer motivation and behavior to modern marketing techniques and strategies. It offers insight and information vital to the consumer-oriented firm. The economic, social, and psychological aspects of consumer behavior are explored.
Prerequisite: MAR 100

Essentials of Advertising  MAR 220
3 crs. 3 hrs.
This course is designed to provide an introduction to and an overview of advertising, its use as a management tool and its place in the marketing picture. Included are: the approach to creativity, media mathematics, planning and strategy, campaign concepts, research, and media selection.
Prerequisites: ENG 101 and MAR 100

Essentials of Public Relations  MAR 230
3 crs. 3 hrs.
The objective of this course is to introduce students to the theory and practice of public relations. Specifically, the students will learn about the shifting relationship between advertising and PR, the roles PR professionals play in organizations and PR firms, market research, strategic planning, dealing with the media and communicating with target audiences, as well as changes under way in the field.
Prerequisites: MAR 100 and ENG 102

Sales Principles and Practices  MAR 300
3 crs. 3 hrs.
This course is an overview of the process and management of direct selling. Topics include analyzing a product, evaluating customer needs and buying motives, handling objections, closing sales, and developing the sales-person’s personality. Organization and presentation of selling proposals are required.
Prerequisite: MAR 100

Retail Organization, Operation and Buying  MAR 320
3 crs. 3 hrs.
This course studies the management and operations of retail stores. Current practices in store layout, organization, personnel management, service to customers, expense budgeting and control, receiving, and marketing are analyzed. Methods and techniques employed by buyers in selecting new lines, assortment planning, placing orders, pricing and handling, and other phases of the buying job are investigated.
Prerequisite: MAR 100

Marketing Research and Analytics  MAR 330
3 crs. 4 hrs. (2 hrs. lecture, 2 lab hrs.)
The broad objective of this course is to provide a fundamental understanding of marketing research methods employed by well-managed firms. The course focuses on integrating problem formulation, research design, questionnaire construction, sampling, data collection and data analytics to yield the most valuable information. The course also examines the proper use of data analytic tools, with an emphasis on the interpretation and use of results.
Prerequisites: ENG 101, MAR 150 and (MAR 100 or PSY 100)

Digital Marketing and Analytics  MAR 340
3 crs. 4 hrs. (2 hrs. lecture, 2 lab hrs.)
The two major objectives of this course are to (i) introduce students to current marketing and advertising theory and practices on the Internet using a research-based and framework-driven approach; and (ii) to provide students the opportunity to learn to use various digital analytics methods and tools that companies use for successful implementation of their digital marketing strategies.
Prerequisite: MAR 330

PUBLIC ADMINISTRATION

Introduction to Public Affairs and Administration  PAN 100
3 crs. 3 hrs.
This introductory course is set within the context of contemporary political, social, environmental, and economic realities. It examines the policies and processes of governmental, nonprofit, and institutional based programs from a multidisciplinary perspective. Students are introduced to the field and profession of public administration and develop a broad understanding of the public and nonprofit sector while learning
to think and act as an ethical community service administration professional.

Policy Development and Analysis PAN 230
3 crs. 3 hrs.
This course introduces students to the public policy process and its key institutions and actors (such as legislative bodies, chief executives, administrative agencies, courts, interest groups, advocacy coalitions, and the media). The course emphasizes key parameters of public policy formulation (agenda setting, policy formulation and design, implementation, evaluation) and theories of policy change. Students will be able to differentiate policy types and tools, effectively use evidence in shaping public policy, and will appreciate the importance of context (social, economic, political, and technological) in developing effective policies.
Prerequisite: PAN 100

Research Methods in Nonprofit and Public Administration PAN 240
3 crs. 3 hrs.
This course provides students an opportunity to develop basic qualitative and quantitative analysis skills that can be applied to public administration, nonprofit management, and policy problems; program evaluations, and critical research questions. This course will emphasize the identification and application of research techniques, interpretation of results and the use of statistics in management decision-making.
Prerequisite: PAN 100

Performance Measurement: Collecting and Interpreting Data PAN 250
3 crs. 3 hrs.
The processes of public and nonprofit performance measurement and management are explored in depth in this course. Theories of public and nonprofit performance are reviewed with a clear focus on application in the management setting. Types of measures are reviewed, and their relationships are explored through program logic models. Selection of key performance indicators and proximate measures is discussed. Tools and methods of performance measurement, including benchmarking and trend analysis, are introduced. Data collection, analysis, and reporting are reviewed. Students learn how to align performance measurement with strategic organizational goals and objectives in order to facilitate learning and improved effectiveness.
Prerequisite: PAN 100

RISK MANAGEMENT AND INSURANCE

Principles of Risk Management and Insurance RMI 110
3 crs. 3 hrs.
This course promotes an understanding of individual and enterprise risk management and how the financial consequences of risk exposure can be managed using insurance, risk control and other financing techniques. It specifically examines how insurance offers protection against major risks faced by enterprises and individuals, how the insurance market is structured, and how and why the risk management and insurance industry is regulated. The course also provides the theories and practical applications from the industry as well as issues related to the furtherance of insurance as a viable risk management solution. This course includes 15 hours of experiential learning component covered through interactions and discussions with professionals from the risk management and insurance industry.
Prerequisite: BUS 104

Property and Liability Insurance Principles RMI 220
3 crs. 3 hrs.
The course presents the basic principles of insurance, introduces insurance regulation, financial performance, marketing techniques, underwriting, claims, risk management, loss exposure and insurance policies. This course will prepare students to take the AINS 21 exam towards a certification in general insurance.
Prerequisite: RMI 110 and ACC 122

Commercial Insurance Principles RMI 230
3 crs. 3 hrs.
Analyses commercial coverage including property, business income, inland and ocean marine, crime, equipment breakdown, general liability, auto, worker’s compensation, and package policies. Satisfies the requirements for The Institutes AINS 23 examination within the Associate in General Insurance Path A Certification.
Prerequisite: RMI 110 and ACC 122

Insurance Operations RMI 240
3 crs. 3 hrs.
The principal objective of this course is to develop an in-depth and thorough understanding of the unique operations of an insurance company including regulation, underwriting, claims, ratemaking, risk control, the financial accounting process and global strategies (including the use of reinsurance) of an insurance organization. The course will prepare students to take the CPCU 552 exam towards a certification in general insurance.
Prerequisite: RMI 110 and ACC 122

SMALL BUSINESS/ENTREPRENEURSHIP

Entrepreneurship: Product & Service Creation SBE 100
3 crs. 3 hrs.
This course examines the building blocks of entrepreneurship, including an analysis of the entrepreneur and exploration of business opportunities. The course includes the investigation and practice of products and service creation. The emphasis will be on applying entrepreneurship concepts to a business idea and developing an entrepreneurial mindset.
Corequisite: Corequisite of BUS 104 only for Business majors

International Trade and Export SBE 200
3 crs. 3 hrs.
This course is a survey of selected fundamental areas of international trade. The student is exposed to theory, policy, and enterprise issues of international trade, behavior of the international money environment, multinational enterprises and governments.
Prerequisite: BUS 104

International Business (same as BUS 201) SBE 201
3 crs. 3 hrs.
The world environment of business enterprise is surveyed broadly in this course. Emphasis is placed on foreign trade and investment problems, patterns and opportunities. The performance of business functions in an
International context and basic terminology of international business are examined.
Prerequisite: BUS 104 and ECO 201

**Independent Research in Small Business**

SBE 300

2 crs. 2 hrs.

Based on the student’s interest, the student takes the initiative and major responsibility for developing a comprehensive, holistic view of a specific small business sector or industry and specific small business within that sector. The course aids the student in preparation for the business plan required in SBE 400. Approximately 30–50 hours of library research will be necessary.
Prerequisite: SBE 100, SBE 200

**Small Business Management**

SBE 400

3 crs. 3 hrs.

This course covers the scope and trends of small business in the economy. The general functions of management, factors in business success and failure, and the entrepreneur’s qualifications are covered. Case studies, mathematical decision making, and microcomputer applications are integral parts of the creation of a usable business plan.
Prerequisite: SBE 300

**TRAVEL AND TOURISM**

**Tour Management**

TTA 100

3 crs. 3 hrs.

Tour Management will introduce the students to the international aspects of tour planning and implementation. They will learn how to develop international travel programs including tour design, development and budgets, guiding, escorting, tour management and organization, ecotourism and adventure tourism. Students will travel to a country with travel and tourism professionals from the private and public sectors of this country. They will experience the cultural diversity of other countries and understand how they relate to tour management. This is a study abroad course.

**Introduction to Travel and Tourism**

TTA 200

3 crs. 3 hrs.

This course provides the student with a basic knowledge of travel and its various purposes: business, educational, cultural, therapeutic, recreational, and family reasons. The factors affecting demand and supply are studied in detail. The final objective is for a student to acquire a thorough knowledge of “tourism” embracing the foundations of transportation, accommodations, business, and special activities which lure a person away from home.

**Travel Operations**

TTA 201

3 crs. 3 hrs.

This course is designed to qualify individuals to obtain employment in airlines and steamship companies as travel consultants, reservation agents, and account representatives. In addition, this course is designed for students interested in working and eventually owning their own travel agency. Topics include air, rail and ship transportation systems; ticketing; sales methods; and travel agency financing.

**World Markets**

TTA 301

3 crs. 3 hrs.

This course is designed to analyze the environment within which international travel, tourism, and commerce take place. The major purpose of this course is to study the markets of the world in order to develop marketing strategies and methods for travel and tourism. Differences among countries and peoples are presented in this context. Some of the specific topics covered are map study, international marketing, marketing research, logistics, and economic profiles of countries.
Prerequisite: TTA 201

**Introduction to Hotels, Travel and Tourism (same as TTA 200)**

HTT 200

3 crs. 3 hrs.

This course introduces students to the backroom operations of the hotel, travel and tourism industry. Students will learn about career opportunities in airlines/airports; cruise ships and terminals; convention centers and symphony halls, travel agencies and tour operations; leisure and recreational sports activities; travel e-zines and magazines, as well as meetings and special events.

**Hotels, Travel and Tourism Technology (same as TTA 201)**

HTT 201

3 crs. 3 hrs.

This course is designed for students to learn the operations of the hotel, travel and tourism industry as impacted by information technology (IT). Students will learn the IT needs of this global business and study the digitization of the back-office processes and value chains in the hospitality, travel and tourism industries that enable organizations to maximize their efficacy and effectiveness.
Prerequisite: HTT 200

**World Markets (same as TTA 301)**

HTT 301

3 crs. 3 hrs.

This course is designed to analyze the global environment of the hospitality, travel and tourism industry including the current economic, social, competitive, political-legal and technological environment that determines demand. The major purpose of the course is to provide students with a methodology to study the marketing of products and services in the hospitality, travel and tourism industry at a strategic level.
Prerequisite: HTT 200
COMPUTER INFORMATION SYSTEMS

Room F-930, Telephone: (212) 220-1476
cis@bmcc.cuny.edu

The Computer Information Systems Department offers programs in Computer Operations and Computer Programming leading to the Associate of Applied Science (A.A.S.) degree. Both programs provide students with technical competence in the field of computer information systems and a basic understanding of business organization and the role of computer information systems in support of the management process. Students may prepare for a variety of entry-level positions and for transfer to senior colleges. In addition, the department offers a programs in Computer Science and Geographic Information Science leading to the Associate in Science (A.S.) degree which is intended for the student who is interested in a more theoretical course of study. Students in this program are prepared for transfer to baccalaureate degree programs in computer science.

Chairperson: Ching Song Don Wei
Deputy Chairpersons: Carlos Linares, Colin Persaud

Professors: Yan Chen, Albert Errera, Yakov Genis, Ahmet M. Kok, Lin Leung, Hao Tang, Ching Song Don Wei

Associate Professors: Mohammad Azhar, Carlos Linares, Anna Salvati

Assistant Professors: Younes Benkarroum, Matthew Chan, Colin Persaud, Chigurupati Rani, Maryam Vatankhah, Hua Yan

Instructors: Darshani Jayaweera, George Nossa

Lecturers: Robert Greer, Jose Vargas

Senior College Laboratory Technician: Tak Yuen

Adjunct Faculty: There are approximately twenty-two adjuncts in the department.

COMPUTER INFORMATION SYSTEMS

Introduction to Computer Applications CIS 100
3 crs. 4 hrs.
This course develops an understanding of computer technology through the exploration of software packages on personal computers. The applications include word processing, spreadsheet, and database management. Students will also learn computer terms and concepts as well as the historical, social and economic implications of computer technology for our society.

Introduction to Computer and Information Security CIS 115
3 crs. 2 hrs.
This course provides an introduction to computer and information security. The significance of information integrity, availability and confidentiality are presented to demonstrate the importance of computer and information security. Students will gain practical skills on how to recognize threats and correct vulnerabilities. Techniques of detection, prevention and recovery from intrusions by malicious software will be taught with emphasis on concepts of organizational security through the institution of policies and procedures, and establishment of business and continuity planning.

Introduction to Data Base Applications CIS 120
2 crs. 3 hrs.
This course introduces the student to data base concepts and applications using state-of-the-art data base packages. The student not only studies the theory of data bases, but also implements and tests complete data base applications.
Prerequisite: CSC 110 or CIS 100

Introduction to Spreadsheet Applications CIS 140
2 crs. 3 hrs.
This course introduces the student to spreadsheet concepts and applications using state-of-the-art spreadsheet packages. Emphasis is placed on the use of the package to solve a wide range of business problems, including, but not limited to, accounting, scheduling and statistical applications. Students will develop and test a series of projects.
Prerequisite: CSC 110 or CIS 100

Computer Hardware CIS 155
4 crs. 3 hrs.
This course introduces students to computer hardware. Computer components such as motherboards, memory chips, disk drives, printers, scanners, storage devices, and keyboards will be covered. Students will learn how to install, maintain, upgrade and configure such hardware components. Students will also be introduced to binary, octal, and hexadecimal number systems as used in computer hardware. Students will be introduced to industry ethics, professional certifications, and career paths in the computer industry.

Desktop Publishing Packages CIS 160
2 crs. 3 hrs.
This course teaches students to use desktop publishing software to prepare a variety of documents in different page layouts including alphanumerics (in assorted fonts), graphics in various file formats or a combination of both. Students will learn the basic concepts of desktop publishing and how to organize and compose a document. Not open to students from the Office Administration department.
Prerequisite: CSC 110 or CIS 100

Introduction to Operating Systems CIS 165
3 crs. 2 hrs.
This course is an introduction to the concepts and organization of operating systems and the management of hardware and software resources of a computer. Emphasis is placed on memory, process, device and file management as well as operating system utilities. The students will be provided with basic working knowledge of computer operating system commands, functions, and management approaches in a variety of operating system environments utilizing both Graphical User Interface (GUI) and command line environments.
Prerequisite: CSC 101 or Departmental Approval

Introduction to the Internet CIS 180
3 crs. 4 hrs.
This course introduces basic concepts of the Internet and Internetworking. The subjects covered include basic networking concepts of transmission, topology and switching; highlights of TCP/IP protocol; hardware and software needed, and Internet applications of sending and receiving e-mail, navigating through gopher holes, accessing newsgroups, and accessing other computers through telnet and World Wide Web.
Prerequisites: CIS 100 or MMP 100 or CIS 110

Introduction Systems and Technologies CIS 200
3 crs. 2 hrs.
This course introduces students to the use of information systems in business. The dramatic changes in Information Technologies (IT) impact the ways in which companies operate and compete in local and global economies. Students will explore the global and ethical issues that have developed with the use of information systems. Working individually and in teams, the students will complete case studies on the following topics: Management Information Systems (MIS), systems analysis and design, hardware and software concerns, and telecommunications.
Prerequisites: Any ACC course or any BUS course and pass computer competency test or CIS 100

Healthcare Information Technologies and Management Systems CIS 207
4 crs. 2 hrs.
This course will introduce the important components of Health Information Technologies (HIT) and elements, functions and operational environment of modern Health Information Systems (HIS) and their role in delivery and management of health care services, with specific emphasis on Electronic Health Records (HER). The students will apply

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
personal productivity software and internet tools to explore their impact on healthcare delivery systems and will be introduced to the components of a Health Information System with focus on database, networking and security concepts that govern it. The students will also be exposed to handling and processing patient information, tracking patient diagnostics and results, creating patient billing, maintaining medical documentation, and managing workflow. Examples of HIS applications such as Personal Health Records (PHR) and Health Information Exchanges (HIE) will be used as case studies to highlight the design and implementation considerations of Health Information Systems.

Prerequisites: HIT 203, HIT 204, HIT 207, HIT 208, HIT 210 and CIS 100.
Corequisites: HIT 331, HIT 332 and HIT 333

Visual BASIC  
CIS 220  
3 crs. 4 hrs.

This course covers a full range of BASIC language elements. A series of programs are completed to cover typical business, scientific, graphics, gaming and simulation applications.

Prerequisite: CSC 210

Computer Operations I  
CIS 235  
4 crs. 5 hrs.

This course presents a detailed and practical study of the operation of the mainframe computer. Students learn the command language and control statements for the IBM VM/CMS system. In addition, utility programs, disk concepts and terminal concepts along with operations in a networked environment are introduced. Students are familiarized with file handling techniques and how to compile, store, and load programs for various languages supported by the hardware.

Prerequisite: CIS 110

Computer Software  
CIS 255  
3 crs. 4 hrs.

This course will introduce students to computer software. The topics covered will include Installation, configuration, security, maintenance, administration, and troubleshooting of the operating system and other software. Students will review binary, octal, and decimal numbering systems used in computer systems. Industry ethics and career paths will be reviewed.

Prerequisite: CIS 165 or Departmental Approval

Advanced Internet Applications  
CIS 280  
3 crs. 4 hrs.

This course builds upon the knowledge acquired in CIS 180 and introduces the students to the applications of World Wide Web. It teaches how to produce home pages and build hyperlinks to other pages through HTML language; how to configure and install a World Wide Web server; how to use WAIS and other search engines; and to interface with other servers. Students will also be introduced to videoconferencing over the Internet.

Prerequisite: CIS 180

Introduction to Digital Forensics  
CIS 316  
3 crs. 2 hrs.

This course introduces students to the purpose of digital forensics and investigations. Using industry standard software and hardware tools, students will learn the fundamentals of computer forensics and effective investigative strategies to acquire and analyze digital evidence for use in criminal and civil proceedings. Incident response techniques, the chain of custody for proper handling of digital evidence, guidelines for digital evidence collection and forensic reporting for law enforcement and investigations will be discussed.

Prerequisites: MAT 150 or MAT 160 or MAT 200 or MAT 206 and CIS 256 or Departmental Approval

Systems Analysis  
CIS 325  
3 crs. 4 hrs.

This course teaches the student how to analyze systems of programs and how to document these analyses. The student will learn case (computer assisted systems engineering) tools that are currently used in the field of systems analysis. Students are required to complete a semester project to analyze a complex computer system. This project will require the use of case tools to document the input and output requirements, data dictionaries, database design and normalization, ERD (entity relationship diagrams), DFD (data flow diagrams), systems flowsheets, run charts, and PERT (program evaluation review technique) charts.

Prerequisite: CIS 210

Telecommunication Networks I  
CIS 345  
3 crs. 2 hrs. 3 lab hrs.

This course is an introductory course in telecommunication networks. It covers the fundamentals of networking concepts, such as networking media, topology, switching, and management. It will also include an introduction to Open System Interconnection (OSI) layered organization and the functionality of each layer.

Prerequisites: CIS 165 or CIS 110 or CIS 111 or Departmental Approval

Information Assurance  
CIS 359  
3 crs. 2 hrs. 2 lab hrs.

This course introduces the fundamentals of information security in the context of computer vulnerabilities/ threats and how to safeguard computers and networks. The students will be exposed to the concepts of security planning, security technologies, security organization and the legal and ethical issues associated with implementing computer and network security.

Prerequisites: CIS 210, CIS 211 or CIS 255 or Departmental Approval

Cloud Computing  
CIS 362  
3 crs. 2 hrs. 2 lab hrs.

This course introduces students to the principles, foundations, and applications of Cloud computing. Different types of features, standards, services, and security issues in Cloud computing will be discussed. The students will study the paradigm of computing in which dynamically scalable and often virtualized resources are offered as services over the Internet. Through hands-on assignments and projects, students will learn how to configure and program Infrastructure as a Service (IaaS), how to develop Cloud-based software applications on top of various Cloud platforms, and how to integrate application-level services built on heterogeneous Cloud platforms.

Prerequisite: CIS 110 or CIS 111 or departmental approval

Mobile Device Programming  
CIS 364  
3 crs. 2 hrs. 2 lab hrs.

This course introduces the unique requirements and methodologies necessary to develop applications for mobile devices. The course will focus on installing, developing, and testing mobile applications. Students will learn the basic framework of a mobile application, mobile user interface design, methods for storing and retrieving information, and mobile security.

Prerequisite: CIS 210 or Departmental Approval

Business Systems I  
CIS 365  
4 crs. 5 hrs.

This course is an introductory business programming course. It introduces the students to business programming concepts such as analysis, implementation, and documentation of business systems. The students write business programs using a currently used program development language. The programming assignments include report generation, data validation, sort programs and single and multidimensional tables. The students are required to test and document all programs using standard business programming methods.

Prerequisite: CIS 210

Database Driven Website Programming  
CIS 370  
3 crs. 2 hrs.

This course will familiarize students with approaches for creating web pages that interact with a database. In this course, students will learn how to use the following technologies: SQL statements to create database queries, HTML forms to realize user interface, and a programming language to implement common gateway interface (CGI).

Prerequisite: CIS 210

Web Programming I  
CIS 385  
3 crs. 2 hrs.

This course will introduce students to client-side web programming. Emphasis is placed on HTML/XHTML, JavaScript, Java Applets and CSS in order to solve elementary level application problems. Students will be assigned web projects that facilitate understanding of design and programming concepts. The final project is to create a complete online web-based sales application system.

Prerequisite: CIS 110 or CIS 111 or Departmental Approval

Wireless Programming  
CIS 390  
3 crs. 2 hrs.

This course provides an introduction to programming in wireless networking environment. After a brief background of wireless technologies and their applications, a comprehensive survey of wireless application development environments
will be presented. Issues and considerations of wireless application development will be discussed with emphasis on: Wireless Application Protocol (WAP) used to establish communicating between devices and scripting languages and libraries such as Wireless Markup Language (WML) and Extensible Hypertext Markup Language (XHTML) to develop applications that use those protocols. Students will learn to design, implement and test a wireless application as a term project that is representative of commercial wireless application.
Prerequisite: CSC 210

Database Systems I  
CIS 395  
3 crs. 2 hrs. 3 lab hrs.

This course introduces the design, implementation, testing, and manipulation of database management systems. The design techniques include conceptual data modeling, entity relational modeling and normalization techniques. The databases are then implemented using structured query languages. Testing strategies verify data integrity, security, and privacy. Manipulation activities include insert, update, and delete operations.
Prerequisite: CIS 365 or CIS 325 or Departmental Approval

Systems Implementation  
CIS 420  
3 crs. 5 hrs.

Students continue from the realm of theory taught in CIS 320, Systems Analysis, to realities of practical applications. The class is divided into teams. A system is developed as a joint effort by each team as it analyzes, systematizes, programs, and writes documentation to implement its projects. In addition to the team projects, topics relevant to current computing techniques are discussed and where applicable, demonstrated to, or practiced by the class.
Prerequisites: CIS 365 and CIS 325

UNIX  
CIS 440  
3 crs. 4 hrs.

Students are introduced to the UNIX operating system, its external commands, internal structures, and text processing capabilities. Prerequisite: CIS 250 or CSC 110 or CIS 111 or Departmental Approval

Telecommunications Networks II/LAN  
CIS 445  
3 crs. 2 hrs. 3 lab hrs.

This course is a second course in telecommunications networks with special emphasis on Local Area Networks (LAN). It covers the fundamentals of LAN technology, such as wiring and topology as well as implementation and management of LANs. Advanced topics include LAN connectivity and future LAN directions.
Prerequisite: CIS 345

Network Security  
CIS 455  
3 crs. 2 hrs. 3 lab hrs.

This course provides a comprehensive overview of network security. The topics covered are: general security concepts including authentication methods, common network attacks; and methods for safeguarding against attacks; communication security including remote access, e-mail, the World Wide Web, directory and file transfer, and wireless data; infrastructure security that explores various network devices and media, and the proper use of perimeter topologies such as DMZs, extranets, and intranets to asymmetric and symmetric algorithms, and the types of PKI certificates and their uses; operational/organizational security is discussed as it relates to physical security, disaster recovery, and business continuity, as well as coverage of computer forensics.
Prerequisite: CIS 345

Ethical Hacking and System Defense  
CIS 459  
3 crs. 3 hrs. 2 lab hrs.

This course provides an in-depth look at network security concepts and techniques. It introduces students to the fundamentals of ethical hacking. The course focuses on the code of conduct and ethics of exploiting systems. It employs a hands-on approach when examining networking security techniques. The students will explore problem solving strategies necessary in the field of information security and learn about fundamental system defenses including security configurations and defensive software to prevent unauthorized system access.
Prerequisite: CIS 440 and CIS 345, or Departmental Approval

Business Systems II  
CIS 465  
3 crs. 5 hrs.

This course is a second course in business programming where the students are introduced to advanced programming concepts. Individual programming projects include creation and use of files, interactive screen design and generation for online input and modification, and documentation of existing systems modules through analysis of maintenance requests.
Prerequisite: CIS 365

Wireless Information Networks  
CIS 475  
4 crs. 3 hrs.

This course provides a comprehensive introduction to wireless networking technologies. It presents the hardware and software components of wireless communications with respect to transmission techniques, medium access, encoding and decoding of signals, methods of Digital Signal Processing (DSP) and routing. Different types of existing and emerging wireless networking technology standards and their applications will be examined with emphasis on their design, implementation, security and maintenance in a business environment.
Prerequisite: CIS 345

Operating Systems Concepts  
CIS 480  
3 crs. 3 hrs.

This course covers the main operating systems that are being used in the computer industry today. Emphasis is placed on OS and its libraries, systems generation, linkage, editor, JCL, and data management techniques. The course reviews other operating systems and compares them to DOS.
Prerequisites: CIS 365 or CIS 235

Web Programming II  
CIS 485  
3 crs. 2 hrs.

This course introduces students to server-side web programming. Emphasis is placed on database connectivity in order to solve intermediate level application problems using server-side programming language. Students will be assigned web projects that facilitate understanding of design and programming of client server concepts. The final project consists of the creation of a web application with input, output, and database components.
Prerequisite: CIS 385 or Departmental Approval

Introduction to Data Science  
CSC 101  
3 crs. 2 hrs.

This course introduces the student to the principles and theories of computation and information processing. The topics include hardware and software organization, data representation, algorithm development and networking principles. Special emphasis will be placed on creation of knowledge from data; the impact of computation on daily life; role of abstraction in solving problems; and implementation of algorithms on a variety of platforms including the Internet.

Computer Programming I  
CSC 110  
4 crs. 5 hrs.

This course introduces the student to the theoretical and practical aspects of computers. The major laboratory experience is the completion of programming projects using Polya’s four-step method. These projects have been carefully selected and ordered to provide the student with experience in fundamental control and data structures. All practical programming work is done on microcomputers.
Introduction to Programming \( \text{CSC 111} \)
4 crs. 3 hrs. 2 lab hrs.
This course is an introduction to the fundamental concepts and terms of computer science, including algorithms, problem solving techniques, data types, concept of loops, conditional statements, and recursion. Students will be expected to complete projects for each topic involving formal proof techniques, mathematical reasoning and/or programming.

Prerequisite: CSC 110, CSC 111 or departmental approval

Computer Programming II \( \text{CSC 210} \)
3 crs. 2 hrs. 3 lab hrs.
This course is a continuation of CSC 110. Students are introduced to elementary data structures, string processing, and searching and sorting techniques. Students are expected to complete several complex programs.

Prerequisites: CSC 110, CSC 111 or departmental approval

Advanced Programming Techniques \( \text{CSC 211} \)
3 crs. 2 hrs. 3 lab hrs.
This is a second course in programming which will further develop those skills gained in CSC 111 emphasizing reliability, maintainability, and reusability. Students will be introduced to applications of Pointers, Dynamic memory allocation, Arrays, Abstract data types, Objects, classes, and object-oriented design. Additional programming topics such as Inheritance, Polymorphism, Text Processing, Exception Handling. Recursion and Templates will also be covered.

Prerequisite: CSC 111 or departmental approval

Fundamentals of Computer Systems \( \text{CSC 215} \)
3 crs. 2 hrs. 2 lab hrs.
This course covers the fundamentals of computer organization and digital logic. Topics include number systems and codes, Boolean algebra, digital circuits, combinational logic design principles, sequential logic design principles, functional components of computer systems, hardware description language, and assembly language. Students will use computer aided design (CAD) tools for digital logic design, analysis and simulation.

Prerequisite: CSC 111 and MAT 301; or departmental approval

Discrete Structures \( \text{CSC 230} \)
3 crs. 3 hrs.
This course covers mathematical foundations for computer science. Topics include algorithm analysis, recursion and recurrence, graph theory, trees, Boolean algebra, and modeling computation. Students will be expected to complete projects for each topic involving formal proof techniques, mathematical reasoning and/or programming.

Prerequisite: CSC 210
Corequisite: MAT 206

Discrete Structures and Applications to Computer Science \( \text{CSC 231} \)
4 crs. 4 hrs.
This course covers the computer science applications of fundamental mathematical structures. Topics include logic, set theory, function, relations, algorithm, recursion, recurrence relations, principle of counting, graph theory, trees, and Boolean algebra. Students will be expected to complete projects for each topic involving formal proof techniques, mathematical reasoning and/or programming.

Prerequisite: CSC 111 and MAT 301; or departmental approval

Assembler Language and Architecture I \( \text{CSC 310} \)
3 crs. 4 hrs.
This course focuses on discrete structures and techniques which have direct applications in computer science. Topics include the use of monoids, groups, finite automata and Turing machines in understanding and implementing simulations, circuitry, and the encoding and decoding of information.

Prerequisites: CSC 210, CSC 230

Data Structures I \( \text{CSC 330} \)
3 crs. 4 hrs.
This course is an introduction to abstract data structures, their use and implementation. Students will be expected to complete several programming assignments illustrating the basic concepts.

Prerequisite: CSC 210 and CSC 230

Data Structures \( \text{CSC 331} \)
3 crs. 1 hr. 4 lab hrs.
This course will introduce students to linear and non-linear data structures, their use and implementation, algorithms, and software engineering techniques. Topics will include: stacks, queues, linked lists and recursive programming will be discussed. Students will be expected to complete several programming assignments illustrating the basic concepts.

Prerequisites: CSC 211 and CSC 231; or departmental approval

Software Development \( \text{CSC 350} \)
3 crs. 2 hrs. 3 lab hrs.
This course covers the fundamentals of software development, including software development life cycle, object-oriented paradigm, design patterns and event-driven programming working in teams. The students are required to develop software applications with graphic user interfaces and databases.

Prerequisites: CSC 211 or departmental approval

Assembler Language and Architecture II \( \text{CSC 410} \)
3 crs. 4 hrs.
The students enhance their knowledge of Assembler Language and machine architecture by writing sophisticated programs utilizing indexing, subroutines and linkage conventions. User and system macros, conditional assembly and file input/output operations are covered.

Prerequisite: CSC 310

Data Structures II \( \text{CSC 430} \)
3 crs. 4 hrs.
This course introduces students to complex data structures. Topics include the manipulation and uses of trees, graphs and heaps; the design and analysis of various searching and sorting algorithms and their applications.

Prerequisite: CSC 330

Computer Graphics \( \text{CSC 450} \)
3 crs. 4 hrs.
This course is an introduction to the principles of interactive computer graphics, including input techniques and devices, display files, and two-and-three-dimensional computer graphics.

Prerequisites: CSC 210 and CSC 230
Mathematical Foundations of Computer (same as MAT 470)  
**CSC 470**  
4 crs. 3 hrs.  
This course presents the mathematical concepts underlying computer networks. The course introduces probability and stochastic process, queuing analysis, and basic graph theory and relates these topics to various layers of the seven layer Open Systems Interface (OSI) organization model of computer networks. Practical laboratory projects provide concrete illustration of theoretical concepts.  
Prerequisites: MAT 302

**GEOGRAPHIC INFORMATION SYSTEMS**

Introduction to Geographic Methods  
**GIS 201**  
4 crs. 3 hrs.  
This course introduces the means by which geographers analyze the world to better understand geography and geographical processes. It teaches the students various methods for interpreting and analyzing spatial data including cartography, Geographic Information Systems (GIS), remote sensing, spatial statistics and survey research.

Introduction to Geographic Information Science  
**GIS 261**  
3 crs. 2 hrs.  
This course focuses on the basic principles and operation of geographic information systems (GIS). Students will study how to use computerized systems for the capture, storage, management, analysis and display of geographically referenced data and their attributes. Professional GIS software packages will be used in lab exercises to provide students with hands-on experience.  
Prerequisite: GIS 201 or departmental approval

GIS Internship  
**GIS 325**  
2 crs. 15 hrs.  
The objective of the internship is to allow the student to put classroom theory in major into the practice in order to gain work experience. Each student-intern will work 15 hours a week for the length of the semester. Each student-intern is assigned to an internship professor who is knowledgeable about the student’s field. The internship professor helps the student secure internship placement in a work site related to the student’s major, or assists the student to “reconstruct” her/his present position as an internship, or develop - by special arrangement and an internship with her/his present employer, and serves as the student’s instructor and advisor during the field experience. Students interns are expected to work 15 hours a week, complete a term project assigned by the internship professor, and be evaluated by the work site supervisor. Students to be placed are expected to arrange their schedules so that they are free mornings, or afternoons, Monday-Friday, or two to three full days per week.  
Prerequisite: Completion of all remedial requirements; GPA of 3.0 in major courses; demonstrated excellence in oral and written communication (B or better in ENG 201 and SPE 100/102 or permission of the instructor); completion of CED 201; completion of at least 36 credits including prerequisites for GIS students and GIS 261, GIS 265, MAT 209.

Advances Geographic Information Science  
**GIS 361**  
3 crs. 2 hrs.  
This is an advanced course on Geographic Information Science that builds upon the concepts covered in GIS 261. It starts with review of the principles and operation of Geographic Information Systems (GIS). Then, it discusses the topics including geoprocessing, 3D GIS, geostatistics, map design, map label, and map annotation. Laboratory exercises provide hands-on experience with professional GIS software. The basic programming concepts and skills in GIS application are covered. Students implement a major GIS project for a real world geography issue, which includes processes of system requirement, design, architecture, implementation, and installation.  
Prerequisite: GIS 261 and GIS 395 and (CSCI110 or CSCI111) or Departmental Approval

Check [www.bmcc.cuny.edu](http://www.bmcc.cuny.edu) for updated information. Updated 09/01/21
Cooperative Education

Career Planning (Classroom Course)  CED 201
2 crs. 2 hrs.

Designed to help students creatively plan their careers, the course covers self-assessment, career exploration and practical job search skills. Typically, the course includes the following topics: identifying and classifying needs, interests, values and skills; researching occupational and organizational alternatives; job search techniques and resources for employment; resume and cover letter preparation; and job interviewing and follow-up. Students who are required to register for the classroom course CED 201, Career Planning, should do so after completing all remedial requirements and accumulating more than 12 credits. After accumulating 30 credits, including 9 credits in their major, students who are matriculated with a 2.0 GPA or higher may register for Internship I (See CED 3XX).

Cooperative Education Internships  CED 300, 400, 500
2 crs. 15 hrs.

The following internships are offered:

- CED 301 Accounting Internship I
- CED 401 Accounting Internship II*
- CED 501 Accounting Internship III*
- CED 305 Liberal Arts Internship I
- CED 405 Liberal Arts Internship II*
- CED 315 Computer Information Systems Internship I
- CED 345 Multimedia Internship I**
- CED 415 Computer Information Systems Internship II*
- CED 371 Video Arts and Technology Internship I
- CED 471 Video Arts and Technology Internship II*
- CED 351 Office Administration Internship I
- CED 451 Office Administration Internship II*
- CED 551 Office Administration Internship III*
- CED 361 Business Management Internship I
- CED 365 Small Business/Entrepreneurship Internship I
- CED 461 Business Management Internship II*
- CED 561 Business Management Internship III*

Business Management Internships are in the following areas of study: Finance and Banking, General Management, Marketing, and Travel and Tourism.

*Registration in the CED 4XX and CED 5XX series requires special approval by the Cooperative Education Coordinator.

**Please note that the prerequisites for CED 345 are MMP 200 and (MMP 220 or VAT 171 or ART 354).

The Internship

Each student intern is assigned to an internship coordinator who is knowledgeable about the student’s field. The coordinator helps the student secure internship placement and serves as the student’s instructor and advisor during the field experience. In addition, the student has a unique opportunity to discuss and evaluate broader goals and career objectives on an individual basis.

Cooperative Education interns are expected to work fifteen hours a week, complete a term project assigned by the faculty coordinator, and be evaluated by the worksite supervisor. Most students work part-time, fifteen hours per week, for the length of the academic semester—longer for summers—in internships related to their majors while remaining full-time students, and receive two academic credits. Internships may be paid or unpaid.

Special Situations:

Students who are working complete a special version of the Internship tailored to meet their particular circumstances. Students currently working must contact their academic department to discuss how the internship requirement can be fulfilled.

Other conflicts and problems can be resolved only by discussing them with the appropriate faculty coordinator. Students should resolve all problems and concerns by the time they have accumulated 45 credits in order to avoid delaying graduation.

For complete information visit www.bmcc.cuny.edu/cooperative-ed/internships/.

It is the policy of the College to utilize employers who hire workers without regard to sex, race, color, national origin, handicap, sexual preference, or age.
The English Department prepares students who have various levels of proficiency to reach an optimum level of performance in writing. The courses offered by the department enable students to qualify for graduation and to perform successfully in 4-year colleges. All entering students are required to take the CUNY Assessment Test in Writing (CAT-W) for placement. Students who score below 56 will enroll in an appropriate remedial writing course and will not be permitted to enroll in English 101 until they complete their remedial requirements.

The English Department also offers the Writing and Literature degree, a program of classes that trains students how to think and write critically about literature, write journalism, and compose poems, plays, and stories.

Chairperson: Margaret Pamplin

Deputy Chairpersons: Jan Stahl, Zhana Yablokova

Professors: Steven Belluscio, Charles De Paolo, Maria De Vasconcelos, Cheryl Fish, Joyce Harte, Carlos Hernandez, Geoffrey Klock, Andrew Levy, Caroline Pari-Pfisterer, Elizabeth Primamore, Rochelle Rives, Diane Simmons, Nettie Vinsonhaler, Jaime Weida, Mira Zaman

Associate Professors: David Bahr, Christa Baiada, Margaret Barrow, Joseph Bisz, Page Delano, Nancy Derbyshire, Rachel Goodison, James Hoff, Dexter Jeffries, Timothy Keane, Jungah Kim, Adele Kudish, Holly Messitt, Chumatal Noimann, Stephanie Oppenheim, Margaret Pamplin, Jill Richmond, Jason Schneiderman, Kelly O. Secovnie, Jan Stahl

Assistant Professors: Trisha Brady, Julie Cassidy, Francisco Delgado, Angela Florischuetz, John Hodgkins, Boyda Johnstone, Rolando Jorif, Cynthia Lam, Frederick Solinger, Nettie Vinsonhaler, Jaime Weida, Mira Zaman

Lecturers: Domenick Accella, Maria Alvarez, Elizabeth Berlinger, Catherine Cammillieri, Michael Desteefano, Elizabeth Fow, Robert Masterson, Syreeta McFadden, Aimee Record, Lara Stapleton

Adjunct Faculty: There are approximately 120 adjuncts in the department.

Intensive Writing

ENG 88
0 cr. 6 hrs.
This is a lower-level remedial writing course in which students are introduced to the fundamentals of writing, including punctuation, spelling, grammar, word choice, sentence structure, and paragraphing. Students are given frequent in-class writing exercises that focus on composition and development as modes of developing ideas. Conferences with instructors are frequent. This course is for students who score below 43 on the CATW, and it prepares them for English 095.

Intensive Writing

ENG 95
0 cr. 6 hrs.
This is an upper-level intensive developmental writing course for students scoring between 43 and 55 on the CATW. Students are instructed in basic components of effective writing, including word selection, punctuation, spelling, grammar, sentence structure and paragraph development. Students are given frequent in-class writing exercises that focus on argumentation, narrative, and description as modes of developing ideas. Individual conferences with instructors are frequent.

Intensive English Composition (same as ENG 101)

ENG 100.5
3 crs. 6 hrs.
Students placed in ENG 100.5 are offered extra support, afforded through additional instructional time. Students completing ENG 100.5 will have mastered the fundamentals of college-level reading and writing, including developing a thesis-driven response to the writing of others and following the basic conventions of citation and documentation. They will have practiced what Mike Rose calls the “habits of mind” necessary for success in college and in the larger world: summarizing, classifying, comparing, contrasting, and analyzing. Students will be introduced to basic research methods and MLA documentation and complete a research project. Students are required to take a departmental final exam that requires the composition of a 500 word, thesis-driven essay in conversation with two designated texts.

Prerequisite: Pass the CAT-W and CAT-R tests

Creative Writing Foundations

ENG 116
6 crs. 3 hrs.
Through a combination of reading and writing, this course exposes students to the basics of fiction, poetry, and playwriting from the perspective of the practitioner, rather than the perspective of the critic. The class will read literature in three genres, focusing on the craft of how the pieces are structured, and how they achieve their impact on the reader. No prior knowledge of these genres is required. Through a combination of reflection, imitation, writing exercises, and writing assignments, students will produce craft analyses, their own creative works, and reflections on their own creative process.

English Composition and Introduction to Literature in Tandem

ENG 121
6 crs. 6 hrs.
This course combines English 101 and 201 into a one-semester course. It is designed for students with a high level of reading and writing proficiency. Departmental permission is required.

Prerequisite: Pass the CATW and CATR tests

Introduction to Literature

ENG 201
3 crs. 3 hrs.
This is a course that builds upon skills introduced in English 101. In this course, literature is the field for the development of critical reading, critical thinking, independent research, and writing skills. Students are introduced to literary criticisms and acquire basic knowledge necessary for the analysis of texts (including literary terms and some literary theory); they gain proficiency in library and internet research; and they hone their skills as readers and writers. Assignments move from close readings of literary texts in a variety of genres to analyses that introduce literary terms and broader contexts, culminating in an independent, documented, thesis-driven research paper. By the conclusion of English 201, students will be prepared for the analytical and research-based writing required in upper-level courses across the curriculum; they will also be prepared for advanced courses in literature.

Prerequisite: ENG 101

Introduction to Literary Studies

ENG 250
3 crs. 3 hrs.
Introduction to Literary Studies is an inquiry into what it means to study literature, involving close reading, critical and creative analysis of a wide variety of prose fiction, drama, and poetry, and informed by an introduction to some of theoretical issues currently invigorating literary studies. In addition to works of literature, students will read critical and theoretical works. This course combines a study of literature with continued training in clear and effective expression. It is designed for prospective Writing and Literature majors and other interested students.

Prerequisite: ENG 101 or ENG 121
Course Descriptions

Fundamentals of Journalism  ENG 300  3 crs. 3 hrs.
Fundamentals of Journalism offers an introduction to the practice, purpose, and history of journalism as projections about its future. The course addresses journalism in all its forms and media, e.g., film, print, radio, television, and Internet-based platforms, including Web sites, blogs, Twitter. It provides a foundation in journalism's professional code of ethics and the work of a free press to safeguard social liberty. Skills cultivated will include information gathering establishing credibility, writing, editing and dissemination.
Prerequisites: ENG 201 and ENG 202

Journalism: News Writing  ENG 303  3 crs. 3 hrs.
This course covers the basic principles and practices of news reporting and writing. Students are taught to write single-incident news stories, conduct balanced interviews and edit their own copy, employing standard copy editing symbols and format. Emphasis is also given to the theoretical side of journalism with an overview of its history, present legal controls, ethical issues and rapidly expanding technology.
Prerequisites: ENG 201 or ENG 121

Journalism: Feature Writing  ENG 304  3 crs. 3 hrs.
This course provides further opportunities for students to explore journalism. Students conduct interviews, cover stories around the city and write journalistic articles. Opportunities are provided for specialized coverage in areas such as politics, consumerism, science, education, finance, the arts, social change and family life. Topics include layout, headline composition and basics of journalism law.

Creative Writing Workshop  ENG 311  3 crs. 3 hrs.
The objective of this course is to sharpen students' creative writing skills in the genres of the short story, poetry and drama, depending on students' interests and ability.
Prerequisites: ENG 121 or ENG 201

Advanced Composition  ENG 314  3 crs. 3 hrs.
This course teaches the writing of formal and informal essays, articles, and reviews in a personal voice. Through the reading of modern and contemporary essayists students learn to identify the unique qualities of writers in order to develop an individual style applicable to the various disciplines of personal and public writing.

Playwriting  ENG 315  3 crs. 3 hrs.
The objective of ENG 315 Playwriting is to sharpen students' creative writing skills and to teach them the elements of playwriting and character development. Through the reading of one-act plays and practice writing exercises each week, students will learn the craft of playwriting. They will write scenes and create their own one-act plays.
Prerequisites: ENG 201 and ENG 202 or ENG 121

Comics and Graphic Narrative  ENG 316  3 crs. 3 hrs.
In this course examines the unique syntax, grammar and conventions of this literary art form. It traces graphic narrative's history from the 19th Century, as a working-class commodity in print newspapers, to the mid-20th Century, when it reconfigured itself as a medium of rebellion and mode of autobiography, up to today. Through regular writing assignments, students will critically engage with the art form and recent scholarship, developing their own arguments about how certain comics communicate specific subjectivities.
Prerequisites: ENG 201

Poetry Writing  ENG 317  3 crs. 3 hrs.
Building on the skills developed in a multi-genre workshop (ENG 116 or ENG 311), this course focuses on poetry from the perspective of a poet writing in a community of poets. Students are taught to give and receive substantive and constructive feedback on poetry in workshops. Through the study of published poems and work by peers, students develop an understanding of prosody, poetic craft, and poetic structure. An emphasis on reflection, analysis, and revision gives students the tools necessary to produce a portfolio of poems while seeing themselves as entering a community of poets with an awareness of poetry's complex and diverse histories.
Prerequisites: ENG 201 and (ENG 116 or ENG 311)

Fiction Writing  ENG 318  3 crs. 3 hrs.
This course introduces students to fiction from the perspective of the writer. Students learn to give and receive substantive and constructive feedback in workshops. Through the study of published stories and work by peers, students develop an understanding of the basic elements of short stories such as narrative structure, characterization, point of view, scene structure, and setting. An emphasis on reflection, analysis, and revision gives students the tools necessary to produce short stories while seeing themselves as entering a writing community. Additional genres of fiction, such as micro-fiction, flash-fiction, novellas, and novel chapters, may also be included.
Prerequisites: ENG 201 and (ENG 116 or ENG 311)

Environmental Literature and Film  ENG 320  3 crs. 3 hrs.
This is a class that will focus on a variety of timely and historical environmental and social justice issues related to sustainability at the local, national, and global level. We will read essays, fiction and poetry that establish the field of eco-criticism, then draw on readings and films that have expanded eco-criticism to include environmental justice, urban nature and we shall view films on themes related to the readings.
Prerequisites: ENG 201

The Art of the Detective Story  ENG 332  3 crs. 3 hrs.
This course explores the genre of the detective story: its principal themes, plots, characters, and settings; the dramatic changes the genre has undergone (particularly in the 20th century); its relationship to other literature and new directions of the genre today. In addition, the phenomenal popularity of the detective story will be considered: who is the audience and why has the detective story attracted such a large audience?
Prerequisites: ENG 101 and 201, or ENG 121

The Short Story  ENG 333  3 crs. 3 hrs.
This course acquaints students with the wide range and varied forms of the short story as it developed in America, Europe, and other continents. Readings will include works by male and female authors of different periods and nationalities, and some attention may be paid to the historical development of the short story as a genre, as well as the cultural contexts in which the assigned stories were written.
Prerequisites: ENG 101 and ENG 201 or ENG 121

Children's Literature  ENG 334  3 crs. 3 hrs.
This course studies and analyzes outstanding classical, contemporary and multicultural literature for children and adolescents, arranged by genre. Students are given an overview of the evolution of the literature from
its cultural roots in myth and legend to its present role as a reflector of modern society. 
Prerequisite: ENG 101 and ENG 201 or ENG 121

Autobiography ENG 335
3 crs. 3 hrs.
This course will introduce the student to autobiography in the context of literary debate: why do we read autobiography? How do we classify autobiography, as non-fiction or fiction? Works by both men and women of many cultural and socioeconomic backgrounds will be included. Students will examine the various styles, elements, as well as the recurring themes in autobiography, while working on their own “reflection of the self.”
Prerequisite: ENG 101 and ENG 201 or ENG 121

Postcolonial Literature ENG 336
3 crs. 3 hrs.
This course will study and analyze selected novels, short stories, poems and plays of postcolonial writers from Africa, South Asia and Southeast Asia, the English speaking Caribbean, New Zealand, Canada and Australia. The course will examine the ways in which postcolonial writers transcend a British imperial legacy of colonialism to redefine their own distinctive social and cultural worlds.
Note: This course is crosslisted as: AFL 336

Science Fiction ENG 337
3 crs. 3 hrs.
This course examines how science fiction literature envisions the impact of machine technology on the individual and society. The human/machine interaction will be traced from early myths to contemporary science fiction, including works by Asimov, Clarke, Delaney, Gibson, Lem, Orwell, Vonnegut and Zelazny.

Latino/a Literature in the U.S. ENG 338
3 crs. 3 hrs.
In this course, works reflecting the experiences of U.S. Latino/a writers in English are analyzed. Students will read, discuss, and write about fiction, nonfiction, poetry and drama by writers such as Julia Alvarez, Rudolfo Anaya, Gloria Anzaldua, Roberto Fernandez, Tato Laviera, Achy Obejas, Abraham Rodriguez Jr., and Piri Thomas.
Note: Crosslisted with LAT 338

Asian American Literature ENG 339
3 crs. 3 hrs.
Representative works reflective of the collective experiences of Asian American writers are analyzed. American writers are analyzed. Fiction, poetry, drama and non-fiction written from Chinese, Filipino, Asian Indian, Japanese, Korean and South-East Asian cultural perspectives are discussed

Middle Eastern Literature ENG 340
3 crs. 3 hrs.
This course surveys fiction, poetry, and drama from writers throughout the Middle East, beginning in the late 19th century and concluding in the present time. English translations of well-known literature from the Middle East, a region defined as the countries of southwest Asia and northeast Africa, are considered in the context of such recurring themes as cultural/national identity, colonialism, religion (e.g. Islam, Judaism, Christianity), gender relations and class conflict.
Prerequisites: ENG 101 and 201, or ENG 121

Modern Poetry ENG 345
3 crs. 3 hrs.
The goals of this course are to stimulate an appreciation for, and an enjoyment of, poetic masterworks mainly of the 20th century. This course includes critical reading and writing; its approach is an in-depth study of poetry which has universal significance. Writers studied include T.S. Eliot, W.H. Auden, Dylan Thomas, e.e. cummings, Pablo Neruda, Langston Hughes, Theodore Roethke, Gwendolyn Brooks and Sylvia Plath.

Queer Literature ENG 346
3 crs. 3 hrs.
This course focuses on 20th and 21st century texts within the area of Queer literature and by Queer literary artists. It covers a variety of literary and critical texts in order to introduce students to classics of Queer Literature as well as lesser-known masterpieces. The aim of this class is to expand students’ conceptions about literature, sexuality, and gender and lead them to critically investigate socially-constructed ideas about gender and sexuality. Students will examine and analyze the manner in which the authors and texts subvert and challenge sexual and cultural norms.
Prerequisite: ENG 101 and ENG 201 or ENG 121
Topics in Literature  
ENG 350/351  
3 crs. 3 hrs.

This course will focus on a specific theme, concept, cultural milieu, or major author to be announced in advance. Topics for the following semester will be made available by the English Department during registration. Each section of the course will cover in-depth a single special topic, such as one of the following: the Harlem Renaissance, Literature and the Environment, Utopian and Dystopian Literature, Literature and Medicine, The Beat Generation, Literature of the Working Class, Satire in the 18th Century, Censorship and Literature, Literature of Immigration, War in Literature, Madness and Inspiration in Literature, Gay and Lesbian Literature, and Women in Shakespeare.  
Prerequisites: ENG 101 and 201, or ENG 121

Women in Literature  
ENG 353  
3 crs. 3 hrs.

This course focuses on the contributions of women literary artists from a variety of cultures and ethnic groups. It examines how some writers have both reflected the prevailing female stereotypes of their age and background, and also imagined the "New Woman." Enrollment is open to both women and men.

Contemporary Urban Writers  
ENG 358  
3 crs. 3 hrs.

This course focuses on the literature of urban America since 1950 and in particular on how contemporary writers use the images and themes of the city.

Italian American Literature  
ENG 360  
3 crs. 3 hrs.

Italian American literature surveys fiction, poetry, and drama throughout the history of Italian Americans in the United States beginning in the first half of the twentieth century and continuing into contemporary America. This literature will be considered in the context of recurring themes in the artistically framed experiences of Italian Americans beginning in the first half of the twentieth century and continuing into contemporary America: cultural-national identity conflict, anti-colonization by church and state, religion, gender relations, generational differences and relations, class conflict, for example working class vs. the bourgeoisie, or working class immigrant and sons and daughters vs. the dominant American culture, the problem of education in early Italian American history, the dilemma of cultural and linguistic loss, intercultural conflict, intracultural conflict, family values, oppression, social dysfunction, and assimilation.  
Prerequisites: ENG 101 and 201, or ENG 121

British Literature from the Medieval Era to the Eighteenth Century  
ENG 371  
3 crs. 3 hrs.

This course surveys works of English literature from its origins in pre-Norman England to the eighteenth century. The objectives are threefold: (1) to develop the student's appreciation for literature and an acquaintance with literary masterpieces written in English during the years of this survey; (2) to introduce the student to the major political and cultural events and ideas that shaped England during these years; (3) to illustrate how cultural and political ideals shape men's thinking and have their reflections in and are reflected by literature. Selections may include Beowulf, Chaucer's Canterbury Tales, Shakespeare's plays and Swift's writings.

British Literature from the Romantic Era through the Twentieth Century  
ENG 372  
3 crs. 3 hrs.

This course survey is independent of English 371, which is not a prerequisite. It covers the principal figures, styles, themes and philosophies represented during three literary periods: the Romantic Era, the Victorian Age and the Twentieth Century. It exposes students to major works of literature including poetry, plays, short stories, novels and essays. It enables students to appreciate the thoughts and contributions of outstanding writers such as Keats, Wordsworth, Tennyson, Browning, Yeats and Eliot, as well as Dickens, Joyce and Lawrence.

Introduction to Shakespeare  
ENG 373  
3 crs. 3 hrs.

This course provides careful, in-depth readings from Shakespeare's tragedies, histories and comedies. The course examines some of the main characteristics of his work, including his major themes, the development of character and plot, and the special worlds that he creates through his poetic language.

American Literature from the Colonial Era to the Civil War  
ENG 381  
3 crs. 3 hrs.

This course surveys American literature from its colonial beginnings to the American Renaissance of the nineteenth century—from Ann Bradstreet and Cotton Mather to Walt Whitman and Herman Melville. Students engage in close readings of individual works and learn about the cultural milieu that influenced writers, read major and representative works and sharpen their critical abilities.

American Literature from the Reconstruction Era to the Present  
ENG 382  
3 crs. 3 hrs.

Though English 381 is not a prerequisite, this course begins where 381 leaves off and covers select fiction and poetry from the Gilded Age of the late nineteenth century to the present. Students study major writers and literary movements; and an effort is made to place literature in its cultural context. Works by such writers as Mark Twain, Emily Dickinson, Henry James, T.S. Eliot, Richard Wright, F. Scott Fitzgerald and Toni Morrison may be included.

The American Novel  
ENG 383  
3 crs. 3 hrs.

This course focuses on the gradual emergence of the American novel both as a literary form and as a reflection and reinforcement of patterns in the fabric of American life. Representative authors may include Hawthorne, Melville and Stowe from the 19th century; Lewis, Cather, Fitzgerald, Faulkner, Hemingway and Steinbeck from the 1920s to the 1950s; and Wright and Mailer of the 1960s and 1970s.

Modern American Drama  
ENG 384  
3 crs. 3 hrs.

The development of the American theatre since the rise of realism is traced through 1920s dramas by O'Neill, Howard, and Rice; comedies of manners by Barry and Behrman; socially conscious plays of the 1930s by Oedets, Sherwood, and Hellman; and post-war dramas by Williams and Miller.  
Prerequisites: ENG 101 and 201, or ENG 121

World Literature I: From Antiquity to the Early Modern Era  
ENG 391  
3 crs. 3 hrs.

This course presents a global approach to literature by introducing prose, poetry and drama representative of different world cultures and historical periods, from antiquity to the early modern era. Students engage in close readings of individual texts and contextual/comparative analyses. Written and spoken activities are designed to enhance students' appreciation of literature and their awareness of the ways it arises from, shapes and reflects the world's cultures.

World Literature II: From Early Modern Era to the Present  
ENG 392  
3 crs. 3 hrs.

This course presents a global approach to literature by introducing prose, poetry and drama representative of different cultures and historical periods, from the 17th century to the present. Students engage in close readings of individual texts and contextual/comparative analyses. Written and spoken activities are designed to enhance students' appreciation of literature and their awareness of the ways it arises from, shapes, and reflects the world's cultures.

Jewish Literature  
ENG 393  
3 crs. 3 hrs.

This course aims to acquaint students with representative Judaic works translated from Hebrew or written in English and ranging from Biblical times to the present. The selections concentrate on those writings which have been most influential in the development of Western literature and which best convey Jewish thought, feeling, and experiences, especially in their universal application. The readings will be supplemented by exposure to Judaic music and art, including visits to museums and galleries, individual student projects, and guest lectures. No prior knowledge of the Hebrew language or Jewish culture or literature is required.  
Prerequisites: ENG 101 and 201, or ENG 121

Modern European Novel  
ENG 394  
3 crs. 3 hrs.

European social and political ideas as they are reflected in the works of such novelists as Gide, Silone, Koestler, Camus, Sartre, Mann, and Kafka are examined and analyzed.  
Prerequisites: ENG 101 and 201, or ENG 121
**ETHNIC AND RACE STUDIES Course Descriptions**

**Ethnic and Race Studies**

*Room S-623, Telephone: (212) 220-1370  
ethnicstudies@bmcc.cuny.edu*

The Department of Ethnic and Race Studies offers courses in the following areas: Asian Culture (ASN), Africana Studies (AFN), Latino Studies (LAT), Africana/Latino Studies (AFL). The courses can be used to satisfy liberal arts requirements in literature, the social science disciplines, music and art, or as electives. Courses in Ethnic and Race Studies are articulated for transfer credit. The educational objectives of the courses include enhancement of critical thinking processes and refinement of written communication skills. The pedagogical approach is interdisciplinary in concept. Students interested in subjects related to career, liberal arts or pre-professional programs should consult members of the faculty in the Department of Ethnic and Race Studies.

**Chairperson:** Patricia Mathews  
**Professor:** Patricia Mathews  
**Associate Professors:** Judith Anderson, Daly Guillamo-Addison  
**Assistant Professors:** Lissette Acosta, Rigoberto Andino Jr., RaShelle Peck, Andrew Smallwood, Linta Varghese  
**Instructors:** Leslie Martino-Velez  
**Adjunct Faculty:** There are approximately 35 adjuncts in the department.

### ASIAN CULTURE (ASN)

- **Chinese Culture and Heritage**  
  (same as ANT 111)  
  3 crs. 3 hrs.  
  This course will examine the diverse Asian American communities that have populated the city from the late 19th century onwards through topics such as racial segregation, ethnic economies and labor, global and transnational flows, gentrification, community institutions and inter-racial community relations. The course will study research methods, undertake field trips to Asian American and transnational Asian institutions and organizations, and produce a final paper based on firsthand/primary research.

- **ASN 111**

### Asian American History

- **(same as HIS 114)**  
  3 crs. 3 hrs.  
  The Asian American presence from the mid-nineteenth century to the present is studied. Three periods, 1848 to 1943, 1943 to 1965, and 1965 to the present are examined. Topics are designed to focus on the impact of historical processes on the cultural, economic, and political experiences of diverse Asian American groups in urban and rural communities. The multi-ethnic aspects of Asian American communities are explored.

- **ASN 114**

### An Introduction to the Middle East

- **(same as HIS 129)**  
  3 crs. 3 hrs.  
  This course aims to introduce students to the Middle East, from the rise of Islam to contemporary times. It takes a cross-disciplinary approach, designed to allow students the chance to examine the region from a number of different perspectives; not only an historical one, but also those of literature, religion, economics, politics and international relations. It is hoped that, at minimum, the course will provide a sound basis by which students might better frame their understanding of the region; at maximum, that it might stimulate a desire to further explore the region in greater depth. Particularly, given the tendency if the media to view the region largely in terms of current events, it is hoped that by taking a cross-disciplinary approach, students will come to conceive of the region as a multi-dimensional; as a region with rich and varied cultural, historical and intellectual traditions; most importantly, as a region made up of people, of individuals who have many of the same desires and aspirations, the same fears and concerns, as ourselves. Given that the course constitutes a broad cross-disciplinary survey of the Middle East, it will, at times, be necessarily selective, focusing in depth on specific but representative aspects of Middle Eastern civilization. Students are thus encouraged to make reference to the “additional reading list” towards the end of the syllabus. An additional goal of the course is to consider in a more critical way the manner in which the region is portrayed in the media. Thus, periodically, we will be examining issues of topical interest.

- **ASN 129**

### AFRICAN STUDIES (AFN)

- **African Art** (same as ART 801)  
  2 crs. 2 hrs.  
  This is a survey course examining the function and form of African art in its past and present relationships to African cultures. The influence of African art forms on Western art is studied. Lectures, slides and visits to museums and galleries are included.

- **AFN 101**

### History of African Civilization

- **(same as HIS 121)**  
  3 crs. 3 hrs.  
  African civilizations from the pre-historic cultures in East Africa to the decline of the West African kingdom of Songhai in 1596 are examined.

- **AFN 121**

- **Africa 1500 to Present**  
  (same as HIS 122)  
  3 crs. 3 hrs.

- **AFN 122**

### AFRICAN AMERICAN STUDIES (AFN)

- **African American Art** (same as ART 802)  
  2 crs. 2 hrs.

- **AFN 102**

### History of African American Studies

- **African American History, 17th Century to 1865** (same as HIS 123)  
  3 crs. 3 hrs.

- **AFN 123**

- **AFN 201**

### LITERATURE

### CROSS LISTED WITH ENGLISH

- **Asian American Literature**  
  (same as ENG 339)  
  3 crs. 3 hrs.

- **AFN 339**

### AFRICAN STUDIES (AFN)

- **African Art** (same as ART 801)  
  2 crs. 2 hrs.

- **AFN 101**

### AFRICAN AMERICAN STUDIES (AFN)

- **African American Art** (same as ART 802)  
  2 crs. 2 hrs.

- **AFN 102**

- **AFN 201**

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
African-American History, 
1865 to Present (same as HIS 124)  
AFN 124  
3 crs. 3 hrs.  
Reconstructions I and II, the social Darwinist years, Civil Rights activism of the 1960s, and the cumulative effects of institutionalized racism are set in an historical framework for comparative study. The course examines the impact of urbanization, institutional racism, economic, and political policies on the life experiences of African-Americans. The dynamics of cultural, social, and political interactions within the social structure of the nation since 1865 are analyzed.

Caribbean History  
(same as HIS 126)  
AFN 126  
3 crs. 3 hrs.  
This course is a survey of the economic, political and cultural institutions which characterize the present nations of the Caribbean, their antecedents in the post-Emancipation period and the prospects for the future.

Haitian History and Culture  
(same as ANT 127)  
AFN 127  
3 crs. 3 hrs.  
This course explores the role of economics, culture, and world diplomacy in the development of the Republic of Haiti since the Revolution of 1791. The impact of Haitian intellectual and popular thought on prose, poetry, and art is examined.

Black Women in the Americas and the Caribbean  
(same as ANT 128)  
AFN 128  
3 crs. 3 hrs.  
The changing status of women in African traditional societies is compared with changes in the status of Black women in the United States, the Caribbean, and Brazil.

The Black Man in Contemporary Society  
(same as SOC 129)  
AFN 129  
3 crs. 3 hrs.  
The effects of economic and social factors on socialization, status, and levels of achievement among Black men are analyzed. The impact of institutional racism and underachievement on urbanized populations is explored in terms of access, social status, and economic differentials.

Modern Black Political Thought  
(same as POL 152)  
AFN 152  
3 crs. 3 hrs.  
The origins of nationalist ideologies, and political and social action in the United States, Caribbean, and Africa are examined. Political and economic developments since the late 19th century are analyzed.

Sociology of the Black Urban Community  
(same as SOC 154)  
AFN 154  
3 crs. 3 hrs.  
Current theories of socialization, cultural transformation, and poverty are assessed. Field visits to recognized agencies and institutions are arranged under supervision of the instructor.

The Black Experience in Africa  
(same as SSC 253)  
AFN 253  
3 crs. 3 hrs.  
Current theories of socialization, cultural transformation, and poverty are assessed. Field visits to recognized agencies and institutions are arranged under supervision of the instructor.  
Prerequisite: Permission of the center

The Contemporary Black Family  
(same as SOC 256)  
AFN 256  
3 crs. 3 hrs.  
The Black family in current urban/suburban settings and the effects of changing value systems, the single-parent family, crises in education, and economic stability are examined. Field visits to selected agencies and institutions are required.

African-American Writing  
from 18th Century to 1940  
AFN 321  
3 crs. 3 hrs.  
This course is a survey of fiction, poetry, and commentary by African American writers from the 18th century through the Harlem Renaissance to 1940.  
Prerequisite: ENG 201

Contemporary Black Writers  
AFN 322  
3 crs. 3 hrs.  
This course is a survey of fictional and non-fictional writing by African Americans from 1940 to the present.  
Prerequisite: ENG 201

Black Literature of the Caribbean  
AFN 338  
3 crs. 3 hrs.  
The course examines the emergence and development of a distinct regional literature in English and French speaking nations.  
Prerequisite: ENG 201

AFRICANA/LATINO STUDIES (AFL)  
Introduction to Ethnic Studies  
AFL 100  
3 crs. 3 hrs.  
Introduction to Ethnic Studies explores the historical formation of ethnic studies in the United States. The course examines the academic field of Ethnic Studies by raising questions about the ways that race and racism shape our experiences and world across a range of time and places. In an interdisciplinary approach, the course will introduce students to a variety of terms such as ethnicity, race, class, gender, ethnic stratification, etc. The course will also teach students a variety of methodological approaches to doing ethnic studies research and major issues in the field. It places an emphasis on relationships and conflicts between diverse groups, especially how they were treated and defined in relation to each other. Broadly speaking, this course is concerned with how these groups struggle to stake out their place in a highly unequal world.

Economics of Urban Communities  
(same as ECO 111)  
AFL 111  
3 crs. 3 hrs.  
This course introduces the subject of urban economics in historical and social contexts rather than as a strict analytical discipline.  
The causes and existence of poverty in cities, the management of federal, state and local government programs, the financing of Black enterprises, and conditions of social welfare are considered. Solutions toward developing neglected economics of urban communities are proposed.

Economic Development in the Dominican Republic  
(same as ECO 113)  
AFL 113  
3 crs. 3 hrs.  
This course analyzes the economic policies of the different political regimes in the Dominican Republic from the end of the 19th century to the present. It studies the application and results of these policies changes brought about by these regimes in trade, industry, agriculture and population. It also examines the influence of the United States on developments in the Dominican economy during this century.

African Development  
(same as ECO 112)  
AFL 125  
3 crs. 3 hrs.  
Problems of African economic and political development since 1900 are analyzed. The emergence of conditions contrary to the goals of independence and African participation in world affairs is explored.

Comparative Ethnic Studies I  
(same as SOC 125)  
AFL 125  
3 crs. 3 hrs.  
This course surveys the long history of cross-racial and inter-ethnic interactions among immigrants, migrants, people of color and working people in the United States and the wider world from the era of mercantile capitalism in the sixteenth century to the present. By making inroads into the dynamic worlds that indigenous people, people of African and Latin American descent, European Americans, and Asian Americans made and remade, the course aims to reach across borders of all kinds, including national boundaries, to cultivate global, transnational and comparative perspectives on race and ethnicity. In particular, it places emphasis on relationships and conflicts between these diverse groups, especially how they were treated and defined in relation to each other. Broadly, this course is concerned with how these groups struggle to stake out their place in a highly unequal world.

Political Economy of the Caribbean  
(same as ECO 151)  
AFL 151  
3 crs. 3 hrs.  
This is a study of the factors affecting the economies of the English and French speaking countries of the Caribbean region. The effects of international diplomacy, multinational corporate policies, educational and social determinants, and economic policies are evaluated.

Health Problems in Urban Communities  
(same as SOC 161)  
AFL 161  
3 crs. 3 hrs.  
This course analyzes the relationships between economic and social factors, and the delivery of health care services in urban communities.
Attention is given to community needs related to HIV/AIDS, tuberculosis, mortality rates, prevention, and education. Guest lecturers and workshops are presented.

The Roles of Women in a Changing World  
(same as ANT 210)  
AFL 210  
3 crs. 3 hrs.

This course analyzes the status and roles of women in cross-cultural perspective. Particular emphasis is given to the socio-cultural forces underlying the women's rights movements in the 19th century and the present resurgence of feminism.

Research and Writing Methods  
AFL 300  
3 crs. 3 hrs.

The Ethnic Studies capstone will focus on special topics within the field and expertise of the instructor. It will provide a culminating experience for students by allowing them to explore a topic in-depth, engage in independent research, develop their analytic abilities and critical thinking skills, and apply concepts and theories to new cases. The capstone course will introduce students to the major theoretical perspectives, the basic research methodologies and research design issues, and the central analytical models in Ethnic Studies. Over the course of the semester, each student will engage in independent research that culminates in a research paper or project and a presentation to the class. This course will help students achieve BMCC’s General Education outcomes by developing their understanding of the social sciences, strengthening their communication skills and information and technology literacy, deepening their appreciation for professional values and ethics, and encouraging and assessing critical thinking skills.

Prequisite: AFL 100

LATINO STUDIES (LAT)  

Latin American Theatre and Performance  
(same as THE 324)  
LAT 124  
3 crs. 3 hrs.

This survey course will look at major trends and directions in Latin American theatre by drawing on plays and performance ensembles of the mid-twentieth century to the present. We will look at the work of some of the most influential playwrights, directors, and ensembles as they grapple with their political, national, and cultural contexts, and discuss these artists’ dual commitment to social conscience and artistic expression. We will read manifestos and plays by many of Latin America’s major playwrights and performers, as well as critical writing by scholars and historians. We will also engage with documentary films and videos of performances.

Prequisite: SPE 100 or THE 100 or LAT 100

Puerto Rican Culture and Folklore  
(same as ANT 125)  
LAT 125  
3 crs. 3 hrs.

This course studies the emergence of a national culture, folklore and identity. Topics include the Taíno, Spanish and African contributions to the creation of a criollo personality and character and the Puerto Rican family, race relations, the jibaro, religion, and the arts. It reviews customs, traditions, celebrations, dances, legends, songs, proverbs, and hero/underdog stories as well as the impact of the United States culture.

History of Puerto Rico: Discovery through 19th Century  
(same as HIS 127)  
LAT 127  
3 crs. 3 hrs.

This course studies the history of Puerto Rico from the pre-Columbian period to the end of the 19th century. Consideration will be given to political, social, cultural and economic factors contributing to the emergence of national consciousness in the 19th century and to the events leading to the Spanish-American War in 1898.

History of Puerto Rico: 1900 to Present  
(same as HIS 128)  
LAT 128  
3 crs. 3 hrs.

This course studies the historical conditions of Puerto Rico in the 20th century. The transition from a Spanish colony to an American possession is examined. The events and forces that created the present Puerto Rico are studied and analyzed in perspective. The alternatives to the problem of status commonwealth, statehood and independence are studied.

History of Latin America  
(same as HIS 130)  
LAT 130  
3 crs. 3 hrs.

Survey covering from the pre-Columbian cultures, the age of discovery and exploration, colonial structures, independence movements, to contemporary Latin America, with special emphasis on the countries of the mainland (i.e., North, Central and South America). Students will study the traditions and institutions of Latin American Civilization including the Iberian conquest and colonization, the role of the Catholic Church, economic and social structures, as well as problems related to government, nation-building, race and class relations, wars and Latin America’s position in the world.

History of the Dominican Republic  
(same as HIS 131)  
LAT 131  
3 crs. 3 hrs.

This course studies the history of the Dominican Republic from the pre-Columbian and Colonial periods to the present. It deals with the geographical, political, social and economic factors that form the Dominican nation. Emphasis is given to relations with Haiti and North America. The course analyzes the position of the Dominican Republic in the community of Latin American nations as well as its place in today’s world.

Introduction to Mexican-American Studies  
LAT 140  
3 crs. 3 hrs.

This course studies the varied experiences of Mexicans in the United States from an interdisciplinary perspective. Through readings, lectures, media and discussions, students will learn about the historical, social and cultural contributions of Mexican Americans. The course will survey the history and evolution of Mexicans in the United States at the same time that it explores issues of cultural identity and community of Mexicans in the United States. While the course emphasizes developments in the 20th and 21st centuries, students will also engage with developments prior to the 20th century. Students will study major political and social events that contributed to the incorporation of Mexicans into US institutions as well as become familiar with current events and world perspectives regarding the experiences of today’s society.

Puerto Rican Music  
(same as MUS 881)  
LAT 141  
3 crs. 3 hrs.

The course will survey the musical genres of Puerto Rico and how each developed within a historical and social context, beginning with the role of music in pre-Colombian, European and African cultures up to the present.

The Latino Experience in the U.S.  
(same as SOC 150)  
LAT 150  
3 crs. 3 hrs.

This course studies the varied experiences of Latinos in the United States of America. Through readings, lectures, discussions and fieldwork, students will become familiar with the group and its diverse components from North, Central and South America as well as the Caribbean, while covering representative nationalities such as Mexicans, Salvadorians, Cubans, Colombians, Ecuadorians, Puerto Ricans and Dominicans. The course will survey the history and evolution of Latinos at the same time that it explores issues of cultural identity. Other topics include family, race relations, religion, education, economic incorporation and political participation. Key issues of contemporary interest will also be explored, such as Latinos and immigration, and the impact they have on local, state and nationwide elective office.

Politics of Puerto Rican Communities  
(same as POL 151)  
LAT 151  
3 crs. 3 hrs.

This course is an analysis of the political movements and parties of Puerto Rican communities in the U.S.A.; the relationships of these movements and parties toward political development in Puerto Rico; the role of the Puerto Rican in both traditional and radical political movements in the U.S.A.; and how political participation in the American process has come to contribute to a sense of community identity among Puerto Ricans in the U.S.A.

Puerto Rican Experience in Urban U.S. Settings  
(same as SOC 152)  
LAT 152  
3 crs. 3 hrs.

This course studies the peculiar characteristics of the Puerto Rican migration to the U.S. It analyzes the processes of assimilation and adaptation to the American society as opposed to the identity and preservation of Puerto Rican cultural values. The problems of education, housing, health services, family and community, employment, and economic development are given special attention as they relate to the unique experience of the Puerto Rican in the U.S.A.
People and Cultures of Latin America and the Caribbean (same as ANT 200)  LAT 200  3 crs. 3 hrs.
This course examines the diverse peoples and cultures that have populated Latin America and the Caribbean region since pre-Columbian times. It discusses the legacy of European colonization and the subsequent struggles for independence, formation of national identities and the quest for modernization today. The course will place particular emphasis on the production of social movements that respond to social inequality, and conflicting ideologies around ethnicity, race and gender among other factors. The readings illustrate case studies that examine a wide range of topics—ecological adaptation, food production, kinship and local politics, medical and religious beliefs and artistic expressions—from small-scale rural society to large complex urban centers throughout the continent. It will also explore how globalization, intense migration, and transnationalism have generated new notions of identity in the US today.

Representative Puerto Rican Writers  LAT 233  3 crs. 3 hrs.
This is an intensive study of a group of Puerto Rican writers and their reactions to different periods in the history of their country. The course includes both oral and written analyses of the important works of Eugenio Maria de Hostos, Jose de Diego, Antonio S. Pedreira, Julia de Burgos, J. L. Gonzalez, Luis R. Sanchez, and other selected writers. Each writer is studied as a man/woman reflected in his/her works, his/her unique reactions to the circumstances in which he/she has lived. Note: This course is taught in Spanish and satisfies the Liberal Arts requirement for Modern Language. Prerequisite: SPN 210 or departmental approval

The Puerto Rican Family (same as SOC 234)  LAT 234  3 crs. 3 hrs.
This course studies the Puerto Rican family as the primary unit of Puerto Rican society, reflecting the patterns and dynamics of that society. It examines the variations in family structure that have evolved from the Taíno, Spanish and African cultures. The historical and economic changes that have transformed Puerto Rican society are analyzed with emphasis on its effect on the family structure. The experience of migration and its impact on the Puerto Rican family are considered. Attention is given to the problems facing the family as the unit of migration.

Puerto Rican Economic Development (same as ECO 236)  LAT 236  3 crs. 3 hrs.
This course analyzes the history and effects of American economic policies on contemporary Puerto Rico. Economic conditions before the American occupation are examined with the objective of comparing them with the conditions and changes after 1898. The period of sugar as a monoculture is studied as well as the great depression and its impact on Puerto Rico. The coming to power of the Popular Party, with its politics of land reform and economic development for the Puerto Rican people. The economic and social planning that have brought about modern Puerto Rico are analyzed.

Puerto Rican Literature: Early Colonial  LAT 237  3 crs. 3 hrs.
This course is a survey of Puerto Rican literature from the Spanish colonial period through the 19th century. It includes a study of the first literary expressions (both in prose and verse), a history of the various literary movements, and representative authors and their works. Written critical analyses and oral reports on selected work are required. Note: This course is taught in Spanish and satisfies the Liberal Arts requirement for Modern Language. Prerequisite: SPN 210 or departmental approval

Contemporary Puerto Rican Literature  LAT 238  3 crs. 3 hrs.
This course covers the contemporary literary expression in Puerto Rico. Authors such as Luis Pales Matos, Julia de Burgos, Diaz Alfaro, and other short story writers are studied and evaluated. The course studies and analyzes the modern novel as a reflection of the present Puerto Rican society. Note: This course is taught in Spanish and satisfies the Liberal Arts requirement for Modern Language. Prerequisite: SPN 210 or departmental approval

The Short Story in the Spanish Speaking Caribbean (same as SPN 439)  LAT 239  3 crs. 3 hrs.
This course studies the short story as major form of literary expression in the Spanish-speaking countries of the Caribbean: Colombia, Cuba, the Dominican Republic, Puerto Rico, and Venezuela. It studies the development of the short story beginning with Indian legends recreated by Spaniards during the early Colonial period. Examples of short stories written during the different literary movements are studied and analyzed. The relationship between the writer and society is analyzed as well as the common history, culture, and socio-economic problems which are reflected in each story. Note: This course is taught in Spanish and satisfies the Liberal Arts requirement for Modern Language. Prerequisite: SPN 210 or departmental approval

Latin American and Caribbean Society  LAT 475  3 crs. 3 hrs.
This is a summer course taught abroad in a Latin American or Caribbean country. It offers the student the opportunity to travel, to share, to live and to study in another country. From a global perspective, this course explores the history and culture of a selected Latin American or Caribbean country by focusing on religion, homeland, art, family, identity, film, economic development, social and political movements and environment as they are presented as major themes of current research and in the tangible appreciation of the student. Prerequisite: A functional knowledge of the language of the country or countries visited may be required.
HEALTH EDUCATION
Course Descriptions

Health Education
Room N-798, Telephone (212) 220-1453
hed@bmcc.cuny.edu

The Health Education courses provide undergraduates with the knowledge, skills, and models to enhance, promote, and value their physical, emotional, social, intellectual, and spiritual health. The Health Education courses complement the other curricula in developing the whole person and focusing on individual health needs. The department offers degrees in Community Health Education, School Health Education and Public Health leading to the Associate Degree in Science (A.S.) In addition, a Gerontology Program is jointly offered with the Social Sciences, Human Services and Criminal Justice department that leads to the A.S. degree.

Note: 200-level HED courses do not meet the Health Education (HED 100) requirement for degree programs.

Chairperson: Lesley Rennis

Deputy Chairpersons: Lisa Grace, Gloria McNamara

Professors: Philip Belcastro, Lesley Rennis

Associate Professors: Lisa Grace, Hardaye (Sharie) R. Hansen, Michael McGee, Gloria McNamara, Yuliya Shneyderman

Assistant Professors: Monica Stanton-Koko, Anika Thrower

Instructor: Alex Evangelista

Lecturers: Jason Bravo, Patricia DeFillippo

Health Education
HED 100
2 crs. 2 hrs.

This is an introductory survey course to health education. The course provides students with the knowledge, skills, and behavioral models to enhance their physical, emotional, social, intellectual and spiritual health as well as facilitate their health decision-making ability. The primary areas of instruction include: health and wellness; stress; human sexuality; alcohol, tobacco and substance abuse; nutrition and weight management; and physical fitness. Students who have completed HED 110 - Comprehensive Health Education will not receive credit for this course.

Comprehensive Health Education
HED 110
3 crs. 3 hrs.

This course in health educations offers a comprehensive approach that provides students with the knowledge, skills, and behavioral models to enhance their physical, emotional, social, intellectual and spiritual health as well as facilitate their health decision-making ability. Areas of specialization include: alcohol, tobacco and abused substances, mental and emotional health, human sexuality and family living, nutrition, physical fitness, cardiovascular health, environmental health and health care delivery. HED 110 fulfills all degree requirements for HED 100. Students who have completed HED 100 - Health Education will not receive credit for this course.

Human Sexuality and Society
HED 190
3 crs. 3 hrs.

This course explores the intersections of sexuality and culture, looking at the social construction of sexuality, the development of sexual and relationship norms through history, and the role of media and popular culture in shaping our understanding of sexuality, gender, and relationships.

Food, Culture and Society
HED 195
3 crs. 3 hrs.

Students will examine American dining rituals and patterns from colonial times through the 21st Century. Students will examine how historical events of colonization, trade, war, industrialization and weather impacted food consumption and diet in America. Using a socioecological model, students will also examine how American meal patterns are influenced by religion, race, culture, economics and politics.

Health Education and Exercise
HED 201
3 crs. 2 hrs. 2 lab hrs.

This course will develop positive health related attitudes, values, and habits to promote physical, mental and social wellness. The student will attain a broad spectrum of exercise information and skills and apply that knowledge to those skills in a laboratory fitness program, utilizing appropriate equipment to assess the function of muscular systems during physical performance. Individuals will explore the body’s adaptations to aerobic, anaerobic, and resistance training.

Drug Use in American Society
HED 202
3 crs. 3 hrs.

This course examines the use of licit and illicit drugs across cultures within the context of personal health and wellness. The historical, pharmacodynamics, psychological, emotional and social aspects of licit and illicit drug use, as well as drug abuse, will serve as the foundation for this examination.

Contemporary Health Issues
HED 210
2 crs. 2 hrs.

An advanced seminar in health education, this course concentrates on an in-depth investigation of selected health problems. Emphasis is placed on social aspects of health.

Critical Health Topics and Issues
HED 211
3 crs. 3 hrs.

This course academically examines topics that health education professionals have identified as: 1) critical to the health and wellbeing of specific populations, 2) relevant to the current state of the nation’s health and healthcare system, 3) representative of recent trends in health practices/theory, or 4) a significant health concern attributable to personal health behavior(s). This course provides for an in-depth analysis of the array of topics germane to the health field. Each semester one or more topics will be offered through this course. Prerequisite: HED 100 or HED 110

Habituation and Addiction and Their Prevention
HED 215
3 crs. 3 hrs.

This course covers causes of alcoholism and drug abuse. It discusses ways people are introduced to harmful substances, social and personal effects of alcoholism and drug abuse, prevention, and rehabilitation techniques. Methods and materials for professional students are given special consideration.

Human Sexuality
HED 220
3 crs. 3 hrs.

This course deals with the physiological, psychological and social aspects of human sexual development and functions.

Health Concerns of Women
HED 225
3 crs. 3 hrs.

This health course is aimed to be a practical course for students and to affect their lives in a positive way. It provides an opportunity to gain information and insight into the physical, psychological, and social aspects of women’s health concerns.

Consumer Health Survey
HED 230
3 crs. 3 hrs.

Historical events and contemporary factors affecting the availability, control, and monitoring of American Health Care products and services are explored. Such factors include: the private and public financing of health care, public and private monitoring of health care; and the ethical issues of medical care in America.

The purpose of the course is not to advocate any particular health care philosophy, product or service, but to provide the student with the skills

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
and factual base for making informed decisions in the health care marketplace.

**Nutrition for Health**  
**HED 235**  
3 crs. 3 hrs.

This course examines what the National Academy of Sciences recommends for meeting one's nutritional needs. It examines the food, beverages, and supplements that comprise one's diet and assesses their impact on health following digestion, absorption, and metabolism. The course is designed to help students make health informed choices regarding nutritional needs and goals.

**First Aid, Safety and Cardio Pulmonary Resuscitation**  
**HED 240**  
3 crs. 3 hrs.

Students in this course acquire knowledge essential for safe living, including the causes and prevention of accidents. The student learns the practical skills of first aid and cardio pulmonary resuscitation. Students are eligible for certification provided they meet Red Cross standards.

**Stress: Awareness, Understanding and Management**  
**HED 250**  
3 crs. 3 hrs.

This course is designed to provide students with a comprehensive overview of the psychological, physical, and social understanding of the stress response. The course will explore the divergent ranges of the human stress response, while emphasizing the use of positive stress in an academic setting. Opportunities will be provided for students to learn concrete scientific measures, gain practical insights, and adapt viable stress management techniques. The purpose of the course is not to advocate any one particular technique, but rather to enable students to make informed decisions about stress management approaches toward enhancing health.

**Communication Strategies in Health Literacy, Promotion and Programming**  
**HED 255**  
3 crs. 3 hrs.

An introduction to the United States and International field of health communication with an emphasis on theoretical constructs, practical models and applications. This course of study examines the multifaceted nature of health communication and its role in personal health behavior and public health interventions.

**Fitness and Cardiovascular Health**  
**HED 260**  
3 crs. 2 hrs. 2 lab hrs.

This course focuses on preventive heart care utilizing: nutritional plans, cardiovascular stress management, cardiovascular knowledge, and individualized cardiovascular fitness programs.

In the classroom and fitness laboratory, students explore, devise and practice educational and fitness strategies to improve their overall cardiovascular health.

**Health Perspectives of Death and Dying**  
**HED 270**  
3 crs. 3 hrs.

The course experience provides students, utilizing Dubos’ Multidimensional Health Model, an understanding of death and dying from a physiological, emotional, spiritual, and behavioral perspective with additional emphasis on legal and ethical issues. Topics to be explored include: therapeutic care plans as they relate to diseases and disorders of the terminally ill; medical preparation for death, inclusive of DNI (do not intubate), DNR (do not resuscitate) and health proxy laws; an examination of the emotional and physiological impact on the health of the caregiver as well as that of the terminal patient; an examination of funeral rituals and griefing practices involved in the healing process of bereavement, as well as unique circumstances of death involving suicide and euthanasia. Overall, the course explores death within the multiple dimensions of health and wellness on the continuum of the life cycle.

Prerequisite: HED 110 or HED 100 for which a “B” grade or above has been earned.

**Environmental and Occupational Health**  
**HED 276**  
3 crs. 3 hrs.

This course introduces students to physical, chemical and biological hazards found in the environment and public health risks associated with workplace and community exposure to them. The historical, economic, and cultural forces contributing to and inhibiting solutions to occupational and environmental safety and public health problems are analyzed. Topics include air and water quality, climate change, waste disposal, occupational health issues, exposure to toxic materials and others.

Prerequisite: HED 110

**Introduction of Community Health Education**  
**HED 301**  
3 crs. 3 hrs.

Health educators promote, maintain, and improve individual and community health by assisting individuals and communities to adopt healthy behaviors. This is accomplished primarily through the planning, implementation, monitoring, and evaluation of programs designed to encourage healthy lifestyles, policies, and environments.

The purpose of this course is to provide students with an overview of the field of community health education and an opportunity to develop skills in needs assessment and program planning. We will review the importance of health behavior as a contributor to current public health problems. Students will learn how to use the planning frameworks for conducting needs assessment and designing and evaluating health promotion programs.

Theories of health behavior will be introduced and their applications explored. Examples of health education and health promotion programs will be presented from health care, community, school and workplace settings.

Prerequisite: HED 110 or HED 100 for which a “B” grade or above has been earned.

**Health Counseling**  
**HED 302**  
3 crs. 4 hrs.

This course is designed to provide health education students with an understanding of theories and models upon which behavior change is based and with strategies to impact health behavior change. Students will acquire basic health behavior counseling and coaching skills and practice principles involved in motivation and program adherence and retention. Each student will gain experience working in the field of community health education through a field placement assignment.

Prerequisite: HED 110 or HED 100 for which a “B” grade or above has been earned.

**Global Nutrition and Disease**  
**HED 340**  
3 crs. 3 hrs.

This course explores the global aspects of nutrition in relation to health and disease. Students will examine factors that contribute to hunger, malnutrition, nutrition-related diseases and chronic diseases. Students will examine nutrition epidemiology and consequences of malnutrition in terms of morbidity and mortality. Students will also examine political mechanisms that affect delivery of quality food and nutrition services, such as legislation, policies and practices. Students will develop cultural competencies needed for effective nutrition intervention as well as explore agricultural techniques needed for sustainable development.

Prerequisite: HED 110

**Nutrition Across the Lifespan**  
**HED 341**  
3 crs. 3 hrs.

This course examines current concepts in human nutrition as applied to individual needs that are based upon research conducted with gender and age groups in each stage of the life span.

Prerequisite: HED 110

**Cross Cultural Health Education/Peru and U.S.**  
**HED 476**  
3 crs. 4 hrs.

This Study Abroad course will expose students to the rich history and culture of inhabitants of the Andes. Class sessions will be based in the city of Cusco, Peru, the former capital of the Inca Empire. Cusco is an ancient colonial city built on Inca monuments, and has been declared a World Heritage site by the UN. Field trips and hosting with local families will expose students to the culture, health practices, and beliefs of the Andean people. The course will be based at the Centro Tinku, a cultural center dedicated to exchanges between students and inhabitants of the Andes. Students will compare and contrast Peruvian and U.S. access to health care in colonial times and the present, complementary and alternative medicines, and health outcomes.

Prerequisite: HED 110 or NUR 112
Mathematics

Course Descriptions

MATHEMATICS

Mathematics

Room N-599, Telephone (212) 220-1335

Every student enrolled in a degree program is required to take at least one college-level course in mathematics. The courses are designed to help students appreciate the logical structure of mathematics and the scope of mathematics in modern society. Procedures and ideas are emphasized, as are the development of applications and skills. In general, the courses offered by the Department attempt to strengthen and enrich the student’s basic understanding of mathematics. In addition, the Department offers courses for students who may be required to take remediation.

Chairperson: Fred Peskoff

Deputy Chairpersons: Stephen Featherstonhaugh, Allison Felix, Michael George, Barbara Lawrence, Oleg Muzician, Jason Samuels

Professors: Nkechi Agwu, David Allen, Michael George, Annie Yi Han, Leonid Khazanov, Barbara Lawrence, Jeehoo Lee, Oleg Muzician, Kathleen Offenholley, Fred Peskoff, Jean Richard, Jason Samuels, Abdrasame Serme, Brett Sims, Claire Wladis, Lina Wu, Marcos Zyman

Associate Professors: Chokri Cherif, Jenna Hirsch, Nadarajah Kirupaharan, Christopher McCarthy, Glenn Miller, Alia Murgulis, Lucia Prado, Klement Teixeira

Assistant Professors: Bernard Beecher, Vladimir Bercov, Dale Dawes, Johannes Falmiton, Stephen Featherstonhaugh, Jorge Flores, Avraham Goldstein, Elisabeth Jaffe, Aradhana Kumari, Susan Licwinko, Sarah McAllister, Micah Miller, Yevgeniy Milman, Serine Ndiaye, Ivan Retamoso, Andrew Stout, Hong Yuan

Instructors: Mostaque Ahmed, Daniel Gil, Fatima Prioleau

Lecturers: Theirry Agbotouedo, Daniela Bardac-Viada, Sandra Boer, Jone Conto, Mahmoud Diarrassouba, Francki Elve, Liana Erstenyuk, Allison Felix, Ellen Inkelis, Mark Jagai, Karl Levy, Adam Zuming Li, Emmanuel Paki, Dwight Pierre, Frederick Reese, Bruce Sanford, Shahnin Uddin, Mildred Whitener, Ke Xin

Senior College Laboratory Technicians: David Lorde, Alioune Seye

College Laboratory Technicians: Eric Ning Bai, Yanni Liu, Shaoshao Yang

Adjunct Faculty: There are approximately 165 adjuncts in the department.

Basic Mathematics

MAT 8
0 cr. 4 hrs.

This is a course in arithmetic skills and the rudiments of algebra. Topics covered include whole numbers, fractions, decimals, percents, proportions, signed numbers, and solving simple linear equations.

Pre/Co-requisites: Concorso: ESL 62. Students who score less than 26 on the COMPASS Pre-algebra exam are eligible to take MAT 8.

Basic Arithmetic and Algebra

MAT 12
0 cr. 6 hrs.

This course is a combination of arithmetic and elementary algebra. It includes the arithmetic of integers, fractions, decimals, and percent. In addition, such topics as signed numbers, algebraic representation, operations with polynomials, factoring, the solution of simultaneous linear equations of two variables, and graphing are covered. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Mathematics Literacy with Computational Support

MAT 14
0 cr. 6 hrs.

This developmental course provides an alternative and accelerated pathway to the college-level liberal arts mathematics courses. The course will focus on applications of numerical reasoning to make sense of the world around us. Applications of arithmetic, proportional reasoning and algebra are emphasized. Lessons focusing directly on supporting students’ computational skills are embedded in the course according to relevance to the following topic. This course cannot be used as a prerequisite for MAT 56 and is not suited for Science, Technology, Engineering or Math (STEM) students. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Mathematics Literacy Quantway I

MAT 41
0 cr. 4 hrs.

This developmental course provides an alternative and accelerated pathway to the college-level liberal arts mathematics courses. The course will focus on applications of numerical reason to make sense of the world around us. Applications of arithmetic, proportional reasoning and algebra are emphasized. This course cannot be used as a prerequisite for MAT 56 and is not suited for Science, Technology, Engineering or Math (STEM) students. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Fundamentals of Mathematics I

MAT 100
3 crs. 4 hrs.

This course includes the study of several mathematical systems. The role of mathematics in modern culture, the role of postulational thinking in all of mathematics, and the scientific method are discussed. The course considers topics such as: the nature of axioms, truth and validity; the concept of number; the concept of set; scales of notation; and groups and fields.

Prerequisite: MAT 12, MAT 14, MAT 41, MAT 51, or MAT 161.5.

Mathematics for Health Sciences

MAT 104
3 crs. 3 hrs.

This course covers computations and measurements essential in the health science professional fields with an emphasis on nursing. Topics include units and systems of measurement, reconstitution of powdered medications, oral and parenteral dosage calculations, adult and pediatric dosage calculations based on body weight, intravenous calculations, and pediatric medication calculations. Students who passed
Course Descriptions

MATHEMATICS

Introduction to Statistics (same as MAT 150)  
MAT 150  
4 crs. 4 hrs.
This course covers basic statistics, including: measures of central tendency, measures of dispersion, graphs, correlation, the regression line, confidence intervals, the significance of differences, and hypothesis testing, including z-tests, t-tests, and chi-square tests. 
Prerequisite: MAT 12, MAT 14, MAT 41, MAT 51, or MAT 161.5.

Statistics with Algebra (same as MAT 150)  
MAT 150.5  
4 crs. 6 hrs.
Statistics with algebra is a statistics course (4 credits and 60 hours) with an additional 30 hours focusing on elementary algebraic concepts useful in statistics. After covering the selected algebraic concepts, the course covers the study of basic statistics. It includes measures of central tendency, measures of dispersion, graphs, probability, the binomial distribution, the normal distribution, sampling distributions, the chi-square distribution, t-tests, estimation and hypothesis testing, correlation and regression. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Quantitative Reasoning  
MAT 160  
4 crs. 4 hrs.
The course aims to teach students how to think competently about quantitative information. Students learn how to take real world problems, translate them into mathematics, and solve them. Topics include thinking critically, numbers in the real world, financial management, statistical reasoning, probability, and mathematical modeling. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Topics in Quantitative Reasoning  
MAT 161  
3 crs. 3 hrs.
This course aims to teach students how to think competently about quantitative information. Students learn how to take real world problems, translate them into the language of mathematics, and solve them. Topics include thinking critically, numbers in the real world, financial management, statistical reasoning, probability, and mathematical modeling. This course satisfies the mathematical requirement for the CUNY Core. It is recommended for students who do not intend to pursue mathematics, science or any curriculum requiring the students to take Calculus. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Mathematics and Trigonometry with Precalculus (same as MAT 206)  
MAT 206.5  
4 crs. 8 hrs. (Lecture: 6 Recitation: 2)
This course integrates Intermediate Algebra and Trigonometry with Precalculus. Topics include properties of real numbers, polynomials and factoring, equations and inequalities in one and two variables, systems of linear equations, rational expressions and functions, rational exponents and roots, quadratic functions, exponential and logarithmic functions, and trigonometric functions.

Mathematical Problem Solving  
MAT 208  
2 crs. 2 hrs.
This is a Liberal Arts elective course. It will focus on the general steps in the problem-solving process and the use of problem-solving strategies espoused by Polya, et al. Problems will include non-routine exercises taken from mathematics journals and competitions, and famous problems from the history of mathematics. 
Prerequisite: MAT 12 or MAT 51, if needed; also MAT 56

Precalculus  
MAT 209  
4 crs. 4 hrs.
This course covers statistical concepts and techniques with applications. Topics include probability, random variables, the binomial distribution, the hyper-geometric distribution, measures of central tendency, the normal distribution, precision and confidence intervals, sample design and computer projects. 
Prerequisite: MAT 206 or MAT 206.5

Mathematics for Elementary Education I  
MAT 214  
4 crs. 4 hrs.
This course covers the first half of the mathematics recommended by the National Council of Teachers of Mathematics (NCTM) for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers, rational and real numbers, and number theory. This course meets the mathematics requirement only for students in the ECE program. Students who have taken MAT 100 may not receive credit for this course. 
Prerequisite: MAT 56, MAT 56.5 or MAT 206.5

Modern Applied Mathematics  
MAT 125  
4 crs. 4 hrs.
This course is a survey of modern mathematics and its applications developed after the 18th century. The emphasis is on using mathematics to model the political, economic and aesthetic aspects of modern day society. Topics include graph theory, linear programming, game theory, number theory, and mathematical growth and patterns.

Explorations in Scientific Mathematical Research (same as SCI 111)  
MAT 111  
3 crs. 4 hrs.
This course will introduce the processes involved in research. Students will be designing and performing experiments and analyzing the results. Objectives are: to understand the scientific method, interpret statistics, and appreciate mathematical research. Computers will be used for statistics, graphing, patter recognition, and word processing. 
Recommended for mathematics-and science-oriented liberal arts students as a liberal arts elective. Not open to Science or Engineering Science majors.

Prerequisite: One year of college science

Fundamentals of Mathematics I  
MAT 110  
3 crs. 3 hrs.
This course includes the study of several mathematical systems. The role of mathematics in modern culture, the role of postulational thinking in all mathematics, and the scientific method are discussed. The course considers topics such as the nature of axiom truth and validity; the concept of number; the concept of sets; scales of notation, and groups and fields. 
Note: This course satisfies the Pathways: Mathematical and Quantitative Reasoning requirement.
Prerequisite: MAT 12, MAT 14, MAT 41, MAT 51, or MAT 161.5.

Modern Mathematics for Respiratory Therapy  
MAT 109  
3 crs. 3 hrs.
This course covers topics in intermediate algebra and emphasizes problems and applications in respiratory therapy. It includes such topics as: algebraic representation, factoring, approximate numbers, significant digits and scientific notation, first and second degree equations with applications, ratio and proportions, square roots, radicals and exponents, logarithms, graphing linear equations, vectors and the metric system.

Fundamentals of Mathematics II  
MAT 202  
3 crs. 3 hrs.
This course covers an axiomatic approach to mathematical relations, operations, and the real number system. 
Prerequisite: MAT 100

Mathematics Literacy and Quantitative Reasoning requirement.

Statistics with Algebra  
MAT 150.5  
4 crs. 6 hrs.
Statistics with algebra is a statistics course (4 credits and 60 hours) with an additional 30 hours focusing on elementary algebraic concepts useful in statistics. After covering the selected algebraic concepts, the course covers the study of basic statistics. It includes measures of central tendency, measures of dispersion, graphs, probability, the binomial distribution, the normal distribution, sampling distributions, the chi-square distribution, t-tests, estimation and hypothesis testing, correlation and regression. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Quantitative Reasoning  
MAT 160  
4 crs. 4 hrs.
The course aims to teach students how to think competently about quantitative information. Students learn how to take real world problems, translate them into mathematics, and solve them. Topics include thinking critically, numbers in the real world, financial management, statistical reasoning, probability, and mathematical modeling. Students who passed MAT 12, MAT 14, MAT 41, MAT 51, MAT 56, MAT 160, MAT 161, MAT 56.5, MAT 150.5 cannot take MAT 161.5.

Intermediate Algebra and Precalculus  
MAT 206.5  
4 crs. 8 hrs. (Lecture: 6 Recitation: 2)
This course integrates Intermediate Algebra and Trigonometry with Precalculus. Topics include properties of real numbers, polynomials and factoring, equations and inequalities in one and two variables, systems of linear equations, rational expressions and functions, rational exponents and roots, quadratic functions, exponential and logarithmic functions, and trigonometric functions.

Mathematics for Respiratory Therapy  
MAT 109  
3 crs. 3 hrs.
This course covers topics in intermediate algebra and emphasizes problems and applications in respiratory therapy. It includes such topics as: algebraic representation, factoring, approximate numbers, significant digits and scientific notation, first and second degree equations with applications, ratio and proportions, square roots, radicals and exponents, logarithms, graphing linear equations, vectors and the metric system.

Fundamentals of Mathematics I  
MAT 110  
3 crs. 3 hrs.
This course includes the study of several mathematical systems. The role of mathematics in modern culture, the role of postulational thinking in all mathematics, and the scientific method are discussed. The course considers topics such as the nature of axiom truth and validity; the concept of number; the concept of sets; scales of notation, and groups and fields. 
Note: This course satisfies the Pathways: Mathematical and Quantitative Reasoning requirement.
Prerequisite: MAT 12, MAT 14, MAT 41, MAT 51, or MAT 161.5.

Modern Applied Mathematics  
MAT 125  
4 crs. 4 hrs.
This course is a survey of modern mathematics and its applications developed after the 18th century. The emphasis is on using mathematics to model the political, economic and aesthetic aspects of modern day society. Topics include graph theory, linear programming, game theory, number theory, and mathematical growth and patterns.

Introduction to Statistics  
MAT 150  
4 crs. 4 hrs.
This course covers basic statistics, including: measures of central tendency, measures of dispersion, graphs, correlation, the regression line, confidence intervals, the significance of differences, and hypothesis testing, including z-tests, t-tests, and chi-square tests. 
Prerequisite: MAT 12, MAT 14, MAT 41, MAT 51, or MAT 161.5.
Mathematics for Elementary Education with Algebra  MAT 214.5  
4 crs. 8 hrs.

This course covers mathematics recommended by the National Council of Teachers of Mathematics (NCTM) for prospective elementary school teachers, including problem solving, numeration, computation, real numbers, and number theory with an additional 60 hours focusing on intermediate algebra concepts. MAT 214.5 focuses on a learner-oriented approach to teaching mathematics. Emphasis is placed on mathematical concepts and skills, as well as techniques of inquiry and critical thinking. The course includes a survey of elementary mathematical concepts with appropriate materials to assist teachers in the classroom setting. MAT 214.5 meets the mathematics requirement for students who plan to teach on the elementary school level. In addition, the course will cover topics from MAT 56, Intermediate Algebra, including such topics as properties of real numbers, polynomials and factoring, equations and inequalities in one and two variables, systems of linear equations and inequalities, rational expressions and functions, rational exponents and roots, quadratic functions, exponential and logarithmic functions, and an introduction to trigonometry.

This course will consist of:
1. Numeration Systems
2. Alternate Algorithms and Methods of Computation
3. Number Theory and Types of Numbers
4. Rational and Irrational Numbers, Measurement
5. Problem Solving and Patterns
6. Sets and Logic

Algebra Topic will be infused throughout the course (see end of this syllabus for more detail).

The topics correspond with the NCTM strands of Number and Number Sense, including developing early number concepts and number sense, developing whole-number place-value concepts, developing meanings and strategies for the operations, developing fraction concepts and strategies for fraction computation, developing concepts of decimals and percents, patterns and algebra, including developing algebraic thinking: generalizations, patterns, and functions, and measurement, including developing measurement concepts.

Prerequisite: Student must have passed or be exempt from MAT 51 or MAT 12

Mathematics for Elementary Education II  MAT 216  
4 crs. 4 hrs.

This course covers the second half of the mathematics recommended by NCTM for prospective elementary school teachers, including probability, statistics, plane and transformational geometry, congruence, and similarity. This course meets the mathematics requirements ... for students in the ECE program. Students who have taken MAT 150 may not receive credit for this course.

Prerequisite: MAT 214

Introduction to Geometry  MAT 300  
4 crs. 5 hrs.

An introduction to Euclidean geometry and some topics from Non-Euclidean Geometry. Topics to be covered in Euclidean geometry include foundations of geometry such as lines, angles, triangles, polygons, circles, solids as well as coordinate geometry and transformations. Non-Euclidean geometry will...
cover a brief introduction to axion systems, parallelism and hyperbolic geometry.  
Prerequisite: MAT 206 or the equivalent with departmental approval

Analytic Geometry and Calculus I MAT 301
4 crs. 6 hrs.
This is an integrated course in analytic geometry and calculus, applied to functions of a single variable. It covers a study of rectangular coordinates in the plane, equations of conic sections, functions, limits, continuity, related rates, differentiation of algebraic and transcendental functions, Rolle's Theorem, the Mean Value Theorem, maxima and minima, and integration.
Prerequisite: MAT 206 or MAT 206.5

Analytic Geometry and Calculus II MAT 302
4 crs. 6 hrs.
This course provides an introduction to the concepts of formal integration. It covers the differentiation and integration of algebraic, trigonometric, and transcendental functions. Topics include the definite integral, the antiderivative, areas, volumes, and the improper integral.
Prerequisite: MAT 302

Analytic Geometry and Calculus III MAT 303
4 crs. 6 hrs.
This course is an extension of the concepts of differentiation and integration to functions of two or more variables. Topics include partial differentiation, multiple integration, Taylor series, polar coordinates and the calculus of vectors in one or two dimensions.
Prerequisite: MAT 302

Bridge to Advanced Mathematics MAT 310
3 crs. 3 hrs.
This course is designed to prepare students for an advanced mathematics curriculum by providing a transition from Calculus to abstract mathematics. The course explores the logical and foundational structures of mathematics, with an emphasis on understanding and writing proofs. Topics include logic, methods of proof, mathematical induction, axiomatic approach to group theory, number theory, set theory, relations and functions, Cantor's theory of countability, and the development of the real number system. Throughout the course, students will be actively engaged in understanding, verifying and writing proofs, and will be introduced to methods of mathematics research.
Prerequisite: MAT 302

Linear Algebra MAT 315
3 crs. 3 hrs.
This course covers matrices, determinants, systems of linear equations, vector spaces, eigenvalues and eigenvectors, Boolean algebra, switching circuits, Boolean functions, minimal forms, Karnaugh maps.  
Prerequisite: MAT 302, or permission of the department

Abstract Algebra MAT 320
3 crs. 3 hrs.
This course covers the standard material comprising an introduction to group and ring theory: set theory and mappings; groups, normal subgroups, and quotient groups; Sylow's Theorem; rings, ideals, and quotient rings, Euclidean rings, polynomial rings.  
Prerequisite: MAT 315

Finite Mathematics MAT 402
4 crs. 4 hrs.
This course covers compound statements, sets and subsets, partitions and counting, probability theory, vectors, matrices, and linear programming.
Prerequisites: MAT 12 or MAT 51, if needed; also MAT 56

Mathematical Foundations of Computer Networking (same as CSC 470) MAT 470
4 crs. 3 hrs.
This course presents the mathematical concepts underlying computer networks. The course introduces probability and stochastic process, queuing analysis, and basic graph theory and relates these topics to various layers of the seven layer Open Systems Interface (OSI) organization model of computer networks. Practical laboratory projects provide concrete illustration of theoretical concepts.
Prerequisites: MAT 302

Ordinary Differential Equations MAT 501
3 crs. 3 hrs.
This is a first course in the theoretical and applied aspects of ordinary differential equations. Topics include: first-order equations, exact equations, linear equations, series solutions, Laplace transforms, Fourier series, and boundary value problems.
Prerequisite: MAT 302

History of Mathematics MAT 505
3 crs. 3 hrs.
The course follows the growth of mathematics from its empirical nature in Egypt and Babylonia to its deductive character in ancient Greece wherein the roots of the calculus will be identified. The concept of number and the development of algebra, with Hindu, Arabic, and medieval contributions are discussed. The rise of analytic geometry, the calculus, and the function concept are examined. Finally, the trend towards greater rigor and abstraction is considered including formal axiomatic systems and Godel's Incompleteness Theorem.
Prerequisite: MAT 302

Advanced Calculus I MAT 601
4 crs. 4 hrs.
The course presents the logical structure on which the foundations of the calculus have been based: construction of the real number system, mathematical induction, limits and continuity in precise formulation, functions of several variables, point sets in higher dimensions; uniform continuity, and elements of partial differentiation.
Prerequisite: MAT 303 or departmental approval
Media Arts and Technology

Introduction to 2D Animation

Prerequisite: MMP 260 or ANI 260

Students will learn to design and create motion graphics for multimedia, building projects appropriate both for internet applications and for film and video. Students will learn how to use a vector-based animation program such as Flash MX and animation and visual effects compositing programs to create original work. An emphasis will be placed on planning projects and developing narratives through the use of storyboards.

Prerequisite: MMP 100 or MMA 100

Introduction to Video Graphics (same as MMP 301)

Prerequisite: MMP 260 or ANI 260

This course offers an introduction to designing two-dimensional computer generated video graphics. Students create graphics to television productions, such as opening titles for programs to be used in live studio situations and for integration in post-production editing. Students are introduced to motion graphics in 2D and 2+D digital graphic applications.

Prerequisite: Vat 161 or Vat 171 or MMP 250

2D Animation Projects

Prerequisite: ANI 260

This is a 2D animation production course following MMP 260. Students will use an industry standard 2D animation software, to make original animations in traditional hand-drawn animation as well as cutout and stop-motion animation. Students will learn to design characters and objects and to choreograph scenes, controlling character movement, lighting, sound, and camera direction. Small groups will produce short animations. Upon completion of the course, each student should have a “demo reel ready” completed animation.

Prerequisite: Mmp 260 or ANI 260

Introduction to 3D Animation

Prerequisite: MMP 260 or ANI 260

f

3 crs. 4 hrs.

Students will learn to design and create motion graphics for video, film, game, multimedia and internet applications. Students will use an advanced CGI program to make original animations in a three-coordinate space. Students will learn to model three-dimensional objects and to choreograph scenes, controlling character movement, lighting, sound, and camera directions. Small groups will produce short animations.

Prerequisite: ANI 401

Cartequisite: ENG 101 and MAT 1xx or higher.

3D Animation Projects

Prerequisite: ANI 401

This course follows ANI 401. Students will use an advanced CGI program, to make original animations in a three-coordinate space. Students will learn to model three-dimensional objects and to choreograph scenes, controlling character movement, lighting, sound, and camera direction. Small groups will produce short animations.

Prerequisite: ANI 401

Cartequisite: ENG 101 and MAT 1xx or higher.

MEDIA STUDIES

Introduction to the Moving Image

Prerequisite: ANI 401

This course follows ANI 401. Students will use an advanced CGI program, to make original animations in a three-coordinate space. Students will learn to model three-dimensional objects and to choreograph scenes, controlling character movement, lighting, sound, and camera direction. Small groups will produce short animations.

Prerequisite: ANI 401

Cartequisite: ENG 101 and MAT 1xx or higher.

3D Animation Projects

Prerequisite: ANI 401

This course follows ANI 401. Students will use an advanced CGI program, to make original animations in a three-coordinate space. Students will learn to model three-dimensional objects and to choreograph scenes, controlling character movement, lighting, sound, and camera direction. Small groups will produce short animations.

Prerequisite: ANI 401

Cartequisite: ENG 101 and MAT 1xx or higher.
Introduction to Contemporary Media  

**MES 152**  
3 crs. 3 hrs.  

This course introduces students to varied applications of contemporary media in business, entertainment, and the public sector. Students study the processes of media production, the systems for media distribution, and the roles of media professionals. The course surveys the history of modern communications and the terminology of the media industry. Students examine the complex connections between technology, content, style, and audience response in the creation of media productions.

**Script Writing**  

**MES 153**  
3 crs. 3 hrs.  

This course focuses on writing treatments and scripts for the screen and video. Students learn the basics of visualizing narratives in 3-act structure; how to identify fiction and non-fiction genres; how to create character and story; how to research and write treatments and outlines; how to write single-column screenplays for narratives and two-column scripts for documentary scripts; and how to give and receive critiques on script work. Throughout, students will develop the basic skills necessary to write and revise scripts for upper-level VAT production classes and beyond.

**World History of Animation**  

**MES 160**  
3 crs. 3 hrs.  

World History of Animation introduces students to seminal works of animation across time and cultures. The course discusses the evolution of the art form through the lens of technical innovations, socio-political contexts, and aesthetic movements. Students will study works ranging from large productions to independent and experimental shorts, and the influence of different international productions on one another, including Asian and European works and creators.

**MULTIMEDIA**  

**Foundations of Digital Graphic Design**  

**MMA 100**  
3 crs. 4 hrs.  

This image-based course will introduce graphic design as the foundation upon which effective visual communication is built. Investigation of the elements and principles of graphic design will lead to specific design problems and their solution. The development of ideas and the ability to communicate them effectively will be covered. Discussion of both vector and bitmap-based digital graphic platforms will begin progress toward industry-standard computer proficiency.

**Typography and Layout**  

*(same as ART 215)*  

**MMA 215**  
3 crs. 4 hrs.  

This course will explore type design and its application in visual communication. Students will learn to manipulate type properties to design meaningful and effective graphic communication. The use of industry-standard desktop publishing software will be covered as well as will be applied to a range of typographic solutions.

**Digital Imaging for Graphic Design**  

*(same as ART 225)*  

**MMA 225**  
3 crs. 4 hrs.  

This course continues the study of digital imaging as it relates to graphic design. A course philosophy for this class is the introduction of photographic images as a basis for approaching 2D design concepts. During the semester, this course shall cover digital input, editing, archiving and the beginning of the study of digital output. Conceptual and technical digital shooting assignments will be assigned to expand students' skills and support topics covered in class. Reading and writing will focus on the use of technology in propelling digital imaging and design.

**Visual Communication and Design**  

*(same as ART 235)*  

**MMA 235**  
3 crs. 4 hrs.  

This class builds upon principles and skills learned in Foundations of Digital Design. Students will apply principles underlying effective visual communication to increasingly complex design problems. Projects may include poster design, symbols and logos, editorial design, information design, visual identity and branding and other design systems. Critical analysis of design problems and the creative design process will be emphasized. Students will complete reading and writing assignments in addition to problems in visual communications and design.

**Introduction to Multimedia**  

**MMP 100**  
3 crs. 4 hrs.  

This course introduces students to the fundamentals of multimedia production. In a hands-on class, students will learn the essentials of program design and authoring software in an integrated computer environment. Students will learn how to combine graphics, audio and text to create programs for industrial and educational applications.

**Multimedia Design**  

**MMP 200**  
3 crs. 4 hrs.  

Building on the principles learned in introduction to multimedia, students will learn to manipulate graphics and text in more sophisticated ways for use in print layout as well as multimedia. An emphasis will be placed on design concepts for the creation of pages.

**Multimedia Programming I**  

**MMP 210**  
3 crs. 4 hrs.  

This course introduces the basic concepts of programming for multimedia. Students will learn the principles of object-oriented programming and how to create scripts for the manipulation of graphics, audio and text to construct a web-based multimedia presentation.

**Programmer for Multimedia**  

**MMP 220**  
4 crs. 5 hrs.  

This course introduces the basic concepts of programming for multimedia. Students will learn the principles of object oriented programming and how to create scripts for the manipulation of video, graphics, and text to construct a complete multimedia presentation.

**Interaction Design with Multimedia Programming**  

**MMP 230**  
4 crs. 5 hrs.  

Students will learn to design interfaces and manipulate graphics, text, video and other multimedia elements through a scripting language such as Flash ActionScript. An emphasis will be placed on planning projects and using programming concepts for the development of games, e-commerce and dynamic multimedia applications.

**Web Design**  

**MMP 240**  
3 crs. 4 hrs.  

This course will introduce students to the process and techniques of web design. Effective website design and site architecture will be explored through class assignments and critique of existing websites. Hands-on experience designing web pages while using web authoring software and coding HTML manually will be emphasized. Graphic, audio and animation applications, which allow for image and sound development, will be introduced.

**Digital Film Fundamentals**  

**MMP 250**  
3 crs. 4 hrs.  

This course is a comprehensive, workshop-style survey that explores the fundamental concepts and skills required to produce nonfiction digital video pieces. Taught from the ground up, this class will explore planning and pre-production, pitching the concept, basic camera usage, sound recording, interview techniques and non-linear editing strategies. There will be an emphasis on group dynamics, accurate documentation, and rotating crew positions.

**Introduction to Video Game Design**  

**MMP 270**  
3 crs. 4 hrs.  

This course introduces game design principles and video game production practices. Game history, theory and design principles will be covered through lecture, discussion and readings. Readings in the form of texts, videos and games will be assigned for written analysis and discussion. The course will review game production historically and current practices for game development including software, environments and production process. Students will learn topics such as character design, setting and level design, interaction programming, sound design, user testing design and analysis, presenting ideas, giving and interpreting critique and feedback. Production assignments include asset creation of graphics, animation and sound, programming game interactions, creating user testing forms and
MULTI MEDIA ARTS AND TECHNOLOGY
Course Descriptions

Media Arts and Technology
Course Descriptions

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21

78

Prerequisite: MMP 210

This course teaches the multimedia applications of user-friendly web and multimedia. Students will build production. Using media creation and manipulation and presentation skills developed in MMP 210 - Multimedia Programming I. Students will learn the multimedia application design process, from planning through production. Using media creation and programming software tools, students will build user-friendly web and multimedia applications.

Prerequisite: MMP 210

Multimedia Networks

MMP 320

4 crs. 5 hrs.

This course will introduce the fundamentals of computer communications and its effects on multimedia applications, the OSI reference model, communication protocols, transmission media will be discussed and their impact on the performance of multimedia applications will be examined. Different network design strategies and their tradeoffs will be addressed to enhance students' understanding of computer networks for multimedia.

Prerequisites: MMP 100 and MMP 220

Content Development for the Web

MMP 340

3 crs. 4 hrs.

This course teaches principles and practices of writing and editing for the Web. It covers issues such as writing for an online audience, structuring content across Web pages and integrating text with other media elements. Emphasis is given to writing strategies that exploit the interactive capabilities of the Web.

Prerequisites: ENG 201 or ENG 121 and MMP 100 or CIS 180

Advanced Web Design

MMP 350

3 crs. 4 hrs.

This course gives the students the tools to build standards compliant, accessible, dynamic websites. Students will incorporate client-side and server-side scripting with advanced CSS to create intuitive and interactive web interfaces. The learning will take place in the context of a content management system. Contemporary web development processes and platforms will be explored. A foundational knowledge of programming concepts, HTML, CSS and design for the web is required for this course.

Prerequisites: MMP 240

Introduction to 3D Motion Graphics for Video, Film, Game, Multimedia and Internet (same as VAT 401)

MMP 401

3 crs. 4 hrs.

Students will learn to construct 3D motion graphics for video, film, game, multimedia, and Internet applications. Students will use advanced CGI Program to make original animations in a three-coordinate space. Students will learn to model three-dimensional objects and to choreograph scenes, controlling character movement, lighting, sound, and camera directions.

Prerequisites: VAT 301, or MMP 200 and ART 224

Distributed Multimedia Applications

MMP 420

4 crs. 5 hrs.

This course will introduce the concept of designing and constructing a distributed multimedia presentation. It will cover issues of synchronization between applications, partitioning of relevant applications and interaction management for multimedia applications distributed over a network. The students will be expected to design and implement a simple distributed multimedia application.

Prerequisite: MMP 320

Multimedia Project Lab

MMP 460

4 crs. 5 hrs.

Students will work collaboratively to plan, design and create a complete project to be stored on a CD ROM. Projects may be drawn from such applications as: information kiosks, computer-assisted instruction; and creation of world wide web sites.

Prerequisites: MMP 200 and (any 200-level MMP or MMA course)

VIDEO ARTS AND TECHNOLOGY
Introduction to Video Technology

VAT 100

3 crs. 3 hrs.

This course explains how video technology works and how that technology is put into practice to create video content. It covers the fundamentals of contemporary media technology including understanding video image formation, data compression, as well as picture and sound generation and manipulation. Lab exercises introduce students to the operations of cameras, video-recording systems, lighting instruments, microphones and the uses of SMPTE Time Code. Students also learn basic practical and aesthetic concepts of filmmaking by pre-producing and filming in-class exercises.

Introduction to Corporate Media Applications

VAT 150

3 crs. 3 hrs.

This course introduces students to the many industrial applications of the state-of-the-art media. New technologies and current industrial communication problems are covered. Students study the history of modern communications and each student is given a glossary of technical terms. The course covers corporate needs for artists, designers, photographers, camera operators, video-technicians, multi-image programmers, lighting technicians, and film and video editors.

Script to Screen

VAT 151

3 crs. 3 hrs.

This course will cover all aspects of the pre-production phase of media production. Students will learn how to write treatments and scripts for documentary and news formats, corporate and industrial videos, public service announcements, commercials, screenplays and teleplays. The course will also cover such aspects of pre-production as script breakdown, budgeting, scheduling, crew hiring, equipment rental and securing locations.

Introduction to Media Applications

VAT 152

3 crs. 3 hrs.

This course introduces students to varied applications of contemporary media in business, entertainment, and the public sector. Students study the processes of media production, the systems for media distribution, and the roles of media professionals. The course surveys the history of modern communications and the terminology of the media industry. Students examine the complex connections between technology, content, style, and audience response in the creation of media productions.

Scriptwriting

VAT 153

3 crs. 3 hrs. 1 lab hr.

This course focuses on writing treatments and scripts for the screen and video. Students learn the basics of visualizing narratives in 3-act structure; how to identify fiction and non-fiction genres; how to create character and
story; how to research and write treatments and outlines; how to write single-column screen plays for narratives and two-column scripts for documentary scripts; and how to give and receive critiques on script work. Throughout, students will develop the basic skills necessary to write and revise scripts or upper-level VAT production classes and beyond.

**TV Studio Production I**  
VAT 161  
3 crs. 2 hrs. 1 lab hr.

This course is an introduction to all aspects of basic studio television production. Students produce multi-camera TV programs in a fully equipped TV studio. Students learn to perform the functions of a director, floor manager, camera operator, audio engineer, lighting director, and technical director.

Prerequisites: VAT 100 and MES 153  
Corequisite: MES 152

**Sound for Performance/Digital Media I**  
VAT 165  
3 crs. 3 hrs.

This course is an introduction to the use of audio technology in theatre, television, motion pictures and multimedia. Students will be introduced to the fundamental principles of acoustics and sound recording. Tools, such as various mixing boards, microphones and recorders, will be introduced in the context of theatrical and television production. Sound design for live venues and multimedia presentations will be introduced as well. Assignments will include practical exercises. Lab assignments are required.

Prerequisites: VAT 100 and MES 153  
Corequisite: MES 152

---

**Remote Production/Video Editing I**  
VAT 171  
3 crs. 2 hrs. 1 lab hr.

This course teaches students how to conceptualize, shoot and edit a video project. The use of digital cameras as well as lighting and audio instruments on location will be covered. Students will learn pre-production planning, crew protocols and directing skills as they shoot an original project. The fundamentals of post production techniques, from basic editing to final mastering, are taught in a state-of-the-art digital editing lab.

Prerequisites: VAT 161 and MES 153  
Corequisite: MES 152

**TV Studio Production II**  
VAT 261  
3 crs. 2 hrs. 1 lab hr.

This course builds upon VAT 161 and focuses on the skills needed to successfully plan and complete a multi-camera professional studio production. Classes are conducted in a state-of-the-art, fully equipped TV studio. Students master the techniques and workflow required to produce programming according to industry standards and practices. Student work is screened, discussed and critiqued to deepen understanding of the art and craft of television.

Prerequisite: VAT 161 or permission of the department

**Sound for Performance/Digital Media II**  
VAT 265  
3 crs. 3 hrs.

This course concentrates on the post-production aspects of audio production. Sound effects editing, Automatic Dialogue Replacement (ADR), Foley editing and music replacement will be covered in the context of television and motion picture post-production. Mastering of recordings for distribution will also be covered. Students will be expected to work on projects using media server technology, allowing for simultaneous picture and sound editing. Collaborative projects will also be included. Lab assignments are required.

Prerequisite: VAT 165

**Remote Production/Video Editing II**  
VAT 271  
3 crs. 4 hrs.

This course builds upon VAT 171. It reinforces the skills needed to successfully plan, shoot, edit, and refine remote video productions. The course includes advanced techniques in digital cinematography, digital editing and audio and visual effects.

Prerequisites: VAT 171 or DEPT.

**Lighting for Television**  
VAT 302  
3 crs. 3 hrs.

This course will cover the fundamentals of lighting for television. Students will learn the principals of lighting techniques and study the various types of instruments and peripherals used. Besides lectures, there will be hands-on demonstrations both in the studio and on location.

Prerequisite: VAT 161 or VAT 171

**Cinematography**  
VAT 303  
3 crs. 3 hrs.

This course teaches students about the art and techniques of digital cinematography. Topics are: the use of studio and remote digital video cameras; lighting for digital cinematography; camera movement, camera angles, continuity, and composition; interpreting a director’s vision; and digital workflow. Throughout the course, the history and art of cinematography is explored through screenings, text and other analyses.

Prerequisites: VAT 161 or VAT 171

**Teleconferencing**  
VAT 306  
3 crs. 3 hrs.

Teleconferencing offers an immediate, reliable and cost efficient method of creating virtual meetings using video technology. The course acquaints students with teleconferencing methods and applications. Utilizing the BMCC videoconferencing room, students will research and write original projects and conduct actual teleconferences using ISDN and IP telephony, a metropolitan fiber optic LAN, and orbital satellite technology.

Prerequisites: VAT 161 or VAT 171

**Introduction to 3D Motion Graphics for Video, Film, Game, Multimedia and Internet**  
VAT 401  
3 crs. 4 hrs.

Students will learn to construct 3D motion graphics for video, film, game, multimedia, and Internet applications. Students will use advanced CGI Program to make original animations in a three-coordinate space. Students will learn to model three-dimensional objects and to choreograph scenes, controlling character movement, lighting, sound and camera directions.

Prerequisites: VAT 301, or MMP 200 and ART 224
Course Descriptions

MODERN LANGUAGES

Modern Languages

Room S-601, Telephone: (212) 220-8105

The Modern Language Department’s principal objectives are to develop fluency in the written and spoken language and to familiarize students with foreign literature and culture. All courses are given in the foreign language unless otherwise specified. A language laboratory with the latest equipment provides students with additional practice. The language laboratory is an essential part of all language classes.

The department offers a Modern Languages major with concentrations in French, Italian, and Spanish. This program of study leads to an Associate in Arts (A.A.) degree.

Chairperson: Eda Henao

Deputy Chairpersons: Silvia Alvarez-Olarra, Maria Enrico

Professors: Peter Consenstein, Rafael Corbalán, Maria De Los Angeles Donoso Macaya, Maria Enrico, Eda Henao, Sophie Marinez, J. Thomas Means, Nidia Pullé-Linares, Alister Ramirez, Silvia Roig, Francisca Suárez-Coalla, Kristina Varade, Alejandro Varden

Associate Professors: Silvia Alvarez-Olarra, Margaret Carson, Rachel Corkle, Laurie Lomask, Ling Luo, Chun-Yi Peng, Marilyn Rivera, Lisa Sarti, Valérie Thiérs-Thiam

Assistant Professors: Teresa Darwich Alcaraz, German Garrido

Lecturers: Patrizia Comello Perry, Fanny Rodriguez

Instructors: Edward Nevarez, Rosana Wong

Senior Laboratory Technicians: Andres Amador, Alessandra Peralta-Avila

College Laboratory Technicians: Dino Garcia, Adela George, Giada Geraci, Mohamed Safaini

Adjunct Faculty: There are approximately 40 adjuncts in the department.

AMERICAN SIGN LANGUAGE

Introductory American Sign Language

American Sign Language I

3 crs. 4 hrs. 1 lab hr.

American Sign Language I is a beginner course designed to develop skill in a form of manual communication used primarily by American-born deaf person in interpersonal (face-to-face) relations. The main objective is to develop signed communication skills, comprehension skills, sign literacy and expressive skills, and develop a further awareness of culture of deaf and hard of hearing users of ASL.

Prerequisite: ASL 105 or departmental placement test

Introductory American Sign Language II

3 crs. 4 hrs.

American Sign Language II is a second semester language course. The main objective is to improve signed communication skills, expand comprehension skills, increase sign literacy and expressive skills, and develop a further awareness of culture of deaf and hard of hearing users of ASL.

Prerequisite: ASL 105 or departmental placement test

ARABIC

Elementary Arabic I

3 crs. 4 hrs. 1 lab hr.

Elementary Arabic I is a complete beginner-level course for students who have had no previous background in Arabic. Listening, speaking, reading and writing are emphasized with an introduction to Arabic culture.

Prerequisite: ARB 105

Elementary Arabic II

3 crs. 4 hrs. 1 lab hr.

Students will continue the study of basic Arabic begun in ARB 105. They will also further their skills in listening comprehension, speaking, reading and writing in Arabic.

Prerequisite: ARB 105 or departmental placement test

Elementary Arabic for Speakers of Arabic

3 crs. 4 hrs. 1 lab hr.

This is an elementary Arabic course for students who can speak Arabic but have no formal training in the language. Students who have taken ARB 105 and/or ARB 106 will not receive credit for this course. This course is designed to help heritage speakers of Arabic to enhance their reading and writing competence of the target language in the formal and high-level register. The course especially focuses on improving students' Arabic grammar, usage, and their critical reading and writing strategies in Arabic through project-based assignments. This course is taught in Arabic.

Prerequisite: Departmental approval based on language proficiency exam

Arabic III

3 crs. 3 hrs. 1 lab hr.

This course offers students an opportunity to enhance their Arabic reading, writing, speaking and comprehension skills through active class use of vocabulary and grammar. The course’s balanced four-skills approach endeavors to prepare students to use the language in a natural way for communication in a variety of situations. It emphasizes the use of language for oral communication without neglecting the other basic language skills. This class will use reading and writing activities to extend students’ grasp of vocabulary and grammatical structures and to further their comprehension of and ability to express themselves in Arabic.

Prerequisite: ARB 106 or ARB 107 or departmental approval

Arabic IV

3 crs. 4 hrs.

This course is designed to advance student proficiency and communication in Modern Standard Arabic. The structural and grammatical usages of Arabic are emphasized, as necessary linguistic tools for the improvement of the learner’s proficiency and fluency. The overall intended learning objective is to enable students to critically analyze Arabic texts and discourses, and express ideas in Arabic at an appropriate level. Advanced Arabic focuses on reading extracts of articles from journals, magazines, and newspapers, while incorporating music, advanced texts, and watching audio/video excerpts from major Arabic outlets.

Prerequisite: ARB 200 or departmental approval

CHINESE

Chinese I

3 crs. 3 hrs. 1 lab hr.

This course is for students who have no previous background in Modern Chinese (Mandarin). The pronunciation is that of Peking. Skills in comprehension, reading, and writing are developed, but emphasis is on speaking.

Chinese II

3 crs. 3 hrs. 1 lab hr.

This is the continuation of the study of Chinese, developing and strengthening skills in comprehension, speaking, reading, and writing. The pronunciation taught is that of Peking. Emphasis is on speaking.

Prerequisite: CHI 101 or departmental approval

Introductory Chinese I

3 crs. 4 hrs. 1 lab hr.

This course is for students who have had no previous background in Mandarin Chinese. Grammar is taught inductively and simple texts are read. Speaking, reading, and writing are emphasized.

Prerequisite: Departmental Placement

Introductory Chinese II

3 crs. 4 hrs. 1 lab hr.

Students will continue the study of basic Chinese grammar begun in CHI 105. They will also further their skills in listening comprehension, reading and writing in Chinese.

Prerequisite: CHI 105 or Departmental Placement

Elementary Chinese for Heritage Speakers

3 crs. 3 hrs.

This course is designed for heritage students of Chinese who have some listening and speaking skills in Mandarin or other Chinese dialects. The focus is on reading, writing, and grammar, along with improvement of oral communication
skills. Students will be introduced to the Romanized writing system (pinyin). Characters writing and recognition are emphasized. Students who have taken CHI 105 and/or CHI 106 will not receive credit for this course.

Prerequisite: Departmental Approval

**Literature, Culture, and Civilization of China**

CHI 170

3 crs. 3 hrs.

This liberal arts elective is an introductory course to the Chinese language and culture through text, discourse, and films. The course is geared to the understanding of present day problems of post-socialist China. Topics include Chinese dialects, literature, arts, gender, food, media, education, etc. Materials are drawn from a mixture of news and scholarly articles, as well as documentaries. All assignments and term papers are in English.

Prerequisite: CHI 102 or departmental approval

**Chinese Civilization and Language**

CHI 476

3 crs. 3 hrs.

This is a study abroad course that further develops students' Chinese language skills and expands their knowledge of Chinese culture and social development. The course is offered as the major part of the Study-Abroad-in-China Program, which includes a combination of class meetings, seminars and field trips to places of historic interest and cultural importance. The course provides opportunities for students to gain first-hand experience about contemporary Chinese cultural life. While participating in skill-based language learning activities that improve students’ competence in listening, speaking, reading and writing, the course gives students opportunities to attend lectures that provide information about Chinese cultural patterns, customs, literature, history, social development and traditions of art and music.

The course adopts a unique transcultural-linguistic approach to instruction that efficiently facilitates and enhances the learning of Chinese language and culture. Since the goal is to enhance students’ speaking and writing abilities in French, French will be used in class discussions.

Prerequisite: CHI 102 or above, or proficiency in CHI 102 as determined by the Modern Languages Department placement test and at least 3 credits in a foreign language taught at CUNY.

**FRENCH**

**French I**

FRN 101

4 crs. 4 hrs. 1 lab hr.

This is a course for students who have had no previous background in French. Grammar is taught inductively and simple texts are read. Speaking, reading, and writing are emphasized.

Prerequisite: CHI 105 or above, or proficiency in CHI 105 as determined by the Modern Languages Department placement test and at least 3 credits in a foreign language taught at CUNY.

**Introductory French I**

FRN 105

3 crs. 4 hrs. 1 lab hr.

This course is for students who have had no previous background in French. Grammar is taught inductively and simple texts are read. Speaking, reading, and writing are emphasized.

Prerequisite: Departmental Placement

**Introductory French II**

FRN 106

3 crs. 4 hrs. 1 lab hr.

Students will continue the study of basic French grammar begun in FRN 105. They will also further their skills in listening comprehension, reading and writing in French.

Prerequisite: FRN 105 or Departmental Placement

**Elementary Intensive French 1 & 2**

FRN 121

6 crs. 6 hrs. 2 lab hrs.

This intensive course combines French 105 and 106 into a one-semester course. It is designed for students who have had no previous background in French. Students develop their skills in listening, comprehension, speaking and writing in French, supplemented by readings and analysis of simple French texts. In addition to building vocabulary on everyday life, students develop the ability to make questions and to describe themselves and others, their environment, preferences and lifestyles in French. In the second half of the semester, students are introduced to past tenses, and develop their ability to narrating events and describing people and situations in the past. The course also exposes students to different forms of French and Francophone cultures through music and short film clips. Since the goal is to enhance students’ speaking and writing abilities in French, French will be the main language spoken in class.

**Basic Conversational French**

FRN 150

3 crs. 3 hrs.

This course for non-native students having mastered two semesters of French is designed to build confidence and competence in conversing in French.

Prerequisite: FRN 102 or departmental approval

**French Caribbean Literature in Translation**

FRN 160

3 crs. 3 hrs.

This course covers literature of Martinique, Guadeloupe, and Haiti as well as their respective diasporas across the globe, in English translation, with a focus on ideas and literary movements developed in connection to the colonial and post-colonial contexts. Readings, discussions and written work are conducted in English, but students who wish to read and write in French will be encouraged to do so.

Prerequisite: ENG 101

**French-Speaking Women Writers in Translation**

FRN 161

3 crs. 3 hrs.

This course examines the literary works of prominent French-speaking women writers, from the Middle Ages to the 21st century, with an emphasis on fiction, poetry and essays on the question of women’s condition in different periods and geographical locations. While key female authors from continental France are included, the course also explores writings by women from various French-speaking locations across the globe. Readings and classwork conducted in English.

Prerequisite: ENG 201 or ENG 121

**French III**

FRN 200

3 crs. 3 hrs.

This course includes a review of grammar plus the study of French civilization and selected readings in French literature.

**French Film and Conversation**

FRN 204

3 crs. 3 hrs.

This course involves intensive oral work consisting of discussions of French/ Francophone films. Communicative activities and drills in pronunciation, intonation and rhythm are included as well as several oral presentations throughout the course. A wide variety of topics ranging from everyday life...
problems to major social and cultural issues will be discussed. Readings, written work, and discussions will be in French.

Prerequisite: FRN 200 or departmental approval

**French IV**
FRN 210
3 crs. 3 hrs.
While reviewing advanced grammar, students are trained in literary analysis through the works of modern French authors.

Prerequisite: FRN 210 or departmental approval

**Francophone Literature**
FRN 400
3 crs. 3 hrs.
This course explores literature written in French from countries outside of France. Works from French Canada, the Caribbean islands (Guadeloupe, Martinique, and Haiti) as well as North and West Africa will be included. Themes highlighting cultural and social differences with France will be discussed. Readings, written work, and oral reports will be in French.

Prerequisite: FRN 210 or departmental approval, or any 400 level course

**French V: Survey of French Literature I**
FRN 430
3 crs. 3 hrs.
The chronological evolution of French literature and its relation to French culture, history, and ideas are studied. Major works by representative authors from the 16th, 17th and early 18th centuries are read and discussed with emphasis on ideas and style. Written and oral reports are required.

Prerequisite: FRN 210 or departmental approval, or any 400 level course

**French VI: Survey of French Literature II**
FRN 435
3 crs. 3 hrs.
This course concentrates on the literature of the Enlightenment and the 19th century as reflected in the poetry, fiction, and essays of a variety of authors in connection with ideas and styles developed during this period and/or with France's historical relations across the globe. Written and oral reports are required. This course may be taken before French V.

Prerequisite: FRN 210 or departmental approval, or any 400 level course

**French VII: 20th Century French Literature**
FRN 440
3 crs. 3 hrs.
In this study of major 20th century and contemporary thinkers, writers and literary movements, emphasis is placed on contributions that help define what it means to be French. Main authors from continental France are included, but attention is also given to writers from the Maghreb, Sub-Saharan Africa and/or the Caribbean.

**Literature and Cinema from West Africa**
FRN 446
3 crs. 3 hrs.
This course introduces students to literature and cinema from French speaking West African countries. We will study various works from the 1950s up to the present through five major themes: oral tradition, cultural alienation, social and political criticism, women's condition and the old/new generation conflict. Documents studied will include novels, documentaries, fiction, films and songs. Some of the authors to be considered include: D.T. Niane, Camara Laye, Ahmadou Kourouma, Sembene Ousmane, Djibril Diop Mambety, Maraima Ba and Safi Faye. This course is taught in French.

**Advanced French Grammar and Composition I**
FRN 455
3 crs. 3 hrs.
The course reviews advanced grammar and syntax and includes composition exercises, with emphasis on developing advanced oral and written proficiency in French. Through the close analysis of texts on a wide range of cultural and social issues, students will learn strategies for writing organized, compelling essays. Students are expected to complete extensive grammar exercises, participate in discussions in class, and write short essays. Readings, written work, and discussions will be in French.

Prerequisite: FRN 210 or departmental approval

**Advanced French Composition**
FRN 456
3 crs. 3 hrs.
The objective of this course is to continue developing advanced oral and written proficiency in French through critical analysis of different texts covering a wide range of contemporary cultural and social issues. Emphasis is placed on writing persuasive and argumentative essays. Students are expected to keep a journal, a vocabulary log, actively participate in discussions in class, and write short essays. Readings, written work, and discussions will be in French.

Prerequisite: FRN 210 or departmental approval

**Existentialism in French Literature**
FRN 460
3 crs. 3 hrs.
The course brings to life the essentials of existentialist philosophy in plays and novels of French authors such as Sartre and Camus, with modern insights into the age-old question of free choice and predestination, the relevancy or irrelevancy of God, commitment or alienation, and the meaning or the absurdity of life. Readings are in French; class discussions and written work in English/French.

Prerequisite: FRN 210 or departmental approval, or any 400 level course

**The Individual and Society in 19th Century French Literature**
FRN 461
3 crs. 3 hrs.
In this course students will read major French authors of the nineteenth century to analyze...
the relationship between the individual and a society undergoing critical changes in the wake of political revolutions. Special attention will be given to how individual and collective identities such as class, sex, and race are being defined and reshaped in an age that proclaims Liberté, égalité, fraternité. Readings are in French; discussion and written work in English or French.

Prerequisite: FRN 210 or departmental approval, or any 400 level course

History of French Drama and Theater FRN 462 3 crs. 3 hrs.

This is a history survey of the theories of French Theater evolved from the Greek Tragedy through medieval, classical Romantic, Realistic, Symbolist and Surrealist theater up to Avantgarde Theater and the Theater of the Absurd. Readings are in French, discussion in English.

Prerequisite: FRN 210 or departmental approval, or any 400 level course

Modern French Civilization FRN 470 3 crs. 3 hrs.

The main aspects of French life and culture as expressed in social, intellectual, and philosophical history are studied in this course. Emphasis is given to the geographic situation, economic, and social changes; the main trends of thought in French tradition, and their impact on modern France. Readings are in French, discussion in English and French.

Prerequisite: FRN 205 or departmental approval

French Heritage FRN 476 3 crs. 3 hrs.

This is a study abroad course that will further develop students’ four skills of listening, speaking, reading and writing in French. Students will consolidate their knowledge of grammar through contextualized analysis. Students will also do further work on selected contemporary themes related to French society and institutions (e.g., the press in France, cinema, food, etc.)

Prerequisite: FRN 102 or departmental approval; GPA of 3.0 or above

GERMAN

German I GER 101 4 crs. 4 hrs. 1 lab hr.

This is a course for students who have had no previous background in German. Grammar is taught inductively and simple texts are read. Skills in comprehension, speaking, reading, and writing are developed.

German II GER 102 4 crs. 4 hrs. 1 lab hr.

In this continuation of German I, grammar, composition, conversation, and reading and analysis of simple literary texts are covered.

Prerequisite: GER 101 or departmental approval

ITALIAN

Italian I ITL 101 4 crs. 4 hrs. 1 lab hr.

This course is for students who have had no previous background in Italian. Grammar is taught inductively and simple texts are read. Skills in comprehension, speaking, reading, and writing are developed.

Italian II ITL 102 4 crs. 4 hrs. 1 lab hr.

In this continuation of Italian I, grammar, composition, conversation, and reading of Italian texts are covered.

Prerequisite: ITL 101 or departmental approval

Introductory Italian I ITL 105 3 crs. 4 hrs. 1 lab hr.

This course is for students who have had no previous background in Italian. Grammar is taught inductively and simple texts are read. Speaking, reading, and writing are emphasized.

Prerequisite: Departmental Placement

Introductory Italian II ITL 106 3 crs. 4 hrs. 1 lab hr.

Students will continue the study of basic Italian grammar begun in ITL 105. They will also further their skills in listening comprehension reading and writing in Italian.

Prerequisite: ITL 105 or Departmental Placement

Elementary Intensive Italian 1 & 2 ITL 121 6 crs. 6 hrs. 2 lab hrs.

This intensive course combines Italian 105 and 106 into a one-semester course. It is designed for students who have had no previous background in Italian. Students develop their skills in listening, comprehension, speaking and writing in Italian, supplemented by readings and analysis of simple Italian texts. In addition to building vocabulary on everyday life, students develop the ability to make questions and to describe themselves and others, their environment, preferences and lifestyles in Italian. In the second half of the semester, students are introduced to past tenses, and develop their ability to narrate events and describe people and situations in the past. The course also exposes students to different forms of Italian and Italian culture through music and short film clips. Since the goal is to enhance students’ speaking and writing abilities in Italian, Italian will be the main language spoken in class.

Prerequisite: ITL 100 or departmental approval

Literature, Culture and Civilization of Italy ITL 170 3 crs. 3 hrs.

This liberal arts elective is an introduction to the evolution and development of Italian culture and civilization through the literary and artistic features, geared to the understanding of present day problems of modern European Italy and the Italian-American people. Readings are in English, and term papers are in English.

Italian III ITL 200 3 crs. 3 hrs.

Study in this course includes a review of grammar and of composition. Modern prose is read, discussed and analyzed.

Italian Film and Conversation ITL 204 3 crs. 3 hrs.

This course involves intensive oral and written work consisting of discussions of Italian films in context. Several essays will be written in Italian. Drills in pronunciation, intonation and rhythm are included as well as several oral presentations throughout the course. Films will be screened during lab time and discussed during class sessions. A wide variety of topics ranging from everyday life problems to major social and political issues will be discussed.

Prerequisite: ITL 200 or departmental approval

Italian Cinema in Context ITL 205 3 crs. 3 hrs.

Taught in English, this course provides a historical introduction to Italian cinema, first concentrating on examples of iconic genres and movements, such as the classics of neorealism, and auteurs of the ‘50s, ‘60s and ‘70s. For the contemporary strand, we will focus on situating the films in the historical and cultural contexts that have shaped the past several decades of Italian social life. We will examine issues of representation and production of societal values, e.g., gender, family relations, and national identity vs. local cultures.

No knowledge of Italian is required.

Italian IV ITL 210 3 crs. 3 hrs.

This intensive writing course emphasizes comprehension, writing, and analysis of Italian contemporary and classical texts.

Prerequisite: ITL 200 or departmental approval

Advanced Grammar and Conversation ITL 250 3 crs. 4 hrs.

Italian 250 is for students who can communicate comfortably in sentence-length discourse and who can link sentences into simple paragraphs with some ease. The present, future and past tenses are reviewed and more complex grammar structures are introduced. Authentic literary readings solidify students’ communication skills by providing themes for class discussions and written assignments and as a context for the practice of grammar structures. Language laboratory work may be assigned.

Prerequisite: ITL 200 or departmental approval

The Modern Italian Short Story ITL 260 3 crs. 3 hrs.

This course involves intensive written and oral work consisting of discussions of Italian short stories. Drills in advanced grammar are included as well as several oral presentations throughout the course. Readings will be assigned for homework and discussed during class sessions. Students are expected to write a journal for weekly submission and discussion, keep a vocabulary log, actively participate in discussions in class, and prepare one paper and one oral presentation on the literature covered. Readings, written work, and discussions will be in Italian.

Prerequisite: ITL 200 or departmental approval

Modern Italian Theater ITL 312 3 crs. 3 hrs.

Taught in English, this course will engage students in reading, analyzing, and discussing selected Italian plays from the 18th to the 20th century, focusing on seminal authors, such as Goldoni, Mariani, Pirandello, Ginzburg, Marani and Po. The aim is to provide an introduction to the history of Italian Theater, spanning from the decline of the Commedia dell’Arte to Naturalism and the questioning of the conventional stage. We will address some crucial cultural issues, such as the rural poetics of Verismo, the crisis of bourgeois
values, the artistic avant-garde and the clutches of the Fascist censorship, up to the raise of female authorship and political theater in contemporary Italian theater.

Survey of Italian Literature

3 crs. 3 hrs.

A survey of Italian literature and its relation to Italian culture and ideas are studied. Selections from major works by representative authors are read and discussed. A wide variety of topics from Dante to contemporary literature will be covered. Written and oral reports are required. Students are expected to keep a reflection journal, keep a vocabulary log, actively participate in discussions in class, and prepare 3 short papers and one oral presentation on the literature covered. Readings, written work, and discussions will be in Italian. 

Prerequisite: ITL 210 or departmental approval

SPANISH

Spanish I

SPN 101

4 crs. 4 hrs. 1 lab hr.

This course is for students who have had no previous background in Spanish. Grammar is taught inductively and simple texts are read. Speaking, reading and writing are emphasized.

Spanish II

SPN 102

4 crs. 4 hrs. 1 lab hr.

In this continuation of Spanish I, grammar, composition and oral comprehension are developed and supplemented by readings or Spanish texts. Students who have taken SPN 103 will not receive credit for this course.

Prerequisite: SPN 101 or departmental approval

Elementary Spanish for Speakers of Spanish

SPN 103

4 crs. 4 hrs. 1 lab hr.

This is an elementary Spanish course for students who can speak Spanish but have no formal training in the language. Students who have taken SPN 101 and/or SPN 102 will not receive credit for this course.

Prerequisite: Knowledge of spoken Spanish and departmental approval

Introductory Spanish I

SPN 105

3 crs. 4 hrs. 1 lab hr.

This course is for students who have had no previous background in Spanish. Grammar is taught inductively and simple texts are read. Speaking, reading, and writing are emphasized. Students who have taken SPN 103 will not receive credit for this course.

Prerequisite: Departmental Placement

Introductory Spanish II

SPN 106

3 crs. 4 hrs. 1 lab hr.

In this continuation of Spanish I, grammar, composition and oral comprehension are developed and supplemented by readings or Spanish texts. Students who have taken SPN 107 will not receive credit for this course.

Prerequisite: SPN 105 or Departmental Placement

Introductory Spanish for Speakers of Spanish

SPN 107

3 crs. 4 hrs. 1 lab hr.

This is an elementary Spanish course for students who can speak Spanish but have no formal training in the language. Students who have taken SPN 101 and/or SPN 102 will not receive credit for this course.

Prerequisite: Knowledge of spoken Spanish and Departmental Placement

Introductory Spanish II for Speakers of Spanish

SPN 108

3 crs. 4 hrs. 1 lab hr.

This is the second course in a series of four basic language courses for heritage learners. This group of students can speak Spanish but need to continue formal training in the language. The course aims at reinforcing and expanding on students’ familiarity with Hispanic culture, which serves as a context for the development of linguistic skills, such as reading comprehension, lexical expansion, spelling, writing, and grammatical accuracy, among other things. Students who have taken SPN 105 and/or SPN 106 will not receive credit for this course.

Prerequisite: SPN 107 or Departmental Placement

Elementary Intensive Spanish 1 & 2

SPN 121

6 crs. 6 hrs. 2 lab hrs.

This intensive course combines Spanish 105 and 106 into a one-semester course. It is designed for students who have had no previous background in Spanish. Students develop their skills in listening, comprehension, speaking and writing in Spanish, supplemented by readings and analysis of simple Spanish texts. In addition to building vocabulary on everyday life, students develop the ability to make questions and to describe themselves and others, their environment, preferences and lifestyles in Spanish. In the second half of the semester, students are introduced to past tenses, and develop their ability to narrate events and describe people and situations in the past. The course also exposes students to different forms of Spanish and Spanish cultures through music and short film clips. Since the goal is to enhance students’ speaking and writing abilities in Spanish, Spanish will be the main language spoken in class.

Prerequisite: SPN 100 or departmental approval

Spanish Conversation

SPN 130

2 crs. 2 hrs.

Designed primarily for Health/Medical area students, this course emphasizes the practice of conversation based on medical terminology and useful expressions and idioms. Classes will be assigned according to the student’s background in Spanish. Use is made of the language laboratory.

Basic Spanish Conversation

SPN 150

3 crs. 3 hrs.

This course for non-native speaking students may follow the two semester sequence in Spanish. It is designed to build confidence and competence in conversing in Spanish.

Prerequisite: SPN 102 or departmental approval

Advanced Spanish Multimedia

SPN 160

2 crs. 2 hrs.

This course uses visual, audio and multimedia technologies to enhance learning Spanish. It may be taken as an elective course in the Spanish Program. It is not intended to replace other Spanish course requirements.

Prerequisite: SPN 102 or departmental approval

Spanish Film and Conversation

SPN 204

3 crs. 3 hrs.

This course involves intensive oral work consisting of discussions of Hispanic films. Drills in pronunciation, intonation and rhythm are included as well as several oral presentations throughout the course. Films will be screened during class sessions or as homework assignments. Readings, written work, and discussions will be in Spanish.

Prerequisite: SPN 200 or departmental placement

Intermediate Spanish I for Speakers of Spanish

SPN 207

3 crs. 3 hrs. 1 lab hr.

Spanish 207 is the third course in the heritage speaker sequence. This is an intermediate 1 course for speakers of Spanish who are in the process of refining their formal study of standard Spanish. The course is designed to build on the language base students already possess. The primary purpose of the course is to further develop students’ reading, writing, listening, and speaking skills. This course will use reading and writing activities to extend students’ grasp of vocabulary and grammatical structures and to further their comprehension of and ability to express themselves in Spanish. Activities will be largely devoted to providing practice through form-based and communicative activities.

Prerequisite: SPN 108 or departmental permission based on the results of the language proficiency exam

Spanish IV

SPN 210

3 crs. 3 hrs.

This intensive writing course emphasizes comprehension, writing, and analysis of contemporary and classical texts.

Prerequisite: SPN 200 or departmental approval

Intermediate Spanish II for Speakers of Spanish

SPN 211

3 crs. 3 hrs.

This course complies with the last semester of Spanish for Heritage Learners who are completing the basic language requirements. In this course, students will improve their writing skills and increase their vocabulary through readings of material written for native speakers of the Spanish language in order to become more confident in their ability to speak Spanish in public, as well as in reading and writing in their heritage language. Students are expected to read, write and discuss in Spanish the reading topics selected for class. The course will pay close attention at reviewing aspects of grammar, spelling and speech which are troublesome for students who do not fully master cultivated Spanish.

Prerequisite: SPN 207 or departmental permission based on the results of the language proficiency exam

Latin American Women Writers

SPN 400

3 crs. 3 hrs.

This course introduces students to a representative sampling of Latin American women writers from the colonial period to the twentieth century. The course will disseminate a body of literature, which is represented minimally in Hispanic literature courses. Feminism, machismo, motherhood, sexual and political activism and the role of women...
as writers are some of the issues that will be explored and discussed during the semester.

Prerequisite: SPN 211

Spanish-American Theatre  SPN 410
3 crs. 3 hrs.
This course is an introduction to Spanish theatre from pre-Columbian times to the present with emphasis on 20th century theatre. Among the authors who will be studied are: Gonzalez Eslava, Ruiz De Alarcon, Sor Juana Ines De La Cruz, Florencio Sanchez, Rodolfo Usigli, Egon Wolff, Augusto Boal, Jose Triana, Jorge Diaz, Luis Rafael Sanchez, Griselda Gambara, Isadora Aguirre.

Prerequisite: SPN 211

Introduction to Spanish Theatre  SPN 420
3 crs. 3 hrs.
This course is an introduction to Spanish theatre from the Middle Ages to the early Colonial period. Examples of short stories written during the different literary movements are studied and analyzed. The relationship between the writer and society is analyzed as well as the common history, culture, and socio-economic problems which are reflected in each story.

Note: This course is taught in Spanish and satisfies the Liberal Arts requirement for Modern Language. Prequisite: SPN 211 or departmental approval

Spanish VII: 20th Century Literature  SPN 425
3 crs. 3 hrs.
The major authors and literary movements of the 20th century in Spain are studied with emphasis on representative genres. Works of Unamuno, Ortega, Machado, Juan R. Jimenez, Salinas, Garcia Lorca, Cela and others are analyzed. Written and oral reports are required.

Spanish VIII: Survey of Spanish-American Literature  SPN 445
3 crs. 3 hrs.
Spanish-American Literature This course involves a chronological history of Spanish-American literature from the Colonial period to the 19th century. Readings include selections from el Inca Garcilaso, Sor Juana Ines de la Cruz, Sarmiento, Jose Hernandez, Palma, Marti, Dario, and others. Written and oral reports are required.

Prerequisite: SPN 211 or departmental approval, or any 400 level course except SPN 476

Creative Writing in Spanish  SPN 426
3 crs. 3 hrs.
This course focuses on advanced composition skills and writing techniques. It helps students to fine tune their grammar and develop their own creative voice through the reading of representative and contemporary authors and the writing of a variety of personal narrations, both fictional and non-fictional such as memoirs/mini-autobiographies, short stories and blogs.

Prerequisite: SPN 211 or any 400-level Spanish course or departmental approval

Spanish V: Survey of Spanish  SPN 430
3 crs. 3 hrs.
A chronological study is made of Spanish literature against its cultural and ideological background. Major works by representative writers from the Middle Ages to the end of the Golden Age are read and analyzed. Readings include selections from the “Poema de Mio Cid,” Don Juan Manuel, Jorge Manrique, Fernando de Rojas, Cervantes, Quevedo, and Calderon de la Barca. Written and oral reports are required.

Prerequisite: SPN 211 or departmental approval, or any 400 level course except SPN 476

Spanish VI: Survey of Spanish  SPN 435
3 crs. 3 hrs.
This course is a survey of the representative authors of the 18th and 19th centuries—Moratin, el Duque de Rivas, Larra, Becquer, Zorrilla and Galdos—with emphasis on neoclassicism, romanticism, and realism in the novel, theater and poetry of the period. Reading and oral reports are required.

Prerequisite: SPN 211 or departmental approval, or any 400 level course except SPN 476

The Short Story in the Spanish Speaking Caribbean (same as LAT 239)  SPN 439
3 crs. 3 hrs.
This course studies the short story as major form of literary expression in the Spanish speaking countries of the Caribbean: Colombia, Cuba, the Dominican Republic, Puerto Rico, and Venezuela. It studies the development of the short story. Beginning with Indian legends recreated by Spaniards during the early Colonial period. Examples of short stories written during the different literary movements are studied and analyzed. The relationship between the writer and society is analyzed as well as the common history, culture, and socio-economic problems which are reflected in each story.

Prerequisite: SPN 211 or departmental approval

Spanish IX: Survey of Spanish-American Literature  SPN 440
3 crs. 3 hrs.

Prerequisite: SPN 211 or departmental approval, or any 400 level course except SPN 476

Spanish X: 20th Century Literature  SPN 450
3 crs. 3 hrs.
The major authors and literary movements of the late 19th and 20th centuries are studied. Works of Quiroga, Reyes, Neruda, Vallejo, Carpentier, Borges, Rulfo, Fuentes, Marquez and others are analyzed. Written and oral reports are required.

Advanced Spanish Grammar and Composition  SPN 455
3 crs. 3 hrs.
The course reviews advanced grammar and syntax and includes composition exercises, with emphasis on developing advanced oral and written proficiency in Spanish. Through the close analysis of texts on a wide range of cultural and social issues, students will learn strategies for writing organized, compelling essays. Students are expected to complete extensive grammar exercises, participate in discussions in class, and write short essays.

Prerequisite: SPN 211 or departmental placement/approval

Advanced Spanish Composition  SPN 456
3 crs. 3 hrs.
The objective of this course is to continue developing advanced oral and written proficiency in Spanish through critical analysis of different texts covering a wide range of contemporary cultural and social issues. Emphasis is placed on writing persuasive and argumentative essays. Readings, written work, and discussions will be in Spanish.

Prerequisite: SPN 211 or departmental approval

Literature and Civilization of the Spanish-American  SPN 470
3 crs. 3 hrs.
The evolution of Spanish-American civilization is studied through literature to enhance understanding of present-day problems and potentialities. Emphasis falls on the relevance of the topography of the regions, the Spanish conquest and colonization, conflicts among cultures and religions of the indigenous peoples: Hispanic settlers, Africans, and recent immigrants; oral and written transmissions of traditions; the struggle for independence; movements for political, social, and economic reforms; the cultural obstacles, the emergence of linguistic distinctiveness and the quest for self-realization are studied. Readings are in Spanish, discussions are in English or Spanish.

Prerequisite: SPN 211 or departmental approval, or any 400 level Spanish course except SPN 476

Literature and Civilization of Spain  SPN 471
3 crs. 3 hrs.
This course offers a diachronic approach to the evolution of Spain through the examination of its social, political and cultural manifestations. By paying particular attention to its linguistic, regional, economic, and ethnic diversities as well as to the complex relationships held throughout the centuries between Spain and the rest of the world, this course also promotes a richer understanding of some of the current situations faced by this country.

Prerequisite: SPN 211 or departmental approval, or any 400 level Spanish course except SPN 476

Literature, Culture and Civilization of the Greater Antilles (Cuba, Puerto Rico, Santo Domingo, Haiti and, Jamaica) geared to the understanding of their heritage as it is preservations. Readings are mainly in English; class discussions are in English, Spanish, and any other modern language.

Prerequisite: SPN 211 or departmental approval, or any 400 level course except SPN 476

Hispanic Heritage  SPN 476
3 crs. 3 hrs.
This is a study abroad course in which students will enhance their language skills and knowledge of a foreign culture through class meetings, seminars, and on-site visits to places of historic and cultural importance. They will be immersed in the language of the country and attend language and literature courses.

Prerequisite: SPN 102 or departmental approval
Spanish and Latin American Texts into Films

This course will introduce students to film adaptations of Spanish and Latin American novels, short stories, diaries and theater plays in the context of the literary and film debate: how does film “translate” text? Should the film be “faithful” to the text? If so, faithful to what aspects, plot dialogue, chronology, social and psychological and socioeconomic backgrounds will be included. Special attention will be given to the study of nationality, gender and sexual differences within Spanish and Latin American societies. Students will examine the connections between text and film, as well as the fundamentals of written and visual identification with the cinematic and textual apparatus.

Prerequisite: SPN 211

New York Literature in Spanish

SPN 485

This course consists of a survey of all literary production in Spanish created in New York from the 19th century to the present, mainly focusing on those authors who have lived and written here, whose work was influenced by the circumstance of coming and staying in this city and who are weaving the unique history of literature written in Spanish in New York. Readings and classwork will be conducted in Spanish.

Prerequisite: SPN 211 or departmental approval or any 400-level course except SPN 476

Introduction to Translation and Interpretation Theory

TRS 231

3 crs. 3 hrs.

In this introductory course students learn about the processes and strategies of translation and interpretation as well as available resources. This course includes translation and interpretation ethics, types of translation and interpretation and the history of the profession. Students are introduced to the use of interpretation and translation in law, the health professions, and financial businesses. It also introduces terminology and resources that can be used in computer aided interpretation and translation. Students explore how computer-assisted interpretation and translation has affected the industry as they learn to use interpretation and translation tools and create lists of commonly used terminology. There is emphasis on interpretation and translation into the native language with some practice in the opposite direction.

Prerequisite: ENG 101 and Spanish at the intermediate-low level (SPN 200/SPN 108 or above). Language level will be determined with language proficiency exams administered by the Modern Languages Department.

Introduction to Translation and Interpretation for the Professions

TRS 232

3 crs. 3 hrs.

TRS 232 invites the student to continue her/his development as a Spanish-English and/or English-Spanish translator and interpreter to complement the theoretical and practical techniques developed in TRS 231 into the professional ambit; namely, healthcare, business/finance, and law. Aside from honing technique across languages as both an art and a science, students are introduced to crosscultural considerations, ethics and best practices of both translation and interpretation.

Prerequisite: ENG 101 and Spanish at the intermediate-low level (SPN 200/SPN 108 or above). Language level will be determined with language proficiency exams administered by the Modern Languages Department.

Spanish Translation & Interpretation for Healthcare

TRS 233

3 crs. 3 hrs.

This is a theory based fully online course dealing with English-Spanish translation and interpretation for health care. As such, it addresses the communication needs in settings such as hospitals, clinics, physician’s offices, dental offices, outpatient facilities, pharmacies, etc. Among the topics or scenarios to be covered are: Spanish-speaking clients and their health; specialized terminology (e.g., anatomical, physiological, neurological, cardiovascular, oncoligical, obstetrical, orthopedic, medical instruments and devices); communication with administrative personnel (e.g., admission, payment, insurance); patient’s medical history (present illness and past history); personal, social and family history; the physical examination; emergency room; labor and delivery; surgery; medication and prescriptions; diet; treatments; drug overdose; patient instructions; dental visit and treatment; authorizations, consents and signature forms; and visits with different types of specialists (e.g., neurologist, orthopedist, cardiologist, psychiatrist).

Prerequisite: TRS 232 or departmental permission

Spanish Legal Translation and Interpretation

TRS 234

3 crs. 3 hrs.

This is a theory-based course dealing with English-Spanish translation and interpretation for legal domain. The course will help students to translate and interpret legal texts and arguments, to write documents and to express themselves using legal vocabulary. The class will be taught in Spanish and will cover a broad mix of practical legal terminology, vocabulary and conversational skills. Special attention will be placed on the practice of writing to be used in law offices, courtrooms and similar settings. Translation and interpretation skills will be developed through forum discussions, reports and asynchronously activities using Voice Thread. In addition, the emphasis will be also placed on cultural issues that may affect successful interaction with Spanish-Speaking individuals and families faced with matters concerning the law.

Prerequisite: TRS 231 and TRS 232

Spanish Translation and Interpretation for Business and Finance

TRS 235

3 crs. 3 hrs.

This is a theory-based course dealing with English-Spanish translation and interpretation for financial/business domain. It will prepare students for successful communication in the Hispanic commercial world by building up on their existing knowledge and emphasizing practical, real-life use of oral and written Spanish. This course is designed to introduce students to essential business interpretation and translation using terminology and language situations in common business contexts, reinforcing strategies for understanding, interpreting, translating and responding to new information. This course will also help the student to be alert to the importance of cultural awareness in doing business in Spanish-speaking countries or with Hispanics in the United States.

Prerequisite: TRS 231 and TRS 232

Capstone Project

Translation/Interpretation

TRS 245

3 crs. 3 hrs.

This capstone project in translation is designed, developed, and documented using an e-portfolio. The capstone project is done under instructor supervision and realized on a specialized area of translation according to the student’s area of interest and language pair. The possible specializations include commercial, legal, or medical. Students need to combine the project with an internship or apprenticeship in an appropriate organization, such as a health center, courthouse, international corporation, governmental or non-governmental organization. Students must complete a project contract with the instructor prior to initiating the project and must keep a weekly journal on their e-portfolio.

Prerequisite: TRS 231, TRS 232 and two of the following courses: TRS 233, TRS 234, or TRS 235

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
Music and Art

Room F-1130, Telephone: (212) 220-1464
music&art@bmcc.cuny.edu

Courses in music and art are designed to provide a broad exposure to the fine and performing arts, art history and music literature. Students develop an awareness of the beauty of music and art and their meanings. They also learn to enjoy and participate as spectators and viewers or as trained amateurs and professionals. The Music and Art Department offers an Art Foundations major focusing on Art History that leads to the Associate (A.A.) degree and an Art Foundations major in Studio Art that leads to an Associate in Science (A.S.) degree. Students pursuing the Studio Art can choose from program electives in Drawing, Digital Imaging, Painting, Sculpture, or Photography.

Chairperson: Eugenia Yau

Professors: Simon Carr, Sarah Haviland, Peter Hollerbach, Howard Meltzer, Thaddeus Radell, Eugenia Yau

Associate Professors: Quentin Angus, Peter (Xico) Greenwald, Maureen Keenan, Carla Machiavello, Sarah Madole, Siobhan McBride, Jessica Ramirez, Robert Reed, Elizabeth Towery, Terttu Uibopuu

Assistant Professors: Miguel Arisa, Patricia Genova, Yiu-Hsuan Liao, Yan Yang

Adjunct Faculty: There are approximately 76 adjuncts in the department.

ART

Digital Imaging Studio I

ART 101
3 crs. 4 hrs.

This course will introduce digital art image making, editing and design techniques as a foundation upon which an effective visual language is built. Beginning with an investigation of the elements and principles of digital design, students will discover a broad range of visual ideas, concepts and techniques to use in creating images. Expressing, evaluating and communicating ideas with visual images is a primary focus of this course. During the semester, students will use imaging and design software consistent with that in use by artists and other visual professions as a beginning step towards professional-standard computer proficiency.

Survey of Art History I

ART 102
3 crs. 3 hrs.

This introduction to art history includes the study of painting, sculpture, architecture and other media by surveying the Paleolithic period through the Late Gothic period using a global approach. This exploration of art and architecture in terms of history, social context, meaning and style will promote a general understanding of the development of art and style in different cultures and the effects of cultural exchange on the arts. Discussions of techniques, media, composition, and figure representation will provide an understanding of key concepts in the arts.

Survey of Art History II

ART 104
3 crs. 3 hrs.

Using a global approach, this introduction to art history includes the study of painting, sculpture, architecture and other media by surveying the Renaissance through the start of the twentieth century. The exploration of techniques, media, composition, and figure representation will provide an understanding of key concepts in the arts with additional focus on the historical and social context, which developed the meaning and changing styles in different cultures as well as the effects of cultural exchange through the arts.

Modern and Contemporary Art

ART 106
3 crs. 3 hrs.

This introduction to Modern and Contemporary art history includes the study of painting, sculpture, architecture and other media by surveying the development and evolution of artistic styles using a global approach. Emphasis will be placed on groundbreaking artistic movements in context to their historical framework. Students will learn the importance of innovative practices, techniques and new avenues of exploration, by understanding the socio-political and cultural events that influenced artists to create groundbreaking works, which have led the way to Contemporary Art.

Color and Design I

ART 107
3 crs. 4 hrs.

This course provides an introduction to basic color theory and to fundamental elements and principles of two-dimensional design. Through studio exercises, students explore concepts of color theory and develop skills working with traditional drawing, painting and mixed media. Through design projects, students apply learned skills, work with principles of design, and engage in creative problem solving relating theory to practice.

Art Survey I

ART 110
2 crs. 2 hrs.

This introduction to art principles and terms includes the study of the plastic arts: nature, content, and form. The meaning of illusion and abstraction, style and the changing concept of reality in art throughout history are explored. Selected paintings, sculpture, and architecture are examined.

History of Graphic Design

ART 113
3 crs. 3 hrs.

This survey course traces the history of graphic design from the origins of graphic imagery and writing systems to contemporary graphic design. Emphasis will be placed on the development of visual communication and typography, impact of the Industrial Revolution on design, the Modernist era’s effect on visual communication, impact of the desktop publishing revolution and the development of contemporary techniques of information design.

Introduction to Latin American Art

ART 125
3 crs. 3 hrs.

This survey examines the art and architecture of Latin America from the pre-Columbian era to the present. The course begins with an analysis of pre-Hispanic iconography, styles, traditions, and techniques in Meso, Central, South America, and the Caribbean. The art of colonial Latin America will be explored to understand the cultural complexity that characterized Spanish colonialism. The development of Modern art in Latin America, following independence and nation building in the 19th century, will be discussed as a series of responses to the influence of international movements and ideas. The course culminates in the exploration of Contemporary Latin American and Latina/o art, including Chicana/o art. Museum visit required.

Introduction to African Art

ART 126
3 crs. 3 hrs.

This survey examines African artifacts, arts, and architecture from Prehistory to the present by introducing several cultures and regions and the production of art objects in each. Both Pre- and Post-Colonial Africa will be considered to understand influences on indigenous African art, as well as the influence of African art forms on “Western” art. Emphasis is placed on distinguishing and analyzing the functions and forms of art Objects produced by diverse African cultures created in relation to socio-political frameworks. Attention will be given to “traditional concepts” of art history and so-called “primitive” art. This will promote a basic understanding of the development of African visual traditions.
MUSIC AND ART

Course Descriptions

Photography I ART 133
3 crs. 3 hrs.
This course offers students an introduction to the art of creating photographs. Basic technical, theoretical, and aesthetic aspects inherent to contemporary photography are presented. During the semester, a range of camera techniques, including exposure, depth of field, shutter speed and composition are investigated. Reading, writing, and oral assignments will reflect on both technical aspects of photography and on contemporary practice.

Note: a 35mm SLC camera with fully manual controls is required for this class.

3D Design: Materials and Methods ART 143
3 crs. 3 hrs.
ART 143 is a hands-on studio course exploring the fundamentals of three-dimensional design and creative thinking for students in all disciplines. The course introduces the elements and principles of 3D design used across fields of art, design, and business to solve 3-dimensional problems. It focuses on spatial issues of line, plane, volume, and mass in a variety of materials including wire, paper, board, mixed media, as well as some digital tools. Emphasis is placed on critical thinking and the creative process of ideation and problem-solving, moving from research and concept to model, revision, and completed design.

Drawing I ART 161
2 crs. 2 hrs.
This course covers basic drawing problems aimed at the achievement of manual skills in freehand drawing, drawing from objects from nature and conceptual drawings.

Drawing Studio I ART 166
3 crs. 3 hrs.
This introductory course covers a range of basic approaches to drawing and addresses the development of manual skills in freehand drawing, drawing of objects from nature and idea-oriented approaches to drawing. This course will satisfy drawing requirements for transfer within the CUNY system, as well as professional art schools.

Life Drawing Studio I ART 168
3 crs. 3 hrs.
This course introduces students to a basic study of representing the human body. Students work from nude models using a variety of techniques and media while investigating the basics of skeletal and muscular anatomy. This course will satisfy drawing requirements for transfer within the CUNY system, as well as professional art schools.

Painting Studio I ART 174
3 crs. 3 hrs.
This three credit course is designed to have the beginning student explore painting techniques, with an introduction to the use of various media. Strong emphasis is placed on formal concerns (figure and objects). This course will satisfy painting requirements for transfer within the CUNY system as well as professional art schools.

Comic Art I ART 176
3 crs. 3 hrs.
This introductory course covers a range of techniques and concepts as they concern visual storytelling. Through class exercises and assignments, students will learn to create narratives that effectively combine images and text while developing drawing, design and script writing skills. Outcomes can be applied to working in film, animation, and other two-dimensional or three-dimensional graphic narratives. Through lectures, research and production, students will expand their visual vocabulary while broadening the influences on their work.

Prerequisites: ART 162 or ART 166 or departmental permission

Sculpture Studio I ART 183
3 crs. 3 hrs.
This is an introductory studio course exploring three-dimensional sculptural form, using both traditional and contemporary materials and methods. Clay and other media are used in hands-on practice as a means of expression and for understanding the language of sculpture, including focus on the creative process from idea to completion. This course is intended to satisfy basic sculpture requirements for transfer within CUNY, as well as professional art programs.

Digital Creative Studio ART 203
3 crs. 2 hrs. 2 lab hrs.
This course will use digital imaging principles as an essential part of photographic editing. Fundamental digital imaging skills will include input, editing, archiving and output as part of the creative process. A range of approaches to producing, processing and printing digital images will be explored as they relate to current practices.

Prerequisites: ART 103 or Permission of the Department

Typography and Layout ART 215
3 crs. 4 hrs.
This course will explore type design and its application in visual communication. Students will learn to manipulate type properties to design meaningful and effective graphic communication. The use of industry-standard desktop publishing software will be covered as well as will be applied to a range of typographic solutions.

Prerequisites: ART/MMA 100

Pre-Columbian Art of Mesoamerica and the Andes ART 221
3 crs. 3 hrs.
This course investigates the history of art produced by indigenous people of Mesoamerica and the Andes region of South America from 1535 CE. We will study significant artworks, including mural paintings, sculptures, architecture, and portable objects, in relation to the socio-historical contexts in which they were created. We also will explore the distinctive artistic styles, forms, and aesthetics of Pre-Columbian art along with themes, beliefs, and diverse cultural characteristics associated with them.

Digital Imaging for Graphic Design ART 225
3 crs. 4 hrs.
This course continues the study of digital imaging as it relates to graphic design. A course philosophy for this class is the introduction of photographic images as a basis for approaching 2D design concepts. During the semester, this course shall cover digital input, editing, archiving and the beginning of the study of digital output. Conceptual and technical digital shooting assignments will be assigned to expand students' skills and support topics covered in class. Reading and writing will focus on the use of technology in propelling digital imaging and design.

Prerequisites: ART/IMMA 100

Design I: Introduction to Painting and Drawing Techniques ART 230
2 crs. 2 hrs.
For the beginning student, critical and artistic ability are developed by executing problems of two-dimensional design such as color relationships, composition, pattern, line, shape, and texture. Emphasis is placed on exploring aspects of design and techniques as they apply to the student's work.

Visual Communication and Design ART 235
3 crs. 4 hrs.
This course builds upon principles and skills learned in Foundations of Digital Design. Students will apply principles underlying effective visual communication to increasingly complex design problems. Projects may include poster design, symbols and logos, editorial design, information design, visual identity and branding and other design systems. Critical analysis of design problems and the creative design process will be emphasized. Students will complete reading and writing assignments in addition to problems in visual communications and design.

Photographic Studio and Light I ART 237
3 crs. 3 hrs.
This course introduces students to working with studio lighting as in a professional graphic studio. The assignments will introduce a range of lighting systems including tungsten, studio and portable flash, natural light, and mixed sources. Artistic and technical problems associated with portraiture, still life, product and fine art photography will be addressed. Hand-held meters, flash meters, lighting accessories, filters, and an introduction to medium and large format cameras will be covered during the semester. Through lectures, research and production of new work, students will expand their understanding of light and lighting while broadening the influences on their work.

Prerequisites: ART 133, ART 236 or departmental permission

Advanced Photography ART 238
3 crs. 3 hrs.
This course further develops students' understanding and expertise in using a handheld camera as an image-making tool. During the semester, we shall investigate a range of camera techniques, and approaches to specific topics allowing students to explore the canon of photography. The course will explore light and film characteristics utilizing both color slide film and digital capture. Readings will center on photography's recent history and forays into critical theory. A research project and paper, along with a comprehensive oral presentation will centre on contemporary photography.

Prerequisites: ART 133, ART 236 or departmental permission
3D Design: Materials and Methods  ART 243 3 crs. 3 hrs.  This course is a hands-on studio course exploring three-dimensional design problems, geared to the advanced student who wishes to expand his/her knowledge of formal issues of mass, volume, and shape in a variety of materials. Emphasis is placed on the creative process and problem-solving, moving from idea to revision to completed design. This course is intended to satisfy 3D design requirements for transfer within CUNY, as well as professional art programs.  Prerequisite: ART 100, ART 181, ART 183 or ART 230

Asian Art History  ART 251 3 crs. 3 hrs.  This course investigates the history and development of Asian Art, including East Asia, South Asia, and Southeast Asia, from the Neolithic period to the nineteenth century. We will study significant artworks, including paintings, sculpture, and architecture, in relation to the socio-historical contexts in which they were created. We will also explore distinctive artistic styles, forms, and aesthetics of Asian art along with themes, beliefs, and diverse cultural characteristics associated with them.

Drawing Studio II  ART 266 3 crs. 3 hrs.  This course, a continuation of ART 166, emphasizes formal drawing concerns, such as design, composition, and the introduction of a variety of new media. Advanced projects include still-life, landscape, perspective, portraiture and rendering the human figure. This course will satisfy drawing requirements for transfer within the CUNY system, as well as professional art schools.  Prerequisite: ART 160 or ART 161 or permission of the department

Figure Sculpture I  ART 285 3 crs. 3 hrs.  This intermediate course introduces a range of basic approaches to sculpting the figure; students will develop the skills needed to accurately sculpt from life. Students’ observational and reasoning skills are developed by providing a clear understanding of the fundamental principles of sculpting. Emphasis is placed on Gesture, Proportion, and Form. These three principles build on one another with a focus on accurately portraying observations, resulting in three-dimensional life studies in clay.  Prerequisite: ART 161 or departmental permission

Medieval Art: The Age of Faith and Migration  ART 290 3 crs. 3 hrs.  This course is designed as a survey of Medieval Europe after the fall of the Roman Empire through the Gothic Period and the beginnings of the Renaissance. A study of the artistic and architectural traditions borrowed from antiquity and the new developments of the periods discussed will be conducted to develop an understanding of the broader context of the migrating peoples and the Christian traditions spreading throughout the regions as Modern Europe is born.  Prerequisite: ENG 101 and (ART 102 or ART 104)

Renaissance and Baroque Art: The Age of Discovery  ART 292 3 crs. 3 hrs.  This course provides an overview of the Fifteenth through Seventeenth Centuries in Europe, with a focus on the discoveries made in the arts and beyond. In an age when patrons and artists considered themselves intellectuals and explorers, this course will examine individual artists, artworks, materials and techniques, and the ever-growing need to “create” something new. Students will conduct their own exploration of the contextual topics surrounding the arts, the lasting influences, and the influences on and by other cultures transmitted through trade and travel.  Prerequisite: ENG 101 and (ART 102 or ART 104)

Ancient Greece and Rome: Classical Art  ART 293 3 crs. 3 hrs.  This course is designed as a survey of the Greco-Roman traditions in the art and architecture of ancient Greece and Rome. Major works, themes, techniques and artists will be presented to better understand the influences on the arts from previous periods and diverse cultures, as well as the continuing influences of antiquity through the ages. The course will also focus on the historical and cultural issues that provide context for the works of art including philosophical, social, religious, political and economic influences.  Prerequisite: ART 101 and (ART 102 or ART 104)

African-American Art  ART 295 3 crs. 3 hrs.  This course examines the role of African-American artists from the Antebellum period to Contemporary Art. It focuses on historical, social, and political contexts, meanings, and will promote a general understanding of the development of art forms and styles from different periods. Although emphasis is placed on visual traditions of sculpture, painting, performance art, photography, video, media technologies, focus will also be placed on “folk art” traditions. A visit to a museum is required.  Prerequisite: ENG 101 and (ART 102 or ART 104)

Digital-Imaging Post Production  ART 303 3 crs. 4 hrs.  This course covers advanced digital image retouching and editing. Students learn digital editing and retouching skills at a professional level. Issues relating to these skills include color calibration and retouching ethics. Through introduction to new material, research, and the
Production of new images, students will expand their technical and visual skills relating to retouching photographic images. 

Print Process and Portfolio Lab ART 315
3 crs. 2 hrs.
This course covers two topics essential for students who intend on pursuing careers in graphic design: prepress production and portfolio design. Students will learn the art and science of preparing and optimizing graphic files for print on commercial offset lithography printers as well as on personal inkjet printers. This course will also guide students through the creation of a cohesive design portfolio, showcasing their creative and technical skills.

Commercial Photography and Career Strategies ART 335
3 crs. 3 hrs.
This course gives students an understanding of the realities of running a small photography business. Students are introduced to building a commercial photography portfolio and how to promote it. The basics of record keeping, budgeting, career and business planning, estimating, billing, contracts and writing standard business forms are also introduced during this course. Communicating through email and social media outlets is emphasized. Students also learn various options and aspects of working in the editorial and in the fine art world and how to strive to be employed as a photographer.

Commercial Photography and Career Strategies ART 335
3 crs. 3 hrs.
This course gives students an understanding of the realities of running a small photography business. Students are introduced to building a commercial photography portfolio and how to promote it. The basics of record keeping, budgeting, career and business planning, estimating, billing, contracts and writing standard business forms are also introduced during this course. Communicating through email and social media outlets is emphasized. Students also learn various options and aspects of working in the editorial and in the fine art world and how to strive to be employed as a photographer.

Photography II ART 233
3 crs. 2 hrs. 2 lab hrs.
This introductory course covers digital photography printing including basic retouching and editing. Students will learn the importance of digital workflow, and how it pertains to professional post-production scenarios. Beginning with downloading images from cameras or capture devices, students will learn to use appropriate naming and filing conventions, meta data, basic editing and retouching images, archiving, and digital printing. Through introduction to new material, research, and printing new images, students will expand their technical and visual skills beyond the initial image.

Drawing Studio III ART 366
3 crs. 3 hrs.
This course develops advanced drawing skills in representing the figure within an environment. An important component includes learning to use a variety of drawing techniques, both historical and contemporary. Individual projects are pursued by students and specific techniques are introduced as they relate to the work being created. Class review of ongoing work and projects by students will constitute the core of the class in addition to individual tutorials. A sketchbook is kept, for homework assignments. A research paper and presentation are done at mid-semester.

Life Drawing Studio II ART 369
3 crs. 3 hrs.
This advanced life drawing course is a continuation of ART 168. It continues the investigation of drawing the human figure with increased technical ability, exploring historical techniques and the use of more complex poses. This course will satisfy drawing requirements for transfer within the CUNY system, as well as professional art schools.

Painting Studio III ART 374
3 crs. 3 hrs.
Painting III, ART 374, continues the development of technical, analytical and perceptual skills necessary to create a painting. This course enhances the development of an individualized approach to image making and the development of the student as an artist. This class emphasizes independent projects that give the student a chance to develop a body of personal work, and emphasizes the development of a portfolio. ART 374 is designed to transfer within the CUNY system, as well as professional art schools.

Sculpture Studio III ART 383
3 crs. 3 hrs.
This advanced sculpture course is an extension of ART 283. Through in-depth projects, students refine their skills in sculpture, with a focus on larger scale and installations using contemporary materials and techniques. In addition, students learn the use of specialized tools, and practice visual and verbal analysis through writing and critiques. This course is intended to satisfy advanced sculpture requirements for transfer within CUNY as well as to professional art programs.

Final Project Lab ART 420
3 crs. 4 hrs.
This capstone course for all Studio Art Majors covers a range of topics relating to the business of being an artist and pursuing a career in the arts. Students will develop their portfolios for transfer to a senior college or to begin their professional careers. During the semester, students will create a professional online presence, write an artist statement, generate a five-year plan for their work, research writing strategies for grants and residencies, prepare and document their work to enter shows. In addition, students will explore a range of options in their career paths through guest lectures, gallery and museum visits. Students will prepare, select and hang their work in the annual student show.

African Art (same as AFN 101) ART 801
2 crs. 2 hrs.
This is a survey course examining the function and form of African art in its past and present relationships to African cultures. The influence of African art forms on Western art is studied. Lectures, slides and visits to museums and galleries are included.

African-American Art ART 802
2 crs. 2 hrs.
The aesthetic, cultural, and social contexts of African-American art are studied. Comparative studies of art created by Haitian and African-American artists are included in the course.

Fundamentals of Music MUS 101
1 cr. 2 hrs.
This is a preparatory course in rudiments designed for the layman. A study of notation, rhythm, scales and keys, intervals, and chord structures.

Principles of Music MUS 102
3 crs. 3 hrs.
Principles of Music is an introductory course in which musical elements, structures and styles are studied. Development of analytic abilities will be emphasized through consideration of major musical works by diverse composers from different eras of the Western Classical tradition. A wide variety of types and forms of music literature will be studied, including symphony, concerto, song, opera, etc. Students will attend a live musical performance. Credit will be granted for MUS 102 or MUS 103, but not both.

Music and Western Society MUS 103
3 crs. 3 hrs.
MUS 103 is an introduction to the music of European tradition and its relation to and influence on contemporary culture through a variety of listening experiences. The course will emphasize the place of music in society as well as influences by and on other cultures. Selected musical works, most dating from the 16th century through the present, are the subject of exploration. Credit will be granted for MUS 102 or MUS 103, but not both.

The World of Jazz MUS 104
3 crs. 3 hrs.
This introductory survey explores the musical and social histories of jazz from its American origins to its global present. Its focus encompasses jazz’s development in the United States, its impact around the world, and the contributions of musicians who have shaped its creative and cultural significance. Requires no prior knowledge of music, students will develop the analytical listening skills required to identify both the music’s defining stylistic features and its leading figures. In addition to the music itself
this course will examine the meanings jazz has acquired in its diverse geographical, social and historical contexts. Credit will be granted for MUS 109 or MUS 104 but not both

Exploring Music MUS 105
3 crs. 2 hrs.
This course will introduce beginning keyboard skills, reading and writing music in western musical notation, lead sheet symbols, basic music theory, and simple musical composition. Elements of rhythm and rhythmic notation will be approached through popular musical examples.

Worldbeats! Global Music Introduction MUS 106
2 crs. 2 hrs.
The course is designed to encourage critical listening by bringing the student into direct contact with music of Western and non-Western cultures. It stresses the elements of music: rhythm, melody, harmony, texture, tone, and color by studying and analyzing their juxtapositions, and their total effect on musical forms and styles of the world. Musical illustrations are analyzed not only in musical terms but in relation to important historical, geographical, and ethnological factors.

Introduction to World Music MUS 107
3 crs. 3 hrs.
This introductory survey course explores the world’s music cultures with emphases on traditional and popular music styles. Ranging from local ritual musical practices to global commercial hip hop, this course considers the world’s music in relation to broad historical, cultural, and social contexts. Requiring no prior knowledge of music, students will become familiar with basic principles of musical organization as well as the culturally specific ways in which people engage them. Through guided listening, assigned readings, critical writings, and focused discussion this course will cultivate an understanding of and appreciation for the world’s musical and cultural diversity by examining the important link between music and the society that produces it.

Introduction to African-American Music MUS 108
2 crs. 2 hrs.
This course covers the history of Black music in the United States from slavery to present, including a thorough investigation of African backgrounds of the music of slavery, the blues, jazz, gospel, rhythm and blues, as well as Black music in Western art forms. Extensive listening and attendance at live musical performances are required.

Bebop to Hip-Hop MUS 109
3 crs. 3 hrs.
MUS 109 explores the music of Bebop and Hip-Hop, their social relevance, global influence and popularity, along with societal interpretation and criticism. From Louis Armstrong, Dizzy Gillespie and Charlie Parker to Mos Def, Tupac and Jay-Z and beyond, MUS 109 demonstrates that while each of these genres of music is distinct, possessing its own conventions, performance practices, and formal qualities, they are also grounded in similar techniques and conceptual frameworks identified with African American musical traditions. Credit will be granted for only MUS 109, or MUS 122, or MUS 104.

Music I: Introduction to Music MUS 110
2 crs. 2 hrs.
The ability to listen to music intelligently and to recognize specific styles, forms, and idioms are developed in this course. Consideration is given to musical aspects of the historical eras from the early Christian period to the present. Students are required to attend concerts and do assigned reading and listening.

Music Theory I: Fundamentals of Music Theory MUS 112
2 crs. 3 hrs.
This course is an introduction to essentials in four voice part-writing, voice leading, composing a soprano line to a given bass, and harmonizing a given soprano in 17th and 18th century chorale style. There will be some analysis of Bach chorales.

Musicianship I and II MUS 113, MUS 213
1 cr. 2 hrs.
Sight singing, ear training, rhythmic reading, and dictation are coordinated with MUS 112 and MUS 114.

Music Business MUS 114
3 crs. 3 hrs.
MUS 114 is an introduction to the modern-day music industry. The course explores aspects of the music business including: branding, marketing and publicity, social networks, music licensing, publishing, copyright, royalties, and performing rights associations, philanthropic organizations and grant writing, electronic press kit creation, crowd funding, the online subscription models, music in film, TV and game, and job searching strategies, all as it relates to current industry trends.

Music and Movement in Learning (same as EDU 204) MUS 116
3 crs. 3 hrs.
This course is a hands-on approach to incorporating music and movement into the classroom. The course provides an overview of current and traditional music methodologies, philosophies, and techniques for early childhood and K-12 education. The class will study vocal, instrumental, and movement based methods such as Dalcroze, Kodaly, Orff, Suzuki, and Technology-Based Music Instruction in the classroom. The course will emphasize a basic understanding of musical principles, as well as how to write and implement music and movement lesson plans that meet national and New York state educational guidelines.

Music Theory I MUS 117
3 crs. 3 hrs.
This course is the first level of music theory courses that focuses on the analysis of fundamental musical materials and stylistic comprehension of music, primarily of the 18th century.

Prerequisite: MUS 105 or MUS 123

Aural Skills I MUS 118
2 cr. 3 hrs.
This course is the first level of aural skills. Students will develop skills in sight-singing, as well as rhythmic, harmonic, and melodic dictation.

Prerequisite: MUS 105 or MUS 123

Keyboard Workshop I MUS 119
1 cr. 2 hrs.
This course is the first level of keyboard workshop. Students will develop piano keyboard skills through technical exercises, harmonization exercises, scales and arpeggios, harmonic progressions, sight-reading, transcription, improvisation, score-reading, accompanying, and keyboard ensemble work.

Prerequisite: MUS 105 or MUS 123

Woodwind Class MUS 120
1 cr. 2 hrs.
This course is open to all students and designed to teach beginning students how to play a woodwind instrument. Instruction is given for flutes, clarinets, saxophones, and other instruments.

Methods: Woodwinds MUS 121
1 cr. 2 hrs.
This course introduces music students to the basic principles of playing woodwind instruments and prepares prospective teachers to work with beginning woodwind players. Students will develop beginning level performance proficiency and acquire pedagogical understanding of advanced techniques. Attention is given to methods of group instruction used in K-12.

The World of Hip-Hop MUS 122
3 crs. 3 hrs.
MUS 122 traces the creation and evolution of Hip-Hop Culture from the 1970s to the present. The transition of rap music from counter-culture, to sub-culture, to mainstream culture will be explored. Hip-Hop cultural elements including, but not limited to, graffiti, breakdancing (rockin’ and pop-lockin’), fashion, sexism/misogyny, racism, immigration, poverty, politics, urban planning, media, gender, and American foreign relations will inform the exploration of the world of Hip-Hop. Credit will be granted for MUS 109 or MUS 122 but not both.

Digital Music and Recording MUS 123
3 crs. 3 hrs.
This course will introduce students to the basic concepts of music production and skills needed in a home-studio environment. Students will learn how to set up a basic home recording studio, utilize Digital Audio Workstations (DAWs), program beats, create songs using software synthesizers and loops and record vocals, instruments and sounds with microphones.

Prerequisite: Entrance is by placement exam or successful completion of MUS 109 or by permission of the department

Music Notation Software MUS 124
2 crs. 2 hrs.
This course will introduce the basics of using computer software for music notation, including note and symbol input with
MUSIC AND ART

Course Descriptions

Percussion
MUS 135
1 cr. 2 hrs.
This course is open to all students and designed to acquaint beginning students with the world of percussion. Students will gain basic music reading skills as well as basic percussion techniques on a variety of percussion instruments.
Methods: Percussion
MUS 136
1 cr. 3 hrs.
This course introduces music students to the basic principles of playing percussion instruments and prepares prospective teachers to work with beginning percussionists. Students will develop beginning level performance proficiency and acquire pedagogical understanding of advanced techniques. Attention is given to methods of group instruction used in K-12.
Prerequisite: Entrance is by placement exam or successful completion of MUS 105 or by permission of the department

Methods: Upper Strings-
Violin and Viola
MUS 126
1 cr. 3 hrs.
This course introduces music students to the basic principles of violin and viola playing and prepares prospective teachers to work with beginning string players. Students will develop beginning level performance proficiency, and acquire pedagogical understanding of advanced techniques. Attention is given to methods of group instruction used in K-12.
Prerequisite: Entrance is by placement exam or successful completion of MUS 105 or by permission of the department

Methods: Lower Strings-
Cello & String Bass
MUS 127
1 cr. 3 hrs.
This course introduces music students to the basic principles of cello and string bass playing and prepares prospective teachers to work with beginning string players. Students will develop beginning level performance proficiency, and acquire pedagogical understanding of advanced techniques. Attention is given to methods of group instruction used in K-12.
Prerequisite: Entrance is by placement exam or successful completion of MUS 105 or by permission of the department

Women in Music
MUS 129
3 crs. 3 hrs.
MUS 129 is an exploration of the different roles of women have played in the creation and dissemination of music both in the present and the past. The course will focus on their influence by and on the traditions and cultures, among others, of Europe, the Americas, Africa, the Middle East and East Asia.

Brasswind Class
MUS 130
1 cr. 2 hrs.
This course is open to all students and designed to teach beginning students how to play a brass instrument. The class introduces basic brass technique, reading notation and transposition and simple repertoire. The first half of the class will focus on trumpet; horn and lower brass will be introduced in the second half.
Methods: Brass
MUS 131
1 cr. 3 hrs.
This course introduces music students to the basic principles of playing brass instruments and prepares prospective teachers to work with beginning brass players. Students will develop beginning level performance proficiency and acquire pedagogical understanding of advanced techniques. Attention is given to methods of group instruction used in K-12.
Prerequisite: Entrance is by placement exam or successful completion of MUS 105 or by permission of the department

Jazz and Popular Music Theory I
MUS 137
3 crs. 3 hrs.
The first level of jazz and popular music. MUS 137 introduces the harmonic and voice-leading syntax of Western popular music. Although emphasis is given to North American and European popular music genres from the 1950s to the present, a wide variety of global practices will be considered, as well as the application of theoretical knowledge to composing and analysis.
Prerequisite: MUS 117 or departmental approval

Jazz and Popular Music Aural Skills I
MUS 138
3 cr. 3 hrs.
The first level of jazz and popular music aural skills, MUS 138 introduces the syntax of Western popular music through rhythm, singing, sight-singing, and dictation exercises. Although emphasis is given to North American and European popular music genres from the 1950s to the present, a wide variety of global practices will be considered, as well as the application of theoretical knowledge to practical musicianship skills.
Prerequisite: MUS 118 or departmental approval

Piano Class I
MUS 140
1 cr. 2 hrs.
Designed for study of the piano as secondary instrument, the course includes acquaintance with the keyboard, scales, chords, sight reading, transposition and elementary piano repertoire.

Piano Class II
MUS 150
1 cr. 2 hrs.
Designed for study of the piano as secondary instrument, the course includes acquaintance with the keyboard, scales, chords, sight reading, transposition and elementary piano repertoire.

Voice Class I
MUS 160
1 cr. 2 hrs.
This course is open to all students and first level of a two-semester sequence in solo singing. Students will learn basic principles of voice production including breathing and singing diction. Elementary songs, poise, posture, and stage presence are addressed.

College Chorus I
MUS 165
1 cr. 3 hrs.
This course is open to all students and the first level of a four-semester sequence in choral singing. Students will learn, rehearse and perform standard choral literature. Diverse works are explored, from the great works of the past to the present day. Students are required to participate in all performances. Ensembles perform at least one concert per semester.

College Chorus II
MUS 166
1 cr. 3 hrs.
This course is open to all students and the second level of a four-semester sequence in choral singing. Students will learn, rehearse and perform standard choral literature. Diverse works are explored, from the great works of the past to the present day. Students are required to participate in all performances. Ensembles perform at least one concert per semester.

College Chorus III
MUS 167
1 cr. 3 hrs.
This course is open to all students and the third level of a four-semester sequence in choral singing. Students will learn, rehearse and perform standard choral literature. Diverse works are explored, from the great works of the past to the present day. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

College Chorus IV
MUS 168
1 cr. 3 hrs.
This course is open to all students and the fourth level of a four-semester sequence in choral singing. Students will learn, rehearse and perform standard choral literature. Diverse works are explored, from the great works of the past to the present day. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Voice Class II
MUS 170
1 cr. 2 hrs.
This course is open to all students and the second level of a two-semester sequence in solo singing. Students will learn basic principles of voice production including breathing and singing diction. Elementary songs, poise, posture, and stage presence are addressed.

Prerequisite: MUS 160
Guitar Class I  
MUS 180  
1 cr. 2 hrs.  
This course is open to all students and the first level of a two-semester sequence in guitar playing. Students will learn guitar repertoire in a variety of styles, including modern chordal accompaniments for simple popular, rock and jazz songs. Fundamentals such as tuning the instrument, open position chords, technique (finger style and plectrum), and theory and notation (music notation and tabulature), alternate tunings, and basic aural recognition (scales and chords) will also be covered.

Methods: Guitar  
MUS 181  
1 cr. 3 hrs.  
This course introduces music students to the basic principles of guitar playing, and prepares prospective teachers to work with beginning guitar players. Students will develop beginning level performance proficiency, and acquire pedagogical understanding of advanced techniques. Attention is given to methods of group instruction used in K-12.

Prerequisite: MUS 180

16th Century Counterpoint  
MUS 207  
1 cr. 2 hrs.  
The study 16th Century Style Species Counterpoint. This is a class in strict composition based on the theoretical work of Johann Joseph Fux. Elements of 16th Century counterpoint and its counterpart in 18th century music theory will be introduced through composition and analysis. Particular attention will be given to the works of Palestrina, Lassus, and Victoria as models of composition.

Prerequisite: MUS 105 or Departmental Permission

Music Theory II: Elementary Harmony  
MUS 212  
2 crs. 3 hrs.  
This is a course in part-writing, using triads and diatonic seventh chords, with inversions and non-harmonic tones. The course includes study of short musical forms, analysis and composition of short examples.

Prerequisite: MUS 112

Music Theory II  
MUS 217  
3 crs. 3 hrs.  
This course is the second level of music theory courses that focuses on the analysis of fundamental musical materials and stylistic comprehension of music, primarily of the 18th century.

Prerequisite: Entrance is by placement exam, or successful completion of MUS 117 with grade of “C” or higher, or by permission of the department

Aural Skills II  
MUS 218  
2 crs. 3 hrs.  
This course is the second level of aural skills. Students will develop skills in sight-singing as well as rhythmic, harmonic, and melodic dictation.

Prerequisite: Entrance is by placement exam, or successful completion of MUS 118 with grade of “C” or higher, or by permission of the department

Keyboard Workshop II  
MUS 219  
1 cr. 2 hrs.  
This course is the second level of keyboard workshop. Students will develop piano keyboard skills through technical exercises, harmonization exercises, scales and arpeggios, harmonic progressions, sight-reading, transposition, improvisation, score-reading, accompanying, and keyboard ensemble work.

Prerequisite: Entrance is by placement exam, or successful completion of MUS 119 with grade of “C” or higher, or by permission of the department

Music in World Culture  
MUS 220  
2 crs. 2 hrs.  
The course is designed to encourage critical listening by bringing the student into direct contact with music of Western and non-Western cultures. It stresses the elements of music-rhythm, melody, harmony, texture, tone, color-by studying and analyzing their juxtapositions, and their total effect on musical forms and styles of the world. Musical illustrations are analyzed not only in musical terms but in relation to important historical, geographical and ethnological factors.

Musical Theatre: Acting the Song. Level I (same as THE 222)  
MUS 222  
3 crs. 3 hrs.  
This course is the first level of a two-semester sequence in musical theatre singing performance skills. Students will be introduced to acting through song, correct vocal techniques and sound production. The interpretation of lyrics as well as the understanding of character, time period and musical style will be emphasized.

Prerequisite: THE 210 and MUS 170, or permission of the instructor and admission is by audition held in Music and Art Department

Introduction to Digital Music  
MUS 225  
3 crs. 4 hrs.  
This course will introduce students to the basics of using a computer for music: musical notation technology, MIDI technology, digital audio technology and recording studio techniques.

Prerequisite: MUS 105 or instructor’s approval

African-American Music  
MUS 230  
2 crs. 2 hrs.  
This course covers the history of Black music in the United States from slavery to present, including a thorough investigation of African backgrounds of the music of slavery, the blues, jazz, gospel, rhythm and blues, as well as Black music in Western art forms. Extensive listening and attendance at live musical performances are required.

Basics of Digital Music Production  
MUS 235  
1 cr. 2 hrs.  
This course will introduce students to the basics of recording and editing with computer software and to software plugins and synthesizers. Students will record performances, learn to edit and enhance recorded sounds, create new sounds, and create soundscapes.

Prerequisite: MUS 100, placement exam or departmental permission

Jazz and Popular Music Theory II  
MUS 237  
3 crs. 3 hrs.  
The second level of jazz and popular music theory, MUS 237 continues the harmonic and voice-leading syntax of Western popular music. Although emphasis is given to North American and European popular music genres from the 1950s to the present, a wide variety of global practices will be considered, as well as the application of theoretical knowledge to composing and analysis.

Prerequisite: MUS 137 or departmental approval

Jazz and Popular Music Aural Skills II  
MUS 238  
3 cr. 3 hrs.  
The second level of jazz and popular music aural skills, MUS 238 continues the exploration of Western popular music through rhythm, singing, sight-singing, and dictation exercises. Although emphasis is given to North American and European popular music genres from the 1950s to the present, a wide variety of global practices will be considered, as well as the application of theoretical knowledge to practical musicianship skills.

Prerequisite: MUS 238 or departmental approval

Piano Class III and IV  
MUS 240, MUS 250  
1 cr. 2 hrs.  
Continuation of MUS 140 and MUS 150.

Concert Choir I  
MUS 265  
1 cr. 3 hrs.  
This course is the first level of a four-semester sequence in choral performance skills. Students will study and perform repertoire from the Renaissance to the present day. Accompanied and a cappella compositions will be studied with an emphasis on proper blend, vowel placement, clear diction and adherence to healthy vocal habits. Students are required to participate in all performances. Ensembles perform at least one concert per semester.

Prerequisite: Permission of the department and admission is by audition

Concert Choir II  
MUS 266  
1 cr. 3 hrs.  
This course is the second level of a four-semester sequence in choral performance skills. Students will study and perform repertoire from the Renaissance to the present day. Accompanied and a cappella compositions will be studied with an emphasis on proper blend, vowel placement, clear diction and adherence to healthy vocal habits. Students are required to participate in all performances. Ensembles perform at least one concert per semester.

Prerequisite: MUS 265
MUSIC AND ART

Course Descriptions

Concert Choir III  
MUS 267  
1 cr. 3 hrs.

This course is the third level of a four-semester sequence in choral performance skills. Students will study and perform repertoire from the Renaissance to the present day. Accompanied and a cappella compositions will be studied with an emphasis on proper blend, vowel placement, clear diction and adherence to healthy vocal habits. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: MUS 266

Concert Choir IV  
MUS 268  
1 cr. 3 hrs.

This course is the fourth level of a four-semester sequence in choral performance skills. Students will study and perform repertoire from the Renaissance to the present day. Accompanied and a cappella compositions will be studied with an emphasis on proper blend, vowel placement, clear diction and adherence to healthy vocal habits. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: Permission of the department and admission is by audition

Jazz Performance Workshop I  
MUS 301  
1 cr. 3 hrs.

This course is the first level of a four-semester sequence in jazz performance skills. Students will focus on the study of improvisational concepts, chord progressions, interpretation, conception, phrasing, harmonic awareness, dynamic sensitivity, rhythmic and melodic development, and phrase construction. Students are required to participate in performances. Ensembles perform at least one concert per semester.

Prerequisite: MUS 301

Jazz Performance Workshop II  
MUS 302  
1 cr. 3 hrs.

This course is the second level of a four-semester sequence in jazz performance skills. Students will focus on the study of improvisational concepts, chord progressions, interpretation, conception, phrasing, harmonic awareness, dynamic sensitivity, rhythmic and melodic development, and phrase construction. Students are required to participate in performances. Ensembles perform at least one concert per semester.

Prerequisite: MUS 302

Jazz Performance Workshop III  
MUS 303  
1 cr. 3 hrs.

This course is the third level of a four-semester sequence in jazz performance skills. Students will focus on the study of improvisational concepts, chord progressions, interpretation, conception, phrasing, harmonic awareness, dynamic sensitivity, rhythmic and melodic development, and phrase construction. Students are required to participate in performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: MUS 302

Jazz Performance Workshop IV  
MUS 304  
1 cr. 3 hrs.

This course is the fourth level of a four-semester sequence in jazz performance skills. Students will focus on the study of improvisational concepts, chord progressions, interpretation, conception, phrasing, harmonic awareness, dynamic sensitivity, rhythmic and melodic development, and phrase construction. Students are required to participate in performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: MUS 303

Orchestral Performance I  
MUS 305  
1 cr. 3 hrs.

The course includes the study, preparation, and performance of representative works of the standard, contemporary, and musical theater orchestral literature.

Prerequisite: Permission of the department and admission is by audition

Orchestral Performance II  
MUS 306  
1 cr. 3 hrs.

The course includes the study, preparation, and performance of representative works of the standard, contemporary, and musical theater orchestral literature.

Orchestral Performance III  
MUS 307  
1 cr. 3 hrs.

Continuation of MUS 305 and MUS 306.

Orchestral Performance IV  
MUS 308  
1 cr. 3 hrs.

Continuation of MUS 305 and MUS 306.

Music Theory II : Advanced Harmony  
MUS 312  
2 crs. 3 hrs.

Chromatic harmony, including altered chords, secondary dominant, the dominant ninth and dominant thirteenth, modulation, analysis and short original compositions are studied.

Prerequisite: Permission of the department and admission is by audition

Music Theory III  
MUS 317  
3 crs. 3 hrs.

This course is the third level of music theory courses that focuses on the analysis of fundamental musical materials and stylistic comprehension of music, primarily of the 18th century.

Prerequisite: Entrance is by placement exam, or successful completion of MUS 316 with grade of “C” or higher, or by permission of the department

Musicianship III, Musicianship IV  
MUS 313, MUS 413  
1 cr. 2 hrs.

Continuation of MUS 113 and MUS 213.

Music Theory Workshop I  
MUS 314  
2 crs. 3 hrs.

Students will develop skills in sight-singing as well as rhythmic, harmonic, and melodic dictation.

Prerequisite: MUS 312

Arranging I  
MUS 315  
2 crs. 2 hrs.

Beginning with fundamentals and continuing through large ensemble arranging, the course includes composing for various ensemble combinations. Contemporary techniques such as those of Stockhausen, Ornette Coleman, Penderecki, Persichetti, etc., are explored.

Prerequisite: MUS 212 or departmental approval

Arranging II  
MUS 352  
2 crs. 2 hrs.

Continuation of MUS 351.

Music Theory IV: Advanced Harmony  
MUS 412  
2 crs. 3 hrs.

Chromatic harmony, including altered chords, secondary dominant, the dominant ninth and dominant thirteenth, modulation, analysis and short original compositions are studied.

Prerequisite: MUS 312

Aural Skills IV  
MUS 418  
2 crs. 3 hrs.

This course is the fourth level in aural skills. Students will develop skills in sight-singing as well as rhythmic, harmonic, and melodic dictation.

Prerequisite: Entrance is by placement exam, or successful completion of MUS 318 with grade of “C” or higher, or by permission of the department

Keyboard Workshop IV  
MUS 419  
1 cr. 2 hrs.

This course is the fourth level of keyboard workshop. Students will develop piano keyboard skills through technical exercises, harmonization exercises, scales and arpeggios, harmonic progressions, sight-reading, transposition, improvisation, score-reading, accompanying, and keyboard ensemble work.

Prerequisite: Entrance is by placement exam, or successful completion of MUS 319 with grade of “C” or higher, or by permission of the department

Wind Ensemble I  
MUS 501  
1 cr. 3 hrs.

This course is the first level of a four-semester sequence in wind ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary band and wind ensemble literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester.

Prerequisite: Permission of the department and admission is by audition

Wind Ensemble II  
MUS 502  
1 cr. 3 hrs.

This course is the second level of a four-semester sequence in wind ensemble
performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary band and wind ensemble literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: MUS 502

Wind Ensemble IV
MUS 504
1 cr. 3 hrs.

This course is the fourth level of a four-semester sequence in wind ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary band and wind ensemble literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: MUS 503

Instrumental Ensemble I
MUS 510
1 cr. 2 hrs.

The instrumental ensemble is designed to develop the performance capability and technique of students who play a musical instrument. The repertoire is selected for both personal development and for public performances at college functions and concerts.

Prerequisite: MUS 501 or permission of Department

Instrumental Ensemble II
MUS 520
1 cr. 2 hrs.

The instrumental ensemble is designed to develop the performance capability and technique of students who play a musical instrument. The repertoire is selected for both personal development and for public performances at college functions and concerts.

Prerequisite: MUS 501 or permission of Department

Instrumental Ensemble III
MUS 530
1 cr. 2 hrs.

Continuation of MUS 510 and MUS 520.

Instrumental Ensemble IV
MUS 540
1 cr. 2 hrs.

Continuation of MUS 510 and MUS 520.

Brass Ensemble I
MUS 601
1 cr. 3 hrs.

This course is the first level of a four-semester sequence in brass ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary brass ensemble literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester.

Prerequisite: Permission of the Department and admission is by audition

Brass Ensemble II
MUS 602
1 cr. 3 hrs.

This course is the second level of a four-semester sequence in brass ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary brass ensemble literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester.

Prerequisite: Permission of the Department and admission is by audition

Brass Ensemble III
MUS 603
1 cr. 3 hrs.

This course is the third level of a four-semester sequence in brass ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary brass ensemble literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: MUS 602

Brass Ensemble IV
MUS 604
1 cr. 3 hrs.

This course is the fourth level of a four-semester sequence in brass ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary brass ensemble literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.

Prerequisite: MUS 603

Private Instruction
MUS 611–648
1 cr. ½ hr.

Beginning with scales and arpeggios, this is a study of standard repertoire with emphasis on stylistic interpretation. The course will build on the basic principles of technique and performing on one of the string instruments: violin, viola, cello or double bass. Students will develop performance proficiency, and acquire pedagogical understanding of advanced string techniques. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.

Prerequisite: MUS 652

Applied Studies: Strings I
Violin, Viola, Cello & Double Bass
MUS 651
2 crs. 3 hrs.

This course is the first level of a four-semester sequence in string performance skills. The course will build on the basic principles of technique and performing on one of the string instruments: violin, viola, cello or double bass. Students will develop performance proficiency, and acquire pedagogical understanding of advanced string techniques. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.

Prerequisite: Permission of the Department and admission is by audition

Applied Studies: Strings II
Violin, Viola, Cello & Double Bass
MUS 652
2 crs. 3 hrs.

This course is the second level of a four-semester sequence in string performance skills. The course will build on the basic principles of technique and performing on one of the string instruments: violin, viola, cello or double bass. Students will develop performance proficiency, and acquire pedagogical understanding of advanced string techniques. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.

Applied Studies: Strings IV
Violin, Viola, Cello & Double Bass
MUS 654
2 crs. 3 hrs.

This course is the fourth level of a four-semester sequence in string performance skills. The course will build on the basic principles of technique and performing on one of the string instruments: violin, viola, cello or double bass. Students will develop performance proficiency, and acquire pedagogical understanding of advanced string techniques. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.

Applied Studies: Piano I
MUS 656
2 crs. 3 hrs.

This course is the first level of a four-semester sequence in piano performance skills. The course will focus on the technical and artistic development of students through assigned exercises and piano repertoire. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.

Prerequisite: Permission of the Department and admission is by audition
Applied Studies: Piano II  
MUS 657  
2 crs. 3 hrs.  
This course is the second level of a four-semester sequence in piano performance skills. The course will focus on the technical and artistic development of students through assigned exercises and piano repertoire. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.  
Prerequisite: MUS 656  
Corequisite: MUS 165, MUS 166, MUS 167, MUS 168, MUS 265, MUS 266, MUS 267, MUS 268 or departmental permission

Applied Studies: Woodwinds III  
MUS 663  
2 crs. 3 hrs.  
This course is the third level of a four-semester sequence in woodwind performance skills. In this course students will study their woodwind instrument of specialty. Concepts and skills covered in the class include techniques of tone production, technical facility, and a survey of the solo and ensemble repertoire. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.  
Prerequisite: MUS 662  
Corequisite: MUS 501, MUS 502, MUS 503, MUS 504 or departmental permission

Applied Studies: Woodwinds IV  
MUS 664  
2 crs. 3 hrs.  
This course is the fourth level of a four-semester sequence in woodwind performance skills. In this course students will study their woodwind instrument of specialty. Concepts and skills covered in the class include techniques of tone production, technical facility, and a survey of the solo and ensemble repertoire. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.  
Prerequisite: MUS 663  
Corequisite: MUS 501, MUS 502, MUS 503, MUS 504 or departmental permission

Applied Studies: Voice I  
MUS 668  
2 crs. 3 hrs.  
This course is the first level of a four-semester sequence in vocal performance skills. In this course students will study their brass instrument of specialty. Concepts and skills covered include techniques of tone production, technical facility, and a survey of introduction to the solo and ensemble repertoire on the student’s instrument. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.  
Prerequisite: MUS 667  
Corequisite: MUS 501, MUS 502, MUS 503, MUS 504 or departmental permission

Applied Studies: Voice II  
MUS 671  
2 crs. 3 hrs.  
This course is the second level of a four-semester sequence in vocal performance skills. Students will be introduced to basic techniques in vocal production: alignment, breathing, vowels, resonance, and energy. Students will learn one or more pieces in the following languages: English, Italian, German, or French. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.  
Prerequisite: MUS 668  
Corequisite: MUS 501, MUS 502, MUS 503, MUS 504 or departmental permission

Applied Studies: Voice III  
MUS 672  
2 crs. 3 hrs.  
This course is the third level of a four-semester sequence in vocal performance skills. Students will be introduced to basic techniques in vocal production: alignment, breathing, vowels, resonance, and energy. Students will learn one or more pieces in the following languages: English, Italian, German, or French. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.  
Prerequisite: MUS 671  
Corequisite: MUS 165, MUS 166, MUS 167, MUS 168, MUS 265, MUS 266, MUS 267, MUS 268 or departmental permission

Applied Studies: Voice IV  
MUS 673  
2 crs. 3 hrs.  
This course is the fourth level of a four-semester sequence in vocal performance skills. Students will be introduced to basic techniques in vocal production: alignment, breathing, vowels, resonance, and energy. Students will learn one or more pieces in the following languages: English, Italian, German, or French. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.  
Prerequisite: MUS 672  
Corequisite: MUS 165, MUS 166, MUS 167, MUS 168, MUS 265, MUS 266, MUS 267, MUS 268 or departmental permission
Applied Studies: Voice IV MUS 674
2 crs. 3 hrs.
This course is the fourth level of a four-semester sequence in vocal performance skills. Students will be introduced to basic techniques in vocal production: alignment, breathing, vowels, resonance, and energy. Students will learn one or more pieces in the following languages: English, Italian, German, or French. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.
Prerequisite: MUS 673
Corequisite: MUS 165, MUS 166, MUS 167, MUS 168, MUS 265, MUS 266, MUS 267, MUS 268 or departmental permission

Applied Studies: Guitar I MUS 676
2 crs. 3 hrs.
This course is the first level of a four-semester sequence in guitar performance skills. Students will be assigned technical exercises and works to be performed. Music theory, aural skills, sight-reading and musicianship appropriate to the level of practical ability will also be covered. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.
Prerequisite: Permission of the department and admission is by audition
Corequisite: MUS 705, MUS 706, MUS 707, MUS 708 or departmental permission

Applied Studies: Guitar II MUS 677
2 crs. 3 hrs.
This course is the second level of a four-semester sequence in guitar performance skills. Students will be assigned technical exercises and works to be performed. Music theory, aural skills, sight-reading and musicianship appropriate to the level of practical ability will also be covered. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.
Prerequisite: MUS 676
Corequisite: MUS 705, MUS 706, MUS 707, MUS 708 or departmental permission

Applied Studies: Guitar III MUS 678
2 crs. 3 hrs.
This course is the third level of a four-semester sequence in guitar performance skills. Students will be assigned technical exercises and works to be performed. Music theory, aural skills, sight-reading and musicianship appropriate to the level of practical ability will also be covered. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.
Prerequisite: MUS 677
Corequisite: MUS 705, MUS 706, MUS 707, MUS 708 or departmental permission

Applied Studies: Guitar IV MUS 679
2 crs. 3 hrs.
This course is the fourth level of a four-semester sequence in guitar performance skills. Students will be assigned technical exercises and works to be performed. Music theory, aural skills, sight-reading and musicianship appropriate to the level of practical ability will also be covered. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.
Prerequisite: MUS 678
Corequisite: MUS 705, MUS 706, MUS 707, MUS 708 or departmental permission

Applied Studies: Percussion III MUS 683
3 crs. 3 hrs.
This course is the third level of a four-semester sequence in percussion performance skills. Students will be assigned technical exercises and works to be performed on a variety of percussion instruments. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.
Prerequisite: MUS 687
Corequisite: MUS 501, MUS 502, MUS 503, MUS 504 or departmental permission

Applied Studies: Percussion IV MUS 689
2 crs. 3 hrs.
This course is the fourth level of a four-semester sequence in percussion performance skills. Students will be assigned technical exercises and works to be performed on a variety of percussion instruments. Juries and recitals of solo performances will be required. All applied studies for music majors include a weekly one-hour individual lesson and two-hour studio lab.
Prerequisite: MUS 688
Corequisite: MUS 501, MUS 502, MUS 503, MUS 504 or departmental permission

String Ensemble I MUS 701
1 cr. 3 hrs.
This course is the first level of a four-semester sequence in string ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary string orchestra literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester.
Prerequisite: Permission of the department and admission is by audition

String Ensemble II MUS 702
1 cr. 3 hrs.
This course is the second level of a four-semester sequence in string ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary string orchestra literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester.
Prerequisite: MUS 701

String Ensemble III MUS 703
1 cr. 3 hrs.
This course is the third level of a four-semester sequence in string ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary string orchestra literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble.
Prerequisite: MUS 702
String Ensemble IV  
MUS 704  
1 cr. 3 hrs.  
This course is the fourth level of a four-semester sequence in string ensemble performance skills. Students will focus on the study, preparation, and performance of representative works of the standard and contemporary string orchestra literature. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble. 
Prerequisite: MUS 703

Puerto Rican Music  
(same as LAT 141)  
MUS 881  
3 crs. 3 hrs.  
The course will survey the musical genres of Puerto Rico and how each developed within a historical and social context, beginning with the role of music in pre-Colombian, European and African cultures up to the present.

Guitar Ensemble I  
MUS 705  
1 cr. 3 hrs.  
This course is the first level of a four-semester sequence in guitar ensemble performance skills. Students will study and perform repertoire from the Baroque to the present day. The course will focus on active participation in the process of preparing for performance including listening skills, sight-reading, intonation, rhythm, tone, and ensemble precision. Students are required to participate in all performances. Ensembles perform at least one concert per semester. 
Prerequisite: Permission of the department and admission is by audition

Guitar Ensemble II  
MUS 706  
1 cr. 3 hrs.  
This course is the second level of a four-semester sequence in guitar ensemble performance skills. Students will study and perform repertoire from the Baroque to the present day. The course will focus on active participation in the process of preparing for performance including listening skills, sight-reading, intonation, rhythm, tone, and ensemble precision. Students are required to participate in all performances. Ensembles perform at least one concert per semester. 
Prerequisite: MUS 705

Guitar Ensemble III  
MUS 707  
1 cr. 3 hrs.  
This course is the third level of a four-semester sequence in guitar ensemble performance skills. Students will study and perform repertoire from the Baroque to the present day. The course will focus on active participation in the process of preparing for performance including listening skills, sight-reading, intonation, rhythm, tone, and ensemble precision. Students are required to participate in all performances. Ensembles perform at least one concert per semester. Students at this level will be expected to take leadership responsibilities in the ensemble. 
Prerequisite: MUS 706

Guitar Ensemble IV  
MUS 708  
1 cr. 3 hrs.  
This course is the fourth level of a four-semester sequence in guitar ensemble performance skills. Students will study and perform repertoire from the Baroque to the present day. The course will focus on active participation in the process of preparing for performance including listening skills, sight-reading, intonation, rhythm, tone, and ensemble precision. Students are required to participate in all performances. Ensembles perform at least one concert per semester.
The Nursing Department offers a program leading to the Associate of Applied Science (A.A.S.) degree. Students are then eligible to take the New York State Licensure Examination for Registered Nursing (RN). Note: Because of budgetary and Board of Trustees restrictions, only a limited number of highly qualified and motivated students are admitted into the BMCC Nursing Program. The College does not guarantee entry into the Program.

Chairperson: Judy Eng
Professors: Hyacinth Martin
Associate Professors: Sung Gwak
Assistant Professors: Edna Asknes, Anne Bove, Josephine Británico, Audrey Burnett, Melissa Butler, Charity Bynoe, Romeo Cayanan, Monique Cayo, Kathy Cunningham, Marcelle Edinboro, Judy Eng, Paula Lewis, Leasha Lindsay, Catherine Mbewe, Abdur Raheem Nizar-Moses, Laura Penalo, Estelle Press, Christy Solorio
Nursing Academic Advisor: Yvonne Padmore
Senior College Laboratory Technicians: Marianne Mylene Cu, Heather Evans-Tracey
Adjunct Faculty: There are approximately 40 adjuncts in the department.

Nursing Process I: Fundamentals of Patient Care NUR 112
8 crs. 4 hrs. 12 lab hrs.
This course is an introduction to the biopsychosocial, cultural, and spiritual factors that influence the nursing care of any patient/client who needs minimum assistance in the maintenance of health. Concepts and principles are stressed in relation to the application of the nursing process to basic nursing care. Clinical experiences are provided in general hospitals and a nursing home.
Prerequisite: Completion of the Pre-Clinical sequence
Corequisites: BIO 426

Nursing Process II: Obstetrical and Psychiatric Nursing Care NUR 211
8 crs. 4 hrs. 12 lab hrs.
This course is composed of a seven-week Maternal and Newborn Care component and a seven-week psychiatric Mental Health Nursing component. The Maternal and Newborn Care component focuses on the role of the nurse in the care of the child-bearing family during the antepartal, intrapartal, and the postpartal phases of the maternity cycle, as well as the immediate care of the normal newborn and premature infant. The Psychiatric Mental Health Nursing Component introduces the student to basic mental concepts, interventions in crisis and family violence, severe mental health disorders, and substance use disorders highlighting treatment for individuals and families within the community.
Prerequisite: NUR 112, BIO 426
Corequisites: BIO 420, ENG 201

Nursing Process III: Pediatric and Basic Medical-Surgical Nursing Care NUR 313
8 crs. 4 hrs. 12 lab hrs.
This course is composed of a seven-week component in Nursing Care of Children and a seven-week component in Basic Medical-Surgical Nursing Care. The Pediatric Nursing component focuses on the child’s physical, social, and emotional reaction to illness, the nurse’s role in providing support to the child and the members of his/her family during periods of stress. Emphasis is placed upon differences between each phase of growth and development trends in care and measures utilized to promote a healthy childhood and adolescence. The Basic Medical-Surgical Nursing component builds upon previous learned nursing knowledge and techniques already introduced. Major emphasis is placed upon common recurring health problems. Psycho-social nursing techniques are emphasized as they relate to the care of the client with selected health problems.
Prerequisites: NUR 211 and all previous prerequisites
Corequisite: SPE 100

Nursing Process IV: Medical-Surgical Nursing NUR 411
8 crs. 4 hrs. 12 lab hrs.
This course is composed of a semester of medical-surgical nursing. It is a continuation of medical-surgical nursing introduced in NUR 313. There is an emphasis on selected medical-surgical problems and students receive supervision of more advanced medical-surgical nursing skills in the hospital and lab.
Prerequisite: NUR 313 and all previous prerequisites
Corequisite: NUR 415

Professional Issues in Contemporary Nursing Practice NUR 415
2 crs. 2 hrs.
With an emphasis on the process of transitioning from Student Nurse to Registered Professional Nurse, Professional Issues in Contemporary Nursing Practice surveys the issues, challenges and current trends faced by the new Associate Degree Nurse as an individual practitioner, and as a member of the nursing profession. This course encourages students to think critically about the nursing profession and career opportunities, historical and theoretical nursing frameworks, the legal and ethical aspects of nursing, cultural and social issues, standards of nursing practice, delegation and supervision, communication and inter-professional collaboration, technology in the clinical setting, evidence based practice and quality improvement.
Prerequisite: NUR 411, NUR 211 and NUR 313
Corequisite: NUR 411
Restricted to students registered in NUR 411 (seniors).
Note: Nursing courses are sequential; Clinical Nursing cannot be completed in less than two (2) years. All students are required to take the Kaplan Specialty Exam at the end of each semester. The fee is paid by the student.
Fourth semester students are also required to take the Kaplan Comprehensive Exam at the end of the semester. The fee is paid by the student. Failure to take the Kaplan Exam as scheduled will result in a grade of “Incomplete” (INC).
Science
Room N-699, Telephone: (212) 220-1305
science@bmcc.cuny.edu

The courses offered by the Science Department are designed to meet the needs of students with specific interests in science and career goals. This field. The courses introduce students to the study of fundamental scientific laws and theories and provide knowledge, basic skills and appreciation of science as a human enterprise.

Programs offered by the Science Department include: Biotechnology Science, Engineering Science, Science for Forensics and Science for Health Professions. All programs lead to the Associate in Science (A.S.) degree.

Chairperson: Joel Hernandez
Deputy Chairpersons: Carlos Alva, Lauren Goodwyn, Rafael Niyazov

Associate Professors: Miguel Castro Nunes Fiolhais, Patricia DeLeon, Ozgur Ecevit, Jose Fernandez Romero, Yasemin Gurcan, Friedrich Hoffman, David Krauss, Levent Kurt, Catarina Mata, Quinn Minn, Peter Nguyen, Rafael Niyazov, Christine Prioro, Shanti Rywkin, Kibrewesen Tesfagorgis, Daniel Torres Rangel, Shana Tribiano, Shalva Tsiklauri, Nanette Van Loon, Sumeyra Yumak

Instructors: Rami Alsaber, Lamiaa Seyam

Lecturers: Katarzyna Chung, Manita Pavel

Senior College Laboratory Technicians: Faisal Adem, Carol Gambino, Chiu Hong Lee, Christopher Salami, Christopher Thompson

College Laboratory Technicians: Edgard Delgado, Apollo Gazzali, Senahid Hilliovic, Barsys Korzun, Carmen Rivera

Adjunct Faculty: There are approximately 90 adjuncts in the department.

ASTRONOMY

Astronomy: General Theory
AST 108
3 crs. 3 hrs.
This course is an introductory survey course of topics in astronomical theory, especially for students who are not science-oriented. A selected number of basic topics in astronomy are carefully examined and interpreted. The relevance of the scientist and his/her work to the lives of non-scientists is continually examined. Corequisite: AST 109

Astronomy: General Observations
AST 109
3 crs. 3 hrs. 2 lab hrs.
This course serves as an observational introduction to astronomy, especially for students who are not science oriented. A selected number of basic topics in astronomy are carefully examined and subjected to observational verification. The relevance of the scientist and his/her work to the lives of non-scientists is continually examined. Corequisite: AST 109

Astronomy: General Astro
AST 110
4 crs. 3 hrs. 2 lab hrs.
This course introduces students to the world beyond the earth. The methods of astronomy and our knowledge of the structure of the universe are presented as an ongoing human endeavor that has helped shape modern man as he/she takes his/her first steps into space.

Astronomy: Observations and Models
AST 111
4 crs. 2 hrs. 3 lab hrs.
This course will focus on how astronomers have made observations, and used those observations to construct models of our universe. Students will collect their own observations and use them to test models of our universe.

BIOLGY

General Biology Theory
BIO 108
3 crs. 3 hrs.
General Biology presents an overview of many important topics in the natural sciences today and provides relevant background material from the physical sciences. It traces life from its beginning (cells) to the development of multi-cellular organisms. It covers topics such as evolution, the cell, macromolecules, energy relationships, inheritance, molecular genetics, biotechnology, and body systems. Corequisite: BIO 109

General Biology
BIO 109
3 crs. 1 hr. 2 lab hrs.
General Biology presents an overview of many important topics in the natural sciences today and provides relevant background material from the physical sciences. It traces life from its beginning (cells) to the development of multi-cellular organisms. It covers topics such as taxonomy, the cell, macromolecules, photosynthesis, inheritance, molecular genetics, and body systems. This class includes a 1 hour lecture and a 2 hour lab session. The lecture hour will be an expansion of the lecture content covered in the co-requisite class BIO 108 - information needed to carry out experiments in the 2 hour hands-on laboratory experience. Corequisite: BIO 108

General Biology
BIO 110
4 crs. 5 hrs. 2 lab hrs.
Basic cellular structure, tissue organization, physiological process, reproduction, and genetics are studied. Special attention is given to selected zoological specimens with particular emphasis upon man.

Human Biology
BIO 111
4 crs. 3 hrs. 2 lab hrs.
Introduction to the structure and function of the human body with emphasis on both the physiological mechanisms in health and disease, as well as concepts and current issues in human biology. Topics include: the molecules of life, cells, tissues, and organ system homeostasis; the skeleton, muscles, the heart, blood, skin, the sensory mechanisms of the eye, ear, taste, touch, and perception; nervous, endocrine, respiratory systems, the brain, genetics, and immune system, infectious diseases, cancer and nutrition.

Biology I
BIO 210
4 crs. 3 hrs. 3 lab hrs.
This two-semester course acquaints students with the basic properties of living systems: metabolism, growth, responsiveness and reproduction at the cellular and organism levels as illustrated by assorted plants and animals. Two terms required. Corequisite for BIO 210 is ENG 101 and any 100 level math or higher excluding MAT 150.5 and MAT 161.5

Biology II
BIO 220
4 crs. 3 hrs. 3 lab hrs.
This two-semester course acquaints students with the basic properties of living systems: metabolism, growth, responsiveness and reproduction at the cellular and organism levels as illustrated by assorted plants and animals. Two terms required.

Fundamentals of Microbiology
BIO 230
4 crs. 6 hrs.
BIO 230 is a general Microbiology that teaches students about microorganisms’ evolution, structure, metabolism and genetics. The course also covers the essentials of microbial ecology, the interactions of microorganisms with other living organisms as well as how microorganisms can be used in different industries. The laboratory section will introduce students to several techniques for isolation, culture, differentiation and identification of microorganisms. Also, students will be exposed to current approaches to analyze DNA and proteins. Prerequisite: BIO 220 and CHE 201

Genetics
BIO 240
4 crs. 6 hrs.
Genetics is designed as a one-semester course covering the fundamental concepts of classical, molecular, and human genetics. The student gains a background that facilitates a greater understanding of recent advances in molecular biology and human inheritance. Prerequisite: BIO 220
Corequisite: CHE 202 or 220

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
### Cell Biology (BIO 260)

**Course Description:**

The goal of this course is to provide students with a detailed understanding of the molecular mechanisms underlying cellular processes introduced in BIO 210/220—the structure, function and specializations of the cell. This will be accomplished through a combination of lecture and laboratory sessions providing both theory and application. The course will include study of subcellular structure and function, gene expression, protein activity, cell regulation and cell-to-cell communication.

**Prerequisite:** BIO 220 and CHE 202

**Corequisite:** CHE 230

### Plant Biology (BIO 270)

**Course Description:**

This course is designed to provide students with the fundamentals of plant biology such as anatomy, morphology, growth and development, reproduction, genetics, physiology, plant ecology and an overview of evolution and the importance of plants in society. This course includes hands on laboratory experience and life plant materials integrated with the lecture content.

**Prerequisite:** BIO 220

**Corequisite:** CHE 202 or departmental approval

### Microbiology (BIO 420)

**Course Description:**

Micro-organisms pathogenic to humans: their characteristics, pathogenicity and modes of transmission are studied. Instruction includes a study of the sterile technique and maintenance of the sterile field. Required in selected programs in the Health Sciences; available to other students through Departmental approval.

**Prerequisites:** BIO 426 and CHE 118, or CHE 121, or departmental approval

### Anatomy and Physiology I (BIO 425)

**Course Description:**

This two-semester course explores the human body as an integrated, functional complex of systems. Terminology, structure and function of each organ-system, with emphasis on their interrelationships, are explained. Required of students in the health services technologies, available to all other students for elective credit.

**Prerequisite for BIO 426 is BIO 425. Two terms required.**

**Prerequisite:** CHE 118 or CHE 121, or departmental approval

**Note:** BIO 425 and BIO 426 do not meet the science requirements in the liberal arts curriculum.

### Anatomy and Physiology II (BIO 426)

**Course Description:**

This two-semester course explores the human body as an integrated, functional complex of systems. Terminology, structure and function of each organ-system, with emphasis on their interrelationships, are explained. Required of students in the health services technologies, available to all other students for elective credit.

**Prerequisite for BIO 426 is BIO 425. Two terms required.**

**Prerequisite:** CHE 118 or CHE 121, or departmental approval

**Note:** BIO 425 and BIO 426 do not meet the science requirements in the liberal arts curriculum.

### Introduction to Biotechnology (BTE 201)

**Course Description:**

This course introduces the student to theory and laboratory practices in biotechnology with emphasis on the impact of biotechnology on daily life, health, ethics and society. The course is designed to impart the skills needed for entry-level jobs or to continue on a career path in biotechnology, by exposing students to a variety of careers, laboratory techniques and social issues in the biotechnology industry.

**Prerequisite:** BIO 220 and CHE 201

### Concepts in Chemistry (CHE 108)

**Course Description:**

This is a survey course that introduces essential topics in atomic and molecular structure, chemical and physical properties, and chemical reactivity. These concepts will form a basis for understanding biological applications and environmental issues.

**Corequisite:** CHE 109

### Concepts in Chemistry Laboratory (CHE 109)

**Course Description:**

This course investigates chemical concepts through laboratory experiments on structure, chemical reactions, and energy changes. Experiments will that relate to biological chemistry and environmental measurements will also be included. Concepts relevant to the laboratory experiments will be discussed.

**Corequisite:** CHE 108

### General Chemistry (CHE 110)

**Course Description:**

This course is designed specifically for the non-science major. It explores the world of atoms and molecules and relates this submicroscope world to the daily life of the student. Topics to be discussed include plastics, foods, the environment, genetics, and drugs.

### Fundamentals of Chemistry (CHE 118)

**Course Description:**

This is a one-semester course designed especially to meet the needs of students in the
Health Technology Programs. Topics include modern atomic theory and an introduction to the molecular basis of matter through the study of chemical principles and reactions. Lecture and laboratory are integrally related.

**Fundamentals of Organic Chemistry** CHE 120
4 crs. 3 hrs. 2 lab hrs.
This is an introduction to the chemistry of carbon compounds. The lecture emphasizes structure and bonding, reaction mechanisms, synthesis, stereochemistry, and applications to biological chemistry. The laboratory experiments illustrate the lecture topics. Prerequisite: CHE 118, or CHE 121, or departmental approval.

**Fundamentals of General, Organic and Biological Chemistry I** CHE 121
4 crs. 3 hrs. 2 lab hrs.
This course is a two-semester course sequence that introduces principles and concepts of general, organic and biological chemistry. The laboratory will provide experimental applications of these chemical topics. They are liberal arts electives. They are recommended for students intending to transfer to bachelor's degree Allied Health Science curricula. CHE 121–122 cannot be granted credit to fulfill degree requirements for Science (A.S.) and Engineering Science (A.S.).

Students intending to apply for admission to programs such as Dentistry, Exercise Physiology, Medical Laboratory Science, Medicine, Pharmacy, Physician Assistant, Physical Therapy, or Veterinary Medicine need to enroll in CHE 121 instead of CHE 121 to meet admission or curricula requirements for these programs.

Students intending to apply for admission to programs such as Diagnostic Medical Imaging (Sonography), Exercise Science, Public Health, Radiology, or X-ray technician need to determine whether admission or curricula requirements for these programs require CHE 121 or CHE 201.

**Fundamentals of General, Organic and Biological Chemistry II** CHE 122
4 crs. 3 hrs. 2 lab hrs.
This course is a two-semester course sequence that introduces principles and concepts of general, organic and biological chemistry. The laboratory will provide experimental applications of these chemical topics. They are liberal arts electives. They are recommended for students intending to transfer to bachelor's degree Allied Health Science curricula. CHE 121–122 cannot be granted credit to fulfill degree requirements for Science (A.S.) and Engineering Science (A.S.).

Students intending to apply for admission to programs such as Diagnostic Medical Imaging (Sonography), Exercise Science, Public Health, Radiology, or X-ray technician need to determine whether admission or curricula requirements for these programs require CHE 121 or CHE 201.

**Fundamentals of Biochemistry** CHE 125
4 crs. 3 hrs. 3 lab hrs.
This course is an introduction to the principles of biochemistry that studies the structure, function, energetics and metabolism of biomolecules. The laboratory emphasizes biochemical techniques. Prerequisite for CHE 120, CHE 122 or departmental approval.

**College Chemistry I** CHE 201
4 crs. 4 hrs. 2 lab hrs.
This is a two-semester course sequence that involves the study of chemical principles including atomic and molecular theories, molecular structure, and reactivity. The laboratory will include experiments illustrating the chemical principles. CHE 201–202 two terms required.

**College Chemistry II** CHE 202
4 crs. 4 hrs. 2 lab hrs.
This is a two-semester course sequence that involves the study of chemical principles including atomic and molecular theories, molecular structure, and reactivity. The laboratory will include experiments illustrating the chemical principles. CHE 201–202 two terms required.

**Quantitative Analysis** CHE 205
4 crs. 3 hrs. 2 lab hrs.
This course discusses the principles of classical and instrumental techniques in analytical chemistry. Laboratory experiments include gravimetric, volumetric and instrumental methods of analysis. Prerequisite: CHE 202 and MAT 206.

**Organic Chemistry I** CHE 230
5 crs. 3 hrs. 2 lab hrs.
This two-semester course sequence is the study of the structure and properties of the fundamental classes of organic compounds with emphasis on reaction, reaction mechanisms, stereochemistry, electronic theory, and applications to allied fields. Two terms are required. Prerequisite for CHE 230 is CHE 202 or 220. Prerequisite for CHE 240 is CHE 230.

**Organic Chemistry II** CHE 240
5 crs. 3 hrs. 2 lab hrs.
This is a two-semester course sequence that involves the study of chemical principles including atomic and molecular theories, molecular structure, and reactivity. The laboratory will include experiments illustrating the chemical principles. CHE 201–202 two terms required. Required in A.S. (Science) and A.S. (Engineering Science), fulfills science requirement for A.A. (Liberal Arts). Prerequisite for CHE 202 is CHE 201.

**Engineering Elements of Design** ESC 111
1 cr. 2 hrs.
This course provides an introduction to engineering practice through hands-on investigations, computer applications, and design projects in the fields of structures and robotics. All investigations and design projects are performed in groups and presented in oral and/or written form. Computers are used for documentation, data analysis and robot control. Prerequisites: MAT 206, CHE 201 or CHE 210, PHY 215 or departmental approval.

**Computer Aided Analysis for Engineering** ESC 113
2 crs. 3 hrs.
This course introduces topics important for engineers. Computer aided analysis techniques are introduced and used for the design and modeling of engineering systems such as electrical circuits, pipelines, signal and image processing, aircraft engines, orbits and trajectories, protein molecules and sewer treatment. Corequisites: MAT 206, CHE 201 or CHE 210, PHY 215 or departmental approval.

**Engineering Graphics** ESC 130
2 crs. 3 hrs.
This is a course in fundamental engineering drawing and industrial drafting-room practice. Lettering, orthogonal projection, auxiliary views, sessions and conventions, pictorials, threads and fasteners, tolerances, detail drawing dimensioning and electrical drawing; introduction to computer-aided graphics are covered.

**Engineering Graphics: AutoCAD** ESC 131
2 crs. 4 hrs.
This course provides the students with a basic working knowledge of Computer Aided Drafting. Through the use of engineering drawings, students develop skills in the use of a mainstream computer assisted drafting software package like AutoCAD for Civil Engineering. Methods and procedures are developed for solving practical drafting problems encountered in construction projects using Computer Aided Drafting methods. Students will learn the sequence of commands and/or steps required to start, create, save and plot CAD drawings. Skills are also developed in the reading and interpretation of typical working drawings from construction projects.

**Engineering Mechanics** ESC 200
4 crs. 4 hrs.
This is a course in statics and dynamics designed for engineering students. Among the topics covered are forces, equilibrium, friction, kinematics and dynamics of a particle, work and energy, linear and angular motion, and rotational dynamics of a rigid body. Prerequisites: PHY 225 and MAT 302, or departmental approval.

**Engineering Mechanics I** ESC 201
3 crs. 4 hrs.
This course is a three-dimensional vector treatment of the static equilibrium of particles and rigid bodies. Topics include: equivalent force and coupled systems, static analysis of trusses, frames machines, friction, properties of surfaces and rigid bodies, particle kinematics, path variables, cylindrical coordinates and relative motion. Elements of design are incorporated in the course. Prerequisites: ESC 130, MAT 302 and PHY 225 and SCI 120, or SCI 121, or departmental approval.

**Engineering Mechanics II** ESC 202
3 crs. 4 hrs.
This course is a three-dimensional vector treatment of the kinematics of rigid bodies.
using various coordinate systems. Topics include: relative motion, particle dynamics, Newton's laws, energy and mechanical vibrations. Elements of design are incorporated in the course.

Prerequisites: ESC 130, ESC 201, PHY 225
Corequisite: ESC 501 or departmental approval

Thermodynamics I

ESC 211
3 crs. 4 hrs.
This course covers introductory concepts and definitions; Absolute temperature, Work, heat, First Law and applications, Second Law, Carnot Theorem, entropy, thermodynamic state variables and functions, reversibility, irreversibility, ideal gas mixtures, mixtures of vapors and gas, humidity calculations.

Prerequisites: CHE 201 and PHY 225
Corequisite: PHY 108

Circuits and Systems I

ESC 221
4 crs. 6 hrs.
This course covers circuit elements and their voltage-current relations; Kirchhoff's Laws, elementary circuit analysis; continuous signals; differential equations; first order systems and second order systems. Students will simulate circuits on the computer. A laboratory component is integrated into the course.

Prerequisites: PHY 225 and ESC 113
Corequisite: MAT 501 or departmental approval

Switching Systems and Logic Design

ESC 223
3 crs. 4 hrs.
This course includes the analysis and design of combinational and sequential circuits and their applications to digital systems. The use of integrated circuits in the design of digital circuits is illustrated in the laboratory experiments.

Prerequisites: PHY 302, PHY 225, and SCI 120 or SCI 121, or departmental approval

ENVIRONMENTAL SCIENCE

Environmental Science

ENV 250
4 crs. 3 hrs. 2 lab hrs.
Environmental Science is a basic science class designed to incorporate the chemical and biological background needed to understand the current environmental issues facing our society. The topics covered include the basic principles of ecology, pollution, population growth, wildlife management, water resources and quality among others. Fundamental to the course is an understanding of scientific method and its application to dealing with complex environmental issues.

Prerequisites: BIO 210, BIO 220, CHE 201 and CHE 202

GEOLOGY I

Geology I

GLY 210
4 crs. 5 hrs.
This course covers fundamental principles of geology encompassing the study of minerals and rocks, geological processes, interpretation of topographic and geological maps and techniques of remote sensing. This is a program elective in Engineering Science.

PHYSICS

General Physics Theory

PHY 108
3 crs. 3 hrs.
This course serves as an introduction to general physics theory, especially for students who are not science oriented. A selected number of basic topics in physics are carefully examined and interpreted. Topics include mechanics, heat and thermodynamics, electromagnetism, optics, atomic and nuclear physics. The relevance of the scientist and his/her work to the lives of non-scientists is continually examined.

General Physics Experiments

PHY 109
3 crs. 1 hr.
This course serves as an experimental introduction to general physics, especially for students who are not science oriented. A selected number of basic topics in physics are carefully examined and subjected to experimental verification. The relevance of the scientist and his/her work to the lives of non-scientists is continually examined.

Corequisite: PHY 108

Physics I

PHY 210
4 crs. 4 hrs. 2 lab hrs.
This classroom and laboratory two-semester course includes the study of concepts and principles of physics in the areas of mechanics, heat and thermodynamics, sound, electricity and magnetism, light, and atomic physics plus an introduction to quantum physics and relativity theory. Algebra and simple trigonometry are used. Two terms required.

Prerequisite for PHY 220 is PHY 210

University Physics I

PHY 215
4 crs. 4 hrs. 2 lab hrs.
This is a two-semester course for students in science and engineering. Concepts of calculus are introduced and used when necessary. The lecture and laboratory exercises pertain to mechanics, fluids, heat and thermodynamics, wave motion, sound, electricity, and magnetism, geometric and physical optics, and an introduction to modern physics.

Co-require: MAT 302
Note: Students cannot receive credit for both PHY 210 and PHY 215, or PHY 220 and PHY 225.

Physics II

PHY 220
4 crs. 4 hrs. 2 lab hrs.
This classroom and laboratory two-semester course includes the study of concepts and principles of physics in the areas of mechanics, heat and thermodynamics, sound, electricity and magnetism, light, and atomic physics plus an introduction to quantum physics and relativity theory. Algebra and simple trigonometry are used. Two terms required.

Prerequisite for PHY 220 is PHY 210

University Physics II

PHY 225
4 crs. 4 hrs. 2 lab hrs.
This is a two-semester course for students in science and engineering. Concepts of calculus are introduced and used when necessary. The lecture and laboratory exercises pertain to mechanics, fluids, heat and thermodynamics, wave motion, sound, electricity, and magnetism, geometric and physical optics, and an introduction to modern physics.

Prerequisite: PHY 215 and MAT 302
Note: Students cannot receive credit for both PHY 210 and PHY 215, or PHY 220 and PHY 225.

Modern Physics

PHY 240
3 crs. 4 hrs.
This is an introduction to atomic and nuclear physics, relativity, solid state physics, and elementary particles.

Prerequisite: PHY 225
Corequisite: MAT 501 or departmental approval

The Physics of Music

PHY 400
4 crs. 3 hrs. 2 lab hrs.
This course is designed to give the student a fundamentally qualitative understanding of all the physical processes associated with the production, reproduction, and reception of musical sounds. This course may fulfill the physics requirement in the VAT Curriculum.

SCIENCE

Explorations in Scientific Mathematical (same as MAT 111)

SCI 111
3 crs. 4 hrs.
This course will introduce the processes involved in research. Students will be designing and performing experiments and analyzing the results. Objectives are: to understand the scientific method, interpret statistics, and appreciate mathematical research. Computers will be used for statistics, graphing, pattern recognition and word processing. Recommended for mathematics and science oriented liberal arts students as a legal arts elective. Not open to Science or Engineering Science majors.

Prerequisite: One year of college science

Computer Methods in Science

SCI 120
4 crs. 3 hrs. 2 lab hrs.
This course teaches a computer language and emphasizes application of programming methods for the sciences and engineering. Numerical methods will be applied to examples gleaned from physics, chemistry, and biology and engineering.

Prerequisite: MAT 205

Computer Methods in Science (Pascal)

SCI 121
4 crs. 3 hrs. 2 lab hrs.
This course is similar in scope and assignments to SCI 120 but utilizes the Pascal programming language.

Introduction to Microprocessors

SCI 140
4 crs. 3 hrs. 2 lab hrs.
This is a study of a typical microprocessor and interfacing techniques. Concepts of electricity and its application to digital circuits are introduced as needed for purposes of control and measurement of analog quantities such as current, voltage, and temperature.

Prerequisite: MAT 206

Nutrition

SCI 150
3 crs. 3 hrs.
This is an introduction to the fundamental principles of human nutrition. The nutrient
composition of various foods is examined as well as the manner in which the nutrients are metabolized and used by the human body.

Prerequisite: One semester of science or departmental approval.

The Science of Food

SCI 151
3 crs. 3 hrs.
This course provides an overview of the scientific principles underlying the nutritional value, storage, handling, preparation and safety of food. There is an emphasis on chemical changes and interactions in food.
Prerequisite: CHE 121.

Man and Environment

SCI 410
3 crs. 3 hrs.
This course is a study of the interaction of man and his environment. Topics examined include ecology, air and water pollution, pesticides, radioactivity, power generation, noise pollution, waste disposal, population control, food additives, and food contamination. This course is offered as an elective in all curricula.
Prerequisite: One semester of any science

Scientific Instrumentation

SCI 430
4 crs. 2 hrs. 2 lab hrs.
This course covers the theory and practice and quantitative method with special attention to instrumentation currently employed such as optical, electro-chemical, chromatographic, and radio-chemical techniques. The physicochemical theory and operating characteristics of the instrumentation are stressed. The laboratory emphasizes measurements of biological and environmental significance.
Prerequisite: 1 year of laboratory science or departmental approval.

Pathophysiology

SCI 510
3 crs. 3 hrs.
This course studies alterations of normal physiological processes. Included in the course are the basic principles of pathophysiology as well as application of these principles to specific organ systems.
Prerequisites: BIO 426 and CHE 118 or CHE 121, or permission of the department

Pharmacology

SCI 530
3 crs. 3 hrs.
Fundamental principles and concepts in pharmacology are considered. Particular attention is given to drug action and interaction, and to the effect of drugs and toxic substances in the human organism. This course is required in selected programs in Allied Health Sciences; available to all other students for elective credit. It is recommended that students complete HIT 103, Medical Terminology I, before registering for this course.
Prerequisite: BIO 426 and CHE 118 or CHE 121, or permission of the department
Course Descriptions
SOCIAL SCIENCES, HUMAN SERVICES, AND CRIMINAL JUSTICE

The Social Sciences and Human Services Department offers courses in eight liberal arts disciplines and courses specific to the Human Services and Criminal Justice Programs. All of its courses aim to broaden and deepen understanding of the complex social, economic and political issues which face modern society. To achieve these aims, students are trained in the rational analysis of pertinent phases of human experience. Liberal arts courses are offered in the disciplines of Anthropology, Economics, Geography, History, Philosophy, Political Science, Psychology and Sociology. The Human Services program offers courses specific to the A.S. degree in Human services as well.

Note: Students requiring ESL 62, ENG 88 or ACR 94 must complete these courses before enrolling in Social Science courses.

Chairperson: Sangeeta Bishop
Deputy Chairpersons: Roger Foster, Rifat Salam, Janice Walters

Professors: Matthew Ally, Roger Foster, Robin Isserles, Ting Lei, Charles Post, Lisa Rose, Elizabeth Wissenger

Associate Professors: Sheldon Applewhite, Aro Artinian, Alia Baladani, Warren Benfield, Sangeeta Bishop, C. Ray Borck, Peter Bratasis, Melissa Brown, David Cacedo, Sheneque Davis, Daniel DePaulo, Alex d’Erizans, Ilir Disha, Albert Duncan, Yana Dumskova, Christine Farias, Erik Freas, Deborah Gambs, Maram Hallak, Jose Haro, Rose Kim, Mariya Komolova, Jacob Kramer, Geoffrey Kurtz, Marc Littlefield, Nicole Lopez-Jantzen, Man Wai Alice Lung, Maria Pagas-Rivera, Khushmand Rajendran, Diana Rickard, Kelly Rodgers, Michelle Ronda, Rifat Salam, Paula Saunders, Amy Sodaro, Brenda Vollman, Janice Walters, Myriam Zaman

Assistant Professors: Henry Bulley, Liza Chowdhury, Andres Colapinto, Antoinette Deluca, Esin Egil, Monica Foust, Debra Greenwood, Paoyi Huang, Heather James, Stephanie Laudone, Kenneth Levin, Shirley Leyro, Satenik Margaryan, Schneur Zalman Newfield, Cara O’Connor, Christina Oney, Jason Ostrowe, Jennifer Pastor, Miriam Santos, Shrutika Sharma, Vernon Smith, Ross Tippit, Glenny Valoy, Jamie Warren

Instructors: Marcelino Guilen, Theodora Leonaridis, Rajendran Pottayil

Lecturers: Gerard Clock, William Roane

ANTHROPOLOGY
Introduction to Anthropology
ANT 100
3 crs. 3 hrs.
The evolution and behavior of human beings as cultural animals are the focus of this course. Students are introduced to the basic concepts and methods of the major divisions of anthropology: physical, social and cultural; archeology and linguistics. Emphasis is placed on preliterate societies to facilitate the study of the interrelation of various aspects of culture.

Chinese Culture and Heritage
ANT 111
3 crs. 3 hrs.
In this course students will inquire into the nature of classical traditions of Chinese culture. A range of Chinese texts in translation and associated materials will be explored to develop knowledge of the literary and philosophical foundations of Chinese culture. Lectures and readings are in English.

Language and Culture
ANT 115
3 crs. 3 hrs.
This course will introduce students to linguistics, the study of language, and language in multicultural urban settings, including topics such as children’s language acquisition, bilingual families and bilingual education, language and gender, different varieties of English and contemporary language use. The readings will draw on works in linguistics, literature, sociology, anthropology, and related topics. Students will improve critical reading and thinking skills and produce reflective and expository writing based on the readings in connection with their own experiences and backgrounds.

Puerto Rican Culture and Folklore
ANT 125
3 crs. 3 hrs.
This course studies the emergence of a national culture, folklore and identity. Topics include the Taino, Spanish and African contributions to the creation of a Criollo personality and character and the Puerto Rican family, race relations, the Jibaro, religion, and the arts. It reviews customs, traditions, celebrations, dances, legends, songs, proverbs, and hero/underdog stories as well as the impact of the United States culture.

Haitian History and Culture
ANT 127
3 crs. 3 hrs.
This course explores the role of economics, culture, and world diplomacy in the development of the Republic of Haiti since the Revolution of 1791. The impact of Haitian intellectual and popular thought on prose, poetry, and art is examined.

Black Women in the Americas and the Caribbean
ANT 128
3 crs. 3 hrs.
The changing status of women in African traditional societies is compared with changes in the status of Black women in the United States, the Caribbean, and Brazil.

Peoples and Cultures of Latin America and the Caribbean
ANT 200
3 crs. 3 hrs.
This course examines the diverse peoples and cultures that have populated Latin America and the Caribbean region since pre-Columbian times. It discusses the legacy of European colonization and the subsequent struggles for independence, formation of national identities and the quest for modernization today. The course will place particular emphasis on the production of social movements that respond to social inequality, and conflicting ideologies around ethnicity, race and gender among other factors. The readings illustrate case studies that examine a wide range of topics—ecological adaptation, food production, kinship and local politics, medical and religious beliefs and artistic expressions—from small-scale rural society to large complex urban centers throughout the continent. It will also explore how globalization, intense migration, and transnationalism have generated new notions of identity in the US today.

The Roles of Women in a Changing World
ANT 210
3 crs. 3 hrs.
This course analyzes the status and roles of women in cross-cultural perspective. Particular emphasis is given to the socio-cultural forces underlying the women’s rights movements in the 19th century and the present resurgence of feminism.

CRIMINAL JUSTICE

Introduction to Criminal Justice
CRJ 101
3 crs. 3 hrs.
Criminal Justice is the field that studies formal social control. This course covers the processing of crime by agents of formal control (police, courts, and institutional corrections). The general focus is on understanding the complex interactions of structures and agents in the system. Of particular concern are discretion and diversity in law enforcement, due process in criminal courts, and the punishment-rehabilitation dichotomy in corrections. The ultimate goal is to provide a critical foundation that prepares students for the challenges of a career in criminal justice.

Criminology
CRJ 102
3 crs. 3 hrs.
This is an introductory and foundational course in the study of crime and justice. It is designed to introduce students to the various historical and contemporary theories and empirical research used to understand deviant and criminal behavior. This course takes a critical approach to the study of the definition and measurement of crime, as well as applications of these theories to practice and in policy. Offending and victimization, as these relate to specific crime types (i.e., white collar crime, violent crime, drug related crimes, etc.) will be explored.

Prerequisite: SOC 100
CRJ 200 – Constitutional Law
3 crs. 3 hrs.
This course provides a historical overview of the relationship of the states of the Bill of Rights, and how the Supreme Court has interpreted the powers of the federal government. The effect of the due process clause of the Fourteenth Amendment on the application of the Bill of Rights to the states is examined through a study of the leading Supreme Court decisions related to criminal justice. Topics include characteristics and powers of the three branches of government, the principles governing the operation of the Bill of Rights, and the variables affecting the formulation of judicial policy.
Prerequisite: POL 100

CRJ 201 – Policing
3 crs. 3 hrs.
This course is intended to broaden the student’s understanding of the origins and development of law enforcement agencies in the United States. Moreover, the course will examine the complex role of the police in a democratic society in the criminal justice system. An emphasis will be placed on recruitment, the training process and the importance of diversity, particularly among larger police departments in the U.S. The course will also examine contemporary legal issues and modern strategies such as community, evidence-based, intelligence-led and predictive policing.
Prerequisite: CRJ 101

CRJ 202 – Corrections
3 crs. 3 hrs.
This course examines the history of criminal punishment in Western society, emphasizing the United States. The course highlights social forces (political, religious, economic, and technological) shaping punishment; reviews common theories (deterrence, retribution, rehabilitation, incapacitation, and restoration) and examines how theory relates to policy. The course takes a critical approach to correctional systems and policies by considering disparities and structural inequalities. Empirical evidence is used to examine contemporary crises of punishment (i.e., mass incarceration, school-to-prison pipeline) as well as prison culture, staffing, privatization, and prisoner civil rights. Alternatives to traditional punishment, especially restorative justice models, are explored.
Prerequisite: CRJ 102

CRJ 203 – Criminal Law
3 crs. 3 hrs.
This is an introductory course in the study of criminal law. The focus is on how it functions in and affects modern society, with a particular emphasis on understanding both the objectives and the limitations of law as an apparatus of social control. This course will cover the principles underlying the definition of crime, the purpose of punishment, and the general doctrines, such as attempt, causation and conspiracy. Throughout the course, a review of U.S. Supreme Court ruling and their role in the evolving nature of theory of criminal law will also be covered.
Prerequisite: CRJ 102

CRJ 204 – Criminal Justice and the Urban Community
3 crs. 3 hrs.
This course takes a critical approach to the study of crime and justice in urban settings. Course materials examine contemporary crime-related issues that affect urban communities within a historical and sociological context. The course highlights the intersections of deviant behavior and the criminal justice system within the structures of class, race, gender, and power inequalities. Topics explored may include racial profiling, juvenile delinquency, media representations of crime, policing, the war on drugs, and prisoner re-entry.
Prerequisites: CRJ 103 and CRJ 102

CRJ 300 – Selected Topics in Criminology
3 crs. 3 hrs.
This course will explore a significant topic, concept, theme or methodology of interest in the field of criminology, which studies crime as a social phenomenon. Topics for the following semester will be chosen by the instructor and will be made available during registration. Each section of the course will cover in depth a single special topic related to criminology, such as one of the following: Race and Crime; Gender and Crime; Media/Culture and Crime; Drugs and Crime; Theories of Juvenile Offending and Justice; Critical Criminology; Cultural Criminology; Crime and Social Problems; Criminal Deviance; Green Criminology; Elite Crime/White Collar Crime; Cyber criminology; Organized Crime; Immigration (or Migration and crime); Victimology; Violent Crime; Fear of Crime; Perspectives on Terrorism; Narrative, Ethnographic or Qualitative methodologies; Feminist Criminology.
CRJ 102 and one 200 level Social Science course

CRJ 301 – Selected Topics in Criminal Justice
3 crs. 3 hrs.
This course will study a significant topic, concept, theme or methodology of interest in the field of criminal justice, including an understanding of institutional theory and practice. Topics for the following semester will be chosen by the instructor and will be made available during registration. Each Section of the course will cover in depth a single special topic related to criminal justice, such as one of the following: Administration of justice (policing, corrections, and/or courts); Comparative Criminal Justice (policing, corrections, and/or courts); Class, Sexuality and/or Gender and the Law; Immigration and the Law; Criminal Justice Ethics; Civil rights and Criminal Procedure; Criminal Law; Jurisprudence; Probation and Parole; Practices of Counter Terrorism; Juvenile Justice.
CRJ 101, POL 100, and one 200 Social Science course

ECO 111 – Economics of Urban Communities
(same as AFL 111)
3 crs. 3 hrs.
This course introduces the subject of urban economics in historical and social contexts rather than as a strict analytical discipline. The causes and existence of poverty in cities, the management of federal, state and local government programs, the financing of Black enterprises, and conditions of social welfare are considered. Solutions toward developing neglected economics of urban communities are proposed.

ECO 112 – Economic Development in the Dominican Republic in the 20th Century
(same as AFL 112)
3 crs. 3 hrs.
This course analyzes the economic policies of the different political regimes in the Dominican Republic from the end of the 19th century to the present. It studies the application and results of these policies—changes brought about by these regimes in trade, industry, agriculture and population. It also examines the influence of the United States on developments in the Dominican economy during this century.

ECO 113 – African Development in the 20th Century
(same as AFL 113)
3 crs. 3 hrs.
This course analyzes the economic policies of the different political regimes in the Dominican Republic from the end of the 19th century to the present. It studies the application and results of these policies—changes brought about by these regimes in trade, industry, agriculture and population. It also examines the influence of the United States on developments in the Dominican economy during this century.

ECO 151 – Political Economy of the Caribbean
(same as AFL 151)
3 crs. 3 hrs.
This is a study of the factors affecting the economies of the English and French speaking countries of the Caribbean region. The effects of international diplomacy, multinational corporate policies, educational and social determinants, and economic policies are evaluated.

ECO 201 – Macroeconomics
3 crs. 3 hrs.
This course is intended primarily for those students who intend to pursue professional careers in fields such as economics, finance, management, and administration. It is also open to highly motivated students in other areas. Topics include: national income and national product; saving, consumption, investment, the multiplier theory, fiscal policy, inflation, employment and business cycles. The student will also be acquainted with money, banking, and central bank monetary policies, as well as some of the more significant theories of international trade and economic development.

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21
Microeconomics  ECO 202
3 crs. 3 hrs.
This course is an introduction to the topics of microeconomics, which include market supply and demand, theories of the firm and individual behavior, competition and monopoly, externalities, public goods, and income distribution. Students will learn ways to analyze the basic economic activities of consumption and production, and how to evaluate the allocation of resources and products achieved through markets. The role of government policy in addressing markets failures will be emphasized throughout the course, with special focus on contemporary economic problems.

Environmental Economics  ECO 215
3 crs. 3 hrs.
This course introduces students to the economic analysis of environmental issues and problems related to the allocation of natural resources, and as well the role of government in dealing with environmental problems. Students will develop the capacity to understand economic and policy issues related to environmental and natural resource exploitation, the micro- and macroeconomic foundations of environmental theory and policy, and discuss and evaluate current environmental policies in the United States. Students will learn about the economics of externalities and natural resource management, including theoretical concepts, models of analysis, and theoretical debates among orthodox and heterodox interpretations.

International Economics  ECO 221
3 crs. 3 hrs.
International trade, capital movements and foreign exchange markets lay the basis for global economic analyses and policy debates. Balance of payments problems include liquidity and growth, exchange rate systems, and tendencies for internal and external balance. Applied areas range from international financial institutions issues of economic integration and development. Other topics involve history of the International Monetary Fund, World Bank, Euro Zone and Emerging Markets.

Economic History  ECO 223
3 crs. 3 hrs.
Economic History is a discipline which integrates history and economics. The marriage of these two disciplines enables us to look critically at the impact that ideas, institutions, and ideas have upon our economy, how such elements affect our economy, and ultimately our own lives and experiences. Together these disciplines enable us to understand local, national and global economic relationships, and observe how policies, theories, intentions, and behaviors affect our society economically, socially, and politically. This course traces the economic development of the world economy - the focus is on Europe and North America - from medieval times up to the present. The first major topic concerns the transition from feudalism to capitalism - that is, the replacement of one major system of economic and social organization by another. Once we have examined the origins of capitalism, we shall follow its progress from its early mercantile phase, through the industrial revolution up to the international order established after the Second World War.

Public Economics  ECO 225
3 crs. 3 hrs.
This course is an introduction to the economic analysis of the role of government in capitalist economies. The subjects covered in this course include the provision of public goods, remedies for externalities, the generation of public revenue through taxation, the method of cost-benefit analysis, and voting mechanisms for the representation of social preferences. Additional topics to be discussed include policies implemented for the maintenance of social welfare and social insurance programs, like public education and healthcare, and unemployment insurance. While other economies will be discussed periodically, attention throughout the course will be given to the United States economy.

Development Economics  ECO 226
3 crs. 3 hrs.
This course develop students’ critical thinking on the economic development process and introduce them to the basic issues and concepts of Development. The course covers the political economy of the development process and the challenges of formulating and implementing development policy in developing countries and Small Island Developing States (SIDS). The evolution of development theory is treated as a contest of competing development paradigms, ranging from the Classical Modernization Paradigm, and alternative perspectives on development which emphasize dependency, world systems, human development, participatory development, sustainable development, poverty and inequality, culture, and gender, to the post-modernist challenges to ‘development discourse’ expressed in Post-development. The policy implications and problems raised with each discursive wave in the development process and under ‘neo-liberal’ globalization are expressly flagged, with special attention paid to the policy and development challenges faced by developing countries including SIDS.

Economics of Antitrust and Regulation  ECO 229
3 crs. 3 hrs.
This course will introduce students to anti-trust law and government policy regarding industry competition. Students will survey the economic theories of imperfect competition and the history of the regulation of competition within the United States. The motivation, formation and execution of government regulation will be discussed, along with economic analyses of the impact of regulations. Topics to be covered may also include mergers, natural monopolies, anti-competitive strategies, deregulation oversight, and the regulation of utilities and public enterprises.

Feminist and Gender Economics  ECO 230
3 crs. 3 hrs.
Feminist economics critically analyzes both economic theory and economic life through the lens of gender, and advocates various forms of feminist economic transformation. The objective is to retain and improve economic analysis by ridding the discipline of the biases created by the centrality of distinctively masculine concerns. We will look at feminist critiques of, and alternatives to, mainstream economics methodology and view and “economic man” the firm, and the economy itself. Other themes in the course will be racial-ethnic, class, and country differences among women.

Labor Economics  ECO 235
3 crs. 3 hrs.
This course is an introduction to the analysis of labor markets in advanced capitalist economies with principal reference to the United States economy. Aside from discussing the determinants of the supply and demand of labor and the qualities of labor market equilibrium, the course may cover the dominant theories of ancillary issues, like the determinants of labor productivity, wage differentials, and the role of incentive pay. Several topics of importance to the general welfare of society may also be covered, such as migration, education, labor market discrimination, and government programs to address unemployment.

Puerto Rican Economic Development Since 1898 (same as LAT 236)  ECO 236
3 crs. 3 hrs.
This course analyzes the history and effects of American economic policies on contemporary Puerto Rico. Economic conditions before the American occupation are examined with the objective of comparing them with the conditions and changes after 1898. The period of sugar as a monoculture is studied as well as the great depression and its impact on Puerto Rico. The coming to power of the Popular Party, with its politics of land reform and economic development, are examined. The economic and social planning that have brought about modern Puerto Rico are analyzed.

Behavioral Economics  ECO 240
3 crs. 3 hrs.
This course is an introduction to behavioral economics, which is the use of the methods of psychology to evaluate economic models of decision making and the collection of theories derived therefrom. The course reviews behavioral economics in the context of different economic models of decision making: decisions made under conditions of uncertainty, judgments of risk and probability, intertemporal decision making, and group interaction. Topics may include framing effects, prospect theory, menu dependence, endowment effects, confirmation bias, hyperbolic discounting, social preferences, and the utilization of behavioral economics for public policy.
SOCIAL SCIENCES, HUMAN SERVICES, AND CRIMINAL JUSTICE

Course Descriptions

Competition and Strategy  
ECO 245  
3 crs. 3 hrs.  
This course introduces students to the economic analysis of strategic interaction and competition among firms in imperfectly competitive markets. While the focus of the course is on the behavior of businesses in an oligopoly, basic concepts of game theory will also be applied to a variety of situations facing firms. The course will cover various types of games (normal-form, sequential, repeated interaction) and bargaining theory, as well as the economic theory of contracts and asymmetric information situations. Topics covered in the course may also include vertical/horizontal integration, auctions, principal-agent relations, and market design.  
Prerequisite: ECO 202

Gender and Women’s Studies  
Introduction to Gender and Women’s Studies  
GWS 100  
3 crs. 3 hrs.  
This introductory level, interdisciplinary course explores the basic concepts and perspectives of Gender & Women’s Studies from an intersectional angle; that is, examining the ways in which gender intersects with race, ethnicity, nationality, class, sexuality, sexual identity, disability, and other categories. The concepts of gender—the roles, behaviors, activities, and attributes that a society considers appropriate for men and women—privilege and oppression, intersectionality, and feminist praxis will be at the core of this course. After a background in the history and significance of Gender & Women’s Studies as a field of study, you will learn to critically examine how institutionalized privilege and oppression shape individual lives and intersecting identity categories.  
Prerequisite: ECO 100 or ECO 201 or ECO 202

Money and Banking  
(same as FNB 250)  
ECO 250  
3 crs. 3 hrs.  
This course is an analysis of the organization and operation of our financial system, including money and capital markets, commercial banking, and other financial institutions such as commercial finance companies. The relationship between financial and economic activity including monetary and fiscal policy is demonstrated.  
Prerequisite: FNB 100 or ECO 100 or ECO 201 or ECO 202

Geography  
Introduction to Human Geography  
GEO 100  
3 crs. 3 hrs.  
This course introduces students to the key concepts and principles of human geography. The course is designed to show how world geographic conditions such as climate, landform, natural resources, soil, space and ecology have influenced human culture and civilization over time.

Environmental Conservation: Resource Management  
GEO 226  
3 crs. 3 hrs.  
This course introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water, and energy) and how humans have impacted these key elements of the natural system. The goals of the course are to introduce students to the trends in human impact and management of the natural environment and provide a background to debates on sustainability and conservation.

Population Geography  
GEO 241  
3 crs. 3 hrs.  
Population geography examines the dynamics of populations and their patterns of spatial settlement through time. Specifically, it will examine the main characteristics, changing size, and geographic distribution of populations, particularly in this age of intense globalization. The course covers four main themes in global population: mobility and settlement; population and environment; population increase and decrease; and urbanization. Because of the broad scope of this subject matter, this course will provide a general overview of the scale of the diverse and complex patterns that operate between people and landscape.  
Prerequisite: GEO 100

Economics  
ECO 245  
3 crs. 3 hrs.  
This course introduces students to the economic analysis of strategic interaction and competition among firms in imperfectly competitive markets. While the focus of the course is on the behavior of businesses in an oligopoly, basic concepts of game theory will also be applied to a variety of situations facing firms. The course will cover various types of games (normal-form, sequential, repeated interaction) and bargaining theory, as well as the economic theory of contracts and asymmetric information situations. Topics covered in the course may also include vertical/horizontal integration, auctions, principal-agent relations, and market design.  
Prerequisite: ECO 202

Historical Studies  
European History  
HIS 101  
3 crs. 3 hrs.  
This course analyzes the societies of Western civilization from their origin to early modern times. The major social, economic, political, religious and intellectual developments are examined and their impact on the development of modern Western civilization is traced.  
Prerequisite: HIS 111

Asian American History  
HIS 114  
3 crs. 3 hrs.  
The Asian American presence from the mid-nineteenth century to the present is studied. Three periods, 1848–1943, 1943–1965, and 1965 to the present are examined. Topics are designed to focus on the impact of historical processes on the cultural, economic, and political experiences of diverse Asian American groups in urban and rural communities. The multi-ethnic aspects of Asian American communities are explored.

World History I  
HIS 115  
3 crs. 3 hrs.  
This course offers a survey of human history in a global context, beginning with the birth of civilization and running up through the beginnings of the Renaissance in Europe. This historical development of fundamental cultural, political and social institutions will be examined through an analysis of recurring themes in world history. Topics include the earliest civilizations of the Middle East, India, China and the Americas; the beginnings of the world’s major faiths, such as Confucianism, Daoism, Hinduism, Buddhism, and Judaism; the history of ancient Greece and Rome; the pre-Islamic history of the Middle East; the early histories of Africa, the Far East and the Americas; Islamic History; medieval European history: the Renaissance. It should be noted that, with respect to those topics generally associated with the “West” (i.e., Europe—for instance, ancient Greece and Rome and the Renaissance), these will be considered within a more global context; developments in Europe then will be considered in terms of its interaction with other global regions, likewise, as reflective of analogous responses to common societal, cultural and environmental challenges. Indeed, the course will address the question of whether the familiar dichotomy of “West” and “East” is, in fact, a meaningful one.

World History II  
HIS 116  
3 crs. 3 hrs.  
The course offers a survey of human history in a global context, beginning with the Renaissance in Europe and running up to the present. The historical development of fundamental cultural, political and social institutions will be examined through an analysis of recurring themes in world history. Topics include the respective histories of the world’s great religions, the European Renaissance, the Protestant Reformation, the European Enlightenment, the development of...
and continuing pervasiveness) of nationalism, Western imperialism and colonialism, the First and Second World Wars, the Cold War, and decolonization. It should be noted that those topics generally associated with the “West” (for instance, nationalism) will be considered within a more global context; likewise, developments in Europe and North America will be considered in terms of their interaction with other global regions and/or as reflective of analogous responses to similar societal, cultural and environmental challenges. Indeed, the course will address the question of whether the familiar dichotomy of “West” and “East” is, in fact, a meaningful one.

**Early American History:**

**Colonial Period to Civil War**

This course, the history of the United States from the Colonial period to the Civil War is studied and the major political, economic, and social problems of the new nation are analyzed.

**History of African Civilization**

(same as AFN 121)  3 crs. 3 hrs.

African civilizations from the pre-historic cultures in East Africa to the decline of the West African kingdom of Songhai in 1596 are examined.

**Africa 1500 to Present**

(same as AFN 122)  3 crs. 3 hrs.

Africa from the beginnings of the Atlantic slave trade to the end of Colonialism in the late twentieth century is examined. The effect of Colonialism on economic and cultural patterns in the African diaspora is explored.

**African American History:**

**17th Century to 1865**

(same as AFN 123)  3 crs. 3 hrs.

This course is a systematic examination of the participation of African American people in the political, economic and cultural history of the United States. The involvement of African Americans in abolitionism and in the development of social and cultural institutions in free black communities is analyzed.

**African-American History:**

**1865 to Present**

(same as AFN 124)  3 crs. 3 hrs.

Reconstructions I and II, the social Darwinist years, Civil Rights activism of the 1960s, and the cumulative effects of institutionalized racism are set in an historical framework for comparative study. The course examines the impact of urbanization, institutional racism, economic, and political policies on the life experiences of African-Americans. The dynamics of cultural, social, and political interactions within the social structure of the nation since 1865 are analyzed.

**Modern American History:**

**Civil War to Present**

HIS 125  3 crs. 3 hrs.

This continued study of American history emphasizes the emergence of an industrial economy, an urban society, world responsibility and the expanded federal government.

**Caribbean History**

(same as AFN 126)  3 crs. 3 hrs.

This course is a survey of the economic, political and cultural institutions which characterize the present nations of the Caribbean, their antecedents in the post-Emancipation period and the prospects for the future.

**History of Puerto Rico:**

**Discovery through 19th Century**

(same as LAT 127)  3 crs. 3 hrs.

This course studies the history of Puerto Rico from the pre-Columbian period to the end of the 19th century. Consideration will be given to political, social, cultural, and economic factors contributing to the emergence of national consciousness in the 19th century and the events leading to the Spanish-American War in 1898.

**History of Puerto Rico:**

**19th Century to Present**

(same as LAT 128)  3 crs. 3 hrs.

This course studies the historical conditions of Puerto Rico in the 20th century. The transition from a Spanish colony to an American possession is examined. The events and forces that created the present Puerto Rico are studied and analyzed in perspective. The alternatives to the problem of status, commonwealth, statehood, and independence are studied.

**An Introduction to the Middle East**

(same as ASN 129)  3 crs. 3 hrs.

Recent events have seen a growing interest in that part of the world commonly referred to as the Middle East. This course aims to introduce students to the Middle East, from the rise of Islam to contemporary times. It takes a cross-disciplinary approach, designed to allow students the chance to examine the region from a number of different perspectives; not only an historical one, but also those of literature, religion, economics, politics and international relations. It is hoped that, at minimum, the course will provide a sound basis by which students might better frame their understanding of the region; at maximum, that it might stimulate a desire to further explore the region in greater depth. Particularly, given the tendency if the media to view the region largely in terms of current events, it is hoped that by taking a cross-disciplinary approach, students will come to conceive of the region as a multi-dimensional; as a region with rich and varied cultural, historical and intellectual traditions; most importantly, as a region made up of people, of individuals who have many of the same desires and aspirations, the same fears and concerns, as ourselves. Given that the course constitutes a broad cross-disciplinary survey of the Middle East, it will, at times, be necessarily selective, focusing in depth on specific but representative aspects of Middle Eastern civilization. Students are thus encouraged to make reference to the “additional reading list” towards the end of the syllabus. An additional goal of the course is to consider in a more critical way the manner in which the region is portrayed in the media. Thus, periodically, we will be examining issues of topical interest.

**History of Latin America**

(same as LAT 130)  3 crs. 3 hrs.

Survey covering from the pre-Columbian cultures, the age of discovery and exploration, colonial structures, independence movements, to contemporary Latin America, with special emphasis on the countries of the mainland (i.e., North, Central, and South America). Students will learn about the traditions and institutions of Latin American Civilization including the Iberian conquest and colonization, the role of the Catholic Church, economic and social structures, as well as problems related to government, nation-building, race and class relations, wars and Latin America’s position in the world.

**History of Dominican Republic**

(same as LAT 131)  3 crs. 3 hrs.

This course studies the history of the Dominican Republic from the pre-Columbian and Colonial periods to the present. It deals with the geographical, political, social, and economic factors that form the Dominican nation. Emphasis is given to relations with Haiti and North America. The course also analyzes the position of the Dominican Republic in the community of Latin American nations as well as its place in today’s world.

**History of Women**

HIS 225  3 crs. 3 hrs.

This course in social and intellectual history examines ideas about women and women’s status in society in selected periods of history. Emphasis is placed on the reading and interpretation of primary source material. Topics included are: the historiography of women’s history; examples of matriarchy; women in the Ancient Near East; Greece and Rome in the Middle Ages and the Renaissance; the role of women in the American slave and plantation society; women in the modern capitalist and socialist worlds.

**Conflict in the Middle East**

HIS 226  3 crs. 3 hrs.

The course will address in a historical context the political, social, economic and ideological factors underlying the various conflicts that have confronted the Middle East, beginning with post-First World War period and ending with more recent developments, with the aim of helping students better appreciate their root causes and complexities.

**History Research and Writing Methods**

HIS 275  3 crs. 3 hrs.

This course will provide a culminating experience for students enrolled in the History Major by allowing them to explore a topic in-depth, engage in independent research, develop their analytical abilities and critical thinking skills, and apply concepts and theories to new cases. The course will focus...
HUMAN SERVICES

Introduction to Human Services and Social Work HUM 101 3 crs. 3 hrs.
This course introduces students to the field of Human Services and the profession of Social Work. Those human services which deal with social and personal problems are explored as well as the knowledge base, the skills base and the values base of the social work profession. Students are exposed to the methods of working with people as individuals, in groups and on a community level. This course meets the requirements as a liberal arts elective in social science.

Human Services Skills HUM 201 3 crs. 3 hrs.
The course is designed to train students in the use of helping skills and techniques utilized in the field of human services. Some of the areas covered in the course include interviewing and counseling, making referrals, assessment, group process and behavioral techniques. This course is open only to students enrolled in the Human Services curriculum. Prerequisite: HUM 101

Introduction to Gerontology HUM 211 3 crs. 3 hrs.
This course provides students with a basic understanding of the interrelationships between the physical, intellectual, social and psychological aspects of the aging process in contemporary society. Problems particular to aging are explored as well as policies and programs which have been developed to deal with them.

Introduction to Disabilities and Behavior Change HUM 212 3 crs. 3 hrs.
This course focuses on the psychological and sociological aspects of disabling conditions, and the approaches to effecting the person’s habilitation/rehabilitation through behavior change.

Child Welfare HUM 213 3 crs. 3 hrs.
This course is a survey of child welfare as a field of Social Work practice. Course content includes the relationships of parents, children and society; the development of old and new governmental programs for children; the impact on the family of child welfare policies, and the future of child welfare programs in the United States.

Field Experience in Human Services I HUM 301 3 crs. 1 hr.
Students are placed for one day per week in human service settings where they learn firsthand about agency structure and function, the activities of human service professionals, and the application of human service skills. Settings include community centers, hospitals, family service agencies, community residences for the developmentally disabled, senior citizen centers, homeless shelters, child psychiatry clinics, etc. A one hour weekly class session reinforces the agency experience through case presentations and group discussion. This course is open only to students enrolled in the Human Services curriculum. Please note: This course has 1 hour lecture and 7 internship hours per week. Prerequisite: HUM 101 and (HUM 201 or Gerontology major)

Field Experience in Human Services II HUM 401 3 crs. 1 hr.
This course follows the same format as HUM 301. Field Experience in Human Services I. Remaining in the same field placement, the student deepens his/her knowledge and strengthens his/her skills through continued practice and supervision. This course is open only to students enrolled in the Human Services curriculum. Please note: This course has 1 lecture hour and 7 internship hours per week. This course meets the requirements as a liberal arts elective in social science. Prerequisite: HUM 301

Social Welfare Programs and Policies HUM 411 3 crs. 3 hrs.
This course will acquaint students with the social welfare system of the United States. An historical perspective helps to illuminate the evolution of current policies, programs and practices. Poverty in the U.S. is analyzed as well as the specific programs which have been developed to alleviate it. Cross-cultural approaches to social welfare are also examined. This course meets the requirements as a liberal arts elective in social science. Prerequisite: POL 100

PHILOSOPHY

Philosophy PHI 100 3 crs. 3 hrs.
The study of philosophy helps students develop analytic skills and gain an appreciation of the general philosophical problems with which human beings have grappled throughout Western civilization. Basic philosophic problems such as free will and determinism, the criteria which justify ethical evaluations, the philosophical considerations which are relevant to belief or disbelief in God, and knowledge and illusion are examined during this course.

Logic PHI 110 3 crs. 3 hrs.
The course focuses on principles of sound thinking and valid argument in order to develop skills in analysis and evaluation of inductive and deductive reasoning. Students learn to discriminate between valid and invalid argument, using as tools the techniques of formal and symbolic logic.

Critical Thinking (same as CRT 100) PHI 115 3 crs. 3 hrs.
This course is designed to develop the mind and help sharpen students’ ability to think clearly, logically, thoroughly, critically and effectively. Through substantive readings, structured writings assignments and ongoing discussions, students will learn to use analytical skills in reading, writing, oral presentations, researching, and listening. Students will examine concrete examples from their own experience and readings and contemporary issues in the media to learn how to analyze issues, solve problems and make informed decisions in academic, professional, and personal lives.

Ethics PHI 120 3 crs. 2 hrs.
This course will examine major historical and contemporary perspectives in moral philosophy. We will consider questions such as “Are there universal moral values?”, “Are ethical conduct and self-interest compatible?”, “What is the source of our ethical obligations (God? Society? Or Reason?) and how can we justify them?” and “How does globalization impact ethical theory?” The course will look at what attributes and qualities make up a successful ethical theory and will compare competing approaches to ethical decision-making. Throughout the course, the emphasis will be on real-world ethical issues that arise in contemporary life and society.

Great Issues in Philosophy PHI 200 3 crs. 3 hrs.
This course provides an in-depth discussion of some of the great issues of philosophy. It applies analytical and logical tools for clarification of these issues with emphasis on recent/contemporary philosophical developments. Using a cross-cultural perspective, there is a focus on select topics such as ethical codes and moral conduct, political order, social justice, religious experiences and beliefs, science and knowledge and the nature of consciousness. Prerequisite: PHI 100 or 110

Great Issues PHI 200 3 crs. 3 hrs.
This course provides an in-depth discussion of some of the great issues of philosophy. It applies analytical and logical tools for clarification of these issues with emphasis on special topics within the field and expertise of the instructor. It will introduce students to major theoretical perspectives, basic research methodologies and research design issues, and central analytical models in history. The course will call upon students to write historical research papers involving library research and analysis of multiple sources. Students will spend the first third of the semester reading and analyzing examples of academic historical work. They will then write their own research papers, based on topics of their own choosing, while working in conjunction with both peers and the instructor to revise these papers. Prerequisite: ENG 201 and (HIS 101 and HIS 102) or (HIS 115 and HIS 116) or (HIS 120 and HIS 125) or Departmental Approval

On special topics within the field and expertise of the instructor. It will introduce students to major theoretical perspectives, basic research methodologies and research design issues, and central analytical models in history. The course will call upon students to write historical research papers involving library research and analysis of multiple sources. Students will spend the first third of the semester reading and analyzing examples of academic historical work. They will then write their own research papers, based on topics of their own choosing, while working in conjunction with both peers and the instructor to revise these papers. Prerequisite: ENG 201 and (HIS 101 and HIS 102) or (HIS 115 and HIS 116) or (HIS 120 and HIS 125) or Departmental Approval

www.bmcc.cuny.edu

Check www_bmcc_cuny_edu for updated information. Updated 09/01/21
on recent/contemporary philosophical developments. Using a cross-cultural perspective, there is a focus on select topics such as ethical codes and moral conduct, political order, social justice, religious experiences and beliefs, science and knowledge and the nature of consciousness.

**POLITICAL SCIENCE**

**American Government**

3 crs. 3 hrs.

The history, development, and intellectual origin of American government are studied and analyzed. Special consideration is given to the structure and operation of the executive, legislative and judiciary branches, and the role of government and politics in a modern industrial society.

**Introduction to Politics**

3 crs. 3 hrs.

This class involves students in observation and critical analysis of political affairs. Topics and themes will include both American and global perspectives and both contemporary and historical cases. The class introduces a range of approaches to the study of politics, such as empirical research, quantitative analysis, theoretical questioning, and the examination of literary or artistic works. Central concepts will include politics, power, government, conflict, and justice.

**Political Economy of Technoscience**

3 crs. 3 hrs.

Science, technology and society is constructively and deconstructively theorized within fields of knowledge known as textual and political economies. In considering competing intellectual traditions in creating a theory of science, technology, and society, themes such as the relationship between science, technology and the state; social epistemology; laboratory science studies; feminist perspectives on science and technology; ecological foundations for science and technology; and the globalization of science and technology will be discussed. This course will provide acquaintance with the everyday context of working scientists and technologists.

**Gender and Politics**

3 crs. 3 hrs.

This course uses gender as a lens of analysis for studying politics, with an emphasis on the United States. It will explore how participation, including voting, campaigning, office holding, and activism, has been gendered and how ideals of citizenship have differed for men and women, taking into account the ways that gender intersects with other categories such as race and ethnicity. The course will cover the historical development of men’s and women’s political roles, the ways gender inequality has been sustained and contested in various political contexts, and selected current issues and debates.

**Politics of Puerto Rican Communities**

3 crs. 3 hrs.

This course is an analysis of the political movements and parties of Puerto Rican communities in the U.S.A.; the relationships of these movements and parties toward political development in Puerto Rico; the role of the Puerto Rican in both traditional and radical political movements in the U.S.A.; and how political participation in the American process has come to contribute to a sense of community identity among Puerto Ricans in the U.S.A.

**Modern Black Political Thought**

3 crs. 3 hrs.

The origins of nationalist ideologies, and political and social action in the United States, Caribbean, and Africa are examined. Political and economic developments since the late 19th century are analyzed.

**World Politics**

3 crs. 3 hrs.

This course considers the basic factors involved in international relations. The components of nationalism, the state system, and the concept of politics as the crucial form of interstate relationship are discussed and examined. A systematic study is made of capabilities, goals and methods of interstate relations, considering the underlying principles, forces, patterns, and problems which historically characterize international organization and the political systems of the world.

**Urban Politics**

3 crs. 3 hrs.

This course explores the politics of cities, with special emphasis on New York City and with attention to institutions and organizations active in urban politics, urban public policy issues, and interactions between cities and other levels of government. Themes may include the roots of urban public life, the historical development and importance of cities, and current challenges to urban communities.

**Power in American Politics**

3 crs. 3 hrs.

This course analyzes the nature of power in America. Who governs? How is power exercised? What is the relationship between the private sector and the public sector? These and other areas will be investigated. The course will examine concepts and approaches to the study of power, including pluralism, elite, class, and the role of race and gender.

**Comparative Politics**

3 crs. 3 hrs.

This course provides an introduction to the comparative study of political institutions, political cultures, public policy, and forms of political action. Taking examples from different parts of the world, the course examines the development and contemporary workings of various political systems, emphasizing basic concepts and methods of comparative analysis.
correlation/regression, t-test, ANOVA, and chi-square. Students will also learn how to analyze data using statistical software and how to report their results in APA style.

Prequisite: PST 100

Psychology of Personality PSY 230
3 crs. 3 hrs.
The course focuses on exploring, critically evaluating and applying theories and concepts to the study of personality psychology. It also discusses research, assessment and influences of personality on human behavior and everyday life.

Prequisite: PST 100

Developmental Psychology PSY 240
3 crs. 3 hrs.
This course explores cognitive, emotional, and behavioral changes across the lifespan. Attention is given to how biological sociocultural factors shape the individual.

Prequisite: PST 100

Psychology of Women PSY 245
3 crs. 3 hrs.
This course involves the interpersonal and institutional socialization of women in contemporary American society and the effect of these processes on individual personality through an examination of existing roles and exploration of alternatives.

Prequisite: PST 100, SOC 100, or SSC 100

Child Psychology PSY 250
3 crs. 3 hrs.
This course explores biological, cognitive, and emotional growth from conception through adolescence. Attention is paid to the interplay of individual and sociocultural factors that influence the course of psychological development.

Prequisite: PST 100

Cognitive Psychology PSY 255
3 crs. 3 hrs.
The course is designed to introduce the students to historical, cultural and contemporary perspectives as well as scientific research in cognitive psychology. Topics include but are not limited to memory, perception, language, problem solving, decision making and cognitive neuroscience.

Prequisite: PST 100

Abnormal Psychology PSY 260
3 crs. 3 hrs.
This course focuses on historical perspectives, contemporary trends, theoretical models and scientific research in the assessment and classification of mental illness. The etiology and treatment of psychological disorders are discussed with emphasis on the role of biological, cognitive, psychodynamic and sociocultural factors.

Prequisite: PST 100

Research Psychology PSY 265
4 crs. 4 hrs.
The course is designed to introduce the students to psychological research. Students will learn about the research process by analyzing the ethical issues in research, conducting literature reviews, collecting, analyzing and interpreting the data, as well as summarizing and presenting the findings. Students may be presented with an opportunity to work with faculty on designing and implementing a research project. The course includes both theoretical and applied (lab) components.

Prequisite: PST 100 and two PSY 200-level courses

Foundations of Black Psychology (same as AFN 271) PSY 271
3 crs. 3 hrs.
The course presents Black experiences through a psychological lens. Leaning on the work of leading Black psychologists and other theorists, this course examines critical issues related to race, ethnicity, education, Black families and other social factors embedded in both contemporary and historical contexts.

Prequisite: PST 100

Cultural Psychology PSY 280
3 crs. 3 hrs.
The course will examine theoretical and methodological approaches and challenges to studying the impact of culture on psychological processes and how people construct cultural meaning. Topics may include: definition and methods of cultural psychology, self and identity, motivation and emotion, cognition and perception, morality, mental health, and migration and cultural assimilation. Implications of cultural psychology for social policy and clinical practice will be discussed.

Prequisite: PST 100

SOCILOGY

Introduction to Sociology SOC 100
3 crs. 3 hrs.
This course studies the social world and how it has evolved over time, as well as how individuals are influenced and structured by social interactions in small groups and by larger social forces. The course covers major sociological theories and research methods, and key concepts such as culture, socialization, social class, race/ethnicity, gender, technology, social inequality, and social change.

Prequisite: Permission of department

Sociology of Urban Education SOC 110
3 crs. 4 hrs.
This course examines the barriers to the completion of high school by urban high school students and presents the “mentor model” as one way to support and help students achieve in the school environment. Students taking this course will spend a minimum of 20 hours serving as a mentor to a student from a nearby high school.

Understanding Technological Society SOC 111
3 crs. 3 hrs.
This is a problem-centered and task-oriented course that integrates the humanities and the theories and practices of science and social sciences into the leading public issues of technological society. By emphasizing the close connections between science and technology, social institutions, and cultural values, students will learn how social institutions directly affect technological development and professional careers. The course also analyzes today’s “global village,” the changing relations between East and West and the Third World, and worldwide development and environmental issues.

Comparative Ethnic Studies I (same as AFL 125) SOC 125
3 crs. 3 hrs.
This course surveys the long history of cross-racial and inter-ethnic interactions among immigrants, migrants, people of color and working people in the United States and the wider world from the era of mercantile capitalism in the sixteenth century to the present. By making inroads into the dynamic worlds that indigenous people, people of African and Latin American descent, European Americans, and Asian Americans made and remade, the course aims to reach across borders of all kinds, including national boundaries, to cultivate global, transnational and comparative perspectives on race and ethnicity. In particular, it places emphasis on relationships and conflicts between these diverse groups, especially how they were treated and defined in relation to each other. Broadly, this course is concerned with how these groups struggle to stake out their place in a highly unequal world.

The Black Man in Contemporary Society (same as AFN 129) SOC 129
3 crs. 3 hrs.
The effects of economic and social factors on socialization, status, and levels of achievement among Black men are analyzed. The impact of institutional racism and underachievement on urbanized populations is explored in terms of access, social status, and economic differentials.

The Latino Experience in the U.S. (same as LAT 150) SOC 150
3 crs. 3 hrs.
This course studies the varied experiences of Latinos in the United States of America. Through readings, lectures and fieldwork, students will become familiar with the group and its diverse components from North, Central and South America as well as the Caribbean, while covering representative nationalities such as Mexicans, Salvadorians, Cubans, Colombians, Ecuadorians, Puerto Ricans and Dominicans. The course will survey the history and evolution of Latinos at the same time that it explores issues of culture and identity. Other topics include family, race relations, religion, education, economic incorporation and political participation. Key issues of contemporary interest will also be explored, such as Latinos and immigration, and the impact they have on local, state and nationwide elective office.

Puerto Rican Experience in Urban U.S. Settings (same as LAT 152) SOC 152
3 crs. 3 hrs.
This course studies the peculiar characteristics of the Puerto Rican migration to the U.S. It analyzes the processes of assimilation and adaptation to the American society as opposed to the identity and preservation of
Puerto Rican cultural values. The problems of education, housing, health services, family and community, employment, and economic development are given special attention as they relate to the unique experience of the Puerto Rican in the U.S.A.

Sociology of the Black Urban Community
(same as AFN 154)  SOC 154
3 crs. 3 hrs.
Current theories of socialization, cultural transformation, and poverty are assessed. Field visits to recognized agencies and institutions are arranged under supervision of the instructor.
Prerequisite: SOC 100 or ANT 100.

Health Problems in Urban Communities
(same as AFL 161)  SOC 161
3 crs. 3 hrs.
This course analyzes the relationships between economic and social factors, and the delivery of health care services in urban communities. Attention is given to community needs related to HIV/AIDS, tuberculosis, mortality rates, prevention, and education. Guest lecturers and workshops are presented.
Prerequisite: SOC 100 or ANT 100.

Social Problems
SOC 200
3 crs. 3 hrs.
A close relationship exists between the social problems and the values and structures regarded by society as normal and stable. In this course, students apply sociological principles, theory, methods, and research toward an understanding of social problems.
Prerequisite: SOC 100.

Gender and Society
SOC 210
3 crs. 3 hrs.
This course examines the role of gender in society, with a focus on gender as a social construction and a system of inequality that shapes contemporary society and its institutions. Topics may include the relationship of biology and gender, gender and sexuality, feminist theory, the influence of gender on institutions such as the family, schools, workplace, media, politics, etc., gender and violence, and the intersection of gender, race and ethnicity, and class.
Prerequisite: SOC 100.

Art, Culture & Society
SOC 220
3 crs. 3 hrs.
This course examines the role of arts and culture in society, with an emphasis on the social meanings, interpretation and impact of art, arts institutions, and art worlds. The roles of the artist and art world will be considered in relation to race, ethnicity, gender, sexuality, and social class. Questions of the politics, policy, and labor involved in arts and culture will be addressed. Prerequisite: Any 100-level social science course.
Prerequisite: Any 100-level social science course.

Race and Ethnicity
SOC 230
3 crs. 3 hrs.
This course focuses on sociological approaches to the study of racial and ethnic relations and their impact on social life. The relations between racial and ethnic groups in the United States will be examined from a social-structural and social-psychological perspective. This course will examine historical and contemporary constructions of identity, assimilation stratification and interaction between majority and minority groups.
Prerequisite: SOC 100.

The Puerto Rican Family
(same as LAT 234)  SOC 234
3 crs. 3 hrs.
This course studies the Puerto Rican family as the primary unit of Puerto Rican society, reflecting the patterns and dynamics of that society. It examines the variations in family structure that have evolved from the Taino, Spanish and African cultures. The historical and economic changes that have transformed Puerto Rican society are analyzed with emphasis on their effect on the family structure. The experience of migration and its impact on the Puerto Rican family are considered. Attention is given to the problems facing the family as the unit of migration.
Prerequisite: SOC 100 or ANT 100.

Urban Sociology
SOC 240
3 crs. 3 hrs.
This course involves a sociological analysis of the modern city and the urban way of life. Among the topics discussed are: the growth and decline of urban neighborhoods; social forces responsible for the modern urban community; urban ecology; urban blight and shifts in the residential distribution of racial, ethnic, and income groups; plans and policies for urban development; and the future of the central city.
Prerequisite: SOC 100.

The Family
SOC 250
3 crs. 3 hrs.
This course examines the basic functions of the family in contemporary society. The social processes involved in courtship, marriage, parenthood, alternative family models, the roles of family members, and the relationship between the various models and the community will be examined.
Prerequisite: SOC 100 or ANT 100.

The Contemporary Black Family
(same as AFN 256)  SOC 256
3 crs. 3 hrs.
The Black family in current urban/suburban settings and the effects of changing value systems, the single-parent family, crises in education, and economic stability are examined. Field visits to selected agencies and institutions are required.
Prerequisite: SOC 100 or ANT 100.

Sociology of Health and Illness
SOC 260
3 crs. 3 hrs.
Health intersects with every aspect of our daily lives as well as institutions and larger social structures. This course examines the social construction of health and medicine, with a focus on political, cultural, and economic forces that shape meaning of health, as well as medical institutions and other responses to illness. The course may include sociological perspectives of health and illness; inequality produced through social factors including sex, gender, race/ethnicity, and socioeconomic status; medicalization and social control; issues related to an aging society; and the health care system.
Prerequisite: SOC 100.

Sociology Capstone
SOC 350
4 crs. 4 hrs.
This Sociology Capstone will focus on special topics within the field and expertise of the instructor. It will provide a culminating experience for students by allowing them to explore a topic in-depth, engage in independent research, develop their analytical skills and critical thinking abilities, and apply concepts and theories to new cases. The capstone course will introduce students to the major theoretical perspectives, the basic research methodologies and research design issues, and the central analytical models in Sociology. Over the course of the semester, each student will engage in independent research that culminates in a research paper or project and a presentation to the class. Prerequisite: ENG 100.5 or ENG 101 and two SOC course electives, one of which must be a 200-level course.

SOCIAL SCIENCE

Field Experience in Italy
SOC 150
3 crs. 3 hrs.
This course offers the student Social Science field experience in Italy. Orientation, seminars with guest lecturers, field trips to sites of historic interest, and cultural tours are an integral part of the travel program. The field experience base of operations is a university in Italy.

The Black Experience in Africa
(same as AFN 253)  SOC 253
3 crs. 3 hrs.
This course is designed to provide the student with an introduction to the cultures of selected African nations through travel, structured reading, and lectures conducted on the campuses of African colleges and universities. Requirements include a term paper. This course and LAT 475 are part of the Department of Ethnic and Race Studies’ Study Abroad Program.

Latin American Caribbean Society
(same as LAT 475)  SOC 475
3 crs. 3 hrs.
This is a summer course taught abroad in a Latin American or Caribbean country. It offers the student the opportunity to travel, to share, to live and to study in another country. From a global perspective, this course explores the history and culture of a selected Latin American or Caribbean country by focusing on religion, homeland, art, family, identity, film, economic development, social and political movements and environment as they are presented as major themes of current research and in the tangible appreciation of the student.
Prerequisite: A functional knowledge of the language of the country or countries visited may be required.
SPEECH, COMMUNICATIONS, AND THEATRE ARTS

Course Descriptions

Speech, Communications, and Theatre Arts

Room S-628, Telephone: (212) 220-8090
spe.com.the@bmcc.cuny.edu

The courses offered by the Department of Speech, Communications, and the Theatre Arts are aimed at developing and enriching skills in communications and/or performance. The electives in Speech (SPE) introduce students to voice and diction, oral interpretation, public speaking, the mass media and interpersonal communication. The department offers programs in Communication Studies (A.A.) and Theatre (A.S.).

Chairperson: Tzu-Wen (Vincent) Cheng
Deputy Chairpersons: Felecia Harrelson, Benjamin Powell, Karl Williams
Professors: Tzu-Wen (Vincent) Cheng, Diane Dowling, Hollis Glaser, Katherine Kavanagh, Susana Powell, Nadia Zukic
Associate Professor: Elizabeth Chaney, Bertie Ferdmann, Benjamin Haas, Christopher Jackson, Anthony Naeke, Benjamin Powell, Brienne Waychoff
Assistant Professors: Naseer Aloomari, Charles Burks, Antoine Hardy, Eva Kolbusz-Kijne, Christopher Moss, Leopold Murphy, Scott Tulleoh
Instructors: Joseph Hutcheson, Angela Polite, Carline Romain, Claudia Terry
Lecturers: Kenneth Antrobus, Gillian Bonanno, Mila Brisbon, Janet Douglas Pryce, Felecia Harrelson, Mark Janis, Alkis Papoutsis, Lee Ritchey, Kerry Ruff, Karl Williams
College Laboratory Technician: Jose Ventura
Adjunct Faculty: There are approximately 50 adjuncts in the department.

Communications Studies

Introduction to Communication Studies

COM 100
3 crs. 3 hrs.
Introduction to Communication Studies is a survey course that examines major research areas, perspectives, and theories within the field of communication studies. The course will introduce and review key approaches to the study of human interaction, rhetoric, language, persuasion, and cultural processes across diverse contexts. Specifically, the course provides an interdisciplinary framework from which students will think seriously about how culture and society are constructed in our communicative practices, explore how language and meaning structure our reality, as well as examine the social, cultural, and political impacts of human communication as it unfolds in varied fields including interpersonal communication and conflict resolution, intercultural communication, rhetoric, media studies, as well as organizational and small-group communication.

Introduction to Digital Communication and Culture

COM 150
3 crs. 3 hrs.
This course introduces students to the major critical methods, policy issues, and creative forms involved in contemporary digital media in the United States and across the globe. The course will foster discussion regarding the ways digital media affects ways of thinking, availability and access to ideas and cultures, ways of storing knowledge and memory, and avenues for cultural resistance and activism.

Interpersonal Communication

COM 240
3 crs. 3 hrs.
The course introduces the basic concepts and theories of interpersonal communication in personal, educational and business settings. This includes a study of self as communicator, the effect of language on others, verbal and nonverbal expression of thoughts and feelings, and factors which contribute to effective communication.

The Mass Media

COM 245
3 crs. 3 hrs.
The focus of this course is to provide an understanding of the influence and impact on our lives and society by the mass media. The course examines the history, law, technology, economics and politics of the mass media through independent study, field trips, etc. Students are encouraged to be aware of techniques of influence used by the mass media to influence and determine social and political values. In addition, students learn to develop tools for critical analysis of and standards for discriminating consumption of the mass media.

Conflict Resolution

COM 250
3 crs. 3 hrs.
The emphasis of this course is on developing communication behaviors that productively manage conflict; it is structured to integrate communication theory with practical application. Through readings, lectures, sample conflict cases, and interviews, as well as through in-class discussion and exercises, this course will address both intra-personal and inter-personal conflicts that occur in diverse settings, examine the sources of these conflicts, and analyze the factors that influence how we identify, define, manage, and defuse these conflicts.

Intercultural Communication

COM 255
3 crs. 3 hrs.
This course is designed to provide an understanding of intercultural principles and perspectives when communicating with people from diverse cultures. Consideration will be given to both verbal and nonverbal communication processes in the “American” culture, co-cultures, contact cultures, and popular culture. Through readings, lectures, response papers, and interviews, as well as through in-class discussion and exercises, this course will explore how culture shapes communication, how situations are framed through cultural lenses, and how histories, perceptions, values, contexts, aspects of stereotypes, and ethnocentrism all contribute to the complexity of intercultural communication.

Small Group Communication

COM 260
3 crs. 3 hrs.
This is a class in small group communication. It covers communication dynamics such as group development, decision-making, discussion, leadership, roles, norms, and conflict. Text and lectures focus on small group communication theory, concepts, and processes. A significant part of the class consists of learning the material through class exercises, participation in a variety of small groups, and reflecting on those experiences.

Introduction to Rhetoric and Public Address

COM 270
3 crs. 3 hrs.
Students survey benchmark rhetorical perspectives and apply them to analyze various “texts” of the contemporary public sphere, such as: speech; public oratory; radio; television; film and news media; digital media; images; architectural landscapes and geographic place. Students will be introduced to the history of the rhetorical tradition and become acquainted with a wide range of analytical approaches. This introduction to rhetoric and public address aims at empowering students to actively participate in civic discourse and advocacy by honing their ability to critically analyze and respond to rhetorical appeals.

Prerequisite: ENG 101
**Course Descriptions**

**SPEECH, COMMUNICATIONS, AND THEATRE ARTS**

**Gender and Communication**
COM 265  
3 crs. 3 hrs.  
The purpose of this course is to raise students’ awareness regarding the ways in which gender is created, maintained, and/or changed through cultural expectations and interaction. Students will gain theoretical insights and develop analytical skills to identify gendered expectations, and to learn how such expectations serve to limit behavior for people of all genders. The course will enhance understanding of how predominant social assumptions and communication norms can devalue and silence women and other non-dominant groups, and how students can become change agents to enhance our collective lives.  
Prerequisite: SPE 100

**Communication Studies Internship**
COM 361  
2 crs. 15 hrs.  
The objective of the internship is to allow the student to put classroom theory in his/her major into practice in order to gain work experience. Each student-intern will work 15 hours a week for the length of the semester. Each student-intern is assigned to an internship professor (a full-time faculty member who is knowledgeable about the student’s field). The internship professor helps the student secure internship placement in a worksite related to the student’s major, or assists the student to “reconstruct” his/her present position as an internship; or develop-by special arrangement—an internship with his/her present employer, and serves as the student’s instructor and advisor during the field experience. Student interns are expected to work 15 hours a week, complete a term project assigned by the internship professor, and be evaluated by the worksite supervisor. Students to be placed are expected to arrange their schedules so that they are free mornings or afternoons, Monday-Friday or two to three full days per week.  
Prerequisites: Completion of all remedial requirements and an overall GPA of 3.0 or 3.0 in major classes; a B or better in ENG 201 and SPE 100 or permission of the instructor; completion of CED 201; completion of at least 36 credits of coursework including prerequisites listed below: COM students must have completed: COM 240, COM 245, COM 250, VAT 152

**SPEECH**

**Fundamentals of Public Speaking**
SPE 100  
3 crs. 3 hrs.  
The aim of this course is to develop effective skills in speech communication. The student examines how to generate topics and organized ideas, masters elements of audience psychology and practices techniques of speech presentation in a public forum. All elements of speech production and presentation are considered.

**Fundamentals of Public Speaking for Non-Native Speakers**
SPE 102  
3 crs. 3 hrs.  
This course is recommended for those whose native language is not English. It addresses fundamentals of speech communication, as does SPE 100, but provides special emphasis in vocabulary building, pronunciation, and enunciation. Classwork is implemented through the use of recordings, individual and group drills, interpersonal exercises, oral readings, and impromptu and prepared group discussions and speeches. Weekly speech tutoring is required. This course satisfies the equivalent for, and may be taken instead of, SPE 100. Credit is given for SPE 102 or SPE 100, but not for both classes.

**Voice and Articulation**
SPE 103  
3 crs. 3 hrs.  
This course is designed for those students who wish to improve their speech communication in the business and professional environment. Study of voice and articulation, development of auditory discrimination, utilization of individual and group exercises, and application of speech in group discussions and interviews are covered. This class is particularly recommended for those whose native language is not English as well as those desiring additional improvement in speech and language.  
Prerequisite: SPE 100 or SPE 102

**INTRODUCTION TO CONTEMPORARY MEDIA APPLICATIONS (SAME AS VAT 152)**
SPE 152  
3 crs. 3 hrs.  
This course introduces the key concepts of preparing a media project with the development of a needs analysis and a treatment for client proposals. The basics of scripting, graphics, and audio and video elements are covered. These elements are then illustrated in detailed discussions of contemporary media, including film and video production. Students progress to discussion of satellite and Internet technologies that include teleconferencing, business, television and video news releases. Multimedia implementation is then covered by analyzing case studies in electronic press kits and website design.

**Oral Interpretation**
SPE 210  
3 crs. 3 hrs.  
This course is devoted to the reading aloud of various works of literature, such as poetry, prose or drama, in order to develop an awareness of the voice and body as an instrument of communication, and to instill an appreciation of the beauty and sensitivity of the English language.

**Advanced Public Speaking**
SPE 220  
3 crs. 3 hrs.  
The aim of the course is to provide the student with advanced experiences in the preparation and analysis of oral presentations for professional, nonprofessional, and academic situations. A detailed study of the principles and theories of public speaking is made. The course includes the presentation of student speeches.  
Prerequisite: SPE 100 or permission of department

**THEATRE**

**Introduction to Theatre**
THE 100  
3 crs. 3 hrs.  
The collaborative nature of the theatrical event will be explored in readings, presentations, play attendance, papers and creative projects. Contributions of the playwright, actor, director, designer, architect, critic, producer and audience will be investigated through selected periods, genres, theatre spaces and styles of production. The student’s potential roles and responsibilities in creating theatre will be emphasized.

**Acting I**
THE 110  
3 crs. 3 hrs.  
Basic acting skills, a method of approaching a role, a working vocabulary, and the responsibilities of the actor will be studied through improvisations, theatre games, and performance of scenes or monologues from plays and other dramatic material studied in class.

**Voice and Movement for the Actor**
THE 115  
1 cr. 1 hr.  
An introduction to voice and body work. Students will participate in warm-ups and exercises that promote concentration, relaxation, trust, vocal resonance, physical flexibility, and strength.

**Elements of Production**
THE 121  
3 crs. 3 hrs. 1 lab hr.  
This course is designed to give the student a comprehensive overview of the fundamentals of professional theatre production, including the basic skills and technical theories involved in scene design, stagecraft, stage properties, costuming, lighting, and sound. Physical theatre layout, crew organization and responsibilities, safety requirements, and practical experience in building and running a production will be taught. Students will serve on a crew for a BMCC theatre event.  
Prerequisite: THE 100

**Scenic Practicum**
THE 125  
1 cr. 1 hr. 2 lab hrs.  
This course provides practical training, working side-by-side with designers and technicians to build and run the current production. Focus is on scenic and prop creation, including an introduction to common tools and basic construction techniques with an emphasis on safety. The areas in which students gain experience are determined by their interest and availability.  
Prerequisite: THE 121

**Costume Practicum**
THE 126  
1 cr. 1 hr. 2 lab hrs.  
This course provides practical training, working side-by-side with designers and technicians to build and run the current production. Focus is on costume technology and wardrobe crew. The areas a student gains experience are determined by their interest and availability.  
Prerequisite: THE 121

**Performance Practicum**
THE 127  
1 cr. 1 hr. 2 lab hrs.  
This variable topics course provides practical training in rehearsal, performance and production practices, including acting, stage management, and running crew. The play to be produced will be announced at registration. Enrollment is by audition only. Course may be taken up to three times for credit.

**Special Topics Practicum**
THE 128  
1 cr. 1 hr. 2 lab hrs.  
This variable topics course provides practical training in an aspect of theatre production, such as lighting, scenic painting, or sound. The student will be introduced to the specialized tools and techniques of the topic, with an emphasis on safety. The major content of the course will focus...
Course Descriptions

SPEECH, COMMUNICATIONS, AND THEATRE ARTS

Check www.bmcc.cuny.edu for updated information. Updated 09/01/21

THE 100 3 crs. 3 hrs.
This course is designed to help students develop the skills and knowledge essential to execute stage management duties in preproduction work, rehearsal and performance of theatrical productions. Students will examine dramatic texts from the perspective of the stage manager. The stage management skills gained will also provide practical insights into many fields, including film, television, special events, and any business where timely, effective communication and coordination between groups is essential.
Prerequisite: THE 121

THE 140 3 crs. 3 hrs.
This course continues the study of methods for further study in theatre management.
Prerequisite: THE 125

THE 104 3 crs. 3 hrs.
Drawing from examples and occasional guest speakers from the New York theatre world, this course provides an introduction to the theory, principles and practices of theatre management. Students will create their own fictional theatre company, applying the principles of mission structure, and financial planning. Practical experience in management is gained through crew assignments. Oral and written presentations, resulting in a casework, aim to sharpen communication skills and prepare students for further study in theatre management.
Prerequisite: THE 100

THE 110 3 crs. 3 hrs.
This course continues the study of methods and exercises introduced in Acting I to develop the actor’s skills, and moves on to an in-depth study of scene analysis and characterization. Creating an ensemble and exposure to different historical periods will be emphasized.
Prerequisite: THE 110

THE 210 3 crs. 3 hrs.
This course is designed to give the student experience in all the aspects of bringing a play to production. As the play is cast, rehearsed, designed, built, advertised, and performed for an audience, students will learn about the responsibilities and collaboration between the different participants involved in theatre production. Students will have the opportunity to hone their acting skills, and must also contribute to at least one other aspect of the production.
Prerequisites: THE 125 or THE 126 or THE 127 or THE 128

Musical Theatre: Acting the Song, Level I (same as MUS 222) 3 crs. 3 hrs.
This course is the first level of a two-semester sequence in musical theatre singing performance skills. Students will be introduced to acting through song, correct vocal techniques and sound production. The interpretation of lyrics as well as the understanding of character, time period and musical style will be emphasized.
Prerequisite: THE 210 and MUS 170, or permission of the instructor and admission is by audition held in Music and Art Department

THE 258 3 crs. 3 hrs.
Students serve as interns for a production company in the entertainment industry. The work of the internship can include technical skills, front-of-house, marketing, performance, directing, choreography or other aspects of production, including publications and other media.
Prerequisite: THE 125 and departmental approval

Acting for the Camera 3 crs. 3 hrs.
This course will train the advanced acting student in natural, proficient acting for the camera. Techniques and acting methods will be taught in BMCC’s state-of-the-art studio; students will work in front of the camera and will be able to view their own performances on tape.
Prerequisite: THE 210 and audition

History of Theatre 3 crs. 3 hrs.
A survey of the theatre of the world from its ritual origins to Jacobean England. Major periods explored through reading and viewing significant plays, studying the sociological forces that led to different theatrical forms, theatre architecture, methods of production, playwrights and the relevance of these plays and theatrical forms today.
Prerequisite: THE 100 and ENG 201 or ENG 121

Women in US-American Theater 3 crs. 3 hrs.
This course explores, analyzes, and examines women’s contribution to US-American theater, beginning with Colonial women up to contemporary women. The course will investigate how women have contributed and continue to contribute as playwrights, actors, directors, managers, producers, and through women’s collectives to the evolution of US-American theater. Most materials are available to students without costs, through open source material, e-resources, or on reserve in the BMCC library.
Prerequisite: ENG 201

Advanced Theatre Workshop 3 crs. 3 hrs.
This studio course is designed to provide students with advanced creative techniques to deepen their skills as performers. Topics are presented by visiting theatre practitioners in a workshop series. Focus is on creating original work in the following areas: devised work, dance and movement for actors, and solo work. Exercises and improvisation are designed to enhance concentration, imagination, resonance, movement and will culminate into performances after each section. Students will create and workshop performances with a focus on learning new approaches to language, structure and movement. The course emphasizes the collaborative nature of theatre. Appropriate research and reading will be required in addition to artistic assignments.
Prerequisite: THE 110, THE 121 and audition or departmental permission

Playwriting (same as ENG 315) 3 crs. 3 hrs.
The objective of THE 315: Playwriting is to sharpen students’ creative writing skills and to teach them the elements of playwriting and character development. Through the reading of one-act plays and practice writing exercises each week, students will learn the craft of playwriting. They will write scenes and create their own one-act plays.
Prerequisite: ENG 101 and ENG 201, or ENG 121

Latin American Theatre and Performance (same as LAT 124) 3 crs. 3 hrs.
This survey course will look at major trends and directions in Latin American theatre by drawing on plays and performance ensembles of the mid-twentieth century to the present. We will look at the work of some of the most influential playwrights, directors, and ensembles as they grapple with their political, national, and cultural contexts, and discuss these artists’ dual commitment to social conscience and artistic expression. We will read manifestoes and plays by many of Latin America’s major playwrights and performing artists, as well as critical writing by scholars and historians. We will also engage with documentary films and videos of performances.
Prerequisite: SPE 100 or THE 100 or LAT 100

Singing Performance 3 crs. 3 hrs.
The aim of this course is to develop students’ understanding of the history and practice of North American solo performance in the 20th and 21st centuries. Students will study solo performances by visiting theatre practitioners, and ask them to contemplate its role in the history of solo performance.
Prerequisite: THE 210 or audition for professor

Women in Latin American Theatre 3 crs. 3 hrs.
Women in Latin American theatre and playwrights.
Prerequisite: THE 210 or audition for professor
Teacher Education

Programs in the Teacher Education Department are designed to provide students with a strong foundation in early childhood (birth to second grade) or childhood (first to sixth grade) education. These programs also give students substantial background in the liberal arts and sciences.

The Early Childhood Education Program offers students the choice of focusing on infants and toddlers from birth to three (ECI) or preschoolers and early elementary school age children ages 3 to 8 (ECP). In addition, a large percentage of early childhood majors choose to continue their education at 4-year colleges in order to become head teachers with initial New York State certification. Upon completion of the program requirements in Early Childhood Education, the Associate in Science (A.S.) degree is awarded.

The Childhood Program is jointly registered with City College. In addition to a solid foundation in the liberal arts and sciences, students will take two or three educational foundations courses that prepare them to continue their studies in Childhood (EDU) or Bilingual Childhood Education (EBD) for Spanish, Haitian Creole or Mandarin leading to initial New York State certification for elementary school teachers (first through sixth grades). Childhood courses may be taken as electives by students who wish to continue in teacher education at the 4-year college but are not enrolled in either of the teacher education degree programs. Upon completion of the program requirements in Childhood Education, the Associate in Arts (A.A.) is awarded.

The Secondary Education Program offers students a solid foundation in the liberal arts and sciences, as well as educational foundations and subject concentration courses. The Secondary Education Program offers students the choice of a major focusing in four teaching subject areas: Secondary Mathematics Education (SEM Major), Secondary Biology Education (SEB Major), Secondary Chemistry Education (SEC Major) and Secondary Physics Education (SEP). The courses in all four secondary education majors provide beginning preparation for later studies at a senior college, with the ultimate goal of obtaining initial New York State certification for secondary school teachers (in the specific subject concentration of Mathematics, Biology, Chemistry or Physics). Students in the Secondary Education Program will need to continue their academic work at a senior college after completing their degree at BMCC and to obtain a BA degree, along with other state requirements, to become a certified teacher. Our Secondary Education Program has an articulation agreement with Lehman College within CUNY. Upon completion of the program requirements in either SEM, SEB, SEC or the SEP major, an Associate in Science (A.S.) in Secondary Education degree is awarded.

Chairperson: Yolanda Medina
Deputy Chairperson: Cara Kronen
Professors: Mohammed Ahmeduzzaman, Yolanda Medina, Jean Yves Plaisir
Associate Professors: Rebecca Garte, Jennifer Gilken, Ruth Guirguis, Cara Kronen, Jennifer Longley, Mindi Reich-Shapiro
Assistant Professors: Kirsten Cole, Leslie Craigo, Meghan Raimundo
Instructors: Laura Kujo, Janice Szarko
Adjunct Faculty: There are approximately nine adjuncts in the department.

BILINGUAL CHILDHOOD EDUCATION

Schools in a Linguistically Diverse American Society: EBD 202
4 crs. 3 hrs. 1 lab hr.
This course focuses on the historical, sociological, philosophical and linguistic foundations of bilingual education. It analyzes how educational practices and schools influence society in general, while also exploring issues affecting the academic achievements of bilingual and language minority groups in particular. Students participate in a minimum of 30 hours of course-related fieldwork.
Prerequisite: EDU 201

CHILD CARE/EARLY CHILDHOOD EDUCATION

Psychological Foundations of Early Development and Education ECE 110
3 crs. 4 hrs.
This course examines the psychological and psychosocial foundations of early childhood and relates these foundations to educational practice with your children, birth to six years. It focuses on historical and contemporary theories of childhood development. Early learning is considered in relation to biological factors, child and family factors, program factors and social factors, particularly in diverse urban settings. Young children’s physical, cognitive, communicative, social and emotional development is explored as contributors to and as consequences of early learning experiences. This course requires 15 hours of fieldwork.

Infant Care and Curriculum ECE 209
4 crs. 4 hrs.
This course focuses on the theories, methods and materials of early childhood education for infants (birth to 18 months), with emphasis on addressing developmental needs and culturally appropriate practices in their education and care. The following topics are explored in depth: social, emotional, cognitive and physical development of infants; basic principles of infant care giving, including providing culturally sensitive and consistent care; arrangement of the environment and developmentally appropriate experiences to promote infant growth and learning; the role of parents and establishing partnerships with families.
Prerequisite: Grade of “C” or better in ECE 110

Social Foundations of Early Care and Education ECE 210
3 crs. 4 hrs.
This course provides an overview of the social context of early care and education. It focuses on the historical, philosophical, sociological, and political foundations of programs for young children, birth to eight years. The following topics will be explored in depth: Historical and contemporary theories of early childhood education, materialist and social ecological factors in early care and schooling, particularly for diverse urban settings; early childhood programming; family and community involvement; advocacy, trends and current issues in early childhood practice. This course requires 30 hours of fieldwork.
Prerequisite: Grade of “C” or better in ECE 110

Curriculum for Young Children I ECE 211
4 crs. 4 hrs.
This course is an introduction to the theories, methods and materials of curriculum planning in early childhood education (preschool to 2nd grade), with an emphasis on providing developmentally and culturally appropriate learning environments and experiences that encourage creativity in young children. The following topics are explored in depth: the intellectual and emotional importance of fostering creativity, the role of play in learning, the design of effective arts-based learning environments; the role of visual arts, music, movement and language arts/emerging literacy in developing children’s cognitive, social-emotional, physical, language and self-help skills. Course work includes workshops in planning and implementing creative arts experiences for your children.
Prerequisite: Grade of “C” or better in ECE 110

Infants and Toddlers Practicum I: Observing and Recording ECE 308
4 crs. 6 hrs.
This is a fieldwork course focusing on the observation and assessment of infants and toddlers. It requires supervised participation in an assigned early childhood education setting (birth to 36 months) and attendance at a weekly seminar. Students will learn the appropriate use of assessment and observation strategies to document the development, growth, play and learning of infants and toddlers; and how authentic assessment methods can be used to tailor curriculum to promote children’s success. Recording strategies, rating systems, child studies/ portfolios, and various assessment tools are explored. Students spend a minimum of 60 hours in the field.
Prerequisite: Grade of “C” or better in ECE 209 and ECE 210

Toddlers Care and Curriculum ECE 309
3 crs. 2 hrs. 2 lab hrs.
This course is a continuation of ECE 209, focusing on the theories, methods and materials of early childhood education for toddlers (ages 18 months to 36 months). The following topics are explored in depth: social, emotional, cognitive, physical and self-help development of toddlers; basic principles of toddler caregiving, including providing culturally sensitive and consistent care; arrangement of the learning environment
and developmentally and culturally appropriate experiences to promote toddler growth and learning; the role of parents and establishing partnerships with families. 

Prerequisite: Grade of “C” or better in ECE 209 and ECE 210

Early Childhood Practicum I: Observing and Recording ECE 311
4 crs. 6 hrs.

This is a fieldwork course focusing on the observation and assessment of young children. It requires supervised participation in an assigned early childhood education setting (preschool to second grade) and attendance at a weekly seminar. Students will learn the appropriate use of assessment and observation strategies to document the development, growth, play and learning of young children; and how authentic assessment methods can be used to tailor curriculum to promote children’s success. Recording strategies, rating systems, child studies/portfolios, and various assessment tools are explored. Students spend a minimum of 60 hours in the field.

Prerequisite: Grade of “C” or better in ECE 210 and ECE 211

Curriculum for Young Children II ECE 312
3 crs. 2 hrs. 2 lab hrs.

This course is a continuation of ECE 211, focusing on the theories, methods and materials of curriculum planning in early childhood education (preschool to 2nd grade). The emphasis in this course is on providing developmentally and culturally appropriate learning environments and experiences that encourage foundational social scientific, mathematical and scientific thinking and skills in young children. The following topics are explored in-depth: social studies as a lens by which young children can explore our natural and human-made world; the use of block/construction and cooking experiences for the integration of social studies, mathematics, science, literacy and the arts. Course work includes workshops in planning and implementing inquiry/play-based experiences for young children.

Prerequisite: Grade of “C” or better in ECE 311 and ECE 312

Infants and Toddlers Practicum II: Pedagogy for Infants and Toddlers ECE 409
4 crs. 8 hrs.

This is a capstone fieldwork course that enables students to demonstrate their competencies teaching young children. It requires supervised participation in an assigned early childhood education setting (preschool to 2nd grade) and attendance at a weekly seminar. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning and assessment; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences that promote positive development for learning. Within the context of race, class and culture, the following topics are explored in depth: the nature of intelligence, gender identity, attachment and other psychosocial attributes (typical and atypical). Students participate in a minimum of 15 hours of course-related fieldwork.

Prerequisites: PSY 100

Urban Schools in a Diverse American Society EDU 202
4 crs. 4 hrs.

This course provides an overview of the social context of schooling within the diversity of American society. It focuses on the historical, philosophical, social, and political foundations of education, especially in urban settings. The following topics are explored in depth: the notion of schooling, multicultural education, tracking, funding, school reform, and issues of inequality and privilege. Students participate in a minimum of 15 hours of course-related fieldwork.

Prerequisite: EDU 201 or EDU 203

Art in Education EDU 203
3 crs. 2 hrs. 2 lab hrs.

This course is an introduction to the theories, methods and materials for integrating visual arts into the elementary school curriculum. Through reading, writing, and viewing of visual art and participation in hands-on studio projects, student will explore the intellectual and emotional importance of expressing creativity through visual art.

Music and Movement in Learning (same as MUS 116) EDU 204
3 crs. 2 hrs. 1 lab hr.

This course will prepare future elementary school teachers to bring music to the classroom. Elementary level vocal music will be studied with an emphasis on singing, conducting, and choreographing. The first several weeks will be devoted to gaining an understanding of rhythmic notation through written work and score study. An understanding of time signatures and meter will be emphasized through classroom and homework. Subsequent lessons will focus on pitch and reading melodies. An understanding of basic musical forms such as binary and ternary will be gained with consideration given to body movement. Each student will prepare a sample lesson plan for teaching movement in a simple choral piece and teach it to the class. Discussion
of standard public school requirements for lesson planning will be included.

SECONDARY EDUCATION

Adolescent Learning and Development  EDS 201
3 crs. 3 hrs.
This course will prepare future elementary school teachers to bring music to the classroom. Elementary level vocal music will be studied with an emphasis on singing, conducting, and choreographing. The first several weeks will be devoted to gaining an understanding of rhythmic notation through written work and score study. An understanding of time signatures and meter will be emphasized through classroom and homework. Subsequent lessons will focus on pitch and reading melodies. An understanding of basic musical forms such as binary and ternary will be gained with consideration given to body movement. Each student will prepare a sample lesson plan for teaching movement in a simple choral piece and teach it to the class. Discussion of standard public school requirements for lesson planning will be included.

Special Topics in Secondary School Education  EDS 202
3 crs. 3 hrs.
This course focuses on literacy development, second language acquisition and special education accommodation strategies, which constitute three major competency areas in the professional development and the education process of middle and secondary school teachers. In addition to providing firm theoretical groundings in those three overarching and interlocking topics, class sessions will address issues of particular concern to and interest of both middle and secondary education candidates. Prerequisite: PSY 100
CUNY/BMCC Special Programs

CUNY/BMCC Special Programs

The City University of New York (CUNY) and BMCC provide educational programs to help you develop beyond your academic degree requirements. The following special programs are available:

CUNY Baccalaureate Degree Program
The CUNY Baccalaureate Degree Program enables self-directed, academically strong, highly motivated students to design their own academic course of study under the guidance of faculty mentors. If the student has unique academic goals or career objectives and is interested in designing a completely individualized course of study leading to the B.A. or B.S. degree, then this program offers a singular opportunity. Campus Coordinator of the CUNY Baccalaureate is Prof. Rolando Jorif, Room N-751.

Directed/Independent Study
The Directed/Independent Study Program is available for advanced students to work independently of a formal classroom situation. This option is available for approved BMCC courses. A maximum of 9 credits may be earned. For information on eligibility and enrollment procedures, please contact the Department Chairperson of your particular field of interest.

BMCC Transfer Programs
To help our graduates make a seamless transition to a senior college, BMCC has formalized articulation agreements with a number of academic programs at senior institutions such as the following:

The Community College Transfer Opportunity Program (CCTOP) is a partnership between BMCC and New York University (NYU). Transfer agreements have been worked out between the two colleges that will enable students to transfer at least 60 college credits to a related program of study at NYU. For further information, please visit the Academic Advisement and Transfer Center in Room S-108.

The NYU Pipeline Opportunities for Inter-College STEM Education (POISE) program creates a pipeline for sophomore-standing BMCC students from underrepresented minority groups pursuing STEM (science, computer science, engineering, psychology, and math) disciplines. These students will be supported and mentored by BMCC and NYU faculty, staff, and students; in addition to the ongoing support provided by BMCC. http://www.bmcc.cuny.edu/academics/special-programs.jsp

The Vassar College Summer Exploring Transfer Program is an intensive five-week program designed to expand transfer options by introducing community college students to a 4-year residential liberal arts college experience. Thirty-five students (approximately 6 from BMCC) from seven community colleges from New York City and upstate counties live full time in a residence hall on the Vassar campus in Poughkeepsie, NY while taking interdisciplinary, liberal arts courses. Each three-credit course is transferable. The courses are team taught by faculty members from Vassar and the participating community colleges. Past courses included The Idea of Difference in Literature and Society; Examination of Power in Literature and Political Theory; and The American Mosaic.

GUIDE Program
The GUIDE program is a partnership between NYU’s Gallatin School of Individualized Study and the Borough of Manhattan Community College (BMCC). Gallatin faculty and advisers mentor several high-achieving BMCC students, preparing them to succeed as full-scholarship juniors and seniors in Gallatin’s rigorous liberal arts BA-degree program.

The GUIDE program is an invite-only program. BMCC will identify a cohort of eligible students who will be invited to attend an information session and submit an application.

GUIDE is tailored to students interested in studying social justice, which is understood broadly to include: social movements, law and governance, urban democracy, economics, identity formation, political literature and art, arts activism, and environmental studies.
Center for Continuing Education and Workforce Development

Through the Center for Continuing Education and Workforce Development, Borough of Manhattan Community College responds to community needs by providing specialized classes and employment services. The non-credit tuition classes offered throughout the year cover a broad spectrum of topics to meet the ever-changing needs and interests of our adult community. The bounty of courses, seminars and workshops in our catalogue is our response to help learning become a lifelong venture and to help you reach your personal and professional goals.

In response to an increasingly competitive job market, the Center also supports multiple initiatives in retraining and upgrading job skills through partnerships with other community and state organizations that focus on underemployed and unskilled workers.

Please contact our office at (212) 346-8410 for additional information or visit our website at www.bmcc.cuny.edu/ce.

Free HSE, Pre-HSE, ESL, and Literacy Classes
These classes are available to students who satisfy the eligibility requirements. All applicants must be U.S. citizens or permanent residents, 19 years of age or older and unemployed, under-employed, or on public assistance.

CUNY Language Immersion Program (CLIP)
This program is for individuals who are CUNY freshman, have limited English proficiency, and want to study English as a Second Language (ESL) before beginning college credit courses. Classes meet for 25 hours each week and students may stay for one, two, or three semesters. There are day and evening classes. For more information call (212) 665-2740.

CLEP-the College level Examination Program (CLEP) allows you to demonstrate college-level achievement through a series of exams in undergraduate college courses. There are currently 2,900 colleges that grant credit and/or advanced standing for CLEP exams. BMCC is an open testing center and administers all 34 computer based exams in its secure testing laboratory. To request the next available exam date call (212) 346-8410.

Business Training Center
Business Owners, Training Managers, Human Resource Professionals
The Business Training Center can make arrangements for in-house presentation of Continuing Education programs, courses, workshops, and seminars, which can be designed to the specifications of your organization. Companies and organizations may also arrange to send employees on campus for training at a special tuition rate or on a contractual basis. Certificates of Completion will be awarded for such programs. For further information, please contact contact Jose Flores at (212) 346-8615.

On-Site Consultant
Our business representative will consult with you to design training that meets your company’s needs. If you have 10 or more employees who would benefit from these training sessions, please call Jose Flores (212) 346-8615 to set up a consultation to discuss your company’s needs.

Information Technology
IT continues to be one of the fastest-growing job sectors in the workforce. Continuing Education offers intensive certification programs in the most widely used networking technology, media arts and office software programs. Whether just starting, or wanting to continue to add to your skills we can help you build from the ground up.

Here are the courses we offer:

CISCO Network Academy
• CCNA
• CCNP
• Security Programming
• C++
• Python
• JAVA
• Ruby
Business Intelligence and Analytics
• Data warehousing and Business Intelligence
• SQL
• Tableau
Web Development Program
• HTML5
• CSS
• JavaScript

To learn more, visit our website at www.bmcc.cuny.edu/ce or call (212) 346-8410.

Media Arts
Whether you’re an amateur, a seasoned pro, or just looking to invest in a new hobby, BMCC is ready to help you fulfill your creative vision through the power of modern digital technology. Our Film and Graphic design courses are taught in state-of-the-art Mac Labs and are facilitated by veteran artists and industry experts in film and graphic design.

• Photoshop
• Illustrator
• InDesign

To learn more, visit our website at www.bmcc.cuny.edu/ce or call (212) 346-8410.

Allied Health
Allied Health is one of the high growth job sectors in our economy. To keep pace with the growing baby-boomer population and advances in modern medicine, hospitals, doctor’s offices, and clinics will continue to rely upon medical professionals. The work Allied Health professionals perform ranges from the administrative duties like Billing and Coding to more hands-on careers such as and Medical Assistant Specialists and Electronic Health Records. Here are the courses we offer:

• Basic Cardias Life Support
• Basic Spanish for Healthcare Professionals
• Hemodialysis
• Medical Assistant Specialist
• Medical Billing and Coding

Professional Development
Professional Development focuses on career enhancement and functional marketplace expertise through the acquisition, or development of project management and leadership skills, business writing fluency, and increased knowledge and proficiency in QuickBooks and Microsoft Office programs including Excel and PowerPoint. Here are the courses we offer:

• Advanced QuickBooks
• Basic Accounting with QuickBooks
• Intermediate Spanish
• Notary
• Professional Writing
• Speaking in Public

To learn more, visit our website at www.bmcc.cuny.edu/ce or call (212) 346-8410.

Online Career Training
If you are considering a career change, or are ready to move up the corporate ladder, Continuing Education offers a wide range of certificate and certification programs that will help you accomplish your goal. Our programs include job search strategies, business and marketing writing, legal programs plus much more.

To learn more about our online programs, visit our website www.bmcc.cuny.edu/ce or call our office for additional information (212) 346-8410.
Academic Grading

GRADING SYSTEM
Final Grades are given at the end of the semester for each course. Grades assigned at the completion of a course are as follows:

QUALITY POINTS
Grade Definition Index
A 93–100%.................................4.0
A- 90–92%.................................3.7
B+ 87–89%.................................3.3
B 83–86%.................................3.0
B- 80–82%.................................2.7
C+ 77–79%.................................2.3
C 73–76%.................................2.0
C- 70–72%.................................1.7
D+ 67–69%.................................1.3
D 63–66%.................................1.0
D- 60–62%.................................0.7
F Failure.................................0.0
S Satisfactory ..........................—
U Unsatisfactory (counts as Failure)..........................—
W Withdrawed (withdrawal from class between 4th and 10th weeks; non Failure)

WA Administrative Withdrawal
(assigned by the Registrar’s Office for administrative reasons, e.g. lack of immunization) .........................—
WD Drop Withdrawal (drop from class during second and third weeks) .........................—
WU Prior to fall 2021: Withdraw Unofficially (counts in GPA computation; same as Failure. If a student completely stopped participating at any time during the term prior to the culminating experience for the course without officially withdrawing then he/she should receive a “WU” grade).
Effective Fall 2021: Withdraw Unofficially (does not count in GPA computation. If a student completely stopped participating at any time during the term prior to the culminating experience for the course without officially withdrawing then s/he should receive a “WU” grade). .........................—
WN Never participated (instructor initiates this grade during verification of enrollment for not participating at all during the first week of classes) .........................—
R The “R” grade means a course may be repeated .........................—
NC No credit granted (restricted to credit bearing courses) .........................—
INC Semester’s work incomplete. “INC” is issued at the instructor’s discretion. The “INC” grade reverts to an “FIN” if a change is not made by the following deadlines: Spring and summer semesters, November 1; fall semester, March 15. .........................—
AUD Course not taken for credit or grade: “AUD” appears on transcript .........................—
PEN Grade pending disciplinary action .........................—

After completion of a course, you are issued a letter grade. Most letter grades have a numerical point value (see Grading System Chart on this page). To compute your Grade-Point Average, multiply the number of points shown for the letter grade by the number of credits for that course. Divide the total number of points earned in all courses by the total number of credits. For example:

<table>
<thead>
<tr>
<th>Course</th>
<th>Final Grade</th>
<th>Point Value</th>
<th>Credits</th>
<th>Points Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>English I</td>
<td>B+</td>
<td>3.3</td>
<td>3</td>
<td>9.9</td>
</tr>
<tr>
<td>Precalculus</td>
<td>A</td>
<td>4.0</td>
<td>4</td>
<td>16.0</td>
</tr>
<tr>
<td>Introduction</td>
<td>WU</td>
<td>0.0</td>
<td>3</td>
<td>0.0</td>
</tr>
<tr>
<td>Art Survey I</td>
<td>A-</td>
<td>3.7</td>
<td>2</td>
<td>7.4</td>
</tr>
<tr>
<td>Fundamentals of Speech</td>
<td>B</td>
<td>3.0</td>
<td>3</td>
<td>9.0</td>
</tr>
</tbody>
</table>

Health

GPA = Points Earned = 42.3 = 2.49
Credits Attempted = 17.0

Total Points

CR Transfer credit from another institution ..........................—

Grade-Point Average (GPA)

Academic Grading

Finishing the learning process and plays a major role in determining overall student academic achievement. Academic activities may include, but are not limited to, attending class, submitting assignments, engaging in class or online activities, taking exam, and/or participating in group work. Each instructor has the right to establish their own course participation policy, and it is each student’s responsibility to be familiar with and follow the participation policies for each course.

Lateness

Classes begin promptly at the times indicated in the Schedule of Classes. Arrivals after the scheduled start time constitutes a lateness. Latecomers may, at the discretion of the instructor, incur an official absence.

“FY”/“C-” and Lower Grade Policy

The following is the current college policy regarding the retaking of courses for which a student has already received a grade of “C-” or below. Effective September 1, 1995, the College has adopted the following policy on the City University’s policy regarding retaking courses for the student’s undergraduate enrollment in any institution in the City University of New York. This policy is applicable to grades earned after September 1, 1984.

Students should remember that repeating a course may limit their ability to meet the satisfactory academic performance requirements for receipt of Federal and State financial aid. Also, repeated courses for which students have already received an acceptable passing grade will not be included as part of the student’s minimum full-time or part-time course load for State financial aid purposes.

“NC” Grade

BMCC “NC” grade will only apply to earned “F” grade. A freshman (a student who has earned 30 credits or less) may apply to take a maximum of 8 credits, or 2 classes under this policy. Nursing students may apply for a “NC” grade to be assigned once during their 2nd–4th clinical semesters. All students must meet the following requirements: (1) Students must opt-in by the withdrawal deadline, and (2) Students must continue attending the class, complete all assignments, and take the final exam to qualify.

Note: Students who transfer to another institution should take into account that “NC” grade may be treated as “F” grade.

Appeal of Grades

You may make a request to change a final earned grade issued by an instructor. Grades “A” through “U” are earned grades. Only the instructor who issued the grade can change it; however, the following steps are available for further review:

- The chairperson of the department
- The Dean of Academic Affairs

Note: The deadline for appealing past grades is one year after the end of the semester in which the grades were issued.

Repeating of “C” or Better Courses

Students should not repeat a course if a passing grade has been received or if transfer credit has been accepted for the course completed at another institution. However, if you repeat a course for which you have received an earned grade of “C” or better, the repeated course will not count towards your cumulative GPA or cumulative credits but will appear on the transcript.
Academic Grading

While enrolled at BMCC, your academic performance is continually evaluated in order that you and the College can determine how you are progressing in your studies. Your evaluation is based upon your cumulative Grade-Point Average (GPA). The following minimum retention standards must be met:

<table>
<thead>
<tr>
<th>Cumulative Credits Attempted</th>
<th>Cumulative Grade Point Average (GPA)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0–12............................</td>
<td>1.50</td>
</tr>
<tr>
<td>13–24...........................</td>
<td>1.75</td>
</tr>
<tr>
<td>25–upward......................</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Based on Summer/Winter grade(s) if a student's GPA is above the retention standard, the student is reinstated in Good Standing and an appeal with the Committee on Academic Standing will not be required for dismissed students.

Transcripts of Academic Record
Students can access their unofficial transcript, course history and grades via CUNYfirst as long as student has their CUNYfirst username and password. Please visit the Registrar’s website (www.bmcc.cuny.edu/registrar) for information.

Graduation Requirements*
To be eligible for graduation from BMCC, you must:
1. successfully complete all the required courses and credits in your program of study;
2. earn at least a 2.0 GPA;
3. complete at least 30 credits in residence, if you are an advanced standing student;
4. submit an application for graduation online through CUNYfirst by the deadline in your graduating semester;
5. effective Spring 2008, entering students will be required to pass a writing intensive course beyond ENG 201 in order to graduate. Effective Spring 2018, any student possessing a bachelor degree or higher will be exempt from this policy.

*Your graduation semester will be the end of the semester in which you finish all of your coursework or file for graduation, whichever is later. Graduation requirements are subject to change without notice any time at the discretion of the administration and the Board of Trustees of The City University of New York.

Special COVID-19 Flexible Grading Policy for the Spring 2020 Semester
As part of The City University of New York’s response to the COVID-19 pandemic, during the Spring 2020 semester, all students shall have the option to convert any or all of the (A–F) letter grades they earn in their classes, to Credit/No Credit (CR/NC) grading.

1. During the Spring 2020 semester, all students shall have the option to convert any or all of the (A–F) letter grades, including plus or minus variations, they earn in their classes, to Credit/No Credit grading.
2. Students shall be able to make this decision up to 20 business days after the University’s final grade submission deadline. Once selected, the Credit/No Credit option cannot be reversed.
3. If a student chooses to exercise this option, a passing letter grade (A, B, C, or D including +/-) will convert to “CR” with credit for the class being awarded, while a failing grade (F) will convert to “NC,” with no credit awarded. Credit/No Credit grades will not impact the student’s GPA.
4. Courses taken for a letter grade will continue to be included in the semester and general GPA, while courses taken for a Credit/Non-Credit grade will be excluded, just as is the case with such courses taken at a student’s home institution.
5. If a student exercises the option of Credit/No Credit, the Credit (CR) grade will not negatively impact the student’s satisfactory progress toward degree completion.
6. Students with Credit/No Credit grades will be able to transfer those courses across colleges within CUNY, per current CUNY policy.
7. The Special COVID-19 Flexible Grading Policy shall apply to coursework completed on Permit and will not affect Board of Trustees Policy 1.14 – Policy on Coursework Completed on Permit.
8. Students placed on academic probation by their institution at the start of the Spring 2020 semester will not be penalized with academic dismissal based upon their grades earned this semester.
9. The Special COVID-19 Flexible Grading Policy shall not affect the University standards of student retention and progress in accordance with Board of Trustees Policy 1.26.
10. Before choosing this grading option for one or more of their classes, students shall consult with their academic and financial aid advisors regarding potential impact to their financial aid, licensure requirements, and graduate school admissions.
11. The Special COVID-19 Flexible Grading Policy shall supersede and override all undergraduate and graduate program-level grading policies currently in effect at CUNY colleges and schools, including those related to required and elective courses within the major, minor, general education (Pathways), pre-requisite courses, honors courses, courses taken on permit and maximum number of credits that a student can earn with Credit/No Credit grades.
12. The grade glossary, attached to each transcript, will be updated to include a notation denoting that all Spring 2020 grades, including “CR” or “NC,” were earned during a major disruption to instruction as a result of the COVID-19 pandemic.
13. The Special COVID-19 Flexible Grading Policy shall apply to all CUNY colleges and schools, except the School of Law and the School of Medicine, which may develop their own Pass/Fail policies, subject to approval of the Board of Trustees, to conform to norms in legal and medical education.
14. The Special COVID-19 Flexible Grading Policy, which shall be effective April 1, 2020, applies to the Spring 2020 semester only and that the Chancellor, may, in his discretion, to meet public health emergency policies and practices, extend this policy to future semesters, if necessary and report such extension to the Board of Trustees immediately.
15. The Special COVID-19 Flexible Grading Policy shall be codified in the Manual of General Policy as Policy 1.4, and cannot be overruled by any individual units of the University, including presidents, provosts, or college councils.
16. The policy will remain in effect for the Spring 2020 semester and will be reviewed by the Chancellor and extended as necessary to meet public health emergency policies and practices.

Special COVID-19 Flexible Grading Policy for the Fall 2020 Semester
As part of The City University of New York’s response to the COVID-19 pandemic, during the Fall 2020 semester, students shall have the option to convert some or all of the (B+ through F) letter grades they earn in their classes, to Credit/No Credit grading, per the provisions below:

1. During the Fall 2020 semester, all students shall have the option to convert any or all of their B+ through F grades they earn in their classes, to Credit/No Credit grading except NUR, EMC, HIT and RTT-designated courses.
2. Students will be able to make this decision for eligible courses between December 24, 2020 and January 12, 2021. Once selected, the CR/NC option cannot be reversed.
3. If a student chooses to exercise this option for an eligible course, a passing letter grade (B+ through D-) will convert to “CR” with credit for the class being awarded, while a failing grade (F) will convert to “NC,” with no credit awarded. Credit/No Credit grades will not impact the student’s GPA.
4. Courses taken for a letter grade will continue to be included in the semester and general GPA, while courses taken for a Credit/No Credit grade will be excluded, just as is the case with such courses taken at a student’s home institution.
5. If a student exercises the option of Credit/No Credit, the Credit (CR) grade will not negatively impact the student’s progress toward degree completion.

6. Students with Credit/No Credit grades will be able to transfer those courses across colleges within CUNY, per current CUNY policy.

7. The Fall 2020 CR/NC Policy shall apply to coursework completed on Permit and will not affect Board of Trustees Policy 1.14 – Policy on Coursework Completed on Permit.

8. Students placed on academic probation by their institution at the start of the Fall 2020 semester who choose Credit/No Credit grades shall not be penalized with academic dismissal based upon their grades earned this semester.

9. The Fall 2020 CR/NC Policy shall not affect the University standards of student retention and progress in accordance with Board of Trustees Policy 1.26.

10. Before choosing this grading option for one or more of their classes, students shall consult with their academic and financial aid advisors regarding potential impact to their financial aid, licensure requirements, and graduate school admissions.

11. The grade glossary, attached to each transcript, will be updated to include a notation denoting that all Fall 2020 grades, including CR or NC, were earned during a major disruption to instruction as a result of the COVID-19 pandemic.
Honors and Awards

Dean's List
The Office of the Vice President of Academic Affairs places students with a semester Grade-Point Average of 3.3 or better on the Dean's List. At the end of the semester, you must meet the following qualifications to be a recipient of this honor (no Dean's List certificates are awarded for courses taken during the Summer or Winter Session):

- You must be matriculated.
- You must be registered in credit-bearing courses only.
- Students registered in remedial courses are not eligible for Dean's List.
- Full-time students must complete 12 or more credits in one semester with a passing grade for each course taken.
- Part-time students must complete 12 or more credits in two consecutive semesters with a passing grade for each course taken.
- Students receiving grades of “INC,” “WU,” “WN,” “WA” or “PEN” are not eligible for Dean's List.

Graduating with Honor
Students who graduate with a cumulative 3.30 GPA or better are designated as Graduating with Honor.

Presidential Award
The President of the College presents this award to the full-time student who has exhibited qualities of leadership, academic excellence and popularity among the students and faculty.

The Dean's Award
The Dean of Academic Affairs presents this award to the full-time student graduating “With High Distinction” (the highest cumulative Grade-Point Average).

The Vice President for Student Affairs Award
This award is presented by the Vice President for Student Affairs to the student deemed to have outstanding citizenship and dedication to the College community.

Borough of Manhattan Community College Fund, Inc. Scholarships
These scholarships are awarded to two categories of students:

(a) To entering freshmen with high school averages of at least 85%.
(b) To continuing BMCC students who have at least a 3.00 G.P.A.; who maintain a full-time course load; who have completed at least one semester with at least 12 content credits prior to application, and demonstrate financial need.

Applications are available from the offices of: the Vice President for Student Affairs, Room S-350; the Counseling Center, Room S-343; and the Financial Aid Office, Room N-365.

Abner B. Rosenfield Scholarship
This $1000.00 scholarship is awarded annually to a member of the graduating class who demonstrates scholarship and outstanding citizenship. Eligible candidates for this scholarship must have a minimum GPA of 3.8, must be a member of the graduating class, and must demonstrate evidence of contributing to the College community and to the community at large. Effective communication skills are a must.

Josh Wolfson Accounting Scholarship
The Josh Wolfson Accounting Scholarship is awarded annually to a full-time accounting graduate from Borough of Manhattan Community College. The scholarship, named in honor of Professor Josh Wolfson of the Accounting department, is awarded in recognition of academic achievement and excellence in accounting. These graduating students must be U.S. citizens or permanent residents, have earned an “A” or better in all accounting courses, and have a minimum GPA of 3.5.

Elsworth Janifer/Aaron Benjamin Memorial Awards
The Black Faculty and Staff Association of BMCC, in honor of its past presidents, Dr. Aaron Benjamin (former member of the Modern Languages Department) and Dr. Elsworth Janifer (former chairperson of the Music and Art Department), presents Commemorative Scholarship Awards to graduating students. The awards are in the following categories: Ideals of Elsworth Janifer/Aaron Benjamin, Academic Excellence, Contribution to the College Community, and Contribution to the Black Community.

Martin B. Dworkis Memorial Award
This commemorative award, in honor of Martin B. Dworkis, the first President of BMCC, is presented to the athlete with the highest cumulative Grade Point Average.

Alexander Morrissey Award
A commemorative scholarship in honor of the late A. Alexander Morrissey, who was Director of Community Relations at BMCC, is awarded each year by the English Department for excellence in journalism.

Roger B. Dooley Award
The Roger B. Dooley Award for creative writing is a commemorative award in honor of the late Roger B. Dooley, the first chairperson and long-standing member of BMCC's English Department.

Billie Ehrenberg Award
The Billie Ehrenberg Award for general excellence in English is a commemorative award in honor of the late Billie Ehrenberg, assistant professor of the English Department.

Louis and Caroline Salit Award
A commemorative award in honor of Louis and Caroline Salit is presented for Excellence in French.

Phi Theta Kappa International Honor Society
Phi Theta Kappa is the international honor society of 2-year institutions. Membership is by invitation after a student achieves a 3.5 grade point average on completing 12 credits at BMCC. The society is recognized by the American Association of Community Colleges as the official honor society of 2-year colleges.

Departmental Honors
Each academic department of the College presents awards and honors to graduates who have exhibited significant achievements in their studies.

Honor Program
The BMCC Honors Program offers high achieving students additional challenges in their coursework. Eligible students are provided with rigorous academic challenges beyond the normal parameters of a course's requirements. Working in close conjunction with a faculty member, students will extend their knowledge of the theoretical or practical aspects of the course and develop or enhance their writing, critical thinking, analytical, and problem solving skills.

For further information about the Honors Program, please visit www.bmcc.cuny.edu/honors.
Rules and Regulations

Transfer Credits
Advanced standing students, once they are admitted and registered at BMCC, may have earned credits from another institution transferred to BMCC, provided they have departmental approval. BMCC students taking courses at other CUNY colleges and BMCC students who have not attended the College recently must contact the Admissions Office for transfer credit procedures and evaluation.

Academic Probation
Students are placed on academic probation if their GPA falls below the minimum retention standards. During the probationary period, students maintain their academic standing with the College but are limited to 14 credits until they attain the minimum required GPA (See Academic Standing, p. 111). Students on academic probation or special probation who obtain an overall GPA of 2.0 or higher are automatically restored to good academic standing. Students who have been academically dismissed and have a grade appeal pending will be reinstated if they prevail in their appeal and, as a result, their overall GPA is 2.0 or higher.

Dismissal
Students whose GPA falls below minimum retention standards for two consecutive semesters are academically dismissed. Academically dismissed students may not attend BMCC or any CUNY college for at least one semester unless they are eligible to file an appeal as set forth below, and the appeal has been granted by the Committee on Academic Standing.

Application for Readmission to the College after First Academic Dismissal
A student who is academically dismissed once may be readmitted to the College on special probation if the student meets all of the following criteria:
1. has not attended BMCC for at least one semester;
2. has a cumulative grade point average of 1.8 or more;
3. has, in consultation with a Student Life counselor or any academic advisor, developed an academic success plan.

Students meeting the above criteria may file a readmission application with the Registrar’s Office and must do so by the deadline set by the college.

Students who are academically dismissed twice are not readmitted to BMCC except as set forth below (see Sections: Students Academically Dismissed More than Once and Students Who Are Academically Dismissed and Who Wish to Appeal Asserting Extenuating Circumstances).

Appeal of Dismissal
Academic dismissal may be appealed as set forth below by submitting a completed appeal form to the Committee on Academic Standing. Documentary evidence must be provided in support of the appeal. Written recommendation from a Student Life college counselor or any academic advisor must also be submitted. Appeal forms are available in the Counseling Center (Room S-343) or the Registrar’s Office (Room S-315).

Students Academically Dismissed Once—Conditions for Appeal for Special Probation
1. Students who have been academically dismissed once who have a GPA of 1.8 or higher and wish to attend the following semester may file an appeal with the Committee on Academic Standing for immediate reinstatement on special probation.
2. Students who have been academically dismissed once who have a GPA below 1.8 and have not attended for a semester may file an appeal with the Committee on Academic Standing for reinstatement on special probation.

Students Academically Dismissed More than Once
Students who are academically dismissed more than once are eligible to file an appeal for readmission if the student meets one of the following criteria:
1. The student’s GPA during the semester that he/she was on special probation is 2.0 or higher; or
2. The student only took remedial courses during the semester he/she was on special probation and received a passing grade for each course taken; or
3. The student received only grades of W or WN during the semester he/she was on special probation.

Students Who Are Academically Dismissed and Who Wish to Appeal Asserting Extenuating Circumstances
Students who are academically dismissed and who do not meet the above grounds for appeal may file an appeal for an immediate reinstatement asserting extenuating circumstances. In the application for reinstatement, the student must provide legal and/or official documentation of the extenuating circumstances that made it impossible for the student to meet minimum retention standards and must provide evidence that they are capable of performing at the level required to prevent further dismissal.

Appeals for a third or subsequent dismissal will be granted only in extremely rare instances and when it is clear that the student can return to good academic standing within one semester.

Withdrawal from the College
For any reason, if you do not wish to continue your studies at BMCC and you are currently enrolled, log into CUNYfirst to officially withdraw from classes. Ensure that you receive a “Message” notation indicating grades of “W’s” have been assigned.
If you do not officially withdraw from classes, you will receive a “WU” grade which is calculated in your cumulative grade-point average as “F”.

In general, you have until the tenth week of classes to officially withdraw from the College with a “W” grade. After the tenth week, withdrawal from the College will not be accepted. Students who completely withdraw from the College will not be eligible for TAP or APTS the following semester.

Henderson Rules
The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedoms: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Higher Education.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board of Higher Education provide that:
“THE PRESIDENT. The president, with respect to his/her education unit, shall:
a. Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his/her jurisdiction;
b. Be the advisor and executive agent of the Board and of his/her respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of any of its committees and the policies, programs and lawful resolutions of the several facilities;
c. Exercise general superintendence over the concerns, officers, employees, and students of his/her educational unit."

RULES
1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he/she interfere with the institution’s educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution’s instructional, personal, administrative, recreational, and community services.
2. Individuals are liable for failure to comply with lawful directions issued by representatives of the University/College when they are acting
in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.

3. Unauthorized occupancy of University/College facilities or blocking access to or from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation, and use of University College equipment and/or supplies.

4. Theft from, or damage to University/College premises or property, or theft of or damage to property of any person on University/College premises is prohibited.

5. Each member of the academic community or an invited guest has the right to advocate his/her position without having to fear abuse, physical, verbal, or otherwise, from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.

6. Action may be taken against any and all persons who have no legitimate reason for their presence on any campus within the University/College, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of their rights or interferes with the institution’s educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution’s instructional, personal, administrative, recreational, and community services.

7. Disorderly or indecent conduct on University/College-owned or controlled property is prohibited.

8. No individual shall have in his/her possession a rifle, shotgun, or firearm or knowingly have in his/her possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the University/College without the written authorization of such educational institution. Nor shall any individual have in his/her possession any other instrument or material which can be used and is intended to inflict bodily harm on any individual or damage upon a building or the grounds of the University/College.

9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.

10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/College premises, or as part of any university or college activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.

11. The unlawful possession, use, or distribution of alcohol by students or employees on University/College premises or as part of any University/College activities is prohibited.

**Penalties**

1. Any student engaging in any manner in conduct prohibited under substantive Rules 1–11 shall be subject to the following range of sanctions as hereafter defined in the attached Appendix: admonition, warning, censure, disciplinary probation, restitution, suspension, expulsion, ejection, and/or arrest by the civil authorities.

2. Any tenured or non-tenured faculty member, or other member of the Instruction staff or member of the classified staff engaging in any manner in conduct prohibited under substantive rules 1–11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of The City University of New York or suspension with/without pay pending a hearing before an appropriate college authority, dismissal after a hearing, ejection, and/or arrest by the civil authorities, and, for engaging in any manner in conduct prohibited under substantive rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member or other member of the instructional staff, or member of the classified staff charged with engaging in any manner in conduct prohibited under substantive Rules 1–11 shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of The City University of New York.

3. Any visitor, licensee, or invitee, engaging in any manner in conduct prohibited under substantive Rules 1–11 shall be subject to ejection, and/or arrest by the civil authorities.

4. Any organization which authorized the conduct prohibited under substantive rules 1–11 shall have its permission to operate on campus rescinded.

Penalties 1–4 shall be in addition to any other penalty provided by law or The City University Trustees.

**Appendix**

Sanctions defined:

A. Admonition. An oral statement to the offender that he/she has violated university rules.

B. Warning. Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may cause far more severe disciplinary action.

C. Censure. Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any University regulation within a period stated in the letter of reprimand.

D. Disciplinary Probation. Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of disciplinary probation for a specified period of time.

E. Restitution. Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

F. Suspension. Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.

G. Expulsion. Termination of student status for an indefinite period. The conditions of readmission, if any is permitted, shall be stated in the order of expulsion.

H. Complaint to Civil Authorities.

I. Ejection.

**The University Policy on Drug and Alcohol Education**

RESOLVED, That the University Policy on Drug and Alcohol Education, adopted by the Board of Trustees of The City University of New York on March 30, 1987, be amended to read as follows: The City University affirms its continuing commitment to drug and alcohol education on campus. The University is committed to the development and conduct of educational and support programs directed toward the use and abuse of drugs and alcohol, both legal and illegal. Implementation of this policy, which provides the framework for educational and support programs directed toward the use and abuse of drugs and alcohol, is the responsibility of the individual colleges consistent with their governance plans and established disciplinary procedures. Each of the individual colleges shall incorporate into its program the annual distribution to each student and employee of the standards of conduct that prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol on the College’s property or as part of college activities and a statement of the sanctions for violation; a description of the applicable local, State, and Federal legal sanction for the unlawful possession or distribution of illicit drugs and alcohol; a description of the health risks associated with the use of illicit drugs and the abuse of alcohol; and a description of any drug or alcohol-related counseling, treatment, rehabilitation, or re-entry programs available to students or employees. Each college shall review the effectiveness of its program at least once every two years, implementing such changes as may be necessary.

**Explanation:** The Federal Drug-Free Workplace Act of 1988 and its implementing regulations require that a recipient of a Federal grant approved and awarded after March 18, 1989 “certify to the contracting agency that it will provide a drug-free workplace” by complying with certain statutory requirements. The requirements include the publication and circulation to employees of a drug abuse policy that prohibits the unlawful manufacture, distribution, possession, and use of unlawful drugs in the workplace; specifies the penalties for violation of the policy; conditions employment upon employee willingness to abide by the policy; and requires employees to notify the employer of drug-related criminal convictions for unlawful conduct which occur
in the workplace. The Council of Presidents and collective amendments, which will bring the University into compliance with the Drug-Free Workplace Act of 1988. Although these amendments apply only to employees of the University, Section 15.1 of the University Bylaws provides that students of the University “... shall obey the laws of the City, State, and Nation ...” Students are thus already prohibited from engaging in conduct of the nature that is prohibited by proposed substantive rule 10.

Adoption of these amendments will also complement the University’s commitment, as reflected in March 30, 1987 to the development and conduct of educational and support programs directed toward the use and abuse of drugs and alcohol, both legal and illegal.

Drug-Free Campus Policy and Standards of Conduct
Borough of Manhattan Community College of The City University of New York affirms its continuing commitment to drug, tobacco, and alcohol education on campus. It is committed to the development of educational and support programs directed toward the use and abuse of drugs, tobacco, and alcohol, whether legal or illegal.

The inappropriate use of alcohol and other drugs threatens the health and safety of students, employees, their families, fellow students, the general public, as well as adversely impairs performance. Towards promoting health, safety, and a positive learning and working environment, Borough of Manhattan Community College of The City University of New York is committed to preventing alcohol and other drug related problems among all members of the College community.

The unlawful possession, use or distribution of alcohol or other drugs by anyone, either on College property or at College-sponsored activities, is prohibited. Any person who is determined to have violated this policy will be subject to intervention by College officials. As a condition of employment, an employee of Borough of Manhattan Community College of The City University of New York must notify his/her supervisor if he or she is convicted of a drug related offense involving the workplace within (5) days of conviction.

The Board of Trustees of The City University of New York Bylaws (Revised September 30, 1998)
ARTICLE XV - STUDENTS

Section 15.4: Student Disciplinary Procedures
Complaint Procedures:

a. A University student, employee, organization, department or visitor who believes she/he/it is the victim of a student’s misconduct (hereinafter “complainant”) may make a charge, accusation, or allegation against a student (hereinafter “respondent”) which if proved, may subject the respondent to disciplinary action. Such charge, accusation, or allegation must be communicated to the chief student affairs officer of the college where the respondent attends.

b. The chief student affairs officer of the college or her or his designee shall conduct a preliminary investigation in order to determine whether disciplinary charges should be preferred. The chief student affairs officer or her or his designee shall advise the respondent of the allegation against her or him, explain to the respondent and the complainant their rights, consult with other parties who may be involved or who have information regarding the incident, and review other relevant evidence. The preliminary investigation shall be concluded within thirty (30) calendar days of the filing of the complaint, unless: (i) said complaint involves two or more complainants or respondents; or (ii) said complaint involves a matter that is also under investigation by law enforcement authorities. In those cases, the preliminary investigation shall be completed within sixty (60) calendar days. Further, if the matter has been previously investigated pursuant to the CUNY Policy on Sexual Misconduct, the chief student affairs officer shall dispense with a preliminary investigation and rely on the report completed by the Title IX Coordinator. Following the completion of the preliminary investigation, the chief student affairs officer or designee shall take one of the following actions:

1. Dismiss the matter if there is no basis for the allegation(s) or the allegation(s) does not warrant disciplinary action. The individuals involved shall be notified that the complaint has been dismissed;

2. Refer the matter to mediation (except in cases involving allegations of sexual assault, stalking or other forms of sexual violence);

3. Prefer formal disciplinary charges.

c. In cases involving the CUNY Policy on Sexual Misconduct, both the Complainant and Respondent may be accompanied by an advisor of their choice (including an attorney) who may assist and advise throughout the entire process, including all meetings and hearings. Advisors may represent a party and fully participate at a hearing, but may not give testimony as a witness.

d. In the event that a respondent withdraws from the college after a charge, accusation or allegation against a respondent has been made, and the college prefers formal disciplinary charges, the respondent is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred from attending any other unit of the university until a decision on the charges is made or the charges are otherwise resolved. Immediately following the respondent’s withdrawal, the college must place a notation on her/his transcript that she/he “withdrew with conduct charges pending.” If the respondent fails to appear, the college may proceed with the disciplinary hearing in absentia, and any decision and sanction shall be binding, and the transcript notation, if any, resulting from that decision and penalty shall replace the notation referred to above.

Mediation Conference:

e. The college may offer the respondent and the complainant the opportunity to participate in a mediation conference prior to the time the disciplinary hearing takes place in an effort to resolve the matter by mutual agreement (except in cases involving sexual assault, stalking and other forms of sexual violence). The conference shall be conducted by a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference:

1. An effort shall be made to resolve the matter by mutual agreement through such process as the mediator deems most appropriate; provided, however, that the complainant must be notified of her/his right to end the mediation at any time

2. If an agreement is reached, the faculty or staff member conducting the conference shall report her/his recommendation to the chief student affairs officer for approval and, if approved, the complainant and the respondent shall be notified, and a written memorandum shall be created memorializing the resolution and any consequences for non-compliance.
3. If no agreement is reached within a reasonable time, or if the respondent fails to appear, the faculty or staff member conducting the conference shall refer the matter back to the chief student affairs officer who may prefer disciplinary charges, or, if charges have been preferred, proceed to a disciplinary hearing.

4. The faculty or staff member conducting the mediation conference is precluded from testifying at a college hearing regarding information received during the mediation conference, or presenting the case on behalf of the college.

Notice of Charges and Hearing:

f. Notice of the charge(s) and of the time and place of the hearing shall be personally delivered to the respondent, or sent by certified or overnight mail and email to the address appearing on the records of the college. Notice shall also be sent in a similar manner to the complainant to the extent the charges relate to her/him/it. The chief student affairs officer is also encouraged to send the notice of charges to any other e-mail address that he or she may have for the respondent at the discretion of the chairperson. The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment as of right. Additional requests for an adjournment must be made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the faculty-student disciplinary committee. If the respondent fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed in absentia, and any decision and sanction shall be binding.

g. The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the respondent including the rule, bylaw or regulation she/he is charged with violating, and the possible penalties for such violation.

2. A statement that the respondent and the complainant have the right to attend and participate fully in the hearing including the right:
   (i) to present their side of the story;
   (ii) to present witnesses and evidence on their behalf;
   (iii) to cross-examine witnesses presenting evidence;
   (iv) to remain silent without assumption of guilt; and
   (v) to be assisted or represented by an advisor or legal counsel at their expense; if the respondent or the complainant requests it, the college shall assist in finding a legal counsel or advisor.

3. A warning that anything the respondent says may be used against her/him at a non-college hearing.

Pre-Hearing Document Inspection:

h. At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall provide the respondent and the complainant and/or their designated representative, with similar and timely access to review any documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by Family Education Rights and Privacy Act (“FERPA”). Should the college seek to introduce additional documents or other tangible evidence during, or some time prior to, the disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the additional documents or tangible evidence. If during the hearing the complainant or the respondent submits documentary evidence, the chairperson may, at the request of any other participant, grant an adjournment of the hearing as may be necessary in the interest of fairness to permit the requesting party time to review the newly produced evidence.

Admission and Acceptance of Penalty Without Hearing:

i. At any time after receiving the notice of charges and hearing but prior to the commencement of a disciplinary hearing, the respondent may admit to the charges and accept the penalty that the chief student affairs officer or designee determines to be appropriate to address the misconduct. This agreed upon penalty shall be placed on the respondent’s transcript consistent with sections u and v herein. Before resolving a complaint in this manner, the chief student affairs officer must first consult with the complainant and provide the complainant an opportunity to object to the proposed resolution, orally and/or in writing. If a resolution is reached over the complainant’s objection, the chief student affairs officer or designee shall provide the complainant with a written statement of the reasons supporting such resolution, and the complainant may appeal the decision to enter into the resolution to the president.

Emergency Suspension:

j. The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing as provided in this bylaw section 15.4. to take place within not more than twelve (12) calendar days, unless the student requests an adjournment. Such suspension shall be for conduct which impedes, obstructs, impairs or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution. Prior to the commencement of a temporary suspension of a student, the college shall give the student oral notice (which shall be confirmed via email to the address appearing on the records of the college) or written notice of the charges against her/him and, if she/he denies them, the college shall forthwith give the student an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter. When a student’s presence poses a continuing danger to person or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter. The complainant shall be notified in the event that an emergency suspension is imposed against a student, and/or when the suspension is subsequently lifted to the extent that the suspension involves the complainant in the same manner notice is given to the student.

Faculty-Student Disciplinary Committee Structure:

k. Each faculty-student disciplinary committee shall consist of two (2) faculty members or one (1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

l. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training teaching upon appointment and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be entitled to select two (2) chairpersons: CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

m. The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a
Rules and Regulations

of sexual violence. Furthermore, the chairperson has the right to deny the request and hold a closed hearing when an open public hearing would adversely affect and be disruptive to the committee's normal operations. In the event of an open hearing, the respondent must sign a written waiver acknowledging that those present will hear the evidence introduced at the hearing.

3. After informing the respondent of the charges, the hearing procedures, and her or his rights, the chairperson shall ask the respondent to respond. If the respondent admits the conduct charged, the respondent shall be given an opportunity to explain her/his actions before the committee and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its case. At the conclusion of the college's case, the respondent may move to dismiss the charges. If the motion is denied by the committee, the respondent shall be given an opportunity to present her or his defense.

4. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson may rule on the admissibility of the evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. In addition, if any party wishes to question the impartiality of a committee member or the basis of evidence which was not previously available at the inception of the hearing, the chairperson may rule on such a motion. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

5. The college shall make a record of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. The college must assign a staff member for each hearing, with the sole responsibility of ensuring that the hearing is recorded in its entirety. No other recording of the proceedings may be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's representative or attorney. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their representatives or attorneys.

6. The college bears the burden of proving the charge(s) by a preponderance of the evidence.

7. The role of the faculty-student disciplinary committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and render a determination. In the event the respondent is found to have committed the conduct charged, the committee shall then determine the penalty to be imposed.

8. The college, the respondent and the complainant are permitted to have lawyers or other representatives or advisors act on their behalf during the pendency of a disciplinary action, which shall include the calling and examining of witnesses, and presenting other evidence. Any party intending to appear with an attorney shall give the other party 5 (five) calendar days' notice of such representation.

9. The chairperson of the faculty-student disciplinary committee retains discretion to limit the number of witnesses and the time of testimony for the presentations by any party and/or their representative.

10. In the event that the respondent is charged with a sexual assault, stalking or other forms of sexual misconduct, neither the respondent nor the complainant shall be permitted to cross-examine each other directly. Rather, if they wish to, the respondent and the complainant may cross-examine each other only through a representative. If either or both of them do not have a representative, the college shall work with them to find a representative to conduct such cross-examination. In the alternative, the complainant and respondent may provide written questions to the chairperson to be posed to the witness.

11. In a case involving the CUNY Policy on Sexual Misconduct:

a) Evidence of the mental health diagnosis and/or treatment of a party may not be introduced.

b) Evidence of either party's prior sexual history may not be introduced except that (i) evidence of prior sexual history between complainant and respondent is admissible at any stage of the hearing, and (ii) past findings of domestic violence, dating violence, stalking, or sexual assault may be admissible in the stage of that hearing related to penalty.

Penalty Phase:

12. If the respondent has been found responsible, then all parties may introduce evidence related to the respondent's character including any past findings of a respondents' responsibility for domestic violence, stalking, or sexual assault or any other sexual violence. The College may introduce a copy of the respondent's previous disciplinary record; including records from any CUNY institution the respondent has attended, where applicable, provided the respondent was shown a copy of the record prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the committee in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found to have committed the conduct charged. The previous disciplinary
16. A respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president.

17. An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the non-appealing party shall be sent a written notice of the other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

18. The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal.

Notations on Transcripts:
19. In cases in which a respondent has been found responsible for a Clery Act reportable crime of violence, the college must place a notation on her/his transcript stating that she/he was suspended or expelled after a finding of responsibility for a code of conduct violation. In all other cases, the college must place a notation of the findings and penalty on a respondent’s transcript unless a mediation agreement, the committee’s decision, or the decision on any appeal under section 15.4(p), expressly indicate otherwise.

20. A notation of expulsion after a respondent has been found responsible for a Clery Act reportable crime of violence shall not be removed. In all other cases, a notation of expulsion, suspension or any lesser disciplinary penalty shall be removed, as a matter of right, upon the request of the respondent to the Chief Student Affairs Officer made, four years after the conclusion of the disciplinary proceeding or one year after the conclusion of any suspension, whichever is longer. If a finding of responsibility for any violation is vacated for any reason, any such notation shall be removed.

SECTION 15.5. ACTION BY THE BOARD OF TRUSTEES.
Notwithstanding the foregoing provisions of this article, the board of trustees reserves full power to suspend or take other appropriate action against a student or a student organization for conduct which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or units of the university in the use of its facilities or in the achievement of its purposes as an educational institution in accordance with procedures established by the board of trustees.

SECTION 15.6. COLLEGE GOVERNANCE PLANS.
The provisions in a duly adopted college governance plan shall not be inconsistent with the provisions contained in this article.

Campus Behavior Code
In order to ensure the continuance and enhancement of the positive image and reputation of all members of the College community and in the interest of promoting student and faculty welfare at the College and the safety and security of our entire College community, the following Code of Behavior is in effect:

Gambling and the sale possession of drugs, including marijuana, are illegal by New York State law. Violators will be subject to disciplinary action and/or referral to outside authorities.

Any student who does not show his or her ID card upon a legitimate request will be considered a trespasser.

Alcoholic beverages are not permitted at any College (department or program) event to which students are invited or expected to participate.

Any form of cheating is prohibited.

Any student violating the code of behavior or any law or regulation established by the College, and by the city, state or federal government (including the use of drugs) shall be subject to formal disciplinary procedures as outlined in Articles 15.3 to 15.5 of the Board of Higher Education Bylaws and sanctions as listed in the Board of Higher Education Bylaws and Article 129A of the Education Law. The initiation of disciplinary procedures requires a predisciplinary hearing before a counselor from the Office of the Dean of Students as set up in line with the requirements of the Bylaws of the Board of Trustees immediately following an incident which is judged to be an infraction of law or Behavior Code to determine whether or not the case should be referred to the Student-Faculty Discipline Committee. As a result of emergency or extraordinary circumstances, a student may be suspended for a period not to exceed seven (7) school days. A hearing must be held within that same period unless the student agrees or consents to an extension of the time.

If the charges are of sufficient nature and have not been settled at the predisciplinary hearing, a formal hearing will be scheduled before the Faculty-Student Discipline Committee as specifically outlined in Article 15.3 of the Bylaws of the Board of Trustees.

Students as a result of this hearing or failure to appear at the hearing may be subject to immediate and permanent suspension which may apply to all units of The City University of New York. All students involved will be advised of the various levels of appeal under the Bylaws of the Board of Education.

Damage to College Equipment
Any student who damages any school equipment is required to pay the costs of repair or replacement.
Rules and Regulations

BMCC Policy on Plagiarism

Plagiarism is the presentation of someone else’s words, ideas, or artistic/scientific/musical/technical work as one’s own creation. A student who copies or paraphrases published or online material, or another person’s research, without properly identifying the source(s) is committing plagiarism.

Plagiarism violates the ethical and academic standards of our college. Students will be held responsible for such violations, even when unintentional. To avoid unintended plagiarism, students should consult with their instructors about when and how to document their sources. The library also has both print and digital guides designed to help students cite sources correctly.

Plagiarism carries a range of penalties commensurate with the severity of the infraction. The instructor may, for example, require the work to be redone, reduce the course grade, fail the student in the course, or refer the case to the Faculty-Student Disciplinary Committee (see Article 15.4 of the Bylaws of the Board of Trustees). Cases referred to that committee could result in suspension or expulsion from the College.

Student Records Policy

The Family Educational Rights and Privacy Act (FERPA) gives students certain rights with respect to their “Education Records.”

A student’s affirmative consent is generally required to disclose personally identifiable information (“PII”) contained in a student’s Education Records to a third person. (The procedure for providing affirmative consent to have particular information shared with certain individual(s) is set out below.) Not all student records are, however, included in the definition of “Education Records” protected by FERPA. See below for a list of student records that are not “Education Records.” For instance, certain law enforcement unit, employment, health care provider, and parent’s financial records are not “Education Records.”

In addition, FERPA permits, and sometimes requires, the disclosure of PII from students’ Education Records without a student’s consent if the disclosure meets certain conditions.

One such exception is “Directory Information” which is specific limited information contained in Education Records. See below for a list of Directory Information. The disclosure of this information is not generally considered harmful or an invasion of privacy under FERPA. Unless a student affirmatively requests that such information not be shared, it may be disclosed by the college to third parties with a legitimate interest in the information. (The procedure for affirmatively directing that Directory Information not be shared, unless another applicable FERPA exception applies, is set out below.)

Another exception to the affirmative consent requirement is disclosure to “School Officials” with a legitimate educational interest in the record. See below for a description of those included as “School Officials.” It should be noted that students may not block release of their names, identifiers or email addresses in classes in which the students are enrolled, and may not refuse to display student ID cards or badges.

Other exceptions include disclosure in connection with a health or safety emergency, and disclosure of de-identified records and information where the student is not personally identifiable. See below for additional categories of records that are exceptions to the affirmative consent requirement.

The FERPA rights of students are:

1. The right to inspect and review “Education Records.”

If students want to review their Education Records, they should submit a written request that identifies the specific Education Record(s) they wish to inspect to the Registrar’s Office. If the records are not maintained by the Registrar, the Registrar’s Office will advise them of the correct official to whom the request should be addressed.

Requests should be granted or denied in writing (which may be by email) within 45 days of receipt. If the request is granted, students will be notified of the time and place where the records may be inspected. If the request is denied or not responded to within 45 days, students may appeal to the college’s FERPA Appeals Officer. The appeal should identify the particular record(s) requested access to, the date the original request for access was made, the person the request was made to, and the reasons why the students believe they have a right of access to the record(s). Additional information regarding the appeal procedures will be provided if the request is denied.

Keep in mind that certain records are not “Education Records” subject to this mandatory disclosure of personally identifiable information (PII) under FERPA. See below for student records that are not considered Education Records.

2. The right to request the amendment of Education Records that the student believes are inaccurate, misleading or otherwise violate your privacy rights under FERPA.

Students may ask the college to amend a record that they believe is inaccurate, misleading or otherwise violates the privacy rights under FERPA. Students should write to the college official responsible for the record, clearly identify the part of the record they want changed, and specify why they believe it is inaccurate, misleading or violates the privacy rights.

If the college decides not to amend the record as requested, the college will notify the student of the decision and advise them of their right to a hearing before the college’s FERPA Appeals Officer. Additional information regarding the hearing procedures will be provided to the student if the request to amend is denied.

3. The right to consent or withdraw consent to disclosure of personally identifiable information (“PII”) contained in Education Records to specific individuals, except to the extent that FERPA authorizes disclosure without consent.

If students want to consent the disclosure of certain PII contained in their Education Records to a designated person, they should submit a FERPA Release Form to the Registrar’s Office. If students want to withdraw that consent, they should execute the lower portion of the form withdrawing the earlier consent. If the Education Record that students want to give someone else access to is not maintained by the Registrar’s Office, the form should be provided to the college official who maintains the information.

Again, keep in mind that not all student records are “Education Records” under FERPA, and that there are many circumstances where a student’s affirmative consent to disclosure is not required. See footnotes below.

4. The right to appeal the alleged denial of FERPA rights to the college’s FERPA Appeals Officer (described above), and the right to appeal the decision of that Officer (or the Officer’s failure to issue a timely decision) to the:

General Counsel and Vice Chancellor for Legal Affairs
The City University of New York
205 East 42nd Street
New York, NY 10017

An appeal to the General Counsel and Vice Chancellor must be in writing and must be made within 30 days of the college FERPA Appeals Officer’s decision. It must include a copy of the determination of the college’s FERPA Appeals Officer, and the reasons why the student disagrees with the decision. Students may also file with the General Counsel and Vice Chancellor if they do not get notice of a hearing after filing the college appeal concerning denial of a request to amend, or if they do not receive a decision within 30 days of the hearing.

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the college to comply with the requirements of FERPA. The address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202-5920

6. The right to direct that “Directory Information” not be disclosed to third parties (unless another exception to FERPA applies).

“Directory Information” is specific limited information contained in Education Records. See below for a list of Directory Information. The disclosure of this information is not generally considered harmful or an invasion of privacy under FERPA. One of the primary purposes of Directory Information is to allow the college to include this type of information in certain school publications, such as on-line directories, yearbooks, Dean’s list and other recognition lists, commencement programs, and sports activity materials. Unlike PII which requires the affirmative consent to disclose (unless another exception applies), Directory Information may be disclosed by the college to parties having a legitimate interest in the information, unless a student specifically requests that it not be. (Of course, the information may still be disclosed if a FERPA exception applies.)

By filing a Non-Disclosure of Directory Information Form with the Registrar’s Office, students may direct that, unless another FERPA exception applies, the “Directory Information” may not be released to third parties. See below for a list of Directory Information. Students’ direction not to disclose Directory Information to third parties will...
### Rules and Regulations

### Defined Terms

**Student records that are not considered Education Records protected under FERPA**

A student has no right to review, and the college need not permit inspection of the following types of records:

- confidential letters and confidential statements of recommendations
- financial records of the student's parent(s)
- records that are in the sole possession of the maker
- records maintained on behalf of a college by its law enforcement unit, employment records of a college employee who is also a student
- records made by a health care provider
- records which pertain to a student but were generated after the student is no longer in attendance, grades on peer graded papers before they are recorded by a teacher
- any other record that is privileged or otherwise inaccessible to the student pursuant to law or regulation

"Directory Information" consists of:

- name
- attendance dates (semesters and sessions, not daily records)
- photograph
- 8-digit student ID number (but only if the ID number cannot be used to gain access to education records without one or more factors that authenticate the user's identity)
- enrollment status (full or part-time, undergraduate or graduate, etc.)
- level of education (credits completed, degree enrolled for and major field of study)
- participation in official recognized activities and sports (teams)
- height and weight (for members of athletic teams only)
- degrees, honors, and awards received
- Address, email address, and telephone number
- any other record that is privileged or otherwise inaccessible to the student pursuant to law or regulation

- To the student's parents or legal guardians
- To the general public, the final results of disciplinary proceedings, if the college determines the student is an alleged perpetrator of a crime of violence or non-forcible sex offense, and has committed a violation of the college's policies with respect to these allegations
- To the student's parent(s) or legal guardian(s) if the student is a dependent for IRS tax purposes
- To parent(s) or legal guardian(s) of a student under age 21 regarding the student's violation of any law or college rule governing the use or possession of alcohol or a controlled substance if the college determines that the student committed a disciplinary violation
- In litigation and administrative proceedings involving the student and CUNY, or with respect to complaints by the student to a government entity, accrediting or licensing organization
- If the disclosure concerns sex offenders or others required to register pursuant to law
- To certain government agencies entitled to specific PI about foreign students with F or J visas
- To a child welfare agency legally responsible for the care and protection of a student who is in a foster care placement
- Disclosure of de-identified records and information is permitted if the college has reasonably determined that the student is not personally identifiable, taking into account other reasonably available information
- Disclosure of certain specific information (and information otherwise made available to other employers as "Directory Information") is required to US military recruiters.

### Admission Requirements

New York State Department of Health requires that all students must comply with specific immunization laws. Please read the following to select the criteria that you are mandated to comply with prior to registration. You are blocked from registration until these requirements are met.

For students born after 1956, both NYS Health Law 2165 and 2167 must be met and completed prior to registration.

For students born before 1957, only NYS Health Law 2167 must be met and completed prior to registration.

### Immunization Requirements

New York State Department of Health requires that all students must comply with specific immunization laws. Please read the following to select the criteria that you are mandated to comply with prior to registration.

For students born before 1957, only NYS Health Law 2167 must be met and completed prior to registration.

Free MMR (combination measles, mumps, and rubella) vaccines are offered by Health Services throughout the semester as well as during registration.

Medical or religious exceptions may apply with proper documentation. Pregnant women must select the blood titre option only.

NY Health Law 2167, in effect since August, 2003, requires that all students, those born after 1956 and those born prior to 1957, receive and read the information on Meningitis, specifically Meningococcal Disease. You must fill out and sign the response form by either selecting to waive your right to the Meningitis vaccine or taking the form to your doctor, receive the vaccine and sign. These response forms must be submitted to Health Services, Room N-303. Please refer to the information you received in
Rules and Regulations

your admissions packet or visit our website at www.bmcc.cuny.edu for details.

There are no exceptions with this law since waiving your rights to vaccine is an option.

No Meningitis vaccines are offered by our office.

Students are welcome to print the forms from the website and are also welcome to fax completed forms to Health Services at (212) 220-2367. If students choose to fax, please follow up with a phone call to ensure receipt and that all is complete. The fax number is (212) 220-8255.

Notice of Non-Discrimination

It is the policy of The City University of New York—applicable to all colleges and units—to recruit, employ, retain, promote, and provide benefits to employees and to admit and provide services for students without discriminating on the basis of actual or perceived race, color, creed, national origin, ethnicity, ancestry, religion, age, sex, sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, pregnancy, status as a victim of domestic violence/stalking/sex offenses, unemployment status, caregiver or familial status, prior record of arrest or conviction, or any other legally prohibited basis in accordance with federal, state and city laws. This policy is set forth in CUNY’s Policy on Equal Opportunity and Non-Discrimination. CUNY’s Policy on Sexual Misconduct prohibits all forms of sexual misconduct, including sexual harassment, gender harassment and sexual violence. Inquiries concerning sexual misconduct or sex discrimination may be made to the individuals specified in that Policy or may be referred to the U.S. Department of Education, Office for Civil Rights. It is also the University’s policy to provide reasonable accommodations and academic adjustments, when appropriate, to individuals with disabilities, individuals observing religious practices, individuals who have pregnancy or childbirth-related medical conditions and victims of domestic violence/stalking/sex offenses. The process for addressing these issues is set forth in CUNY’s Procedures for Implementing Reasonable Accommodations and Academic Adjustments. Retaliation for reporting or opposing discrimination, cooperating with an investigation of a discrimination complaint, or requesting an accommodation or academic adjustment is also prohibited. To access CUNY’s Policy and Procedures on Equal Opportunity and Non-Discrimination, Policy on Sexual Misconduct, and Procedures for Implementing Reasonable Accommodations and Academic Adjustments, please visit these links:

http://www2.cuny.edu/about/administration/offices/legal-affairs/policies-procedures/reasonable-accommodations-and-academic-adjustments/

The following people have been designated at the Borough of Manhattan Community College to handle inquiries and complaints relating to CUNY’s Policy on Equal Opportunity and Non-Discrimination and Policy on Sexual Misconduct and to ensure compliance with CUNY’s Procedures for Implementing Reasonable Accommodations and Academic Adjustments:

Odelia Levy, Esq., Chief Diversity Officer Title IX & Title 504 Coordinator 
OLevy@bmcc.cuny.edu or 212-220-1236
199 Chambers Street, Room S701
Theresa Wade, Esq. Deputy Director of Diversity & Title IX Compliance 
TWade@bmcc.cuny.edu or 212-220-1273

The City University of New York Policy on Equal Opportunity and Non-Discrimination

I. Policy on Equal Opportunity and Non-Discrimination

The City University of New York (“University” or “CUNY”), located in a historically diverse municipality, is committed to a policy of equal employment and equal access in its educational programs and activities. Diversity, inclusion, and an environment free from discrimination are central to the mission of the University. It is the policy of the University—applicable to all colleges and units—to recruit, employ, retain, promote, and provide benefits to employees (including paid and unpaid interns) and to admit and provide services for students without regard to race, color, creed, national origin, ethnicity, ancestry, religion, age, sex (including pregnancy, childbirth and related conditions), sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, status as a victim of domestic violence/stalking/sex offenses, unemployment status, or any other legally prohibited basis in accordance with federal, state and city laws.

It is also the University’s policy to provide reasonable accommodations when appropriate to individuals with disabilities, individuals observing religious practices, employees who have pregnancy or childbirth-related medical conditions, or employees who are victims of domestic violence/stalking/sex offenses. This policy also prohibits retaliation for reporting or opposing discrimination, or cooperating with an investigation of a discrimination complaint.

Prohibited Conduct Defined

Discrimination is treating an individual differently or less favorably because of his or her protected characteristics—such as race, color, religion, sex, gender, national origin, or any of the other bases prohibited by this Policy.

Harassment is a form of discrimination that consists of unwelcome conduct based on a protected characteristic that has the purpose or effect of unreasonably interfering with an individual’s work or academic performance or creating an intimidating, hostile or abusive work or academic environment. Such conduct can be spoken, written, visual, and/or physical. This policy covers prohibited harassment based on all protected characteristics other than sex. Sex-based harassment and sexual violence are covered by CUNY’s Policy on Sexual Misconduct.

As a public university system, CUNY adheres to federal, state and city laws and regulations regarding non-discrimination and affirmative action. Should any federal, state or city law or regulation be adopted that prohibits discrimination based on grounds or characteristics not included in this Policy, discrimination on those additional bases will also be prohibited by this Policy.

Retaliation is adverse treatment of an individual because he or she made a discrimination complaint, opposed discrimination, or cooperated with an investigation of a discrimination complaint.

II. Discrimination and Retaliation Complaints

The City University of New York is committed to addressing discrimination and retaliation complaints promptly, consistently and fairly. There shall be a Chief Diversity Officer at every college or unit of the University, who shall be responsible for, among other things, addressing discrimination and retaliation complaints under this Policy. There shall be procedures for making and investigating such complaints, which shall be applicable at each unit of the University.

III. Academic Freedom

This policy shall not be interpreted so as to constitute interference with academic freedom.

IV. Responsibility for Compliance

The President of each college of the University, the CUNY Executive Vice Chancellor and Chief Operating Officer, and the Deans of the Law School, Graduate School of Journalism, School of Public Health and School of Professional Studies and Macaulay Honors College, have ultimate responsibility for overseeing compliance with these policies at their respective units of the University. In addition, each vice president, dean, director, or other person with managerial responsibility, including department chairpersons and executive officers, must promptly consult with the Chief Diversity Officer at his or her college or unit if he or she becomes aware of conduct or allegations of conduct that may violate this Policy. All members of the University community are required to cooperate in any investigation of a discrimination or retaliation complaint.

Part of Policies and Procedures adopted and approved effective November 27, 2012, Cal. No.4; and revised policy amended and adopted December 1, 2014, Cal. No. C., with effective date of January 1, 2015; Cal. Item C.

Complaint Procedures Under The City University of New York’s Policy on Equal Opportunity and Non-Discrimination

1. Reporting Discrimination and/or Retaliation

The University is committed to addressing discrimination and/or retaliation complaints promptly, consistently and fairly. Members of the University community, as well as visitors, may promptly report any allegations.
of discrimination or retaliation to the individuals set forth below:

A. Applicants, employees, visitors and students with discrimination complaints should raise their concerns with the Chief Diversity Officer at their location.

B. Applicants, employees, visitors and students with complaints of sexual harassment or sexual violence, including sexual assault, stalking, domestic and intimate violence, should follow the process outlined in CUNY’s Policy on Sexual Misconduct.

C. There are separate procedures under which applicants, employees, visitors and students may request and seek review of a decision concerning reasonable accommodations for a disability, which are set forth in CUNY’s Procedures on Reasonable Accommodation.

2. Preliminary Review of Employee, Student, or Visitor Concerns

Individuals who believe they have experienced discrimination and/or retaliation should promptly contact the Chief Diversity Officer at their location to discuss their concerns, with or without filing a complaint. Following the discussion, the Chief Diversity Officer will inform the complainant of the options available. These include seeking informal resolution of the issues the complainant has encountered or the college conducting a full investigation. Based on the facts of the complaint, the Chief Diversity Officer may also advise the complainant that his or her situation is more suitable for resolution by another entity within the University.

These Procedures govern any complaint of discrimination and/or retaliation except complaints of sexual harassment and sexual violence, which are covered by CUNY’s Sexual Misconduct Policy. These procedures are applicable to all of the units and colleges of the University. The Hunter College Campus Schools may make modifications to these procedures, subject to approval by the University, as appropriate to address the special needs of their elementary and high school students.

These Procedures are intended to provide guidance for implementing the University Policy on Equal Opportunity and Non-Discrimination. These Procedures do not create any rights or privileges on the part of any others.

The University reserves the right to alter, change, add to, or delete any of these procedures at any time without notice.

3. Filing a Complaint

Following the discussion with the Chief Diversity Officer, individuals who wish to pursue a complaint of discrimination and/or retaliation should be provided with a copy of the University’s complaint form. Complaints should be made in writing whenever possible, including in cases where the complainant is seeking an informal resolution.

4. Informal Resolution

Individuals who believe they have been discriminated or retaliated against may choose to resolve the complaints informally. Informal resolution is a process whereby parties can participate in a search for fair and workable solutions. The parties may agree upon a variety of resolutions, including but not limited to modification of work assignment, training for a department, or an apology. The Chief Diversity Officer will determine if informal resolution is appropriate in light of the nature of the complaint. Informal resolution requires the consent of both the complainant and the respondent and suspends the complaint process for up to thirty (30) calendar days, which can be extended upon consent of both parties, at the discretion of the Chief Diversity Officer.

Resolutions should be agreed upon, signed by, and provided to both parties. Once both parties reach an informal agreement, it is final. Because informal resolution is voluntary, sanctions may be imposed against the parties only for a breach of the executed voluntary agreement.

The Chief Diversity Officer or either party may at any time, prior to the expiration of thirty (30) calendar days, declare that attempts at informal resolution have failed. Upon such notice, the Chief Diversity Officer may commence a full investigation.

If no informal resolution of a complaint is reached, the complainant may request that the Chief Diversity Officer conduct a full investigation of the complaint.

5. Investigation

A full investigation of a complaint may commence when it is warranted after a review of the complaint, or after informal resolution has failed.

It is recommended that the intake and investigation include the following, to the extent feasible:

a. Interviewing the complainant.

In addition to obtaining information from the complainant (including the names of any possible witnesses), the complainant should be informed that an investigation is being commenced, that interviews of the respondent and possibly other people will be conducted, and that the President will determine what action, if any, to take after the investigation is completed.

b. Interviewing the respondent.

In addition to obtaining information from the respondent (including the names of any possible witnesses), the respondent should be informed that a complaint of discrimination has been received and should be provided with a written summary of the complaint unless circumstances warrant otherwise. Additionally, the respondent should be informed that an investigation has begun, which may include interviews with third parties, and that the President will determine what action, if any, to take after the investigation is completed. A respondent employee who is covered by a collective bargaining agreement may consult with, and have, a union representative present during the interview.

The respondent must be informed that retaliation against any person who files a complaint of discrimination, participates in an investigation, or opposes a discriminatory employment or educational practice or policy is prohibited under this policy and federal, state, and city laws. The respondent should be informed that if retaliatory behavior is engaged in by either the respondent or anyone acting on his/her behalf, the respondent may be subject to disciplinary charges, which, if sustained, may result in penalties up to and including termination of employment, or permanent dismissal from the University if the respondent is a student.

c. Reviewing other evidence.

The Chief Diversity Officer should determine if, in addition to the complainant, the respondent, and those persons named by them, there are others who may have relevant information regarding the events in question, and speak with them. The Chief Diversity Officer should also review documentary evidence that may be relevant to the complaint.

6. Withdrawing a Complaint

A complaint of discrimination may be withdrawn at any time during the informal resolution or investigation process. Only the complainant may withdraw a complaint. Requests for withdrawals must be submitted in writing to the Chief Diversity Officer.

The University reserves the right to continue with an investigation if it is warranted. In a case where the University decides to continue with an investigation, it will inform the complainant.

In either event, the respondent must be notified in writing that the complainant has withdrawn the complaint and whether University officials have determined that continuation of the investigation is warranted for corrective purposes.

1. References to the President in these Procedures refer to the Executive Vice Chancellor and Chief Operating Officer and the Deans of the Law School, Graduate School of Journalism, CUNY School of Public Health, School of Professional Studies and Macaulay Honors College, wherever those units are involved, rather than a college.

7. Timeframe

While some complaints may require extensive investigation, whenever possible, the investigation of a complaint should be completed within sixty (60) calendar days of the receipt of the complaint.

8. Action Following Investigation of a Complaint

a. Promptly following the completion of the investigation, the Chief Diversity Officer will report his or her findings to the President. In the event that the respondent or complainant is a student, the Chief Diversity Officer will also report his or her findings to the Chief Student Affairs Officer.

b. Following such report, the President will review the complaint investigation report and, when warranted by the facts, authorize such action as he or she deems necessary to properly correct the effects of or to prevent further harm to an affected party or others similarly situated. This can include commencing action to discipline the respondent under applicable University Bylaws or collective bargaining agreements.

c. The complainant and the respondent should be apprised in writing of the outcome and action, if any, taken as a result of the complaint.
d. The President will sign a form that will go into each investigation file, stating what, if any, action will be taken pursuant to the investigation.
e. If the President is the respondent, the Vice Chancellor of Human Resources Management will appoint an investigator who will report his/her findings to the Chancellor. The Chancellor will determine what action will be taken. The Chancellor’s decision will be final.

9. Immediate Preventive Action

The President may take whatever action is appropriate to protect the college community in accordance with applicable Bylaws and collective bargaining agreements.

10. False and Malicious Accusations

Members of the University community who make false and malicious complaints of discrimination, as opposed to complaints which, even if erroneous, are made in good faith, will be subject to disciplinary action.

11. Anonymous Complaints

All complaints will be taken seriously, including anonymous complaints. In the event that a complaint is anonymous, the complaint should be investigated as thoroughly as possible under the circumstances.

12. Responsibilities

a. Responsibilities of the President:

- Appoint a Chief Diversity Officer responsible for addressing complaints under this Policy
- Ensure that the Chief Diversity Officer is fully trained and equipped to carry out his/her responsibilities
- Ensure that managers receive training on the Policy
- Annually disseminate the Policy and these Procedures to the entire college community and include the names, titles and contact information of all appropriate resources at the college. Such information should be widely disseminated, including placement on the college website.

b. Responsibilities of Managers:

Managers must take steps to create a workplace free of discrimination, harassment and retaliation, and must take each and every complaint seriously. Managers must promptly consult with the Chief Diversity Officer if they become aware of conduct that may violate the Policy.

For purposes of this policy, managers are employees who either (a) have the authority to make tangible employment decisions with regard to other employees, including the authority to hire, fire, promote, compensate or assign significantly different responsibilities; or (b) have the authority to make recommendations on tangible employment decisions that are given particular weight. Managers include vice presidents, deans, directors, or other persons with managerial responsibility, including, for purposes of this policy, department chairpersons and executive officers.

c. Responsibilities of the University Community-at-Large:

- Members of the University community who become aware of allegations of discrimination or retaliation should encourage the aggrieved individual to report the alleged behavior
- All employees and students are required to cooperate in any investigation.

Some Relevant Laws Concerning Non-discrimination and Equal Opportunity

Section 1324b of the Immigration and Nationality Act prohibits employers from intentional employment discrimination based upon citizenship or immigration status, national origin, and unfair documentary practices or “document abuse” relating to the employment eligibility verification or Form I-9 process. Document abuse prohibited by the statute includes improperly requesting that an employee produce more documents than required by the I-9 form, or a particular document, such as a “green card”, to establish the employee’s identity and employment authorization; improperly rejecting documents that reasonably appear to be genuine during the I-9 process; and improperly treating groups of applicants differently when completing the I-9 form.

Executive Order 11246, as amended, prohibits discrimination in employment by all institutions with federal contracts and requires affirmative action to ensure equal employment opportunities.

Title VII of the Civil Rights Act of 1964, as amended, prohibits discrimination in employment (including hiring, upgrading, salaries, fringe benefits, training, and other terms, conditions, and privileges of employment) on the basis of race, color, religion, national origin, or sex.

Title VI of the Civil Rights Act of 1964 prohibits discrimination or the denial of benefits because of race, color, or national origin in any program or activity receiving federal financial assistance.

Equal Pay Act of 1963, as amended, requires that men and women performing substantially equal jobs in the same workplace receive equal pay.

Title IX of the Education Amendments of 1972 prohibits discrimination or the denial of benefits based on sex in any educational program or activity receiving federal financial assistance.

Age Discrimination in Employment Act, as amended, prohibits discrimination against individuals who are age 40 or older.

Section 504 of the Rehabilitation Act of 1973 defines and forbids acts of discrimination against qualified individuals with disabilities in employment and in the operation of programs and activities receiving federal financial assistance.

Section 503 of the Rehabilitation Act of 1973 requires federal contractors and subcontractors to take affirmative action to employ and advance in employment qualified individuals with disabilities.

Vietnam Era Veterans’ Readjustment Act of 1974, as amended, requires government contractors and subcontractors to take affirmative action to employ and advance in employment disabled and other protected veterans.

Uniformed Services Employment and Reemployment Rights Act of 1994, as amended, prohibits employment discrimination based on military status and requires reemployment following military service in some circumstances.

Americans with Disabilities Act of 1990, as amended, prohibits discrimination on the basis of disability.

Genetic Information Nondiscrimination Act of 2008 prohibits employment discrimination based on genetic information.

New York City Human Rights Law prohibits discrimination based on age (18 and older), race, creed, color, national origin, gender (including gender identity and expression), disability, marital status, partnership status, sexual orientation, age (18 and older), and immigration status.

New York State Human Rights Law prohibits discrimination based upon citizenship or immigration status, national origin, sex, age (18 and older), marital status, domestic violence victim status, disability, predisposing genetic characteristics or prior arrest or conviction record.

New York City Pregnant Workers Fairness Act provides that employers provide pregnant employees with reasonable accommodations for the employee’s pregnancy, childbirth, or a medical condition related to pregnancy or childbirth.

Effective as of January 1, 2015 and revised on August 29, 2016.

Cuny Policy on Sexual Misconduct

On August 12, 2020, the CUNY Board of Trustees adopted a revised Policy on Sexual Misconduct, effective August 14, 2020. This revised Policy supersedes and replaces CUNY’s prior policy and will govern CUNY’s response to allegations of Sexual Misconduct based on conduct alleged to have occurred on or after August 14, 2020. The revised Policy was necessitated by changes to the federal regulations implementing Title IX of the Education Amendments of 1972 (“Title IX”), 20 U.S.C. §§ 1681-1688. These new regulations were announced on May 6, 2020, and became effective on August 14, 2020. Although the new regulations significantly limit the behavior that constitutes Sexual
Harassment within the definitions of Sexual Misconduct, CUNY will continue to investigate, prosecute and adjudicate all allegations of Sexual Misconduct that fall outside the new narrower definition of Title IX Sexual Harassment. Further, CUNY’s revised Policy allows for close scrutiny of all reported allegations of Sexual Misconduct. CUNY remains committed to ensuring that its students, faculty, and staff learn and work in an environment free from Sexual Misconduct. CUNY will continue its zero-tolerance toward any form of Sexual Misconduct, while complying with the mandates of the Education Amendments of 1972 ("Title IX"), 20 U.S.C. §§ 1681-1688.

Lastly, CUNY is resolute in its mission to respond to any allegation of Sexual Misconduct that may affect the CUNY community.

To review the CUNY Policy on Sexual Misconduct in its entirety, please visit:

If you have any questions about the Policy on Sexual Misconduct or wish to file a complaint, please contact the Office of Compliance and Diversity:

Odelia Levy, Esq. Chief Diversity Officer Title IX & Title 504 Coordinator

199 Chambers Street, Room S701

No Smoking Policy
Following the enactment of the New York City Clean Air Act, a Smoking Policy was adopted in 1988 for units of The City University of New York including Borough of Manhattan Community College. The Clean Air Act was adopted in response to findings of the Surgeon General of the United States that passive exposure to cigarette smoke (second-hand or passive smoke) is linked to a variety of negative consequences. For overall health and safety concerns, and following the classification by the U.S. EPA of second-hand smoke as a Class A carcinogen, with input from faculty, staff, and students, the College became a smoke-free campus in April 1993. Smoking is not permitted on the premises of Borough of Manhattan Community College at either 199 Chambers Street or 70 Murray Street. The administrator designated to review issues/complaints related to the College’s No Smoking policy is the Acting Labor Designee and Counsel to the President, Meryl Kaynard, Room S-701.

Founded in 1847, The City University of New York (CUNY) is the nation’s leading public urban university. It is noted for its commitment to academic excellence and its open admissions policy. Comprised senior colleges, six community colleges, a graduate school, a law school, and a medical school with a full-time faculty of 6,000 and more than 70 research centers and institutes, the City University ranks among the country’s major research institutions.

Nearly 250,000 students are currently registered at the City University. This includes both full-time graduate and undergraduate students enrolled in credit-bearing courses. The following are some of the services provided by CUNY to help students and prospective students with their educational needs:

Office of Admissions Services (OAS)
The Office of Admissions Services (OAS) assists all prospective students and applicants who are interested in attending one of the Colleges of the City University of New York. The office is located at 1114 Avenue of the Americas (15th floor) in Manhattan and includes the following divisions:
The Information Center provides information about CUNY admissions procedures, international student admissions, financial aid, CUNY programs the Seek/College Discovery Program and General Equivalency Diplomas (GED). The Center is open Monday through Thursday from 9:00 am to 6:00 pm and Friday from 12:00 pm to 5:00 pm. ID is required to enter the building.
The High Schools Services and Community Outreach divisions disseminate pre-admissions information about CUNY to students and guidance counselors in all New York City schools and most of the large community agencies. OAS administers the Test of English as a foreign Language (TOEFL) and its Publications Office prepares CUNY’s Freshman and Transfer Guides.

University Application Processing Center (UAPC)
The University Application Processing Center (UAPC) processes all freshman and advanced standing transfer applications and evaluates all foreign educational documents. Application inquiries should be directed to OAS.

Right to Know
In 1998, the federal government passed higher education amendments. This requires colleges to disclose completion or graduation rates and transfer out rates to current and to prospective students beginning July 1, 2000. Current and prospective students may obtain this information at the Registrar’s Office, Room S-315.

Professor, Media Arts and Technology  
B.A., Harvard; M.P.S., New York University
Michael Cullen
College Laboratory Technician, Student Affairs

Kathy Cunningham
Assistant Professor, Nursing

Jason Danison
Assistant Professor, Science

Teresa Darwich Alcaraz
Assistant Professor, Modern Languages
Ph.D., CUNY Graduate Center

Ileana Datcu
HR Coordinator, Human Resources

Kristie Davis
Financial Aid Counselor, Financial Aid

Shenique Davis
Associate Professor, Social Sciences, Human Services, and Criminal Justice
Ph.D., Rutgers University

Dale Dawes
Assistant Professor, Mathematics
B.S., University of Pittsburgh, M.S., St. Johns University

Denise Deagan
Continuing Education

Maria Deckinger
Human Resources Manager, Human Resources

Patricia A. DeFillippo
Lecturer, Health Education
M.S., Hofstra University

Patricia DeLeon
Associate Professor, Science
M.Ph., Ph.D., CUNY Graduate Center

Jennifer Delfino
Assistant Professor, Academic Literacy and Linguistic
Ph.D., American University

Edgar Horacio Delgado
College Lab Technician, Science

Francisco Delgado
Assistant Professor, English

Denise Dellaporta
Student Life Specialist, Student Affairs

Alicia Deonarine
Assistant Director, Admissions Office

Nipa Deora
Assistant Professor, Science

Charles De Paolo
Professor, English Language/Literatures
Ph.D., New York University

Daniel DePaulo
Associate Professor, Social Sciences, Human Services, and Criminal Justice

Nancy M. Derbishire
Associate Professor, English Language/Literatures
Ph.D., Graduate School and University Center

Alex D’Erizans
Associate Professor, Social Sciences, Human Services, and Criminal Justice
Ph.D., University of Illinois at Urbana-Champaign

Denika Desert
Counselor, Counseling Center

Christian De Rojas Prats
Instructor, Business Administration

Michael Destefano
Lecturer, English Language/Literatures

Maria De Vasconcelos
Professor, English
Licenciatura, University of Lisbon; M.Ph., Ph. D., CUNY Graduate Center

Brahmadeo Dewprashad
Professor, Science
Ph.D., Oklahoma State University

Mahmoud Diarrasouba
Lecturer, Mathematics
B.S., M.S.E., Long Island University

Carlo Diego
Assistant Professor, Media Arts and Technology

Giuseppina Dimaggio
Recruitment Coordinator, ASAP

Leticia Dinkins
Associate Director, Learning Resource Center
B.S., M.B.A., Norfolk State University

Ilir Disha
Associate Professor, Social Sciences, Human Services, and Criminal Justice
Ph.D., Sociology at SUNY, Albany

Wilbert Donnay
Associate Professor, Accounting
B.B.A., Baruch College; M.P.S., New School for Social Research; C.P.A., New York State

Maria De Los Angeles Donoso Macaya
Professor, Modern Languages

Lecturer, Speech, Communication, and Theatre Arts
B.A., M.A., Ph.D., New York University

Kokou Doumassi
Disability Accommodations Specialist, Office of Accessibility

Bryan Downing
Director, Institutional Effectiveness and Analytics

Diane Dowling
Professor, Speech, Communication and Theatre Arts
M.F.A., Brandeis University

Kathleen Dryer
Executive Chief Librarian, Library

Latoya Dubery
ASAP Advisor, ASAP

Sherika Dublin
Academic Advisor, Academic Advisement and Transfer Center

Onika Duke
Grants Coordinator, Grants and Sponsored Programs

Lawrence Dumaging
Microcomputer Specialist, Computer Center
B.S., New York Institute of Technology

Albert Duncan
Associate Professor, Social Sciences, Human Services, and Criminal Justice
M.S., Alabama Agricultural and Mechanical University
M.A., Ph.D., The New School University

Megan Dunphy Gregoire
Assistant Professor, Academic Literacy & Linguistics

Robin Durant
Accounts Payable Supervisor, Business Office

Heidi Durkin
Student Disability Services Specialist, Office of Accessibility
M.S.Ed., Hunter College

Yana Durmysheva
Associate Professor, Social Sciences, Human Services, and Criminal Justice
M.A. Brooklyn College; M.Phil., Ph.D., Graduate School and University Center

Randall Easterling
Academic Testing Coordinator, Testing and Evaluation

Ozgur Ecevit
Associate Professor, Science
Ph.D., CUNY Graduate Center

Marcelle Edinboro
Assistant Professor, Nursing
B.S., Adelphi University

Esin Egit
Assistant Professor, Social Sciences, Human Services, and Criminal Justice
Ph.D., CUNY Graduate Center

Karen Ehrlich
Associate Director, Academic Advisement and Transfer Center
M.Phil., CUNY Graduate Center

Musa Elbulok
Institutional Research Director, Institutional Effectiveness and Analytics

Egbert Ellis
Instructor, CUNYStart Program

Terri Ellis
Academic Advisor, Academic Advisement and Transfer Center

Francki Elve
Lecturer, Mathematics

Juliet Emanuel
Professor, Academic Literacy and Linguistics
A.A., College of Staten Island; B.A., Brooklyn College; M.A., Richmond College; DA, St. John’s University

Judy Eng
Assistant Professor and Chairperson, Nursing
B.S., M.S., Hunter College

Maria Enrico
Professor, Modern Languages
Ph.D., M.A., Catholic University

Albert Errera
Professor, Computer Information Systems
M.A., Brooklyn College

Liana Erstenyuk
Lecturer, Mathematics

Janet Esquirol
Associate Professor, Media Arts and Technology
M.F.A., Parsons School of Design

Alex Evangelista
Instructor, Health Education

Joel Evans
Lecturer, Business Management
J.D., NY Law School

Jordan P. Evans
Associate Director, BMCC Learning Academy

Heather Evans-Tracey
Senior College Laboratory Technician, Nursing
B.A., SUNY Health Science Center at Brooklyn
Faculty and Staff

Hawa Fainke
CUNYStart Advisor, CUNYStart Program

Tamica Fairley
Academic Student Support Specialist, Continuing Education

Johannes C. Familton
Assistant Professor, Mathematics
M.A., City College of New York

Christine Farias
Associate Professor, Social Sciences, Human Services, and Criminal Justice

Gregory Farrell
Director, Learning Resource Center
B.S., M.B.A., American International College

Stephen Featherstonhaugh
Assistant Professor, Mathematics
Ph.D., SUNY Albany

Allan Felix
Lecturer, Mathematics
A.A., Borough of Manhattan Community College; B.A., Baruch College; M.A., Hunter College

Bertha C. Ferdman
Associate Professor, Speech, Communication, Theatre Arts
Ph.D., Graduate School and University Center

Jose Fernandez Romero
Associate Professor, Science

Starr Ferrens
Academic Testing Coordinator, Testing Office

Katherine A. Figueroa
Lecturer, Academic Literacy and Linguistics

Heather Finn
Associate Professor, Academic Literacy & Linguistics

Cheryl Fish
Professor, English

Everett W. Flannery
Professor and Chairperson, Allied Health Sciences
B.A., LaSalle College; M.P.S., C.W. Post College

Patrick Flink
Associate Professor, Academic Literacy and Linguistic

Jose Flores
Continuing Education Director, Continuing Education

Jorge Florez
Assistant Professor, Mathematics
B.A., Univ Nacional De Colombia

Angela Florschuetz
Assistant Professor, English Language/Literatures

Elaine Flowers
Career Advisor, Center for Career Development

Kathleen Ford
Professor, Science
M.A., Ph.D., John Hopkins University

Roger Foster
Professor, Social Sciences, Human Services, and Criminal Justice
B.A., University of East Anglia, Norwich; M.A., University of York; Ph.D., University of Ottawa

Monica D. Foust
Assistant Professor, Social Sciences, Human Services, and Criminal Justice
Ph.D., University of Michigan

Elizabeth A. Fow
Lecturer, English Language/Literatures
B.A., University of Warwick

Jay Francisco
Senior Career Advisor, Center for Career Development

Erik Freas
Associate Professor, Social Sciences, Human Services, and Criminal Justice
M.A., New York University, Ph.D., University of St. Andrews

Sheriney Frederick
Senior Academic Advisor, Academic Advisement and Transfer Center

Pauline Gacanja
Academic Testing Coordinator, Testing Office

John Gallagher
Director of Technology
M.A., Teachers College, Columbia University

Giovanni Gallaread
Assistant Director, Admissions Office

Evelin B. Gambarra Martinez
Lecturer, Modern Languages
M.A., Syracuse University, M.A., Boston College

Carol Gambino
Senior College Laboratory Technician, Science
M.S., CUNY John Jay College of Criminal Justice

Deborah Gambis
Associate Professor, Social Sciences, Human Services, and Criminal Justice
M.P.H., Ph.D., CUNY Graduate Center

Anny Garcia
Academic Advisor, ASAP

Dino Garcia
College Laboratory Technician, Modern Languages

Andrea Garraway
Lecturer, Business Administration

German Garrido
Assistant Professor Modern Languages
Ph.D., New York University

Rebecca Garte
Associate Professor, Teacher Education
M.A., Teachers College of Columbia University

Apollo Gazali
College Laboratory Technician, Science

Matthew Geddis
Professor, Science
Ph.D., Georgia State University

Yakov Genis
Professor, Computer Information Systems
B.S., M.S., Ph.D., Russia

Patricia Genova
Assistant Professor, Music and Art
M.F.A., Lehman College

Adela George
College Laboratory Technician, Modern Languages

Michael George
Professor, Mathematics
M.S., University of Washington; B.A., Ed.D., Pomona College

Giada Geraci
College Lab Technician, Modern Languages and Literatures
M.A., Universita Ca’ Foscari Venezia

Daniel Gil
Instructor, Mathematics

Jennifer M. Gilken
Associate Professor, Teacher Education
M.Ed., University of Pennsylvania

Joseph Gines
Student Life Manager, Student Affairs

Joanna Giza
Assistant Professor, Science

Robert Paul Gizis
